(5) Spec. 42B (§ 78.107 of this chapter). Aluminum drums. Authorized only for unsymmetrical dimethylhydrazine.

6. Add § 73.146 (15 F. R. 8303, Dec. 2, 1950) (49 CFR 73.146, 1950 Rev.) to read as follows:

§ 73.146 *Heaters for refrigerator cars, liquid fuel type.* (a) Heaters of the liquid fuel type for refrigerator cars, containing flammable liquid fuel, may be shipped in carload or truckload lots provided each heater shall have been inspected to see that flame has been extinguished, that there is no leakage of fuel, and that controls are in the "off" position. Heaters shall be loaded and braced so as to prevent falling, tipping, or mechanical damage under normal conditions incident to transportation.

(b) Heaters of the liquid fuel type for refrigerator cars must have their fuel tanks completely drained if offered for transportation or transported in less-than-carload or less-than-truckload lots.

SUBPART D—FLAMMABLE SOLIDS AND OXIDIZING MATERIALS; DEFINITION AND PREPARATION

1. Add paragraph (c) (64) to § 73.153 (15 F. R. 8303, Dec. 2, 1950) (49 CFR 73.153, 1950 Rev.) to read as follows:

§ 73.153 *Exemptions for flammable solids and oxidizing materials.* • • •

(c) • • •

(64) Sodium potassium alloys.

2. In § 73.182 amend the introductory text of paragraphs (a) and (b) by inserting footnote 1 after the commodity "Ammonium nitrate—phosphate" (19 F. R. 8526, Dec. 14, 1954) (20 F. R. 4415, June 23, 1955) (49 CFR 1950 Rev., 1954 Supp., 73.182) to read as follows:

§ 73.182 *Nitrates.* (a) • • •

Ammonium nitrate—phosphate.[1]			

• • • • •

(b) • • •

Ammonium nitrate—phosphate.[1]			

• • • • •

3. Amend § 73.190 paragraph (b) (3) (16 F. R. 11778, Nov. 21, 1951) (49 CFR 1950 Rev., 1954 Supp., 73.190) to read as follows:

§ 73.190 *Phosphorus, white or yellow.* • • •

(b) • • •

(3) Spec. 103 or 103–W (§ 78.265 or § 78.280 of this chapter). Tank cars without bottom outlet for discharge of lading and with approved dome fittings, external heater systems, and with insulation at least 4 inches in thickness, except that thickness of insulation may be reduced to 2 inches over external heater coils. Bottom washout nozzle of approved design may be applied. The material must be immersed in water and must be loaded at a temperature not exceeding 140° F. and then cooled until the water has a temperature not exceeding 105° F. before car is offered to carrier. The water must be loaded in the dome to not more than 50 percent of the capacity of the dome. After unloading, the tank must be filled to its entire capacity and the dome to not more than 50 percent of its capacity with water having a temperature not less than 105° F. and not over 140° F. and placarded with the caution placard prescribed in § 74.555, before the car is offered for return movement.

[Note 1 remains unchanged.]

• • • • •

4. Amend § 73.202 paragraphs (a) (1) and (2) (15 F. R. 8310, Dec. 2, 1950) (49 CFR 73.202, 1950 Rev.) to read as follows:

§ 73.202 *Sodium and potassium, metallic liquid alloy.* (a) • • •

(1) Spec. 15A or 15B (§§ 78.168 or 78.169 of this chapter). Wooden boxes with inside metal containers of a type approved by the Bureau of Explosives cushioned with incombustible cushioning material. Each container must have been tested hydrostatically to a pressure of not less than 60 pounds per square inch. Closing devices must be protected from injury. Not more than 250 pounds of sodium or potassium liquid alloy may be shipped in one outside container.

(2) Spec. 5A (§ 78.81 of this chapter). Metal barrels or drums not exceeding 400 pounds capacity each, having protruding valves protected by a 12-gauge steel dome securely attached to the head of the drum. Shipments are authorized by rail freight in carload lots only and by motor vehicle in truckload lots only. Shipper shall arrange for return of empty drums, which shall be charged with non-reactive gas to a pressure not exceeding 7 pounds per square inch gauge, and shipments may be made in less-than-carload or less-than-truckload lots.

SUBPART E—ACIDS AND OTHER CORROSIVE LIQUIDS; DEFINITION AND PREPARATION

1. Add paragraph (c) (49) to § 73.244 (15 F. R. 8313, Dec. 2, 1950) (49 CFR 73.244, 1950 Rev.) to read as follows:

§ 73.244 *Exemptions for acids and other corrosive liquids.* • • •

(c) • • •

(49) Chromyl chloride.

2. Add paragraphs (a) (15) and (16) to § 73.245 (15 F. R. 8313, Dec. 2, 1950) (49 CFR 73.245, 1950 Rev.) to read as follows:

§ 73.245 *Acids or other corrosive liquids not specifically provided for.* (a) • • •

(15) Spec. 17H (§ 78.118 of this chapter). Metal drums (singletrip). Authorized for viscous cleaning compounds, liquid, only.

(16) Spec. 6J (§ 78.100 of this chapter). Steel barrels or drums having inside spec. 2S (§ 78.35 of this chapter) polyethylene drum. Gross weight restriction indicated by the gross weight embossment in the steel barrel or drum shall be waived.

3. In § 73.247 amend the introductory text of paragraph (a); add paragraphs (a) (14), (15), and (16) (18 F. R. 803, Feb. 7, 1953) (15 F. R. 8314, Dec. 2, 1950)

[1] Applies only to materials classed as dangerous under definition in § 73.150.

(49 CFR 1950 Rev., 1954 Supp., 73.247) to read as follows:

§ 73.247 *Acetyl chloride, antimony pentachloride, benzoyl chloride, benzyl chloride, chromyl chloride, pyro sulfuryl chloride, silicon chloride, sulfur chloride (mono and di), sulfuryl chloride, thionyl chloride, tin tetrachloride (anhydrous), and titanium tetrachloride.* (a) Acetyl chloride, antimony pentachloride, benzoyl chloride, benzyl chloride, chromyl chloride, pyro sulfuryl chloride, silicon chloride, sulfur chloride (mono and di), sulfuryl chloride, thionyl chloride, tin tetrachloride (anhydrous), and titanium tetrachloride, must, except as indicated, be packed in specification containers as follows:

• • • • • •

(14) Spec. 5C (§ 78.83 of this chapter). Barrels or drums of type 304 stainless steel not over 30 gallons capacity each. Authorized for chromyl chloride only.

(15) Spec. 42D (§ 78.109 of this chapter). Aluminum drums not over 30 gallons capacity each. Authorized for chromyl chloride only.

(16) Spec. 15A, 15B, 15C, 16A, or 19A (§§ 78.168, 78.169, 78.170, 78.185, or 78.190 of this chapter). Wooden boxes with aluminum bottles of 99 percent pure aluminum not over 1 gallon capacity each, having aluminum screw caps with gasket resistant to the contents. Authorized for chromyl chloride only.

4. Add paragraphs (a) (9) and (10) to § 73.257 (15 F R. 8315, Dec. 2, 1950) (49 CFR 73.257, 1950 Rev.) to read as follows:

§ 73.257 *Electrolyte (acid) or corrosive battery fluid.* (a) • • •

(9) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes with inside containers as authorized by § 78.205–32 of this chapter.

(10) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes having not more than 1 inside glass bottle, with acid-proof closure, not over 1 gallon capacity. Box shall be constructed of at least 350-pound test (Mullen or Cady) double-faced corrugated fiberboard of full depth telescope type. Cushioning and closure of box (pressure sensitive tape may be used) must be such that a representative box, with inside glass bottle filled with water, shall be capable of withstanding two drops from a height of 4 feet onto solid concrete without breakage of inner bottle or failure of the closure.

• • • • • •

5. Amend § 37.260 paragraph (c) (1) (17 F. R 4294, May 10, 1952) (49 CFR 1950 Rev., 1954 Supp., 73.260) to read as follows:

§ 73.260 *Electric storage batteries, wet.* • • •

(c) • • •

(1) Slip cover or fiberboard box must fit snugly and provide inside top clearance of at least ½ inch above battery terminals and filler caps with reinforcement in place. Assembled for shipment, the bottom edges of the slip cover must not extend to the base of the battery but must not expose more than 1 inch thereof.

• • • • • •

6. Amend § 73.262 paragraph (a) (1) (17 F R. 7281, Aug. 9, 1952) (49 CFR 1950 Rev., 1954 Supp., 73.262) to read as follows:

§ 73.262 *Hybromic acid.* (a) • • •

(1) Spec. 1A, 1C, 1D, 1E, or 1F (§§ 78.1, 78.3, 78.4, 78.7, or 78.10 of this chapter). Carboys in boxes, kegs, or plywood drums.

• • • • • •

7. In § 73.263 amend paragraph (a) (13); add paragraphs (a) (16) and (17) (18 F. R. 3135, June 2, 1953) (15 F. R. 8317, Dec. 2, 1950) (49 CFR 1950 Rev., 1954 Supp., 73.263) to read as follows:

§ 73.263 *Hydrochloric (muriatic) acid, hydrochloric (muriatic) acid mixtures, hydrochloric (muriatic) acid solution, inhibited, and sodium chlorite solution.* (a) • • •

(13) Spec. 1F, 1G, or 1H (§§ 78.10, 78.11, or 78.13 of this chapter). Polyethylene carboys in wooden boxes, plywood drums or boxes, or metal crates.

• • • • • •

(16) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes as authorized by § 78.205–32 of this chapter.

(17) Spec. 6J (§ 78.100 of this chapter). Steel barrels or drums having inside spec. 2S (§ 78.35 of this chapter) polyethylene drum. Gross weight restriction indicated by the gross weight embossment in the steel barrel or drum shall be waived.

• • • • • •

8. Amend § 73.264 paragraphs (a) (1) and (2); add paragraph (a) (17) (17 F. R. 1562, Feb. 20, 1952) (15 F. R. 8317, Dec. 2, 1950) (49 CFR 1950 Rev., 1954 Supp., 73.264) to read as follows:

§ 73.264 *Hydrofluoric acid.* (a) • • •

(1) Spec. 15A, 15B, 15C, 16A, or 19A (§§ 78.168, 78.169, 78.170, 78.185, or 78.190 of this chapter). Wooden boxes with inside containers of natural rubber, ceresine, lead, or other hydrofluoric acid resistant material. These containers are authorized only for strengths of acid for which they are adequate, but in no case may the strength of acid exceed 70 percent.

(2) Spec. 12B (§ 78.205 of this chapter). Fiberboard boxes with inside containers of natural rubber, lead, polyethylene, or other hydrofluoric acid resistant plastic not over one-pound capacity each. These containers are authorized only for strengths of acid for which they are adequate, but in no case shall the strength of acid exceed 70 percent.

• • • • • •

(17) Spec. 6J (§ 78.100 of this chapter). Steel barrels or drums having inside spec. 2S (§ 78.35 of this chapter) polyethylene drum. Authorized for acid not over 60 percent strength. Gross weight restriction indicated by the gross weight embossment in the steel barrel or drum shall be waived.

• • • • • •

9. Add paragraph (d) (3) to § 73.265 (18 F. R. 3135, June 2, 1953) (49 CFR 1950 Rev., 1954 Supp., 73.265) to read as follows:

§ 73.265 *Hydrofluosilicic acid.* • • •

(d) • • •

(3) Spec. 6J (§ 78.100 of this chapter). Steel barrels or drums having inside spec. 2S (§ 78.35 of this chapter) polyethylene drum. Gross weight restriction indicated by the gross weight embossment in the steel barrel or drum shall be waived.

10. Add paragraph (c) (5) to § 73.266 (15 F. R. 8318, Dec. 2, 1950) (49 CFR 73.266, 1950 Rev.) to read as follows:

§ 73.266 *Hydrogen peroxide solution in water.* • • •

(c) • • •

(5) Spec. 1F, 1G, or 1H (§§ 78.10, 78.11, or 78.13 of this chapter). Polyethylene carboys in wooden boxes, plywood drums, or metal crates.

• • • • • •

11. Add paragraphs (i) (5) and (6) to § 73.272 (15 F. R. 8321, Dec. 2, 1950) (49 CFR 73.272, 1950 Rev.) to read as follows:

§ 73.272 *Sulfuric acid.* • • •

(i) • • •

(5) Spec. 1F, 1G, or 1H (§§ 78.10, 78.11, or 78.13 of this chapter). Polyethylene carboys in wooden boxes, plywood drums or boxes, or metal crates.

(6) Spec. 6J (§ 78.100 of this chapter). Steel barrels or drums having inside spec. 2S (§ 78.35 of this chapter) polyethylene drum. Gross weight restriction indicated by the gross weight embossment in the steel barrel or drum shall be waived.

• • • • • •

12. Add paragraphs (a) (3) and (4) to § 73.277 (15 F. R. 8322, Dec. 2, 1950) (49 CFR 73.277, 1950 Rev.) to read as follows:

§ 73.277 *Hypochlorite solutions.* (a) • • •

(3) Spec. 1F, 1G, or 1H (§§ 78.10, 78.11, or 78.13 of this chapter). Polyethylene carboysin wooden boxes, plywood drums or boxes, or metal crates. Authorized for sodium hypochlorite solution not over 16 percent strength only.

(4) Spec. 6J (§ 78.100 of this chapter). Steel barrels or drums having inside spec. 2S (§ 78.35 of this chapter) polyethylene drum. Gross weight restriction indicated by the gross weight embossment in the steel barrel or drum shall be waived. Authorized for not over 16 percent sodium hypochlorite solution only.

• • • • • •

13. Add paragraph (a) (2) to § 73.285 (15 F. R. 8323, Dec. 2, 1950) (49 CFR 73.285, 1950 Rev.) to read as follows:

§ 73.285 *Chlorine trifluoride.* (a) • • •

(2) Not more than 5 pounds of chlorine trifluoride may, in addition to provisions of subparagraph (1) of this paragraph, be packed in cylinders equal to or of greater efficiency than those prescribed in subparagraph (1) of this paragraph when approved by the Bureau of Explosives.

14. Add paragraphs (a) (10) and (11) to § 73.289 (16 F. R. 11779, Nov. 21, 1951) (49 CFR 1950 Rev., 1954 Supp., 73.289) to read as follows:

§ 73.289 *Formic acid and formic acid solutions.* (a) • • •

(10) Spec. 1F, 1G, or 1H (§§ 78.10, 78.11, or 78.13 of this chapter). Polyethylene carboys in wooden boxes, plywood drums, or metal crates.

(11) Spec. 6J (§ 78.100 of this chapter). Steel barrels or drums having inside spec. 2S (§ 78.35 of this chapter) polyethylene drum. Gross weight restriction indicated by the gross weight embossment in the steel barrel or drum shall be waived.

SUBPART F—COMPRESSED GASES; DEFINITION AND PREPARATION

1. In § 73.302 amend the introductory text of paragraph (a); add paragraphs (a) (7) and (8) (18 F. R. 3136, June 2, 1953) (15 F. R. 8325, Dec. 2, 1950) (49 CFR 1950 Rev., 1954 Supp., 73.302) to read as follows:

§ 73.302 *Exemptions for compressed gases.* (a) Compressed gases, except poisonous gases as defined by § 73.326 (a), when in accordance with either subparagraphs (1), (2), (3), (4), (5), (6), (7), or (8) of this paragraph, are exempt from specification packaging, marking, and labeling requirements for transportation by rail freight, rail express, highway, and carriers, by water, except that shipments by water carrier shall be subject to the marking requirements to the extent of showing the name of the contents on the packages.

• • • • • •

(7) Inside nonrefillable metal containers charged with a solution containing biological products and compressed gas or gases, which is nonpoisonous and and nonflammable, and of capacity not to exceed 31.83 cubic inches (17.6 fluid ounces). Pressure in the container not to exceed 55 pounds per square inch absolute at 70° F., and the liquid content of the product and gas must not completely fill the container at 130° F. One completed container out of each lot of 500 or less, filled for shipment, must have been heated until content reached a minimum temperature of 130° F., without evidence of leakage, distortion, or other defect.

(8) Electronic tubes of not more than 30 cubic-inch volume charged with gas to a pressure of not more than 35 pounds per square inch gauge.

2. In § 73.314 paragraph (a) table, amend the entry "Dispersant gas, n. o. s."; add the entry "Refrigerant gas, n. o. s.", and add Note 19 (20 F. R. 8103, Oct. 28, 1955) (19 F. R. 8528, Dec. 14, 1954) (15 F. R. 8329, Dec. 2, 1950) (49 CFR 1950 Rev., 1954 Supp., 73.314) to read as follows:

§ 73.314 *Compressed gases in tank cars.* (a) • • •

Kind of gas	Maximum permitted filling density, Note 1	Required type of tank car, Note 2
Dispersant gas, n. o. s.	Note 16...	ICC–106A500, 106A500X, Notes 12 and 19. ICC–105A300, 105A300–W, Notes 12 and 19.
Refrigerant gas, n. o. s.	Note 16...	ICC–106A500, 106A500X, Notes 12 and 19. ICC–105A300, 105A300–W, Notes 12 and 19.

NOTE 19: Only dichlorodifluoromethane, dichlorodifluoromethane-difluoroethane mixture (constant boiling mixture), dichlorodifluoromethane - monofluorotrichloromethane mixture, difluoroethane, difluoromonochloroethane, monochlorodifluoromethane, and monochlorotetrafluoroethane may be shipped as dispersant gas, n. o. s. or refrigerant gas, n. o. s. in accordance with provisions of table (a).

• • • • • •

SUBPART G—POISONOUS ARTICLES; DEFINITION AND PREPARATION

1. Amend § 73.354 paragraph (a) (5) (20 F. R. 8103, Oct. 28, 1955) (49 CFR 73.354, 1950 Rev.) to read as follows:

§ 73.354 *Motor fuel antiknock compound or tetraethyl lead.* (a) • • •

(5) MC 330 (§ 78.336 of this chapter) (see Note 1). Tank motor vehicles.

NOTE 1: MC 300, MC 301, MC 302, or MC 303 (§§ 78.321, 78.322, 78.323, or 78.324 of this chapter) tank motor vehicles in motor fuel antiknock compound service prior to October 1, 1955 may be continued in service.

• • • • • •

2. Amend § 73.359 paragraph (a) (4) (17 F. R. 4295, May 10, 1952) (49 CFR 1950 Rev., 1954 Supp., 73.359) to read as follows:

§ 73.359 *Hexaethyl tetraphosphate mixtures, methyl parathion mixtures, parathion mixtures, tetraethyl dithic pyrophosphate mixtures, and tetraethyl pyrophosphate mixtures, liquid.* (a) • • •

(4) Spec. 15A, 15B, 15C, or 15E (§§ 78.168, 78.169, 78.170, or 78.172 of this chapter). Wooden boxes, with metal inside containers not over 10 gallons capacity each.

• • • • • •

SUBPART H—MARKING AND LABELING EXPLOSIVES AND OTHER DANGEROUS ARTICLES

3. Amend § 73.407 paragraphs (b) (1), (2), and (3) (20 F. R. 8104, Oct. 28, 1955) (49 CFR 73.407, 1950 Rev.) to read as follows:

§ 73.407 *Acids, corrosive liquids, and alkaline caustic liquids labels.* • • •

(b) • • •

(1) White label for acids for shipment by air.

(White and black with black printing on white)

(2) White label for corrosive liquids for shipment by air.

(White and black with black printing on white)

(3) White label for alkaline caustic liquids for shipment by air.

(White and black with black printing on white)

4. Amend § 73.410 paragraph (b) (20 F. R. 8104, Oct. 28, 1955) (49 CFR 73.410, 1950 Rev.) to read as follows:

§ 73.410 *Special fireworks label.* • • •

(b) Explosives label for shipment of special fireworks by air.

(Black printing on red)

5. Amend § 73.411 paragraph (b) (20 F. R. 8104, Oct. 28, 1955) (49 CFR 73.411, 1950 Rev.) to read as follows:

§ 73.411 *Explosives samples for laboratory examination label.* • • •

(b) Explosives label for shipment of samples of explosives by air.

(Black printing on red)

6. Amend § 73.412 paragraph (b) (20 F. R. 8104, Oct. 28, 1955) (49 CFR 73.412, 1950 Rev.) to read as follows:

§ 73.412 *Propellant explosives label for express shipment.* • • •

(b) Explosives label for shipment of propellant explosives by air.

(Black printing on red)

7. In § 73.414 paragraph (a), the entire 8th line within the label now reading, "Radiation units from package No. __", is amended to read "Number of radiation units from package _____" (15 F. R. 8343, Dec. 2, 1950) (49 CFR 73.414, 1950 Rev.)

SUBPART I—SHIPPING INSTRUCTIONS

Amend § 73.427 paragraph (a) (15 F. R. 8343, Dec. 2, 1950) (49 CFR 73.427, 1950 Rev.) to read as follows:

§ 73.427 *Shipping order and bill of lading description.* (a) The shipper when offering for transportation by carriers by rail freight, rail expenses, highway, or water any class A, class B, or class C explosive, flammable liquid, flammable solid, oxidizing material, corrosive liquid, compressed gas, or poison, as defined by this part, must describe such article in the shipping order, bill of lading or other shipping paper by the shipping name used in § 72.5 of this chapter (see commodity list) and may add a further description not inconsistent therewith. Abbreviations must not be used. For shipments of blasting caps or electric blasting caps the shipper must, in addition, show the number of caps in the shipment.

[Note 1 remains unchanged.]

• • • • •

PART 74—CARRIERS BY RAIL FREIGHT

SUBPART B—LOADING AND STORAGE CHART OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

1. In § 74.538 paragraph (a) Chart, the second paragraph of the introductory text in the upper left-hand corner now reading, "The letter X at an intersection of horizontal and vertical columns shows that these articles must not be loaded or stored together, for example: Detonating fuzes, boosters (explosive) g horizontal column must not be loaded or stored with high explosives b vertical column" is amended to read as follows: "The letter X at an intersection of horizontal and vertical columns shows that these articles must not be loaded or stored together, for example: Detonating fuzes class A, with or without radioactive components g horizontal column must not be loaded or stored with high explosives b vertical column"; amend item (d) and item (11) vertical and horizontal columns by inserting the footnote "e" at the respective intersections, to read "• • X"; amend footnote "e" to paragraph (a) Chart (15 F. R. 8349, Dec. 2, 1950) (19 F. R. 1281, Mar. 6, 1954) (49 CFR 1950 Rev., 1954 Supp., 74.538) to read as follows:

§ 74.538 *Loading and storage chart of explosives and other dangerous articles.* (a) • • •

[e] Does not include nitro carbo nitrate which may be loaded, transported or stored with high explosives or with blasting caps and detonating primers.

• • • • •

2. Amend § 74.546 paragraph (b) (15 F. R. 8351, Dec. 2, 1950) (49 CFR 74.546, 1950 Rev.) to read as follows:

§ 74.546 *Placards must be standard.* • • •

(b) Tagboard placards must be printed on strong tagboard of quality and strength not less than that designated commercially as 100 percent sulphate, weighing 125 pounds per ream, of sheets 24 x 36 inches, and having a resistance of not less than 60 pounds per square inch Mullen test.

• • • • •

PART 77—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

SUBPART B—LOADING AND UNLOADING

Amend § 77.835 paragraph (f) (17 F. R. 7283, Aug. 9, 1952) (49 CFR 1950 Rev., 1954 Supp., 77.835) to read as follows:

§ 77.835 *Explosives.* • • •

(f) *Explosives vehicles, floors tight and lined.* Motor vehicles transporting class A or class B explosives shall have tight floors; shall have that portion of the interior in contact with the load lined with either non-metallic material or non-ferrous metals, except that the lining is not required for truck load shipments loaded by the Departments of the Army, Navy or Air Force of the United States Government provided the explosives are of such nature that they are not liable to leakage of dust, powder, or vapor which might become the cause of an explosion. The interior of the cargo space must be in good condition so that there will not be any likelihood of containers being damaged by exposed bolts, nuts, broken side panels or floor boards, or any similar projections.

• • • • •

SUBPART C—LOADING AND STORAGE CHART OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

In § 77.848 paragraph (a) Chart, the second paragraph of the introductory text in the upper left-hand corner now reading, "The letter X at an intersection of horizontal and vertical columns shows that these articles must not be loaded or stored together, for example: Detonating fuzes, boosters (explosive) g horizontal column must not be loaded or stored with high explosives b vertical column" is amended to read as follows: "The letter X at an intersection of horizontal and vertical columns shows that these articles must not be loaded or stored together, for example: Detonating fuzes class A, with or without radioactive components g horizontal column must not be loaded or stored with high explosives b vertical column"; amend item (d) and item (11) vertical and horizontal columns by inserting the footnote "e" at the respective intersections, to read "• • X"; amend footnote "e" to paragraph (a) Chart (15 F. R. 8369, Dec. 2, 1950) (19 F. R. 1281, Mar. 6, 1954) (49 CFR 1950 Rev., 1954 Supp., 77.848) to read as follows:

§ 77.848 *Loading and storage chart of explosives and other dangerous articles.* (a) • • •

[e] Does not include nitrocarbonitrate which may be loaded, transported or stored with high explosives or with blasting caps and detonating primers.

• • • • •

PART 78—SHIPPING CONTAINER SPECIFICATIONS

SUBPART A—SPECIFICATIONS FOR CARBOYS, JUGS IN TUBS, AND RUBBER DRUMS

Add § 78.13 (15 F. R. 8379, Dec. 2, 1950) (49 CFR 78.13, 1950 Rev.) to read as follows:

§ 78.13 *Specification 1H; polyethylene carboys in low carbon steel or other equally efficient metal crates.*

§ 78.13–1 *Compliance.* (a) Required in all details.

§ 78.13–2 *Capacity and marking of carboy.* (a) Containers 5 to 13 gallons capacity are classed as carboys. Actual capacity must be the marked capacity plus 5 percent minimum. Must be permanently marked to indicate capacity, maker, month and year of manufacture; mark of maker to be registered with the Bureau of Explosives.

§ 78.13–3 *Polyethylene carboys.* (a) Carboys shall be made of polyethylene with no plasticisers or additives and have a maximum melt index value of 2.5 grams per 10 minutes as determined in accordance with method acceptable to the Bureau of Explosives. Carboys must have a minimum weight and wall thickness in accordance with the following table:

Marked capacity	Minimum wall thickness	Minimum weight of bottles
Gallons	*Inch*	*Pounds*
5	3/16	3
6½	3/16	4
13	3/16	8

(b) Closing device shall be of material resistant to the lading and adequate to prevent leakage.

(c) Polyethylene carboys, as manufactured and filled to marked capacity with a material which remains in a liquid form, shall be capable of withstanding a 4-foot drop without leakage, after prior conditioning for 24 hours to at least −10° F. or lower, onto solid concrete so as to strike diagonally on the bottom corner.

§ 78.13–4 *Outside containers.* (a) Metal crates:

(1) Specifications for each size outside container must be filed by each plant prior to start of production and be approved by the Bureau of Explosives.

§ 78.13–5 *Marking of outside container.* (a) Each outside container must be plainly marked by attachment of a metal plate, or permanent marking in contrasting color directly on the polyethylene carboy in a visible area. Marking must be in letters and figures at least ¾ inch high and must be by embossing or stamping when applied on metal plates. Marking must be as follows:

(1) ICC–1H. This mark shall be understood to certify that the complete package complies with all specification requirements.

(2) Name or symbol (letters) of company setting up the package, or other party assuming responsibility for its compliance with the specification requirements; this must be registered with the Bureau of Explosives and located just above or below the mark specified in paragraph (a) (1) of this section.

§ 78.13–6 *Tests.* (a) One sample, taken at random and with inner container filled to marked capacity with water and closed as for use, shall be capable of withstanding prescribed tests without leakage or serious rupture of outer container. Tests shall be made of each size by each company starting production. The type tests are as follows:

(1) Complete package must be capable of withstanding 2 drops from a height of 4 feet onto solid concrete, the first drop to be made diagonally so top corner will strike the concrete; the second drop onto a 2-inch by 6-inch timber resting on the concrete with the 6-inch leg vertical, the drop being made with the package in a horizontal position and at right angles to the timber so that impact is near the center of the crate side-wall members.

SUBPART B—SPECIFICATIONS FOR INSIDE CONTAINERS, AND LININGS

Add § 78.35 (15 F. R. 8381, Dec. 2, 1950) (49 CFR 78.35, 1950 Rev.) to read as follows:

§ 78.35 *Specification 2S; polyethylene drums.* Removable head containers not authorized.

§ 78.35–1 *Compliance.* (a) Required in all details.

§ 78.35–2 *Material.* (a) Drums shall be made of polyethylene with no plasticisers or additives and have a maximum malt index value of 2.6 grams per 10 minutes, as determined in accordance with method acceptable to the Bureau of Explosives. Other materials of adequate chemical resistance and strength are authorized.

§ 78.35–3 *Construction and capacity.* (a) Drums must be constructed in accordance with the following table:

Capacity not over (gallons) [1]	Minimum thickness	
	Side wall and bottom head (inch)	Top head [2] (inch)
5	1/16	1/16
15	1/16	1/8
30	3/32	1/8
55	1/8	1/8

[1] Actual capacity plus 5 percent permitted.
[2] Head containing openings.

(b) Polyethylene drum must fit snugly in outside container.

§ 78.35–4 *Closures.* (a) Closing devices must be of screw thread type or fastened by positive means and be of material resistant to the lading and adequate to prevent leakage.

(b) Openings over 2.3 inches in diameter not permitted.

§ 78.35–5 *Test.* (a) Samples taken at random, filled to 98 percent of capacity with water, and closed as for use, must be capable of withstanding the following test without leakage:

(1) Test by dropping from a height of 4 feet onto solid concrete so as to strike diagonally on top chime or on any part considered to be weaker.

Marked capacity not over (gallons)	Authorized gross weight (pounds)	Type of container	Minimum thickness in the black (gauge, United States standard)		Rolling hoops		
			Body sheet	Head sheet	Type	Minimum	
						Size (gauge or inch)	Weight (pounds per foot)
55	480	Straight side	18	18	1-bar [1]	¾ x 1¼	1.25

[1] Rolled or swedged in hoops.

SUBPART C—SPECIFICATIONS FOR CYLINDERS

Amend § 78.38–10 paragraph (a) (15 F. R. 8387, Dec. 2, 1950) (49 CFR 78.38–10, 1950 Rev.) to read as follows:

§ 78.38 *Specification 3B; seamless steel cylinders.*

§ 78.38–10 *Wall thickness.* (a) The wall stress shall not exceed 24,000 pounds per square inch. Minimum wall 0.090" for any cylinder over 6" outside diameter.

• • • • •

SUBPART D—SPECIFICATIONS FOR METAL BARRELS, DRUMS, KEGS, CASES, TRUNKS AND BOXES

1. In § 78.100–5 paragraph (a) table, amend the second column heading by inserting footnote 2 after the last parenthetical mark; add footnote 2 to paragraph (a) table; amend § 78.100–7 paragraph (b) (15 F. R. 8445, Dec. 2, 1950) (49 CFR 78.100–5, 78.100–7, 1950 Rev.) to read as follows:

§ 78.100 *Specification 6J; steel barrels and drums.*

§ 78.100–5 *Parts and dimensions.* (a) • • •

Authorized gross weight (pounds) [2]
• • • • •

[2] Drums must be manufactured in accordance with gauge requirements for capacity of drum as prescribed in § 78.100–5 except that weight restriction indicated by the gross weight embossment shall be waived when container is used in conjunction with a composite package having an inside spec. 2S (§ 78.35 of this chapter) polyethylene drum.

§ 78.100–7 *Closures.* • • •

(b) Closing part (plug, cap, plate, etc., see Note 1) must be of metal as thick as prescribed for head of container (see Note 2); this not required for containers of 12 gallons or less when the opening to be closed is not over 2.3 inches in diameter. If unthreaded cap is used, it must be provided with outside sealing devices which cannot be removed without destroying the cap or sealing device.

[No change in Note 1.]

• • • • •

NOTE 2: Drums may have not more than two holes in a removable head to accommodate protruding flanges and closures when used in conjunction with spec. 2S (§ 78.35 of this chapter) polyethylene drum.

2. Amend § 78.101–5 paragraph (a) table (15 F. R. 8445, Dec. 2, 1950) (49 CFR 78.101–5, 1950 Rev.) to read as follows:

§ 78.101 *Specification 6K; steel barrels or drums.*

§ 78.101–5 *Parts and dimensions.* (a) • • •

SUBPART F—SPECIFICATIONS FOR FIBERBOARD BOXES, DRUMS, AND MAILING TUBES

1. In § 78.205–9 amend the introductory text of paragraph (a); add paragraph (c) (3) to § 78.205–17; add § 78.205–32 paragraph (a) (20 F. R. 8109, Oct. 28, 1955) (18 F. R. 5277, Sept. 1, 1958) (15 F. R. 8476, Dec. 2, 1950) (49 CFR 1950 Rev., 1954 Supp., 78.205–9, 78.205–17, and 78.205–32) to read as follows:

§ 78.205 *Specification 12B; fiberboard boxes.*

§ 78.205–9 *Types authorized.* (a) To be of solid or corrugated fiberboard of the following types, or as specifically provided for in § 78.205–19 to § 78.205–32:

* * * * *

§ 78.205–17 *Closing for shipment.*

* * *

(c) * * *

(3) Telescope boxes having equal depth sections may be closed by application of reinforced water activated tape or pressure sensitive tape under conditions and for commodities as prescribed in Part 73 of this chapter.

* * * * *

§ 78.205–32 *Special box; authorized only for electrolyte (acid), corrosive battery fluid, or hydrochloric acid mixtures of not over 28 percent strength.* (a) Box shall have not more than 12 inside glass bottles, with acid-proof closures, of not over 32 ounces capacity each. Box shall comply with this specification and be constructed of at least 275-pound test (Mullen or Cady) double-wall corrugated fiberboard and be equipped with at least 125-pound test (Mullen or Cady) double-faced corrugated fiberboard scored sheets so designed as to provide two thicknesses of corrugated fiberboard between each bottle and one thickness between bottles and sides and ends of box. Top and bottom pads of the same size as the top and bottom area of the box and of at least 125-pound test (Mullen or Cady) double-faced corrugated board are required or box shall comply with this specification and be constructed of at least 325-pound test (Mullen or Cady) double-faced corrugated board and be equipped with at least 200-pound test (Mullen or Cady) corrugated fiberboard ½ inch extended cell slotted partitions so designed as to provide a void space between the ends and sides of outside box and the inside cell partition and shall be provided with top and bottom pads, of the same area as the box, of at least 200-pound test (Mullen or Cady) double-faced corrugated fiberboard.

2. Amend § 78.218–3 paragraph (a) (15 F. R. 8480, Dec. 2, 1950) (49 CFR 78.218–3, 1950 Rev.) to read as follows:

§ 78.218 *Specification 23G; special cylindrical fiberboard box for high explosives.*

§ 78.218–3 *Side walls, ends, and interior.* (a) Side walls. To be not less than four-ply of continuous fiber sheets convolutely or spirally wound; combined strength to be not less than 300 pounds, dry; combined thickness to be not less than 0.050" for containers not exceeding 10 pounds gross weight and not less than 0.060" for containers over 10 pounds gross weight.

* * * * *

SUBPART H—SPECIFICATIONS FOR PORTABLE TANKS

Amend the heading of § 78.250; amend § 78.250–2 paragraphs (a) and (b); amend § 78.250–4 paragraph (b) (20 F. R. 955, Feb. 15, 1955) (49 CFR 78.250, 78.250–2, 78.250–4, 1950 Rev.) to read as follows:

§ 78.250 *Specification 55; metal-encased, lead or uranium metal-shielded, radioactive materials container.*

§ 78.250–2 *Requirements for design and construction.* (a) Lead or uranium metal shield to be encased in mild steel or equally fire resistant metal of minimum wall thicknesses as follows:

(1) One-eighth (⅛") thick for not more than 6 inches of lead or uranium metal (see Note 1).

(2) One-fourth inch (¼") thick for more than 6 inches of lead or uranium metal (see Note 1).

NOTE 1: Thickness of lead to be measured from outer edge of source cavity to nearest point on outer container wall.

(b) Lead or uranium metal shield to be completely encased so that molten lead or uranium metal will not flow away or lose its shielding efficiency if involved in a fire. The shield must be supported in the outer container in such manner that it cannot change position under any ordinary conditions. Parts of the shield must be so designed that radiation cannot be "beamed" at point where sections join (offset design required).

* * * * *

§ 78.250–4 *Closures.* * * *

(b) Lead or uranium metal shielding forming part of closing device must be completely encased in mild steel or equally fire-resistant metal.

* * * * *

SUBPART I—SPECIFICATIONS FOR TANK CARS

Amend § 78.336–1 paragraph (c); add paragraph (c) to § 78.336–2 (20 F. R. 8115, 8116, Oct. 28, 1955) (15 F. R. 8556, Dec. 2, 1950) (49 CFR 78.336–1, 2, 1950 Rev.) to read as follows:

§ 78.336 *Specification MC 330; steel cargo tanks.*

§ 78.336–1 *Requirements for design and construction.* * * *

(c) On and after August 31, 1953, every uninsulated cargo tank permanently attached to a tank motor vehicle shall, unless it be constructed of aluminum, stainless steel, or other bright nontarnishing metal, be painted all over a white, alumium, or similar reflecting color.

§ 78.336–2 *Material.* * * *

(c) All plates for tank, manway nozzle and anchorage of tanks used in the transportation of chlorine must be made of steel complying with requirements of A. S. T. M. Specification A–300–52T titled "Steel Plates for Pressure Vessels for Service at Low Temperatures", Class 1, Grade "A", flange or fire box quality. Impact test specimens made by the plate manufacturer shall be of the Charpy Keyhole notch type and must meet impact requirements (in both longitudinal and transverse directions of rolling) of this specification at a temperature of minus 50° F.

APPENDIX

Section	Reason for Amendment
72.5, Commodity List	Provides additions and amendments to keep commodity list on a current basis.
73.33 (k) (11)	To provide retest for recently adopted MC–304 tank motor vehicle.
73.65 (b)	To provide specification containers for amatol of a specific mixture.
73.92 (a) (4)	To provide additional packing for jet thrust units, Class B, with igniters.
73.100 (r) (11)	To shift trick matches and cigarette loads to another classification.
73.100 (x)	To redefine cigarette loads and trick matches as Class C explosives.
73.111 (a)	To provide specification packaging for cigarette loads and trick matches.
73.115 (a)	To clarify the definition of flammable liquids.
73.119 (a) (17)	To allow MC 304 tank motor vehicle for the transportation of flammable liquids.
73.119 (b) (6)	To provide Spec. 6K metal barrel or drum for flammable liquids with flash point above 20° F. to 80° F.
73.119 (e) (3), (f) (5)	To allow MC 304 tank motor vehicle for the transportation of flammable liquids exceeding certain vapor pressures.
73.119 (k) (2)	To provide Spec. 42F metal barrel or drum for viscous flammable liquids.
73.125 (a) (5)	To provide for the use of additional Spec. 6J steel barrel or drum for alcohol.
73.141 (a) (8)	To provide for the use of MC 330 tank motor vehicle for certain mercaptans.
73.145 (a) (4) and (5)	To provide for the use of Spec. 17H and 42B, metal barrels or drums, and aluminum drums, respectively, for unsymmetrical dimethylhydrazine.
73.146 (a)	To provide for the transportation of car heaters containing flammable fuel.
73.153 (c) (64)	To permit no exemption for sodium potassium alloys.
73.182 (a) and (b)	To clarify that some ammonium nitrate-phosphates are not dangerous articles.

Section	Reason for Amendment
73.190 (b) (3)	To provide for the application of bottom washout nozzle on Spec. 103 or 103–W tank cars in phosphorus service.
73.202 (a) (1) and (2)	To provide for the use of Spec. 5A metal barrel or drum for sodium and potassium, metallic liquid alloy.
73.244 (c) (49)	To permit no exemption for chromyl chloride.
73.245 (a) (15) and (16)	To provide for the use of Spec. 17H and 6J metal drums, and steel barrels or drums, for acids or other corrosive liquids not specifically provided for.
73.247 (a)	To provide for the transportation of chromyl chloride.
73.247 (a) (14), (15), (16)	To provide certain specification containers specifically for chromyl chloride.
73.257 (a) (9), (10)	To provide for the use of Spec. 12B fiberboard box for electrolyte (acid) or corrosive battery fluid.
73.260 (c) (1)	To provide a standardization to be made for batteries of various heights.
73.262 (a) (1)	To provide for the use of Spec. 1F, carboy, for hydrobromic acid.
73.263 (a) (13), (16), (17)	To provide additional specification containers for the shipment of certain acids.
73.264 (a) (1), (2)	To provide a means for shipping high strength hydrofluoric acid.
73.264 (a) (17)	To provide for the use of Spec. 6J steel barrels or drums for hydrofluoric acid.
73.265 (d) (3)	To provide for the use of Spec. 6J steel barrels or drums for hydrofluosilicic acid.
73.266 (c) (5)	To provide additional containers for hydrogen peroxide solution in water.
73.272 (i) (5), (6)	To provide additional container for sulfuric acid.
73.277 (a) (3), (4)	To provide additional containers for hypochlorite solutions.
73.285 (a) (2)	To authorize the shipment of chlorine trifluoride in nonspecification cylinders equal to or of greater efficiency than those already prescribed.
73.289 (a) (10), (11)	To provide additional containers for formic acid and formic acid solutions.
73.302 (a)	To make reference to paragraphs (a) (7), (8) which are added to section.
73.302 (a) (7)	To eliminate the 100% heat bath test requirement, which destroys the properties of certain biological products.
73.302 (a) (8)	To exempt shipments of certain electronic tubes.
73.314 (a) Table	To provide for commodity stenciling of genetron and freon, or mixtures thereof, without the use of the trade names.
73.354 (a) (5)	To prevent use of tanks having insufficient shell thickness.
73.359 (a) (4)	To provide for the use of Spec. 15E, wooden box for various poisonous liquids.
73.407 (b) (1), (2), (3), 73.410 (b), 73.411 (b), 73.412 (b).	To revise loading instructions on labels, requested by air officials, to conform with international regulations.
73.414 (a)	Clarification.
73.427 (a)	To clarify requirement that total number of electric blasting caps must be shown on shipping papers.
74.538 (a) Chart	To be consistent with other provisions of chart, and for clarification.
74.546 (b)	To properly describe commercial tagboard in keeping with present day practices.
77.835 (f)	To exempt truck lining requirement for certain shipments of class A or class B explosives loaded by the Departments of the Army, Navy or Air Force.
77.848 (a) Chart	To be consistent with other provisions of the chart and for clarification.
78.13	To provide for the construction of Spec. 1H polyethylene carboys in low carbon steel or other equally efficient metal crates.
78.35	To provide for the construction of Spec. 2S polyethylene drums.
78.38–10 (a)	To provide a minimum wall thickness of .090" for any 3B cylinder over 6" outside diameter.
78.110–5 (a) Table, Footnote 2.	To waive weight restriction of container under certain conditions.
78.100–7 (b)	To permit holes in drum head when drum is used in conjunction with Spec. 2S.
78.101–5 (a) Table	To provide for alternate construction of rolling hoops.
78.205–9 (a)	To provide for an additional special box.
78.205–17 (c) (3)	To provide for additional method of closure.
78.205–32	To provide for the construction of a special box authorized for certain corrosive liquids.
78.218–3 (a)	To provide a thinner material for small size explosive containers.
78.250 Heading; 78.250–2 (a), (b), 78.250–4 (b).	To provide for the use of uranium metal as an additional shielding material for radioactive shipments.
78.336–1 (c), 78.336–2 (c)	To reinstate a requirement erroneously amended in Order 20, and editorial changes.

[F. R. Doc. 55–10157; Filed, Dec. 28, 1955; 8:45 a. m.]

[49 CFR Part 170]

PHILADELPHIA, PA.; COMMERCIAL ZONE DEFINITION OF BOUNDARY

DECEMBER 20, 1955.

Revision of definition of boundary of Philadelphia, Pa., Commercial Zone heretofore defined in Ex Parte No. MC–6; Philadelphia, Pa., Commercial Zone; 17 M. C. C. 533.

Pursuant to section 4 (a) of the Administrative Procedure Act (60 Stat. 237, 5 U. S. C. 1003) notice is hereby given that, for the purpose of including additional points and areas, which by reason of industrial and other developments and growth have become a part thereof, within the defined limits of the zone which is adjacent to and commercially a part of Philadelphia, Pa., within the meaning of section 203 (b) (8) of the Interstate Commerce Act, the Interstate Commerce Commission, informed by experience and by an informal investigation, proposes to modify and redefine, as hereinafter indicated, the limits of the zone adjacent to and commercially a part of Philadelphia, Pa., as determined in Philadelphia, Pa., Commercial Zone, 17 M. C. C. 533, 49 CFR 170.6 and to revise the description of such zone limits to read as follows:

(a) The area in Pennsylvania included within the corporate limits of Philadelphia and Bensalem, Lower Southampton, Upper Southampton,[1] Bristol,[1] Middletown,[1] Northampton,[1] and Warminster[1] Townships (including all boroughs within the geographical limits of such townships) in Bucks County; Conshohocken and West Conshohocken, Pa., and Lower Moreland, Abington, Cheltenham, Springfield, Whitemarsh, Lower Merion, Upper Moreland,[1] Upper Dublin,[1] Lower Gwynedd,[1] Whitpain,[1] Plymouth,[1] and Upper Merion[1] Townships (including all boroughs within the geographical limits of such townships) in Montgomery County; Haverford, Radnor,[1] Marple,[1] and Springfield[1] Townships (including all boroughs within the geographical limits of such townships), in Delaware County; and an area in Delaware County south and east of a line extending southward from the intersection of the boundary lines of Marple, Springfield, Upper Providence, and Nether Providence Townships along the eastern boundary of Nether Providence Township to its junction with Pennsylvania Highway 320, thence south along Pennsylvania Highway 320 to the corporate limits of Chester, Pa., thence along the northern limit of Chester in a westerly direction to the eastern boundary of Upper Chichester Township, thence south to the southern boundary of said township, along the eastern boundary thereof, and thence west along the southern boundary of said township to the Delaware State line, and

[1] Added by this notice to the zone as originally defined, thereby giving effect to the mileage-population formula which applies generally at most other municipalities.

thence south along the Delaware State line to the Delaware River, and (b) the area in New Jersey included in West Deptford,[1] Deptford,[1] Greenwich,[1] and East Greenwich[1] Townships (including all boroughs within the geographical limits of such townships) in Gloucester County; Camden, Gloucester City, Woodlynne, Merchantville, and Palmyra Boroughs and Gloucester,[1] Delaware,[1] Haddon,[1] and Pennsauken Townships (including all boroughs within the geographical limits of such townships) in Camden County; and Cinnaminson,[1] Delran,[1] Moorestown,[1] Willingboro,[1] Edgewater Park,[1] Burlington,[1] Riverside,[1] and Delanco[1] Townships (including all boroughs and cities within the geographical limits of such townships) in Burlington County.

No oral hearing is contemplated, but anyone wishing to make representations in favor of, or against, the above-proposed revision of the Philadelphia, Pa., commercial zone, may do so by the submission of written data, views, or arguments. An original and five copies of such data, views, or arguments shall be filed with the Commission on or before February 1, 1956.

Notice to the general public of the action herein taken shall be given by depositing a copy of this notice in the Office of the Secretary of the Commission for public inspection and by filing a copy thereof with the Director, Division of the Federal Register.

By the Commission, Division 1.

[SEAL] HAROLD D. MCCOY, *Secretary.*

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LAND FOR DEPARTMENT OF THE AIR FORCE; CORRECTION

DECEMBER 16, 1955.

Notice of the proposed withdrawal and reservation of land for the Department of the Air Force near Lake Louise in accordance with the application serialized Anchorage 023173 was published in the FEDERAL REGISTER on April 15, 1955 (20 F. R. 2467).

The description of the lands involved is hereby amended to read as follows:

LAKE LOUISE RECREATIONAL SITE

(Unsurveyed)

Commencing at USED Station "LOUISE", Latitude 62°17'59" N., Longitude 146°36'02" W., thence N. 71°30'00" E. for a distance of approximately 2340 feet to a point on the southwest shore of Lake Louise near the outlet of Lake Dinty; thence in a Northerly direction along the shore line of Lake Louise for a distance of approximately 615 feet; thence West 800 feet; thence South 336 feet; thence West 160 feet; thence South 370 feet to a point on the southerly edge of an existing road; thence in a Southeasterly direction along said road for a distance of approximately 896 feet to a point on the shoreline of Lake Louise; thence along said shoreline for a distance of approximately 350 feet to the Point of Beginning and containing 15.56 acres, more or less.

ROGER R. ROBINSON, *Operations Supervisor.*

[F. R. Doc. 55-10365; Filed, Dec. 28, 1955; 8:45 a. m.]

COLORADO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS; CORRECTION

DECEMBER 20, 1955.

Notice of proposed withdrawal and reservation of lands, dated December 2, 1955, identified as F. R. Doc. 55-9856, filed December 7, 1955, 8:49 a. m., and appearing in the FEDERAL REGISTER of December 8, 1955, page 9028, is corrected as follows:

Under Colorado Highway No. 14, Roadside Zone, Poudre Canyon Highway:

T. 9 N., R. 74 W.,
Sec. 31: N½NE¼ is corrected to read NW¼NE¼.

MAX CAPLAN, *State Supervisor.*

CALIFORNIA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

DECEMBER 21, 1955.

The Department of the Navy has filed an application, Serial No. Los Angeles 0107128, for the withdrawal of the lands described below from all forms of appropriation.

The applicant desires the land for the purpose of providing essential aerial gunnery range facilities for the Naval Ordnance Test Station, Inyokern, China Lake, California.

For a period of 30 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, at Room 801, California Fruit Building, 4th and J Streets, Sacramento 14, California.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate copy will be sent to each interested party of record.

The lands involved in the application are:

MOUNT DIABLO MERIDIAN

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service and Commodity Credit Corporation

GRAINS AND RELATED COMMODITIES

NOTICE OF FINAL DATE FOR REDEMPTION UNDER WAREHOUSE-STORAGE LOANS MADE UNDER 1955 PRICE SUPPORT PROGRAMS

Unless earlier demand is made by CCC, warehouse-storage loans under 1955 Price Support Programs on the agricultural commodities designated in the table below mature and are due and payable on the dates indicated. Unless such loans are repaid on or before the final date for repayment specified below, or the producer notifies in writing either the ASC county committee or the CSS commodity office serving the area that the funds have been placed in the mail, CCC will purchase the commodities pursuant to the provisions of the note and loan agreement at the higher of (1) the amount of the loan plus interest and charges or (2) the market value as determined by the appropriate CSS commodity office as of the close of the market on the final date for repayment. In the event such market value is in excess of the loan value plus interest and charges, the excess amount will be paid to the producer by the appropriate CSS commodity office.

Notwithstanding the foregoing provisions, if there has been fraudulent representation by the producer in obtaining the loan, the purchase price applicable to such purchase by CCC shall be the market value only.

Commodity	Maturity date	Final date for repayment
Barley in Alabama, Arizona, Arkansas, California, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, New Jersey, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia	Feb. 29, 1956	Feb. 29, 1956

DEPARTMENT OF COMMERCE

Federal Maritime Board

MATSON NAVIGATION CO. ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

(1) Agreement No. 8059, between Matson Navigation Company and Westfal-Larsen & Co., A/S, covers the transportation of canned pineapple and juice on through bills of lading from Hawaii to Europe, with transhipment at ports on the Pacific Coast of the United States.

(2) Agreement No. 8061, between American President Lines, Ltd., Barber-Fern-Ville Lines joint service, Blue Funnel Line joint service, Hoegh Line joint service, Isthmian Steamship Company, Lykes Bros. Steamship Company, Inc., A. P. Moller-Maersk Line joint service, Mitsui Steamship Company, Ltd., Prince Line, Ltd., N. V. Stoomvaart Maatschappij "Nederland", Koninklyke Rotterdamsche Lloyd, N. V., and N. V. Nederlandsch - Amerikaansche Stoomvaart Maatschappij "Holland-Amerika Lijn", is an arrangement for the apportionment of the carriage of all rubber originating in Siam (excluding Bangkok local rubber) destined to the United States Atlantic and Gulf ports, whether loaded direct at Siam ports or transhipped by road, rail or otherwise, to vessels of the Carriers at ports in Malaya, Kohsichang or Bangkok.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: December 22, 1955.

By order of the Federal Maritime Board.

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 11520; FCC 55M-1057]

WESTERN OHIO BROADCASTING CO., INC.

ORDER CONTINUING HEARING

In re application of Western Ohio Broadcasting Co., Inc., Greenville, Ohio, Docket No. 11520, File No. BP-9888; for construction permit.

The Hearing Examiner having under consideration a petition for continuance of hearing filed by Western Ohio Broadcasting Co., Inc., on December 21, 1955;

It appearing that the hearing in the above-entitled proceeding is now scheduled to commence on January 3, 1956, but that because of other hearing commitments it will be impossible to commence on that date; and

It further appearing that all the parties now remaining in this proceeding have consented to a grant of this petition and to a waiver of the 4-day rule;

It is ordered, This 22d day of December 1955, that the petition is granted and that the hearing now scheduled for January 3, 1956, is continued to February 1, 1956, at 10:00 a. m., in Washington, D. C.

FEDERAL COMMUNICATIONS COMMISSION,

CIVIL AERONAUTICS BOARD

[Docket No. 6247 et al.]

SERVICE TO PHOENIX CASE

NOTICE OF PREHEARING CONFERENCE

Notice is hereby given that a prehearing conference is assigned in connection with proposals pending on the Board's docket for the establishment of new or additional air service to Phoenix, Arizona before Examiner James S. Keith on January 16, 1956, at 10:00 a. m., e. s. t., in Room 5855, Commerce Building, Fourteenth Street and Constitution Avenue NW., Washington, D. C.

At this conference consideration will be given to the consolidation for hearing and decision of part or all of the following applications now pending on the docket of the Board:

Docket No.	Carrier	Description
6247 (severed from 1841)	Trans World Airlines	Denver-Phoenix-Los Angeles.
2223	Frontier Airlines	Salt Lake City-Phoenix via intermediate points.
3023	do	Do.
5951	Western Air Lines	Denver-Phoenix-San Diego; Salt Lake City-Phoenix-San Diego.
6250 (severed from 3268)	Continental Air Lines	Phoenix-San Diego.
7391	City of Phoenix	North-South service.

Attention is directed to the § 302.12 (b) of the Board's rules of practice which specifies: "A motion to consolidate or contemporaneously consider an application with any other application shall be filed not later than the prehearing conference in the proceeding with which consolidation or contemporaneous consideration is requested, and shall relate only to a then pending application."

In order to facilitate conduct of the conference and in accord with the above rule it is requested that any party desiring to prosecute an application in this proceeding file on or before January 9, 1956 a motion for consolidation with Examiner Keith and/or any new applications for which consolidation may be sought. Copies of such motions should be served on all applicants listed above.

In addition, it is requested that any "request for evidence" be transmitted to the examiner and to the party from whom the evidence is sought on or before January 9, 1956.

Counsel will be expected to state the views of their client with respect to issues discussed during the course of this conference.

Dated at Washington, D. C., December 23, 1955.

[SEAL] FRANCIS W. BROWN,
Chief Examiner.

FEDERAL POWER COMMISSION

[Docket Nos. G-3476, G-3477, G-3478, G-8893]

PHILLIPS PETROLEUM CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 23, 1955.

Take notice that Phillips Petroleum Company (Phillips), an independent producer with its principal place of business in Bartlesville, Oklahoma, filed on September 27, 1954, applications in Docket Nos. G-3476, G-3477, and G-3478 for certificates of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, authorizing the acts or operations hereinafter described.

Phillips delivers and sells casinghead gas produced from three leases located in the Benedum Field, Upton County, Texas, to Pecos Company under the terms of a contract dated July 31, 1953 (Docket No. G-3476; Phillips' Rate Schedule No. 192), a contract dated July 31, 1953 (Docket No. G-3477; Phillips' Rate Schedule No. 193), and a contract dated February 19, 1951 (Docket No. G-3478; Phillips' Rate Schedule No. 194). Daily deliveries total approximately 500 Mcf.

Take notice that Phillips filed on May 11, 1955, an application in Docket No. G-8893 for permission and approval pursuant to section 7 (b) of the Natural Gas Act to abandon the above-described service rendered Pecos Company, or, alternatively, a declaratory order that such authorization is not required. Phillips proposes to deliver and sell such natural gas to Permian Basin Pipe Line Company under the terms of a contract dated February 8, 1952, as amended (Phillips' Rate Schedule No. 193; see Docket No. G-8324). Phillips states that the contracts, set forth above, with Pecos Company, all made on a short-term basis, have been terminated according to their respective provisions, and that it is obligated by contract to deliver to Permian Basin Pipe Line Company all of its casinghead gas in the area which it can economically process.

By order issued March 16, 1955, in Docket Nos. G-3476, G-3477 and G-3478, Phillips' notices of cancellation of rate schedules and requests for withdrawal of certificate applications covering the above-described sales to Pecos Company were rejected for lack of prior Commission approval pursuant to the provisions of section 7 (b) of the act.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 19, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceeding pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 16th day of January 1956. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55-10410; Filed, Dec. 28, 1955; 8:55 a. m.]

[Docket No. G-7926]

HEYSER & HEARD ET AL.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 21, 1955.

Take notice that Heyser & Heard, et al., a partnership (Applicant), whose address is 1408 Life of America Building, Dallas, Texas, filed on December 3, 1954, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant produces gas from the Greta Field, Refugio County, Texas, which they propose to sell to Transcontinental Gas Pipe Line Corporation for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 26, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 11, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-8480]

G. R. WHITTINGTON ET AL.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 22, 1955.

Take notice that G. R. Whittington, Fred W. Hagaman and Howard F. Saunders, Joint Owners, styling themselves, G. R. Whittington et al. (Applicants), individuals, hereinafter referred to as Applicant, whose address is 604 Amarillo Building, Amarillo, Texas, filed, as operator,[1] on February 14, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of certain acreage, Sanford (West Panhandle) Field, Moore and Hutchinson Counties, Texas, to Frank C. Henderson Trust No. 2 and Elizabeth P. Henderson Trust No. 2 for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, January 30, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 9, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-8897]

P. G. LAKE, INC., ET AL.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 21, 1955.

Take notice that P. G. Lake, Inc., et al. (Applicants), whose address is Tyler, Texas, filed on May 13, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicants produce gas from the Waskom Field, Harrison County, Texas, which they propose to sell to Mississippi River Fuel Corporation for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, January 30, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 11, 1956. [Docket Nos. G-9106, G-9107]

ROCK ISLAND OIL & REFINING CO., INC. AND CLYDE BEYMER, JR.

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 22, 1955.

Take notice that Rock Island Oil & Refining Co., Inc., by and through its operator and agent, Clyde Beymer, Jr., and Clyde Beymer, Jr., for himself, Applicants, whose addresses are 321 West Douglas, Wichita 2, Kansas, filed on July 5, 1955, separate applications for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicants to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicants propose to sell natural gas in interstate commerce from production of certain acreage, Hugoton Field, Kearny County, Kansas, to Colorado Interstate Gas Company for resale.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, January 30, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 9, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-9115]

KANSAS NATURAL GAS, INC.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 22, 1955.

Take notice that Kansas Natural Gas, Inc. (Applicant), a Kansas corporation whose address is 105 West 13th Street, Box 270, Hays, Kansas, filed, as operator[1] on July 7, 1955, and as supplemented on July 15, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of certain acreage, Hugoton Field, Kearny County, Kansas, to Colorado Interstate Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, January 30, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 9, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-9313]

ACCO OIL & GAS CO., ET AL.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 22, 1955.

Take notice that Acco Oil & Gas Company, a Texas Corporation whose address is 500 San Jacinto Building, Houston, Texas, filed, as operator, on September 9, 1955, for itself and on behalf of the following non-operators: Colorado Oil and Gas Corporation and Amurex Oil Development Company (Applicants), an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicants to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicants propose to sell natural gas in interstate commerce from production of certain acreage, Bonus Field, Wharton County, Texas, to Tennessee Gas Transmission Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, January 30, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 9, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55-10376; Filed, Dec. 28, 1955; 8:47 a. m.]

[Docket No. G-9315]

COLORADO-WYOMING GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 21, 1955.

Take notice that Colorado-Wyoming Gas Company, Applicant, filed an application on September 12, 1955, for a certificate of public convenience and necessity authorizing the construction and operation of two farm taps along its existing natural gas pipeline system to sell gas for resale to Applicant's existing resale customer, Public Service Company of Colorado (Public Service) subject to the jurisdiction of the Commission all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to install one of the farm taps on its existing 6-inch Greeley-Loveland lateral in Larimer County, Colorado, at an approximate cost of $75 to deliver an estimated 310 Mcf annually and 3 Mcf on a peak day to supply the requirements of Public Service's customer Henry Weber and Byron Goodwin.

Applicant proposes to install the other taps in Jefferson County, Colorado, on its Arvada-Cheyenne main line at an approximate cost of $75 to deliver an estimated 1,290 Mcf annually and 13 Mcf on a peak day to supply the requirements of Public Service's customer, Broomfield Heights Water Treatment Plant.

The cost of the above proposed facilities will be paid out of Applicant's funds on hand.

The gas involved will be sold to Public Service under Applicant's FPC Gas Tariff (Schedule G-1).

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 25, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 10, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket Nos. G-9564, G-9565]

CITIES SERVICE GAS CO. AND DAVIDOR AND DAVIDOR

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 21, 1955.

Take notice that (1) Cities Service Gas Company, a Delaware corporation with a principal office in Oklahoma City, Oklahoma, filed on October 27, 1955, an application for a certificate of public convenience and necessity authorizing the construction and operation of 3.3 miles of 6⅝-inch pipeline and 0.5 mile of 4½-inch pipeline, together with a meter setting and appropriate appurtenances thereto; the larger line to extend in a Southerly direction from Applicant's existing 26-inch pipe line in the NW/4 of Section 6-27N-16W to a point in the NW/4 of Section 19-27N-16W, at which point it will connect with the 4½-inch pipeline and extend Eastward to the NE/4 of Section 19-27N-16W, all in Woods County, Oklahoma, subject to the jurisdiction of the Commission, and more fully described in the application on file with the Commission in Docket No. G-9564, and open for public inspection; and (2) Davidor and Davidor, a partnership, with a principal office in Oklahoma City, Oklahoma, filed on October 27, 1955, an application for a certificate of public convenience and necessity authorizing the sale of natural gas in interstate commerce to Cities Service Gas Company for resale, subject to the jurisdiction of the Commission, and as more fully described in the application filed at Docket No. G-9565, and open to public inspection.

Applicant at Docket No. G-9564 proposes to construct and operate facilities for the taking of natural gas from the Applicant in Docket No. G-9565; and Applicant in Docket No. G-9565 proposes to produce natural gas in the Teagarden Field, Woods County, Oklahoma, and sell it in interstate commerce to Cities Service Gas Company for resale.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 24, 1956, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 13, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55-10378; Filed, Dec. 28, 1955; 8:47 a. m.]

[Project No. 2009]

VIRGINIA ELECTRIC AND POWER CO.

NOTICE OF APPLICATION FOR AMENDMENT OF LICENSE

DECEMBER 20, 1955.

Public notice is hereby given that Virginia Electric and Power Company on November 15, 1955, filed an application under the Federal Power Act (16 U. S. C. 791a-825r) for amendment of the license for water-power Project No. 2009 located on the Roanoke River in Halifax and Northampton Counties, North Carolina, near the town of Roanoke Rapids, requesting the deletion of the condition contained in paragraph (D) (4) of its license, which reads as follows:

The entire project area, except for such portions as may be reserved for reasons of

[1] The operator has no percentage interest in the unit involved. The nonoperators are Mrs. Ross Beach, Jr., and Mrs. Paul Ward.

safety and efficient operation, shall be open to free use by the public for the purposes of fishing, hunting, and other recreational pursuits.

The application states that the generality of paragraph (D) (4) is in conflict with specific provisions in paragraph (D) (5) and Article 7 in the license relating to the same subject and prevents their effectuation.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests or petitions may be filed is February 15, 1956. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[Project No. 2195]

PORTLAND GENERAL ELECTRIC CO.

NOTICE OF APPLICATION FOR LICENSE (MAJOR)

DECEMBER 21, 1955.

Public notice is hereby given that application has been filed under the Federal Power Act (16 U. S. C. 791a-825r) by Portland General Electric Company, of Portland, Oregon, for license for proposed water-power Project No. 2195, to be known as North Fork Hydroelectric Project and located on Clackamas River in Clackamas County, Oregon, affecting Oregon and California Revested Lands and lands of the United States within Mount Hood National Forest. The proposed project would consist of a concrete arch dam in Section 11, T. 4 S., R. 4 E., W. M., to be constructed to elevation 670 feet with two chute spillways having fixed crests at elevation 640 feet and control gates in the spillway sections to raise the reservoir to normal pool elevation 665 feet; a reservoir about 4 miles long containing 7,700 acre-feet usable storage capacity; three steel penstocks through the base of the dam leading to a powerhouse immediately downstream from the dam having initial installation of two units, each consisting of a 34,500 horsepower turbine connected to a 21,750 kilowatt generator and structural provision for ultimate installation of a third unit; a substation and switchyard; transmission facilities; a fish ladder, and appurtenant facilities.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests or petitions may be filed is February 8, 1956. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[Docket No. G-6101 etc.]

E. DUNLAP, JR., ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 20, 1955.

In the matters of E. Dunlap, Jr. (a partnership) and The State Oil Company, Docket No. G-6101; Mule Creek Oil Company, Docket Nos. G-6102 and G-6104; E. S. Pester, Docket No. G-6103; Piper Petroleum Company, Docket No. G-6105; C. M. Becket, Docket No. G-6106; International Trust Company, Executor of E. E. Brown, Docket No. G-6108; D. W. Skelton, Docket No. G-6109; Harper-Turner Oil Company and F. E. Harper and Roy J. Turner, Docket No. G-6124; Old Colony Trust Company and James L. Kaufman, Trustee, Docket No. G-6189; H. J. Mosse, Docket No. G-6192; Gulf Oil Corporation, Docket No. G-7146.

Take notice that the above-named Applicants, hereinafter referred to singly and collectively as Applicant, filed applications in the above-designated dockets in November 1954, for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to continue to make sales of natural gas and to render service as described, subject to the jurisdiction of the Commission, all as more fully represented in the applications, which are on file with the Commission and open for public inspection.

Applicants produce natural gas from certain gas fields, as shown in the following tabulation, and sell the gas to certain purchasers in interstate commerce for resale.

Docket No.; Name of Purchaser; Gas Field; County and State
G-6101; Lone Star Gas Company; Fox; Stevens; Oklahoma.
G-6102; Montana-Dakota Utilities Co.; Garland; Park; Wyoming.
G-6104; Montana-Dakota Utilities Co.; Polecat; Park; Wyoming.
G-6103; Cities Service Gas Company; Hugoton; Kearny; Kansas.
G-6105; Lone Star Gas Company (through Lindsay Gasoline Plant); E. Lindsay; Garvin McLain; Oklahoma.
G-6106; Arkansas-Louisiana Gas Co.; E. Haynesville; Claiborne; Louisiana.
G-6108; Montana-Dakota Utilities Co.; Elk Basin; Park; Wyoming.
G-6109; United Gas Pipe Line Company; Baxterville; Lamar; Mississippi.
G-6124, G-6189; Cities Service Gas Company; E. Edmond North; Oklahoma; Oklahoma.
G-6192; Altex Corporation for resale to Texas Gas Transmission Company; Alice and West Alice; Jim Wells; Texas.
G-7146; United Gas Pipe Line Company; Keeran and East Placedo; Victoria; Texas.

These matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 19, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear to be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 13, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[F. R. Doc. 55-10381; Filed, Dec. 28, 1955; 8:48 a. m.]

[Docket No. G-6110, etc.]

ALBERT GACKLE AND BRITISH-AMERICAN OIL PRODUCING CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 20, 1955.

In the matters of Albert Gackle, Operator, Docket Nos. G-6110 to G-6115, incl., and G-6117 to G-6121, incl.; British-American Oil Producing Company, Docket Nos. G-6196 to G-6207, incl.

Take notice that the above-named Applicants, hereinafter referred to singly and collectively as Applicant, with their respective places of business located at Fort Worth and Dallas, Texas, filed on November 26 and 29, 1954, applications for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to continue to render service as described in each respective docketed application, subject to the jurisdiction of the Commission, as more fully represented in the applications on file with the Commission and open to public inspection.

Applicant, Albert Gackle, produces natural gas from the Jalmat Field, Lea County, New Mexico, and sells it in interstate commerce to the El Paso Natural Gas Company and to the Southern Union Gas Company for resale.

Applicant, British-American Oil Producing Company, a Delaware corporation, produces natural gas from various fields in Logan County, Colorado, and sells it in interstate commerce to the Kansas-Nebraska Natural Gas Company for resale. Said Applicant also produces natural gas from the various other gas fields in the counties and states listed below and sells it to the several purchasers named in the list as follows:

Docket No.; Name of Purchaser; Gas Field; County and State
G-6196; Texas Northern Gas Corporation; S. Bayou Mallet; Acadia; Louisiana.
G-6197; Magnolia Petroleum Company for resale to United Gas Pipe Line Company; Cameron; Cameron; Louisiana.
G-6198; Southern Natural Gas Company; Gwinville; Jefferson; Mississippi.
G-6199; Lone Star Gas Company; NEX Elmore; Garvin; Oklahoma.
G-6200; Cities Service Gas Company; W. Edmond; Oklahoma; Oklahoma.
G-6201; Cities Service Gas Company; W. Edmond; Oklahoma; Oklahoma.
G-6202; United Gas Pipe Line Company; Carthage; Panola; Texas.
G-6203; Tennessee Gas Transmission Corporation; Sheridan; Colorado; Texas.
G-6204; El Paso Natural Gas Company; Fullerton; Andrews; Texas.
G-6205; El Paso Natural Gas Company; Spraberry; Glasscock; Texas.
G-6206; El Paso Natural Gas Company; Payton; Pecos and Ward; Texas.
G-6207; Mississippi River Fuel Corporation; Waskom; Harrison; Texas.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 18, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear to be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 13, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

GULF OIL CORP.

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 20, 1955.

Take notice that Gulf Oil Corporation (Applicant), a Pennsylvania corporation whose address is P. O. Box 1166, Pittsburgh 30, Pennsylvania, filed on November 30, 1954, applications for certificates of public convenience and necessity pursuant to Section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicant sells natural gas in interstate commerce in each of the above captioned dockets from certain leases and units located as hereinafter indicated, to the respective purchaser as hereinafter indicated for resale:

Docket No.; Sources of Gas; and Purchasers
G-6840; 30 acre Mattie L. Morris Lease, Fox Field, Carter County, Oklahoma; Lone Star Gas Company.
G-6841; Varying interest in 8 units, Hugoton Field, Kearny County, Kansas; Kansas-Nebraska Natural Gas Company.
G-6843; 80 acre M. P. Slaughter "A", 80 acre M. P. Slaughter, and 80 acre T. M. Williams, Southeast Aylesworth Field, Bryan County, Oklahoma; Lone Star Gas Company.
G-6844; 160 acres of a gas unit, Hugoton Field, Kearny County, Kansas; Colorado Interstate Gas Company.
G-6845; 287.53 acres of a gas unit, Hugoton Field, Kearny County, Kansas; Colorado Interstate Gas Company.
G-6846; 160 acres of a gas unit, Hugoton Field, Kearny County, Kansas; Colorado Interstate Gas Company.
G-6847; 160 acres of a gas unit, Hugoton Field, Kearny County, Kansas; Colorado Interstate Gas Company.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Tuesday, January 24, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 4, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

G-9054; 1309 Louisville Avenue, Monroe, Louisiana; Maxie Field, Acadia Parish, Louisiana.
G-9098; San Antonio, Texas; Tynan Field, Bee County, Texas.
G-9321; 1706 C & I Life Building, Houston, Texas; Greta Field, Refugio County, Texas.
G-9364; Houston, Texas; Estherwood Field, Acadia Parish, Louisiana.
G-9424; Sinclair Oil Building, Tulsa, Oklahoma; Live Oak Field, Vermillion Parish, Louisiana.
G-9463; Sourlake, Texas; Sour Lake Field, Hardin County, Texas.

All of the Applicants herein listed, with the exception of Transco and H. L. Hunt in Docket No. G-9269 produce and propose to sell natural gas to Transcontinental Gas Pipe Line Corporation for transportation in interstate commerce for resale.

H. L. Hunt in Docket No. G-9269 proposes to sell natural gas to William Herbert Hunt Trust Estate d/b/a Park Pipe Line for transportation in interstate commerce for resale.

Transco, a Delaware corporation, with its principal place of business at Houston, Texas, filed on September 19, 1955 for a certificate of public convenience and necessity in Docket No. G-9362, authorizing it to construct and operate 2.38 miles of 4-inch pipeline, together with a meter station and appurtenant equipment, extending from the Estherwood Field, Acadia Parish, Louisiana, to Transco's 18-inch Main Line Lateral.

The estimated total cost of the proposed facilities by Transco in Docket No. G-9362 is $54,500, of which $38,534 is for the 4-inch line, which cost is to be financed from corporate funds.

Transco in Docket No. G-9276 filed on August 30, 1955, for a certificate of public convenience and necessity authorizing it to construct and operate a 4-inch tap on its existing 20-inch Louisiana Lateral, approximately 15.7 miles south

of its 30-inch line, to receive approximately 2,000 Mcf of natural gas per day from Elge Rasberry, et al., in the Iota Field, Acadia Parish, Louisiana.

No new or additional service is proposed by Transco in Docket No. G-9276 and the estimated cost for the tap is $1,300, which is to be financed from corporate funds.

Each has filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicants to render services as hereinbefore described, subject to the jurisdiction of the Commission, all as more fully represented in their respective applications which are on file with the Commission and open for public inspection.

These matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 19, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 4, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

G-9524; Fort Worth, Texas; Sunset Field, Live Oak County, Texas.

G-9533; 404 Milam Building, San Antonio, Texas; West George West Field, Live Oak County, Texas.

All of the Applicants hereinbefore listed with the exceptions of Texas Eastern Transmission Corporation (Texas Eastern) in Docket No. G-9363, Harry Bass Drilling Company in Docket No. G-9125, and Stanolind Oil and Gas Company in Docket No. G-9308 produce and propose to sell natural gas to Texas Eastern Transmission Corporation for transportation in interstate commerce for resale.

Harry Bass Drilling Company in Docket No. G-9125, whose principal place of business is 1403 Magnolia Building, Dallas, Texas, produces natural gas from the Melrose Field, Goliad County, Texas, which it proposes to sell to Wilcox Trend Gathering System, Inc., for transportation in interstate commerce for resale.

Applicant, Stanolind Oil and Gas Company, in Docket No. G-9308, whose principal place of business is 511 South Booton Avenue, Tulsa, Oklahoma, produces natural gas from the Northeast Lisbon Field, Claiborne Parish, Louisiana, which it proposes to sell to Hassie Hunt Trust for transportation in interstate commerce for resale.

Texas Eastern Transmission Corporation, a Delaware corporation, with its principal place of business at Shreveport, Louisiana, filed an application on September 19, 1955, in Docket No. G-9363, for a certificate of public convenience and necessity authorizing the construction and operation of 11 miles of 8⅝-inch pipeline and 8 miles of 10¾-inch pipeline in Caddo and De Soto Parishes, Louisiana, to enable it to receive approximately 19,600 Mcf of natural gas per day.

The estimated total cost of Texas Eastern's proposed facilities is $498,000 which will be financed from corporate funds.

These matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 24, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 9, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-196, etc.]

MISSION OIL CO. ET AL.

APPLICATION FOR FURTHER EXTENSION OF TIME FOR DISPOSITION BY SINCLAIR OIL CORPORATION OF COMMON STOCK OF SUBSIDIARY

DECEMBER 22, 1955.

In the matter of the Mission Oil Company, Southwestern Development Company, and Subsidiaries and Sinclair Oil Corporation; File Nos. 54-196 and 59-97. In the matter of Albert R. Jones et al.; File No. 70-2681.

Notice is hereby given that Sinclair Oil Corporation ("Sinclair"), a registered holding company which is exempt from the provisions of the Public Utility Holding Company Act of 1935 ("act"), except sections 9 (a) (2) and 11 (b), (c), and (e) thereof, has filed with this Commission, pursuant to the act, an application requesting a further extension, for a period of six months from December 21, 1955, of the time within which to effect a disposition of its holdings of 384,860.86 shares (52.88 percent) of the common stock of Westpan Hydrocarbon Company ("Westpan"), which disposition was provided for in a plan approved by the Commission, pursuant to Section 11 (e) of the act, by order dated December 21, 1951 (Holding Company Act Release No. 10969), as modified and supplemented by order dated December 24, 1953 (Holding Company Act Release No. 12277).

The plan provided, among other things, for the disposition by Sinclair within one year from December 21, 1951, "or such longer time as the Commission may by further order grant," of the common stock of Westpan, a then non-utility subsidiary of Southwestern Development Company, a registered holding Company, received by Sinclair under the provisions of the plan.

The Commission by previous orders has extended until December 21, 1955, the time within which Sinclair might dispose of the common stock of Westpan, the last order being dated June 29, 1955 (Holding Company Act Release No. 12935).

Prior to the entry of the order of June 29, 1955, Sinclair filed with the Commission, pursuant to Rule U-44 (c) promulgated under the act, a notice of intention to sell its holdings of Westpan stock to Jalco, Inc. ("Jalco"), a non-affiliate, under the terms of a contract between Sinclair and Jalco dated March 31, 1955.

Jalco's obligation to purchase the Westpan stock was conditioned upon, among other things, the consummation of the liquidation of Westpan through the sale of its assets pursuant to a plan to be approved by the holders of not less than 75 percent of the total number of outstanding shares of Westpan, for an aggregate price which would net to all stockholders a cash distribution of not less than $12 per share, together with an additional contingent distribution of not to exceed $2.50 per share, to be determined at a later date and payable under certain contingencies set forth in the contract. The contract provided for a closing date not later than December 15, 1955, subject to extension under certain conditions.

On November 10, 1955, Sinclair filed with this Commission a new notice, pursuant to Rule U-44 (c), of its intention to sell its holdings a Westpan common stock to Jalco in accordance with a new contract dated October 24, 1955; and on November 22, 1955 and December 6, 1955, Sinclair amended and supplemented such notice of intention. Under the new contract Sinclair proposes to sell its holdings of the common stock of Westpan to Jalco for the same consideration of $4,618,330.32 in cash ($12 per share), plus the same additional contingent amount of not to exceed $2.50 per share in cash to be determined and payable under the same terms and conditions as were provided in the March 31, 1955, contract. Jalco will offer to purchase, and will purchase, at the same price as is being paid Sinclair and upon the same terms and conditions, any shares of Westpan held by the public.

Jalco's obligation to purchase any Westpan stock, either from Sinclair or the public holders, is conditioned upon, among other things, the acceptance by Westpan, pursuant to action of its board of directors and stockholders, of an offer by Jalco to surrender all Westpan stock acquired by it in exchange for (i) a proportionate interest in the liquid hydrocarbon constituents contained in natural gas in place in certain natural gas reserves in the West Panhandle gas field in Texas, and the operating contract rights relating thereto, and (ii) all of Westpan's interest in certain undeveloped gas leaseholds, including related lease hold equipment, in Rio Arriba County, New Mexico. If the holders of 75 percent of the total number of shares of Westpan outstanding do not vote in favor of acceptance of the offer, Sinclair and Jalco have the option to terminate the contract and all obligations thereunder.

In support of the application for a further extension of time, Sinclair states that the liquidation and dissolution of Westpan, as originally proposed pursuant to the contract dated March 31, 1955, could not be effected because of the apparent unwillingness of Westpan to accept the offer for the sale of its assets and the liquidation and dissolution of the company; that the respective obligations of Sinclair to sell, and Jalco to purchase, Sinclair's holdings of stock of Westpan are subject to the condition, among others, that favorable tax rulings shall have been obtained from the Internal Revenue Service with respect to certain aspects of the proposed transactions, which rulings, according to Sinclair, in all probability will not be obtained until some time after December 21, 1955; that there are pending before the Commission certain unresolved questions under the Securities Act of 1933 with respect to the proposed transactions; that until such matters have been resolved, Westpan will not be in a position to hold a special stockholders meeting to vote on whether or not to accept the Jalco offer; and that accordingly the transactions cannot be consummated prior to December 21, 1955.

Notice is further given that any interested person may, not later than January 9, 1956, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held in respect of the application for extension of time within which Sinclair may dispose of its holdings of Westpan stock, stating the nature of his interest, the reason for such request, and the issues of fact or law which he desires to controvert, or may request that he be notified if the Commission orders a hearing thereon. Any such request should bear the above title and file numbers of this notice, and should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the Commission may grant said application as filed, or as it may be amended, pursuant to Rule U-23 of the Rules and Regulations under the Act, or the Commission may take such other action in respect thereof as it deems appropriate.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[File No. 811-399]

CONSOLIDATED EQUITIES, INC.

APPLICATION FOR ORDER DECLARING COMPANY HAS CEASED TO BE AN INVESTMENT COMPANY

DECEMBER 22, 1955.

Notice is hereby given that Consolidated Equities, Inc. ("Consolidated"), has filed an application under section 8 (f) of the Investment Company Act of 1940 for an order declaring that Consolidated, registered under the act as a closed-end, non-diversified, management investment company, has ceased to be an investment company.

The following representations are made:

Consolidated, a Massachusetts corporation, registered under the Act on November 22, 1940. At a special meeting held on April 6, 1955, the stockholders of Consolidated authorized the liquidation

and dissolution of the corporation. Pursuant to this authorization, all of Consolidated's assets have been liquidated and all of its taxes and other liabilities have been paid. The net assets amounting to $31,714.91 were deposited with the Second Bank—State Street Trust Co. of Boston, Massachusetts, to be held irrevocably in trust for the purpose of liquidation. Of this sum $29,703.53 was to be distributed pro-rata among the holders of Consolidated's outstanding 16,393 shares on the basis of $1.81 per share and the balance of $2,011.38 was to be held in reserve for liquidation expenses.

Section 8 (f) of the act provides, in pertinent part, that whenever the Commission on application finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than January 9, 1956, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 55-10390; Filed, Dec. 28, 1955; 8:50 a. m.]

[File No. 31-631]

BALTIMORE GAS AND ELECTRIC CO.

APPLICATION FOR EXEMPTION

DECEMBER 22, 1955.

Notice is hereby given that Baltimore Gas and Electric Company ("Baltimore Company"), a public utility company, has filed with this Commission an application pursuant to section 3 (a) (2) of the Public Utility Holding Company Act of 1935 ("act") for an exemption for it and its direct subsidiary, Safe Harbor Water Power Corporation ("Safe Harbor"), from the provisions of the act on the basis that it is predominantly a public utility company whose operations as such do not extend beyond the State of Maryland, the State in which it is organized.

The application which is on file in the offices of the Commission may be summarized as follows:

Applicant was organized under the laws of the State of Maryland, its principal office being located in Baltimore, Maryland. It is qualified to do business only in the State of Maryland, and all its properties are located in that State.

Applicant's principal business is the sale in Maryland of electricity and natural gas for residential, commercial, and industrial uses; additionally, it sells electric energy to the Pennsylvania Railroad for the electrification of its New York-Washington Line, between Perryville, Maryland, and the District of Columbia, and of its Columbia and Port Deposit Branch, between Perryville and the Maryland-Pennsylvania State line, and sells firm peak energy to the Potomac Electric Power Company of Washington, D. C., a non-affiliate. Applicant also purchases and distributes natural gas and produces high Btu oil gas at times of peak loads and emergencies, sells steam for heating in the central business district of the City of Baltimore, and sells gas and electric appliances and allied merchandise.

As at December 31, 1954, Baltimore Company's capitalization and surplus aggregated $292,879,434 and consisted of long-term debt representing 49.7 percent; preferred stock, 10.0 percent; and common stock and surplus, 40.3 percent. All these securities are held by the public.

Safe Harbor was organized under the laws of the Commonwealth of Pennsylvania on January 6, 1930, and all of its properties are located in that State. Safe Harbor's business is the generation, and sale of its entire output, of electricity at wholesale to Baltimore Company, which purchases two-thirds of said output, and to Pennsylvania Power & Light Company ("Pennsylvania Power"), an exempt holding company pursuant to Rule U-2 and a public utility company, which purchases one-third of said output. Baltimore Company and Pennsylvania Power each own 50 percent of the voting Class B common stock of Safe Harbor; Baltimore Company also owns all of the non-voting Class A stock of Safe Harbor, which latter class of stock constitutes one-third of the entire capital stock of Safe Harbor. Thus, Baltimore Company owns two-thirds of all the capital stock of Safe Harbor, with the remaining one-third being owned by Pennsylvania Power which relative investments correspond with the respective proportions of electric energy purchased by these two companies from Safe Harbor.

As at December 31, 1954, Safe Harbor's capitalization and surplus aggregated $26,604,218, consisting of long-term debt representing 54.5 percent thereof (first mortgage bonds, due 1981, held by the public, 52.6 percent; and ten year notes, 1.9 percent); and common stock and surplus, 45.5 percent thereof.

The following table sets forth certain statistics for 1954 concerning the size and business of Baltimore Company's public utility activities and the public utility activities of Safe Harbor.

TABLE I

	Baltimore Company	Safe Harbor	Percent—Safe Harbor to Baltimore Company
Gross utility operating revenues (after intercompany eliminations)	$105,033,385	$1,266,970	1.21
Net utility operating revenues (before income taxes)	$20,069,211	$2,274,846	7.83
Sales of electricity—Mkwh (after intercompany eliminations)	3,680,125	264,884	7.20
Sales of gas—Mcf	20,915,362		
Gross utility plant (including acquisition adjustments)	$343,537,889	$31,265,119	9.10
Gross utility plant (at original cost)	$302,296,839	$31,265,119	9.41
Net utility plant (including acquisition adjustments)	$275,583,408	$25,201,577	9.14
Net utility plant (at original cost)	$268,651,080	$25,201,577	9.38
Number of electric customers at end of year	470,215	2	
Number of gas customers at end of year	339,982		
Number of utility customers at end of year	810,197	2	

In its pending application Baltimore Company states that its public utility operations do not extend beyond the State of Maryland, the State in which it is organized, and alleges that it is "predominantly" a public utility company whose operations and those of its subsidiary do not extend beyond the State of Maryland and States contiguous thereto. The filing represents that Baltimore Company is subject to the jurisdiction of the Public Service Commission of Maryland and that as a consequence thereof Baltimore Company is regulated in respect of rates, services, exercise of franchises, accounting, records and reports, and security issuances. Additionally, Baltimore Company is subject to the jurisdiction of the Federal Power Commission in respect of the transmission of electric energy in interstate commerce and the sale of electric energy at wholesale in interstate commerce.

It is represented that Safe Harbor is subject to the jurisdiction of the Federal Power Commission both as a licensee of that Commission and as a public-utility company operating in interstate commerce. Additionally, it is represented that the Pennsylvania Public Utility Commission has sole jurisdiction over the issuance of securities by Safe Harbor and concurrent jurisdiction with the Federal Power Commission over its accounting and the requiring of reports from Safe Harbor.

Notice is further given that any interested person may, not later than January 9, 1956, at 5:30 p. m., request in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application may be granted or the Commission may take such other action as it may deem appropriate under the circumstances.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 55-10391; Filed, Dec. 28, 1955; 8:50 a. m.]

[File No. 22-1785]

RHEINISCH-WESTFÄLISCHES ELEKTRIZITÄTSWERK AKTIENGESELLSCHAFT

ORDER GRANTING APPLICATION FOR EXEMPTION

DECEMBER 22, 1955.

Rheinisch-Westfälisches Elektrizitätswerk Aktiengesellschaft ("RWE"), a corporation organized and existing under the laws of Germany, having filed an application pursuant to section 304 (d) of the Trust Indenture Act of 1939 for an order exempting from the provisions of section 310 (a) (3) and 310 (b) (4) of the act, 5¼ percent Debt Adjustment Bonds, Series A due January 1, 1978, 4½ percent Debt Adjustment Bonds, Series B, due January 1, 1978, and 4½ percent Debt Adjustment Bonds, Series C, due January 1, 1978, to be issued by RWE under an Indenture to be dated as of January 1, 1953, between RWE and The First National City Bank of New York as Trustee and Treuhand-Vereinigung Aktiengesellschaft, as Co-Trustee, in connection with RWE's offer of settlement to be made pursuant to Annex II of the London Agreement on German External Debts of February 27, 1953, between the Government of the Federal Republic of Germany, the United States of America and other countries; and

It appearing to the Commission with respect to the request for exemption from section 310 (a) (3) to permit certain acts to be performed by the Co-Trustee, as follows:

(1) RWE has outstanding bonds which have been in default for many years. The London Agreement provides, among other things, for the consensual settlement of foreign currency obligations of German corporate debtors by the refunding and extension of such obligations. RWE is, however, liable only for the repayment of bonds which may be validated pursuant to the Validation Law for German Foreign Currency Bonds of August 25, 1952. The terms of the offer negotiated by RWE for its outstanding obligations provide for the issuance by RWE of the above described three series of its Debt Adjustment Bonds, due January 1, 1978, in exchange for its outstanding validated bonds.

(2) The rights in the security of both the holders of the old and the new bonds are rights in German property, created under German mortgage law and to a large extent dependent upon the interpretation of the German Implementation Law; and such rights in the security should be adjudicated only by German courts.

(3) Vesting of title to the security in the Co-Trustee necessarily results in certain acts being performable by the Co-Trustee. The acts which are performable only by the Co-Trustee relate to the release of property, the reduction of the registered amount of liens and the disposition of release moneys and such action is, in each case, subject to ultimate control by the Trustee if such control is exercised within 30 days after notice is received of the proposed action.

It further appearing to the Commission with respect to the request for exemption from section 310 (b) (4), to permit the Co-Trustee to serve notwithstanding an affiliation with an underwriter for the issuer, as follows:

(1) Dr. Hermann Richter, chairman of the Aufsichtsrat of the Co-Trustee, is also chairman of the Aufsichtsrat of Rheim-Main Bank Aktiengesellschaft which within the last three years has acted as an underwriter for the issuer.

(2) Although the relationship between the Co-Trustee and Rhein-Main Bank Aktiengesellschaft may fall within the provisions of section 310 (b) (4) of the act, it is neither necessary nor desirable in the public interest or for the protection of investors to hold that the Co-Trustee should be disqualified by reason of such relationship.

(3) The Aufsichtsrat of a German corporation has substantially different functions from that of the Board of Directors of a United States corporation. Under section 95 of the German Stock Corporation Law (Aktiengesetz), the duties and rights of members of the Aufsichtsrat of German corporations are extremely limited and the delegation of management powers to the Aufsichtsrat are specifically prohibited.

(4) Disqualification of the proposed Co-Trusee will make it difficult to obtain as Co-Trustee any organization satisfactory to the company which has adequate experience in dealing with foreign loans, since most of the available institutions which would come under consideration for such appointment have relationships with underwriters of the issuer involving ownership or control which are at least as serious as that relating to the proposed Co-Trustee.

Notice of the filing of said application having been duly given, applicant having waived hearing thereon, the Commission not having received a request for a hearing within the period specified in said notice and a hearing not appearing necessary or appropriate in the public interest or for the protection of investors;

It is ordered, That, insofar as the indenture permits the above described acts to be performed by the Co-Trustee, and permits the Co-Trustee to serve notwithstanding, an affiliation with underwriters for the issuer, the said three series of Debt Adjustment Bonds be, and the same hereby are, exempted from the provisions of section 310 (a) (3) and 310 (b) (4) of the Trust Indenture Act of 1939.

By the Commission.

[File No. 70-3433]

ROBERT R. YOUNG AND ARTHUR S. KLEEMAN

INDIRECT ACQUISITION OF SECURITIES OF PUBLIC-UTILITY COMPANY

DECEMBER 22, 1955.

Robert R. Young on behalf of himself and related persons and Arthur S. Kleeman on behalf of himself and related persons have filed an application and amendments thereto with this Commission pursuant to sections 9 (a) (2) and 10 of the Public Utility Holding Company Act of 1935 ("act") requesting approval of the indirect acquisition of securities of The Portsmouth Gas Company ("Portsmouth"), a public-utility company organized and doing business in Ohio.

Chesapeake Industries Inc. ("Chesapeake"), also an Ohio corporation, has purchased all of the issued and outstanding common stock (40,000 shares) of Portsmouth under a purchase agreement dated November 1, 1955, and intends to purchase from the John Hancock Life Insurance Company all of the other outstanding securities of Portsmouth consisting of $372,000 principal amount of first mortgage 4 percent bonds. Under the purchase agreement Chesapeake agreed to pay $2,500,000 for the common stock; such amount to be paid in installments of $700,000 on December 23, 1955, and $600,000 on November 1, 1956, 1957, and 1958 with interest at 4½ percent per annum from November 1, 1955. Chesapeake has outstanding 3,125,672 shares of voting stock consisting of 3,058,264 shares of common stock and 67,408 shares of preferred stock.

It is stated that applicants and related persons own the following shares of voting stock of Chesapeake:

Name	Common stock	Preferred stock
Robert R. Young	405,439	9,692
Anita O'K. Young (wife)	194,354	5,000
Kenneth N. Young (brother)	8,280	75
Arthur S. Kleeman	5	1
Elizabeth M. Kleeman (daughter)	44	-------
Frances A. Kleeman (daughter)	44	-------
Richard P. Kleeman (son)	22	-------
Pentson Corporation (Applicant Kleeman and wife are officers and sole stockholders)	213,178	3,970

It is further stated that none of the above-named persons is an affiliate of any public-utility holding company or public-utility company other than Chesapeake and Portsmouth, respectively. It is requested that the Commission's order herein become effective forthwith upon issuance.

The Commission having given due notice of the filing of said application, and no one having requested a hearing and the Commission not having ordered a hearing thereon; and the Commission having considered said application, as amended, and finding that the applicable provisions of the Act are satisfied; that no adverse findings are necessary; that the application, as amended, should be granted; and that this order should become effective forthwith:

It is ordered That said application, as amended, be, and the same hereby is, granted, effective forthwith.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 55-10393; Filed, Dec. 28, 1955; 8:50 a. m.]

[File No. 31-632]

CHESAPEAKE INDUSTRIES, INC.

ORDER GRANTING APPLICATION FOR EXEMPTION

DECEMBER 22, 1955.

Chesapeake Industries, Inc. ("Chesapeake"), a holding company, has filed with this Commission an application pursuant to section 3 (a) (1) of the Public Utility Holding Company Act of 1935 ("act") requesting an exemption for itself and for every subsidiary company thereof, as such, from the provisions of said act. Chesapeake, an Ohio corporation, has a number of subsidiary companies only one of which, The Portsmouth Gas Company ("Portsmouth"), is a public-utility company and which is also organized in Ohio. It is stated that Portsmouth is engaged solely in the distribution of natural gas at retail to approximately 11,600 consumers in the City of Portsmouth and adjacent territory and that the company is not now and never has been engaged in the purchase, transportation or sale of manufactured or natural gas outside the State of Ohio or the delivery of manufactured or natural gas at State lines. It is further stated that Portsmouth is subject to the jurisdiction of the Ohio Public Utilities Commission. Other than common stock, all of which is owned by Chesapeake, the only outstanding securities of Portsmouth are $372,000 principal amount of first mortgage 4 percent bonds. All of such bonds are held by John Hancock Life Insurance Company and, according to the application, will be purchased by Chesapeake in the event the requested exemption is granted.

Due notice of the filing of said application having been given and no hearing having been requested of, or ordered by, the Commission; and the Commission finding that the applicable standards of section 3 (a) (1) of the act are satisfied, that said application should be granted, and that this order should become effective upon issuance.

It is ordered, That Chesapeake and its subsidiary companies be, and the same hereby are, exempted from the provisions of the act applicable to them as a holding company and subsidiary companies thereof.

It is further ordered, That this order shall become effective upon issuance.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 812-971]

VALUE LINE FUND, INC. AND VALUE LINE INCOME FUND, INC.

APPLICATION FOR ORDER EXEMPTING TRANSACTION BETWEEN AFFILIATES

DECEMBER 22, 1955.

Notice is hereby given that The Value Line Fund, Inc. ("Value Line"), and The Value Line Income Fund, Inc. ("Income Fund"), registered open-end investment companies, have filed an application pursuant to the provisions of section 17 (b) of the Investment Company Act of 1940 ("act") for an order exempting from the prohibitions of section 17 (a) the proposed sale by Income Fund to Value Line, and correspondingly the proposed purchase by Value Line from Income Fund, of not more than 18,000 shares of the common stock of Circle Wire & Cable Corp. ("Circle"). This sale and purchase is to take place as soon as practicable after receipt of the requested order at a price per share equal to the price at which these shares are then traded on the American Stock Exchange, without the payment of any commission, provided that the then market price is not higher than 25½ and not lower than 24¾.

Value Line and Income Fund have the same officers and directors and the same investment adviser, manager and principal underwriter. Accordingly, it appears that the two companies are under common control and are therefore affiliates of each other as defined in the Act. In addition, the investment adviser and manager, Arnold Bernhard & Co., Inc. ("Bernhard"), owns approximately 8.8 percent of the outstanding capital shares of Value Line, and Value Line is therefore an affiliated person of Bernhard which is, in turn, an affiliated person of Income Fund as described in the act.

Section 17 (a) of the act prohibits an affiliated person of a registered investment company or any affiliated person of such a person, from selling to or purchasing from such registered investment company any securities or property, subject to certain exceptions not pertinent here. The Commission upon application pursuant to section 17 (b) may grant an exemption from the provisions of section 17 (a) if it finds that the terms of the proposed transactions, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act, and is consistent with the general purposes of the act.

The investment objectives of Income Fund are stated to be as follows:

1. Income—as high and as dependable as possible in keeping with sound investment principles and the investment outlook.

2. Capital growth—as large as possible consistent with the primary "income" objective.

The application states that between November 12, 1954, and July 14, 1955, Income Fund acquired 18,200 shares of Circle common stock at an average cost of $22.42 a share. On October 27, 1955, it was announced that Cerro de Pasco Corp. had agreed to buy the assets and business of Circle. A meeting of shareholders of Circle was called for November 28, 1955, to approve the sale and the liquidation for cash of the outstanding Circle common stock. It is anticipated that Circle's liquidation will result in cash distributions to its stockholders of slightly more than $26 per share, and that most of this will be paid within six months. The present market price of Circle stock is about 25¼. It is the belief of the management of Income Fund that it would be in keeping with its investment objectives to dispose of the Circle stock at approximately its present market price since no further dividend income will be received on this stock and the further capital gain which would be realized if the stock were held until final liquidation is very limited.

Value Line's investment objectives are stated to be as follows:

1. Capital growth—to increase the number of its shareholders' dollars.

2. Income—as regular and as high as possible consistent with the "growth" objective.

3. Conservation of capital—by prompt adjustment from aggressive to defensive investments when circumstances require.

The application states that Value Line presently has more than 50 percent of its funds invested in bonds and high-grade preferred stocks because of the opinion of its management that such a conservative investment policy is called for by the present position of the stock market. In the opinion of Value Line's management, the acquisition of the Circle stock at approximately the present market price would be in keeping with its investment policy since that stock would qualify as a defensive investment which would not be affected by any general decline in stock prices. The management also believes the acquisition would be advantageous since the appreciation expected to be realized on the stock within approximately six months would compare favorably with most other defensive investments presently available.

The application further states that it is believed that the proposed transaction is in the interests of both investment companies, because Income Fund would probably not be able to dispose of, and Value Line would not be able to acquire, a large block of Circle stock at the prevailing market price, and without the payment of any commission, if the sale or purchase were on the open market.

Notice is further given that any interested person may, not later than January 6, 1956, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

SUBVERSIVE ACTIVITIES CONTROL BOARD

[Docket No. 108-53]

VETERANS OF THE ABRAHAM LINCOLN BRIGADE

REGISTRATION AS COMMUNIST-FRONT ORGANIZATION

Herbert Brownell, Jr., Attorney General of the United States, Petitioner, v. Veterans of the Abraham Lincoln Brigade, Respondent.

Upon hearings duly held by the Board on a petition filed by the Attorney General of the United States, acting pursuant to section 13 (g) of the Subversive Activities Control Act of 1950 (Title I of the Internal Act of 1950, 64 Stat. 987, et seq.) the Board on December 21, 1955, issued and caused to be served on the parties of record, an order reading as follows:

Having this day issued its Report in which, after a hearing upon a petition filed under subsection (a) of section 13 of the Subversive Activities Control Act of 1950, as amended, the Board finds that the Veterans of the Abraham Lincoln Brigade, respondent herein, is a Communist-front organization under the provisions of the said act, it is ordered that the Veterans of the Abraham Lincoln Brigade shall, pursuant to the said act, register as a Communist-front organization with the Attorney General of the United States.

By the Board.

(Signed) Thomas J. Herbert, Chairman, (Signed) Harry P. Cain, Member, (Signed) Francis A. Cherry, Member, (Signed) David J. Coddaire, Member, (Signed) Kathryn McHale, Member.

[Notice 92]

MOTOR CARRIER APPLICATIONS

DECEMBER 23, 1955.

Protests, consisting of an original and two copies to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the General Rules of Practice of the Commission (39 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things, relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by and explanation as to why the evidence cannot be submitted in forms of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, pre-hearing conference, taking of depositions, or other proceeding shall notify the Commission by letter or telegram within 30 days of publications of this notice in the FEDERAL REGISTER.

Except when the circumstances require immediate action, an application for approval, under Section 210a (b) of the Act, of the temporary operations of Motor Carrier properties sought to be acquired in an application under Section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 353 Sub 3, filed December 19, 1955. O. F. LANE, doing business as LANE'S MOTOR FREIGHT LINES, 816 Santa Fe St., Woodward, Okla. Applicant's attorney: Tom Hieronymus, 1014½ 9th St., Woodward, Okla. For authority to operate as a *common carrier*, over irregular routes, transporting: *Used household goods and office furniture and fixtures*, as defined by the Commission, between points in Woodward, Woods, Major Dewey, Ellis, Harper, Beaver Counties, Texas, and Cimarron Counties, Okla., and points in Colorado, New Mexico, Kansas, and Texas, and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified in this application, on return. Applicant is authorized to conduct operations in Oklahoma, Colorado, and New Mexico.

No. MC 603 Sub 8, filed December 13, 1955. T. R. SHUMPERT, doing business as SHUMPERT TRUCK LINE, Highway 278 W., Amory, Miss. Applicant's attorney: Edward G. Grogan, Commerce Title Building, Memphis 3, Tenn. For authority to operate as a *common carrier*, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) over a regular route between Amory, Miss., and Cochrane, Ala., over U. S. Highway 278 from Amory to Sulligent, Ala., thence over Alabama Highway 17 to Cochrane, and return over the same route, serving the intermediate points of Sulligent, Vernon, Millport, Reform, Carrollton, and Aliceville, Ala., and (2) over alternate routes (a) between Amory, Miss., and Aliceville, Ala., over Mississippi Highway 25 from Amory to junction U. S. Highway 45 near Aberdeen, Miss., thence over U. S. Highway 45 to Columbus, Miss., thence over Mississippi Highway 69 to the Mississippi-Alabama State line, thence over Alabama Highway 40 to Aliceville, and return over the same route, and (b) between Amory, Miss., and Reform, Ala., over route described under (2) (a) above from Amory to Columbus, Miss., thence over U. S. Highway 82 to Reform, and return over the same route; serving no intermediate points on said alternate routes, for operating convenience only, in connection with regular route operations over route described under (1) above. Applicant is authorized to conduct operations in Mississippi and Tennessee.

No. MC 1422 Sub 22, filed November 10, 1955, VOSS TRUCK LINES, INC., 900 W. Washington, Box 917, Oklahoma City, Okla. Applicant's attorney: James F. Miller, 500 Board of Trade, 10th and Wyandotte, Kansas City 6, Mo. Office of Alien Property

[Vesting Order 1103, Amdt.]

JACOB CHRISTIAN

In re: Estate of Jacob Christian, deceased; File No. D–28–2016; E. T. sec. 2092.

Vesting Order No. 1103, dated March 23, 1943, is hereby amended by deleting subparagraph (1) thereof and substituting in lieu thereof the following:

(1) The property and interests hereinafter described are property which is in the process of administration by the Treasurer of the City of New York as depositary, by Charles N. Aicher and Andrew W. Zirkel, Executors of the Estate of Jacob Christian, deceased, and by Andrew W. Zirkel, Trustee for the benefit of Elizabeth Christian, or his successor, acting under the judicial supervision of the Surrogate's Court, Kings County, State of New York.

All other provisions of said Vesting Order No. 1103 and all actions taken by or on behalf of the Attorney General of the United States in reliance thereon, pursuant thereto and under the authority thereof, are hereby ratified and confirmed.

(40 Stat. 411, 50 U. S. C. App. 1; 55 Stat. 839, 50 U. S. C. App. Sup. 616; Pub. Law 322, 79th Cong., 60 Stat. 50; Public 671, 79th Cong.; 60 Stat. 925; E. O. 9193, July 6, 1942, 7 F. R. 5205, 3 CFR, Cum. Supp.; E. O. 9567, June 8, 1945, 10 F. R. 6917, 3 CFR 1945, Supp.; E. O. 9788, October 14, 1946 11 F. R. 11981)

Executed at Washington, D. C., on December 22, 1955.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND, *Assistant Attorney General, Director, Office of Alien Property.*

[F. R. Doc. 55–10411; Filed, Dec. 28, 1955; 8:55 a. m.]

[Dissolution Order 114]

STEEL UNION-SHEET PILING, INC.

Whereas by Vesting Order No. 202, dated October 2, 1942 (7 F. R. 8668, October 27, 1942) and Executive Order 9788, dated October 14, 1946 (11 F. R. 11981, October 15, 1946), there is vested in the Attorney General of the United States (hereinafter referred to as the "Attorney General"), all of the issued and outstanding stock (consisting of 250 shares of $100 par value common) of Steel Union-Sheet Piling, Inc. (hereinafter referred to as the "Company"), a New York corporation; and

Whereas a Certificate of Dissolution of said Company was filed with the Secretary of State of the State of New York on June 23, 1942, and a Certificate of Termination was filed in New York County pursuant to Article 10 of the New York Stock Corporation Law; and

Whereas the Company has been substantially liquidated.

Now, therefore, under the Trading with the Enemy Act, as amended, and Executive Orders 9095, as amended, and 9788, and pursuant to law, the undersigned, after investigation:

1. Finding that the known assets reflected on the current balance sheet of the Company consist of (a) funds in the amount of $12,790.81 on deposit with Chemical Bank and Trust Company, New York; (b) eight foreign accounts receivable, aggregating $9,118.67, and (c) a contingent claim against Vereinigte Stahlwerke, of Dusseldorf, Germany in the amount of $20,902.92;

2. Finding that the liabilities reflected on the Company's current balance sheet consists of (a) an indebtedness in the amount of $3,712.86 due to the Attorney General of the United States for funds advanced or services rendered to or on behalf of the Company subsequent to its dissolution; (b) six foreign accounts payable aggregating $27,766.13, each of which accounts payable is vested in the Attorney General, three of said accounts having been vested by Vesting Order 3339 (9 F. R. 5353), two by Vesting Order 14411 (15 F. R. 1619), and one by Vesting Order 15104 (15 F. R. 6526); and (c) a claim in the amount of $2,456.25 by Eugene R. Pickrell.

3. Having determined that it is in the national interest of the United States that the Company be dissolved, and that its assets should be distributed;

Hereby orders, that the officers and directors of the Company (and their successors, or any of them) wind up the affairs of the Company and distribute the assets of the Company coming into their possession, as follows:

1. They shall first pay current expenses and necessary charges in effecting the dissolution of the Company and the winding up of its affairs;

2. They shall then pay all federal, state, and local taxes, if any, owed by or accruing against the Company;

3. They shall then pay on a pro rata basis to the extent of available cash the liabilities hereinabove referred to in Finding 2 (b) and 2 (c).

4. They shall then pay over, transfer, assign and deliver to the Attorney General all funds and property of whatsoever kind and nature (including after discovered assets) and any and all claims of whatsoever kind and nature, the same (or the net proceeds thereof, if any), to be applied by the Attorney General as follows: First, in payment on a pro rata basis of the liabilities referred to in Finding 2 (b) and 2 (c); secondly, as a liquidating distribution of assets to the Attorney General as holder of all of the issued and outstanding stock of the Company; and

Further orders, that nothing herein set forth shall be construed as prejudicing the rights under the Trading with the Enemy Act, as amended, of any person who may have a claim against the Company to file such claim with the Attorney General against any funds or property received by the Attorney General: *Provided however*, That nothing herein contained shall be construed as creating additional rights in such person: *Provided further*, That any such claim against said Company shall be filed with or presented to the Attorney General within the time and in the form and manner prescribed for such claims by the Trading with the Enemy Act, as amended, and applicable regulations and orders issued pursuant thereto; and further orders, that all actions taken and acts done by the officers and directors of the Company pursuant to this order and the directions contained herein shall be deemed to have been taken and done in reliance on and pursuant to section 5 (b) (2) of the Trading with the Enemy Act, as amended (50 U. S. C. App. 5), and the acquittance and exculpation provided therein.

Executed in Washington, D. C., on December 22, 1955.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.

Washington, Friday, December 30, 1955

THE NATIONAL ARCHIVES OF THE UNITED STATES 1934

UNIVERSITY OF MICHIGAN

MAIN READING ROOM

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10649

AMENDMENT OF EXECUTIVE ORDER NO. 10153[1] PRESCRIBING REGULATIONS RELATING TO CERTAIN TRAVEL TIME OF MEMBERS OF THE UNIFORMED SERVICES CALLED TO ACTIVE DUTY IN EXCESS OF THIRTY DAYS

By virtue of and pursuant to the authority vested in me by the first proviso of subsection 201 (e), Career Compensation Act of 1949 (63 Stat. 807; 37 U. S. C. 232 (e)), as amended (subsection 2 (2), Career Incentive Act of 1955 (Public Law 20, 84th Cong.; 69 Stat. 19); Act of July 12, 1955 (Public Law 144, 84th Cong.; 69 Stat. 294)), and as President of the United States and Commander in Chief of the Armed Forces of the United States, it is ordered that Executive Order No. 10153 of August 17, 1950, 15 Federal Register 5492, be, and it is hereby, amended as follows:

1. Sections 1 and 2 are amended to read:

SECTION 1. For travel from home to first duty station, in case travel by public transportation is authorized, the travel time included as active duty shall be based upon actual and necessary schedules which most nearly coincide with the possible time of departure and arrival by the mode of transportation actually used, or by public surface transportation if the travel is actually performed by private conveyance without having been specifically authorized. In case travel by private conveyance is specifically authorized and the travel is so performed, the travel time included as active duty shall be computed on the basis of one day for each three hundred miles traveled, and one day of travel time shall also be allowed for each fraction of three hundred miles in excess of one hundred and fifty miles. The distance traveled shall be computed on the basis of distances established by the official mileage tables in use by the uniformed services. Travel by private conveyance shall not be specifically authorized in any case in which the call to active duty is for a period of less than ninety consecutive days.

SEC. 2. For travel from last duty station to home, in case travel by public transportation is authorized, the travel time included as active duty shall be based upon actual and necessary schedules which most nearly coincide with the possible time of departure and arrival by public surface transportation, without regard to the actual performance of such travel. In case travel by private conveyance is specifically authorized, the travel time included as active duty shall be computed on the basis of one day for each three hundred miles traveled, and one day of travel time shall also be allowed for each fraction of three hundred miles in excess of one hundred and fifty miles, without regard to the actual performance of such travel. The distance from last duty station to home shall be computed on the basis of distances established by the official mileage tables in use by the uniformed services. Travel by private conveyance shall not be specifically authorized in any case in which the call to active duty is for a period of less than ninety consecutive days.

2. This order shall become effective on January 1, 1956.

cedures governing its operations, as set forth hereinafter. After consideration of all pertinent available information, it is concluded that the aforesaid amendment should be approved.

Therefore, it is hereby ordered, That, effective as of the date of the publication of this document in the FEDERAL REGISTER, the provisions of § 964.151 (c) (3) of the administrative rules and procedures (20 F. R. 7186) be amended to read as follows:

§ 964.151 *Disposition of dried figs by handlers.* • • •

(c) *Inspection.* • • •

(3) The inspection of any dried figs of the Adriatic or the Calimyrna variety or any blend containing the Adriatic or the Calimyrna variety, being prepared as fig paste or sliced dried figs, shall include head count tests for insects.

• • • • • •

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment for thirty days, or any lesser period, after publication in the FEDERAL REGISTER (see section 4 of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.) in that: (1) Shipments into trade channels of sliced dried figs and fig paste currently are being made, to which the provisions of the amendment should apply; (2) until the amendment becomes effective, reliance must be placed on voluntary use of head count tests for insects in the case of dried figs of the Calimyrna variety being prepared as sliced dried figs or fig paste; (3) dried fig handlers, who are represented on the committee, and the Dried Fruit Association of California, the inspection agency for the program, know that the amendment has been unanimously approved by the committee and may be issued; and (4) the circumstances are such that handlers do not need any further advance notice to prepare for compliance with the provisions of the amendment. It is imperative that this action be made effective on the date on which this order is published in the FEDERAL REGISTER.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 27, 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator, Marketing Services.

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter R—Leases and Sale of Minerals, Restricted Indian Lands

PART 180—LEASING OF OSAGE RESERVATION LANDS FOR OIL AND GAS MINING

MISCELLANEOUS AMENDMENTS

The regulations in this part are amended as follows:

§ 180.5 *Use of surface lands; settlement of damages to lands and crops.* (a) Lessee shall have the right to use so much of the surface of the land as may be necessary for operations, including the right to lay and maintain pipe lines, telephone and telegraph lines, pull rods and other appliances necessary for the operation of the wells; also the right of ingress and egress and the right of way to any point of operations under condition of least injury and inconvenience to the owner and occupant of the surface. Lessee may use water from streams and natural water courses for lease operations as set out in § 180.57. Before commencing operations for the drilling of any well the lessee shall pay to the surface owner the sum of $200 for each well located on cultivated land (tilled or cultivated within the immediately preceding three years, and including haymeadow land), $150 for open pasture land, and $100 for such location on brush or wooded lands, and other lands not suitable for cultivation. Upon payment of such location site money, lessee shall be entitled to possession. Location sites shall be held to the minimum area essential for operations, and in no event shall exceed one and one-half acres in area. Lessee shall also pay tank site fees at the rate of $20 per tank of not exceeding 1,000 barrels capacity: *Provided, however*, That no tank site fee shall be paid for a tank temporarily set on a well location site for testing purposes during the completion of the well. Tank sites shall be held to the minimum area essential to efficient operations, and in no event shall exceed an area of 50 feet square per tank. The sum to be paid for an oil tank site of larger capacity and occupying a greater area shall be as agreed upon between the surface owner and the lessee, and on failure to agree, the same shall be fixed by arbitration.

• • • • •

§ 180.30 *Measurement of gas.* Gas of all kinds (except gas used for purposes of production on the leasehold or unavoidably lost) is subject to royalty, and all gas shall be measured by meter (preferably of the orifice-meter type) unless otherwise agreed to by the Superintendent. All gas meters must be approved by the Superintendent and installed at the expense of the lessee at such places as may be agreed to by the Superintendent. For computing the volume of all gas produced, sold, or subject to royalty, the standard of pressure shall be 10 ounces above an atmospheric pressure of 14.4 pounds to the square inch, regardless of the atmospheric pressure at the point of measurement, and the standard of temperature shall be 60° F. All measurements of gas shall be adjusted by computation to these standards, regardless of the pressure and temperature at which the gas was actually measured, unless otherwise authorized in writing by the Superintendent.

§ 180.46 *Approval of lease instruments.* • • •

(b) *Unitization of oil leases.* As a consideration for their further development by the water flood process, two or more oil leases may be unitized and merged in a single blanket lease with the approval of the Superintendent. The instrument of unitization (blanket lease) shall include all the requirements and provisions of sections numbered 1, 5, 6, 7, 8, 9, 10, 11, 12, 13, 15, 16, 17, 18, 19 and 20 of Osage oil lease Form B: *Provided*, That the preamble of Form B and the provisions of section numbered 2 in respect to royalty rates; section numbered 3 in respect to payment of rental; section numbered 4 in respect to payment of well site and tank location fees; and section numbered 14 in respect to the surrender of the lease, may be modified and/or supplemented by the parties, with the approval of the Superintendent, to the extent deemed appropriate for the equitable and efficient conduct of unitized operations, and not otherwise in conflict with the regulations in this part. Lessee(s) shall, before commencing water flood operations, and on or before December 31st of each year thereafter, submit to the Superintendent an acceptable plan of development and operation for the unit area for the ensuing year. Upon a finding by him that such action would be in the best interest of the Osage Tribe, the Superintendent may also approve an agreement between the lessor and the lessee(s) rescinding a unit (blanket lease) and restoring to their original status the Form B leases theretofore merged in the unit lease: *Provided*, That if oil is being produced in paying quantities on a particular quarter section tract on the date of approval of such agreement, the lessee shall be entitled to hold such tract under the terms of the original Form B lease so long as oil is produced on said tract in paying quantities.

§ 180.51 *Well location fees.* • • •

(b) Where the surface owner is a restricted Indian, adult or minor, well location fee shall be paid to the Superintendent of the Osage Agency for such Indian. All other surface owners, whether Indians or whites, shall be paid or tendered such fees direct, and where such surface owners are not residents of Osage County nor have a representative located therein, such payments shall be made or tendered by check, postage prepaid, to last known address of said surface owner at least 5 days before commencing drilling operations on any well: *Provided*, That should the lessee be unable to reach the owner of the surface of the land for the purpose of tendering the location fee, or if owner of the surface of the land upon being tendered the location fee by the lessee, shall refuse to accept the same, the lessee may tender the location fee to the Superintendent of the Osage Agency, and if the lessee and the Superintendent shall agree upon the amount of the location fee, the lessee shall deposit such amount with the Superintendent for payment to the owner of the surface of the land upon demand, and the Superintendent shall thereupon advise the owner of the surface of the land by mail at his last known address, that the location fee is being held for payment to him upon his request.

(Sec. 3, 34 Stat. 543)

CLARENCE A. DAVIS,
Acting Secretary of the Interior.

DECEMBER 22, 1955.

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter C—Employment Taxes

[T. D. 6155]

PART 31—EMPLOYMENT TAXES; APPLICABLE ON AND AFTER JANUARY 1, 1955

On October 12, 1955, a notice of proposed rule making regarding the regulations under sections 3401 (a), 6001, and 6051 of the Internal Revenue Code of 1954 was published in the FEDERAL REGISTER (20 F. R. 7610) in order to provide rules with respect to payments made after December 31, 1955, of amounts subject to section 105 (d) of the 1954 Code. After consideration of the relevant suggestions presented by interested parties

regarding the proposed rules, the following regulations are hereby adopted:

§ 31.3401 (a) *Statutory provisions; definitions; wages.*

SEC. 3401. *Definitions*—(a) *Wages.* For purposes of this chapter, the term "wages" means all remuneration (other than fees paid to a public official) for services performed by an employee for his employer, including the cash value of all remuneration paid in any medium other than cash; except that such term shall not include remuneration paid—• • •

§ 31.3401 (a)–1 *Wages.* • • •

(b) *Certain specific items.* • • •

(8) *Amounts paid under wage continuation plans.* • • •

(ii) *Amounts paid after December 31, 1955*—(a) *In general.* The term "wage continuation payment", as used in this subdivision, means any payment to an employee which is made after December 31, 1955, under a wage continuation plan (as defined in § 1.105–4 (a) of the Income Tax Regulations (26 CFR Part 1)) for a period of absence from work on account of personal injuries or sickness, to the extent such payment is attributable to contributions made by the employer which were not includible in the employee's gross income or is paid by the employer. Any such payment, whether or not excluded from the gross income of the employee under section 105 (d), constitutes "wages" (unless specifically excepted under any of the numbered paragraphs of section 3401 (a) or under section 3402 (e)) and withholding thereon is required except as provided in (*b*) and (c) of this subdivision.

(*b*) *Amounts paid by employer for whom services are performed.* Withholding is not required with respect to any or all employees upon the amount of any wage continuation payment made to an employee directly by the employer for whom he performs services to the extent that such payment is excludable from the gross income of the employee under section 105 (d), provided the records maintained by the employer—

(*1*) Separately show the amount of each such payment and the excludable portion thereof, and

(2) Contain data substantiating the employee's entitlement to the exclusion provided in section 105 (d) with respect to such amount, either by a written statement from the employee specifying whether his absence from work during the period for which the payment was made was due to a personal injury or whether such absence was due to sickness, and, if the latter, whether he was hospitalized for at least one day during this period; or by any other information which the employer reasonably believes establishes the employee's entitlement to the exclusion under section 105 (d).

Employers shall not be required to ascertain the accuracy of the information contained in any written statement submitted by an employee in accordance with (2) above. For purposes of this subdivision, computation of the amount excludable from the gross income of the employee under section 105 (d) may be made either on the basis of the wage continuation payments which are made directly by the employer for whom the employee performs services, or on the basis of such payments in conjunction with any wage continuation payments made on behalf of the employer by a person who is regarded as an employer under section 3401 (d) (1).

(c) *Amounts paid by person other than the employer for whom services are performed.* No tax shall be withheld upon any wage continuation payment made to an employee by or on behalf of a person who is not the employer for whom the employee performs services but who is regarded as an employer under section 3401 (d) (1). For example, no tax shall be withheld with respect to wage continuation payments made on behalf of an employer by an insurance company under an accident or health policy, by a separate trust under an accident or health plan, or by a State agency from a sickness and disability fund maintained under State law.

(*d*) *Cross references.* See sections 6001 and 6051 and the provisions thereunder in Subpart G of the regulations in this part for rules with respect to the records which must be maintained in connection with wage continuation payments and for rules with respect to the statements which must be furnished an employee in connection with wage continuation payments, respectively. See also section 105 and the provisions thereunder in the Income Tax Regulations (26 CFR Part 1).

§ 31.6001 *Statutory provisions; notice or regulations requiring records, statements, and special returns.*

SEC. 6001. *Notice or regulations requiring records, statements, and special returns.* Every person liable for any tax imposed by this title, or for the collection thereof, shall keep such records, render such statements, make such returns, and comply with such rules and regulations as the Secretary or his delegate may from time to time prescribe. Whenever in the judgment of the Secretary or his delegate it is necessary, he may require any person, by notice served upon such person or by regulations, to make such returns, render such statements, or keep such records, as the Secretary or his delegate deems sufficient to show whether or not such person is liable for tax under this title.

§ 31.6001–5 *Additional records in connection with collection of income tax at source on wages.* (a) Every employer required under section 3402 to deduct and withhold income tax upon the wages of employees shall keep records of all remuneration paid to such employees. Such records shall show with respect to each employee—

• • • • •

(12) In the case of the employer for whom services are performed, with respect to payments made directly by him after December 31, 1955, under a wage continuation plan (as defined in § 1.105–4 (a) of the Income Tax Regulations (26 CFR Part 1))—

(i) The beginning and ending dates of each period of absence from work for which any such payment was made; and

(ii) Sufficient information to establish the amount and weekly rate of each such payment.

§ 31.6051 *Statutory provisions; receipts for employees.*

SEC. 6051. *Receipts for employees*—(a) *Requirement.* Every person required to deduct and withhold from an employee a tax under section 3101 or 3402, or who would have been required to deduct and withhold a tax under section 3402 if the employee had claimed no more than one withholding exemption, shall furnish to each such employee in respect of the remuneration paid by such person to such employee during the calendar year, on or before January 31 of the succeeding year, or, if his employment is terminated before the close of such calendar year, on the day on which the last payment of remuneration is made, a written statement showing the following:

(1) The name of such person,

(2) The name of the employee (and his social security account number if wages as defined in section 3121 (a) have been paid),

(3) The total amount of wages as defined in section 3401 (a),

(4) The total amount deducted and withheld as tax under section 3402,

(5) The total amount of wages as defined in section 3121 (a), and

(6) The total amount deducted and withheld as tax under section 3101.

(b) *Special rule as to compensation of members of Armed Forces.* In the case of compensation paid for service as a member of the Armed Forces, the statement shall show, as wages paid during the calendar year, the amount of such compensation paid during the calendar year which is not excluded from gross income under chapter 1 (whether or not such compensation constituted wages as defined in section 3401 (a)); such statement to be furnished if any tax was withheld during the calendar year or if any of the compensation paid is includible under chapter 1 in gross income.

(c) *Additional requirements.* The statements required to be furnished pursuant to this section in respect of any remuneration shall be furnished at such other times, shall contain such other information, and shall be in such form as the Secretary or his delegate may by regulations prescribe.

(d) *Statements to constitute information returns.* A duplicate of any statement made pursuant to this section and in accordance with regulations prescribed by the Secretary or his delegate shall, when required by such regulations, be filed with the Secretary or his delegate.

§ 31.6051–1 *Statements for employees*—(a) *Requirement if wages are subject to withholding of income tax*—(1) *General rule.* • • •

(iii) In the case of statements furnished by the employer for whom services are performed, with respect to wages paid after December 31, 1955, "the total amount of wages as defined in section 3401 (a)", as used in section 6051 (a) (3), shall include all payments made directly by such employer under a wage continuation plan which constitute wages in accordance with § 31.3401 (a)–1 (b) (8) (ii) (*a*), without regard to whether tax has been withheld on such amounts.

(Secs. 6051, 7805, 68A Stat. 747, 917; 26 U. S. C. 6051, 7805)

[SEAL] RUSSELL C. HARRINGTON,
Commissioner of Internal Revenue.

Approved: December 27, 1955.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 92—TRANSPORTATION OF MAIL BY RAILROADS

PART 93—TRANSPORTATION OF MAIL BY URBAN AND INTERURBAN ELECTRIC RAILWAY COMMON CARRIERS

PART 96—AIR CARRIERS

Parts 92, 93, and 96 are revised to read as follows:

PART 92—TRANSPORTATION OF MAIL BY RAILROADS

COMPREHENSIVE PLAN OF THE POSTMASTER GENERAL FOR THE TRANSPORTATION OF UNITED STATES MAIL BY RAILROAD

Sec.
92.1 Transportation of the mail.
92.2 Classes and nature of service.
92.3 Authorizations.

REGULATIONS

92.4 Definitions.
92.5 Authorizations.
92.6 Space requirements and determinations.
92.7 Construction and maintenance of RPO cars.
92.8 Services provided by railroad.
92.9 Handling of mail.

AUTHORITY: §§ 92.1 to 92.9 issued under R. S. 161, 396, secs. 1, 5, 39 Stat. 419, 425–431, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 39 U. S. C. 523–541, 542–568.

COMPREHENSIVE PLAN OF THE POSTMASTER GENERAL FOR THE TRANSPORTATION OF UNITED STATES MAIL BY RAILROAD

§ 92.1 *Transportation of the mail.* (a) All railway common carriers engaged in the transportation of United States mail shall transport such mail in the manner, under the conditions, and with the service prescribed by the Post Office Department, and otherwise in accordance with the provisions of the Railway Mail Pay Act of 1916.

(b) Any railway common carrier desiring to be relieved of the transportation of the mail may make application to the Post Office Department accordingly, and consideration will be given to the granting of its request in whole or in part as the needs of the Postal Service will permit.

(c) Mail shall be carried upon such trains as the Post Office Department shall designate from time to time in the interest of the Postal Service, and the character of trains carrying the mails shall be that of the pasenger train operating between passenger or mail handling facilities. When required by the interests of the Postal Service, the Department may provide for the movement of mail between passenger or special mail handling facilities in other than passenger trains.

(d) The transit time of trains upon which mail is transported shall be that which is maintained by the carriers for their general transportation business in connection with their published schedules.

(e) Each railway common carrier engaged in the transportation of mail is required to furnish such cars as are necessary for the service authorized by the Post Office Department.

§ 92.2 *Classes and nature of service.* (a) *Classes of service.* The service shall be of the following classes:

(1) *Full railway post office car service.* Service of this class shall be authorized in standard cars, 60 feet in length, inside measurement, constructed and fitted in accordance with the plans and specifications approved by the Post Office Department for the handling, distribution, storage, and delivery of mail by postal transportation clerks. The requirements for service in such cars shall include the sanitation, cleaning, heating, lighting, and the furnishing of ice and drinking water, both in terminals and en route. When required, such cars shall be suitably placed and made available for advance distribution before train departure.

(2) *Railway post office apartment car service.* Service of this class shall be authorized in standard apartments, 30 and 15 feet in length, inside measurement. The apartment shall be separated from the remainder of the car by a partition. The requirements for service are essentially the same as in full railway post office cars with respect to construction and furnishings, sanitation, cleaning, heating, lighting, furnishing of ice and drinking water, and the placing of apartment cars for advance distribution.

(3) *Storage car service.* Service of this class shall be authorized in standard cars, 60 feet in length, inside measurement, except as hereinafter provided, used exclusively for mails. This service is the transportation and handling of made-up mails in bulk and the requirements for this service shall include the maintenance and cleaning of the cars. The handling of mail into and from all storage cars shall be performed by employees of the railroad companies under instructions of postal employees with respect to proper routing and separation of mails.

(4) *Lesser storage unit service.* Service of this class shall be authorized in less than full-car units of space in mixed traffic, combination, or other cars. This service shall be the transportation and handling of mails of the same type as those handled in storage cars. The requirements for lesser storage unit service are the same as for service in storage cars.

(b) *Nature of services.* The services which the railroads are to render in connection with mail transportation shall be as follows:

(1) Railroad companies are required to perform all necessary switching of cars; to load all mail into cars so as to obtain maximum utilization of the space authorized, including the proper separation, piling, and storing of such mail; and to unload mail from all cars. Handling of all mail within railway post office cars and apartments shall be performed by postal transportation clerks.

(2) Railroad companies are required to transfer all mails between cars in the same train were such transfers are necessary and required by the Post Office Department.

(3) Railroad companies are required to take mails in transit from and deliver them to Government employees and contractors at an accessible point at railroad stations for transfer to and from post offices or railroad stations, and to transfer mails between trains operating into and out of the same railroad station, as required by the Post Office Department.

(4) Railroad companies are required to furnish all necessary facilities for caring for and handling mails, including suitable and adequate space and rooms in their stations for storing and transfer of mails in transit. They shall also furnish suitable and adequate office space for transfer clerks of the Postal Transportation Service when required by the Post Office Department.

(5) Railroad companies are required to transport without extra charge the persons in charge of the mails and the agents and officers of the Post Office Department and Postal Transportation Service, under the conditions prescribed by law and regulations pursuant thereto.

(6) Railroad companies are required to construct, light, and maintain mail cranes and other adequate facilities for the exchange of mails at points or stations on the run where the train does not stop and exchange of mails is necessary.

(7) Railroad companies are required to take the mails from their railroad terminals and stations and deliver them into post offices, postal stations, and Postal Transportation Service terminals; take the mails from post offices, postal stations, and Postal Transportation Service terminals, and deliver them into their railroad terminals and stations; and take the mails from their stations and deliver them into other railroad stations where the distance does not exceed 80 rods, unless other provision for this service is made by the Post Office Department.

§ 92.3 *Authorizations*—(a) *General.* (1) The anticipated space needs of the Department shall be reflected by regular authorizations which shall be restricted to the needs of the service between established railway passenger or freight division points or junctions. Regular authorizations shall be determined in accordance with such instructions as may be issued by the Postmaster General. Regular authorizations for railway post office cars and railway post office apartments shall remain in effect unless and until modified as provided in this section. Regular authorization for other classes of service shall be effective for a period of one calendar month, subject to modification or cancellation of service as provided in this section.

(2) Excess service may be requested of railroad companies in trains in which no unit of space is regularly authorized or in trains in which the regularly authorized space is inadequate to accommodate the mails available for dispatch. Requests for excess service shall be restricted to the needs of the Service and shall be made in accordance with the instructions issued by the Postmaster General.

(3) Railroad companies are required to anticipate the needs for service only to the extent of the regular space authorizations. Where there are excess mails and baggage or express or both to

be loaded, and the available space is not sufficient to accommodate all, the mails must be given preference. Railroad companies will not, however, be required to unload baggage or express in order to provide space for the excess mail.

(4) The class, frequency, and distance of service to be authorized shall be determined in accordance with the needs of the Postal Service and under such rules and regulations or instructions as shall be prescribed by the Postmaster General.

(b) *Equipment.* (1) Authorization for railway post office cars shall be for cars of the standard length of 60 feet. Authorizations for railway post office apartments shall be for the standard lengths of 30 or 15 feet, as the needs of the Postal Service require. If a railroad company is unable to furnish standard railway post office cars and apartment cars, the Department may accept nonstandard railway post office equipment as a convenience to the carriers provided compensation not exceeding pro rata pay is accepted for the facilities furnished. Any deficiency may be provided in another car in the train when necessary and in such case full pay will be made for the standard car authorized.

(2) The Department does not require and will not authorize railway post office equipment longer than the standard lengths specified herein. However, as a convenience to the carriers, and to enable them to obtain revenue from the operation of space which otherwise might be unused, the Department will accept the excess space beyond the standard lengths authorized for the accommodation of lesser storage unit service when needed.

(3) Cars in excess of 60 feet in which a railway post office unit of 60 feet is partitioned from the remainder of the car may be accepted to fulfill an authorization for a railway post office car of 60 feet.

(4) When a railroad company is unable to furnish cars of the standard length authorized for storage car service, the Department may accept cars less than 60 feet in length, inside measurement, provided compensation not exceeding pro rata pay is accepted for the length of the car furnished. The Department may accept storage cars of greater length than the standard, provided compensation not exceeding pro-rata pay is accepted in accordance with rules and regulations of the Postmaster General.

(c) *Modification of authorizations.* (1) Authorizations for full railway post office car service and railway post office apartment service shall be subject to modification at any time to provide for new and additional service, discontinuance of service, or reduction in service.

(2) Regular authorizations for storage car service and lesser storage unit service shall not be discontinued or reduced during the calendar month unless discontinuance or reduction in the service is necessitated by service changes. Regular authorization for storage car service and lesser storage unit service shall be subject to modification at any time to provide for new and additional service.

(3) Requests for excess service may be made at any time during the calendar month.

(d) *Cancellations.* (1) Whenever there is insufficient mail on any day to warrant the operation of a full storage car, the regular authorization may be cancelled by a representative of the Post Office Department at the initial point of the run of the car. Reasonable advance notice of such cancellation shall be given to the railroad company at the initial point of the run of the car to permit the car to be removed from the train.

(2) Authorizations for classes of service other than full storage car service shall not be cancelled during the calendar month.

REGULATIONS

§ 92.4 *Definitions.* (a) "Railroad" refers to railway common carriers and does not refer to urban and interurban electric railway common carriers.

(b) "RPO" means a railway post office.

(c) "Regularly authorized service, regular authorization," and "regular service" are synonymous terms and refer to service authorized by formal orders issued by the Post Office Department.

(d) "Excess service, excess space, additional service," and "emergency service" are synonymous terms and refer to service which temporarily becomes necessary in a train.

(e) "Train date:" When a train arrives at its destination on the day following departure from the initial point, the date the train is due to leave the initial point of the RPO designation shall be used as the date for all service performed in the train. Each RPO division shall be considered separately in cases where the RPO line is divided into east, middle and west, or north and south divisions.

§ 92.5 *Authorizations*—(a) *Establishment or extension of service.* Regional Transportation Managers shall make recommendations and furnish supporting facts to the Post Office Department concerning the necessity of establishing service on a new railroad, extending service on an existing route, and increasing or decreasing space on a route to conform properly to the mail carried.

(b) *Regular service*—(1) *Formal orders.* Regular service is authorized through formal orders issued by the Post Office Department. Mail must not be carried on any railroad on which mail service has not been authorized.

(2) *Authorized monthly.* (i) The regular unit of an original authorization shall be the smallest unit that will accommodate the mail on 50 percent or more of the trips in any calendar month on the days of the week on which mail is regularly carried.

(ii) Whenever a regular authorization of less than 30 feet of storage space is exceeded on more than 50 percent of the trips in any calendar month:

(*a*) But not beyond the capacity of a 30-foot unit, the appropriate higher unit of 30 feet or less which would have accommodated the mail on 50 percent or more of the trips shall be authorized.

(*b*) Beyond the capacity of a 30-foot unit, a full storage car of appropriate length of 60 or 70 feet shall be authorized on the days of the week on which the lesser storage unit is exceeded on more than 50 percent of the trips on such days.

(iii) Whenever a regular authorization of 30 feet of storage space is exceeded on more than 50 percent of the trips on a particular day of the week in any calendar month, a full storage car of the appropriate length of 60 or 70 feet shall be authorized on such day.

(iv) A regular authorization of 30 feet or less shall be reduced to the appropriate smaller unit which would have accommodated the mail on more than 50 percent of the trips in any calendar month.

(v) A regular authorization of a full storage car shall be reduced:

(*a*) From a 60-foot car to the appropriate lesser storage unit on any day of the week on which a lesser storage unit would have accommodated the mail on more than 50 percent of the trips on such days of the week in any calendar month.

(*b*) From a 70-foot car to a 60-foot car or the appropriate lesser storage unit on any day of the week on which a 60-foot storage car or a lesser storage unit would have accommodated the mail on more than 50 percent of the trips on such days of the week in any calendar month.

(vi) Where 70-foot cars are regularly operated and more than 60 feet of storage space is regularly needed for the accommodation of mail in a 70-foot exclusive car, a 70-foot car shall be authorized on the days of the week on which such car was needed.

(vii) Where mail is carried from the initial terminal in several cars in a train and the cars are diverged to different lines or set out at some point on the run, a unit of space of sufficient size to accommodate all mail transported in the several cars shall be authorized from the initial point to the point of divergence or set out. Where the volume of mail exceeds the capacity of a storage car, a storage car and an appropriate lesser unit shall be authorized.

(viii) An authorization shall be restated to include or omit a particular day of the week when during the previous calendar month:

(*a*) No service was authorized and mail was carried on more than 50 percent of the trips on such a day.

(*b*) Service was regularly authorized and no mail was carried on 50 percent or more of the trips on such a day.

Regular authorizations of all classes of service shall be omitted on holidays and days after holidays when service is not needed on such days. When a holiday falls on a Sunday and is observed on the following Monday, the holiday will be considered as applying to the Monday date.

(ix) Only mail considered as regularly due a train shall be taken into account in setting up regular authorizations under the application of the 50 percent rule.

(x) Changes in regular authorizations, based upon the operation of the 50 percent rule, in any month, except December, shall become effective on the first day of the succeeding month.

(c) *Excess service*—(1) *Requests.* Excess service is authorized by special request of a representative of the Postal Transportation Service or by action of a railroad representative at points where there is no representative of the Postal Transportation Service as provided in subdivision (vi) of this subparagraph. Observe the following when requesting additional space:

(i) At points where a designated postal representative is available and the regularly authorized space in a train is inadequate to accommodate all mail offered for dispatch on a particular trip, the designated postal representative must notify the railroad that additional space is needed at the point where the excess mail is to be loaded.

(ii) When an additional or excess full storage car is needed, the postal representative must:

(*a*) Request the railroad (at the point where the car is needed) to provide an additional 60- or 70-foot car, as appropriate.

(*b*) Name the established railway passenger or freight division point or junction to which the car is to be run.

(*c*) Inform the car supervisor (in the case of an RPO train) of the point to which the additional car is requested, so that its use may be discontinued at that point.

(iii) An additional or excess car must not be terminated at a point intermediate to the point designated in the original request.

(iv) When excess mail is carried in two or more cars in a train, a single request must be made for a unit of sufficient size to cover the entire excess carried. This does not affect the provisions governing requests for a 60-foot storage car in lieu of a lesser unit, or for a 70-foot storage car in lieu of a 60-foot storage car or a lesser unit.

(v) Requests by postal representatives for excess space and cars shall be made to a responsible representative of the railroad at the point where excess mail develops. The space used must be shown on Form 5121, Daily Report of Destination and Destination-Relay Cars, and Form 5122, Daily Report of Working Storage Cars and Lesser Storage Units. Form 5365, Record of Excess Space, must be issued to cover excess space required.

(vi) At points where there is no representative of the Postal Transportation Service, the baggageman on a train on which space is regularly authorized must accept and count all mail. The railroad must issue Form 5369, Report of Mail Carrier in Excess of Space Authorized, to show the number of pieces of excess mail and the points between which they were carried and, if from a missed connection, whether from a train of the same railroad.

(2) *Date on excess space request.* A request for excess space in a train must bear the date of issuance at the top and the train date in the body of the form. See § 92.4 (e).

(3) *Mail to be carried only on authorized trains.* A railroad must not carry mail on a train on which there is no regularly authorized space, unless emergency space is authorized by proper representative of the Postal Transportation Service. Where conditions warrant, a postmaster may be authorized by a regional or district transportation manager to request excess space in a train with no regularly authorized space. The railroad must be informed of the issuance of such authority.

(d) *Storage car service*—(1) *Mail carried in mixed traffic cars under storage car authorizations.* Where mail is carried in mixed traffic cars under a storage car authorization, either regular or excess, and an exclusive car is not furnished, pro rata payment will be based on the mail carried except when:

(i) More than 30 feet, line haul payment will not be less than the rate for a 30-foot lesser storage unit.

(ii) 30 feet or less, line haul payment will be made for the appropriate lesser storage unit.

(2) *Storage car cut out at intermediate point.* Where it is necessary to cut out a storage car at an intermediate point on its run on account of accident or other operating reason and the car is subsequently operated through to destination in service on a following train, full payment will be allowed. However, no payment will be allowed for a unit of excess space which becomes necessary on the regular train because of the withdrawal of the regular storage car, unless the quantity of mail carried in the excess unit is more than that which could have been accommodated in the regularly authorized storage car.

(e) *Diversion of mail from one train to another.* Where, because of the diversion of mail from one train to another, the size of the authorized unit of storage space is increased or decreased on a date other than the first day of any month (except December), changes in space authorizations under the 50 percent rule shall:

(1) Be made on the basis of the mail carried from the date the size of the unit was changed to the last day of the month provided that the number of days in such period is not less than 14; and

(2) Become effective on the first day of the succeeding month.

(f) *Allowances for missed connections.* When a delayed connection between trains of the same railroad causes mail due on one train to be dispatched on a following train, transportation of the mail is considered as in lieu of part of the service required on the first train. Additional pay will not be allowed for either train unless the quantity of mail carried in both trains exceeds that which could have been accommodated in the space regularly authorized.

(g) *Service by other than regular train.* The transportation of mail by a railroad on a different train than that on which the same railroad is regularly authorized to carry it will be considered as in lieu of the regularly authorized service when for operating reasons it is dispatched:

(1) On an earlier train;

(2) On another train but over a different line;

(3) On a special or extra train, made up to depart either at the time of the regular train or after arrival of the delayed connection, when the mail carried is that which would have been carried on the regular train if its schedule had been maintained; or

(4) On a subsequent train in which space is not regularly authorized, upon annulment of the regular train.

Additional pay will not be allowed unless the quantity of mail carried exceeds that which could have been accommodated in the space regularly authorized.

(h) *Service by fast train for forwarding or returning to a local point.* When mail is delivered by fast train at a certain point from which it is forwarded or returned on a local train to a local point, a unit of space will be authorized in the local train to carry such mail. When mail is dispatched on a local train from a local station and delivered to a fast train at a certain point, an appropriate unit of space will be authorized in the local train. However, when a railroad desires to forward mail on a train not due to receive it from one station to another station for dispatch from the latter station, permission may be granted with the understanding that the movement shall be without additional compensation and that no delay will result to the mail.

(i) *Combined service by railroad and vessel.* Where service is operated by a railroad partly by rail and partly by vessel and a postal transportation clerk accompanies the mail over the entire run, the line haul rate allowable on the rail mileage shall apply to the vessel mileage. If the clerk does not accompany mail over the water part of the route, that part of the route shall be authorized as storage service.

§ 92.6 *Space requirements and determinations*—(a) *Space requirements*—(1) *Standard full and apartment RPO cars.* Storage space requirements in full and apartment RPO cars, based on standard plans dated April 1, 1949, are as follows:

Car size:	Linear feet of storage space
60'	11' 10''
30' Apt	4' 9''
15' Apt	3' 2''

(2) *Nonstandard and oversize RPO cars.* (i) Where a RPO car of lesser length than the unit authorized is furnished and such car provides sufficient distributing facilities for the particular run of the car, pro rata pay will be allowed on the basis of the length of the car furnished as compared with the authorized unit. Where distributing facilities are deficient, a railroad must install such additional facilities as are necessary on the particular run of the car involved.

(ii) Where an RPO car of greater length than the unit authorized is operated and the available storage space in the car in addition to that provided under the authorization is used to capacity, the

additional space provided shall be considered to be as follows:

Size of car operated	In lieu of authorization for—	Additional space provided (measurement basis)
70′	60′	10′
60′	30′	18′
30′	15′	8′ 3″

(iii) Where the authorization provides for a 30- or 15-foot apartment car, all racks not due under such authorizations must be placed in nonuse position to provide storage space.

(iv) Full payment will be allowed for a passageway or part-width apartment car operated in lieu of a standard apartment car if the number of square feet of floor space provided is equal to or greater than that in a standard car of the size authorized. Pro rata pay will be allowed, on the basis of the square feet of floor space provided, where the floor space is less than that in a standard car. Where there is a deficiency in storage space and the entire deficiency is needed and is made up in another part of the train, full payment will be allowed on the basis of the number of square feet of floor space furnished in the train.

(v) Where a railroad is unable to furnish a standard full or apartment RPO car and operates a nonstandard car in lieu of that authorized, pro rata pay is allowed on the basis of the storage space furnished as compared with that due. When necessary, the entire deficiency may be made up in another part of the train and full payment allowed. Any deficiency in storage space in the nonstandard full or apartment RPO car must be taken into account in determining the size of an additional unit of storage space needed.

(b) *Space determinations*—(1) *In oversize RPO cars.* Space in an oversize car shall be determined as follows:

(i) Lesser storage units accommodated in the excess space in an oversize RPO full or apartment car must be determined by count. Payment shall not be allowed in any case for more than the actual inside length of the car.

(ii) When an oversize full or apartment RPO car is furnished to fill an authorized unit of RPO car space of 30 feet or 15 feet, respectively, the clear storage space under the authorization must be determined by count. The pieces due must be based on the storage space requirements in standard RPO cars under the specifications dated April 1, 1949, and the results of the biennial tests.

(iii) In addition to the clear storage space due under the authorization, the space in front of the doors and the aisles in the car is considered available for the accommodation of storage mail to the extent that such space would be available in a standard car of the unit authorized.

(iv) New or remodeled full or apartment RPO cars shall not be considered deficient in storage space where the clear storage space has been decreased by the installation of new or larger interior equipment.

(2) *In lesser storage units.* The number of linear feet needed on both sides of baggage, storage, or oversize RPO or apartment cars for carrying the mail in lesser storage units of 3, 6, 9, 12, 15, 18, 21, 24, 27, and 30 feet shall be determined on the basis of the number of pieces (sacks and outside parcels combined) that will fill 3 linear feet of space on both sides of the car as determined in the last biennial test. Where the space unit is determined by count, each box of baby chicks shall be considered equivalent to one piece. Payment shall not be allowed in any case for more space than the actual inside length of the car.

(3) *Where mail is carried in several cars.* Where mail is carried in two or more cars in the same train under a storage car authorization, either regular or excess, the volume of mail in a car must be determined by:

(i) Count, when the linear feet of space occupied by the mail is 30 feet or less.

(ii) Measurement, when the linear feet of space occupied by mail is more than 30 feet.

(iii) Measurement, in exceptional cases where the linear feet or space occupied by the mail is 15 feet or more, when mutually agreed to by the Department and the railroad.

(4) *Where mail is carried in baggage cars.* Where a postal transportation clerk is not on duty in an authorized RPO car until an intermediate point is reached, and mail is carried in a baggage car for the railroad's convenience from the point of authorization to the intermediate point, the space in the baggage car is considered in lieu of space in the RPO car. No additional authorization is made.

(5) *Measurement of cars.* Under the specifications for the construction of RPO cars dated April 1, 1949, the following deductions will be made for space occupied by letter cases, racks, boxes and other interior fittings which are not removed when the RPO cars are used as storage cars.

Car size	Car plan	Deductions in linear feet
60′	R	12′
	T	20′
	T–1	22′
	T–2	24′
30′ Apt.	S	7′
	W	11′
15′ Apt.	X	4′

§ 92.7 *Construction and maintenance of RPO cars*—(a) *Construction*—(1) *Standards.* (i) New full and apartment railway post office cars shall be constructed of steel or an equally indestructible material, and conform to the Departmental specification approved April 1, 1949, and any subsequent modification thereof, in construction and arrangement.

(ii) Full and apartment railway post office cars previously accepted for service shall be brought up to standards of the current specification mentioned, in all material respects, wherever operating conditions render strengthening, standardization, or improvements necessary. Approval must be obtained from the Director, Division of Railway Transportation, before any changes are made in construction or fixtures.

(iii) Cars originally built for other traffic are not acceptable for conversion to full and apartment railway post office cars unless they are constructed or reconstructed to fully meet Departmental specifications. All conversions of this type must be approved by the Director, Division of Railway Transportation, before work is started.

(iv) Post Office Department Form 5292, Certificate of Construction, shall be furnished to the Director, Division of Railway Transportation, for each new and rebuilt steel or steel underframe mail car, by the principal mechanical officer of the railroad.

(v) The ends and underframe of steel underframe apartment railway post office cars shall conform to the Departmental specification for all-steel cars. The section moduli of the metal vertical and members shall not be less than 65, distributed as required by the specification.

(vi) Superstructure of steel underframe cars shall conform to former Plan No. 1, or the specification of August 25, 1914, when reinforced by metal vertical end members. Steel shapes may be used as framing members of the superstructure. Steel sheathing applied to the superstructure on the outside of the car shall not be rated as an additional strength factor.

(vii) Cars that do not meet the above underframe and superstructure requirements shall not be rated as "steel underframe."

(2) *Use of steel and steel underframe cars.* (i) Cars operated in full railway post office authorizations shall be of all-steel construction.

(ii) Only apartment railway post office cars of steel construction shall be operated in trains where a majority of the cars are of steel construction.

(iii) Steel underframe railway post office apartment cars shall not be operated between steel cars, nor between the locomotive and a steel car adjoining, nor in any train where a majority of the cars in the train are of steel construction. Except as provided in subdivisions (iv) and (v) of this subparagraph, all railway post office apartment cars shall be at least equal in construction strength to a majority of the other cars in the train.

(iv) Steel underframe railway post office apartment cars shall be substantially equal in construction to former plan No. 1 or the specification of August 25, 1914, for mainline operation in heavy trains (more than four cars) or on fast schedules (averaging more than 27 miles per hour between termini). Steel underframe railway post office apartment cars having suitable reinforcement on both ends, but only limited reinforcement on the longitudinal sills, may be operated in branch line trains or in light trains (not exceeding four cars) on main lines where the average speed is not more than 27 miles per hour.

(v) Steel underframe railway post office apartment cars operated in

"mixed" trains or as trailers to self-propelled cars shall be substantially equal in construction to former plan No. 1 or the specification of August 25, 1914. In "mixed trains" the railway post office car shall be operated in the rear-end consist, followed only by a passenger coach or caboose. Full-length metal draft gear shall be applied to these cars when deemed necessary.

(vi) One or more cars shall be operated between the locomotive and the railway post office car when practicable.

(3) *Inspection by departmental representatives.* (i) New, rebuilt and repaired railway post office cars shall be inspected by representatives of the Department in accordance with instructions issued by the Director, Division of Railway Transportation.

(ii) Railroad and car-building companies shall advise the Director, Division of Railway Transportation, concerning proposed new construction or rebuilding of railway post office cars and the dates when such cars will be ready for inspection.

(iii) Railroad companies shall notify the proper Regional Transportation Manager when cars are received at any of their shops for repairs, so that a representative from the Regional Transportation Manager's office may inspect such cars and call attention of needed repairs and improvements. Notice shall also be given as to the date cars are to be "outshopped", so that an inspection may be made by the Regional Transportation Manager's representative if considered necessary.

(iv) Railroad companies shall not "outshop" or return to service any full or apartment railway post office car unless requested changes, improvements and repairs have been made in a manner that is acceptable to the Postal service.

(b) *Maintenance*—(1) *Water and sanitation.* (i) Drinking water containers installed in full and apartment railway post office cars shall be of a type which conforms to the standard fixtures specification and has been approved by the Director, Division of Railway Transportation and the United States Public Health Service.

(ii) Drinking water shall be furnished in accordance with the requirements and standards of the United States Public Health Service.

(iii) Fresh water and ice shall be supplied at all times in railway post office cars being used for the distribution of mail.

(iv) Flushing hoppers shall be installed in new and rebuilt full and apartment railway post office cars in accordance with the standard fixtures specification. Flushing hoppers shall be installed in old cars in a manner considered satisfactory by the Director, Division of Railway Transportation.

(v) Toilet paper shall be provided in all cars.

(vi) The water coolers, hoppers and fixtures in railway post office cars shall be thoroughly cleaned after each trip and en route, as often as may be necessary, when in continuous service for more than 24 hours.

(2) *Lighting and heating.* (i) All cars and parts of cars used in mail service shall be equipped with light fixtures, and adequately lighted in accordance with the standard specification, including auxiliary lights for use when there is a primary lighting system failure.

(ii) Railway post office cars or apartments shall be lighted by electricity as the primary system when any of the passenger, baggage, or express cars regularly operated in a train are lighted by electricity.

(iii) When the primary lighting system fails to provide sufficient illumination to complete distribution for a period of more than 30 minutes, it shall be regarded as a total light failure. When insufficient light retards or renders distribution difficult for a period of 30 minutes or less, it shall be regarded as a partial light failure.

(iv) A storage battery of the required capacity shall be provided on each electrically lighted full or apartment railway post office car whether the car is equipped with an axle-generator or supplied from a head-end system.

(v) Electric fans shall be installed in all electrically lighted full and apartment railway post office cars.

(vi) Heating shall be provided in all full and apartment railway post office cars in accordance with the standard construction specification.

(vii) Guards shall be constructed and installed over heat pipes and radiators as required by the specification, in order to prevent damage to the mail.

(viii) Stoves shall not be installed in full and apartment railway post office cars without the approval of the Director, Division of Railway Transportation. Stoves which are not of a safety type approved by the Department, shall not be accepted as auxiliary heating systems. Such stoves shall be equipped with safety features which include automatic door fastener for the stove doors (double doors preferred), baffle plate to prevent fire or live coals from escaping through the smoke-flue opening, and metal casing to prevent overheating objects which may closely surround the stove.

(3) *Legend to be placed on all RPO cars.* (i) Full and apartment railway post office cars shall be lettered on the outside in accordance with the specification for railway post office cars. Cars, or parts of cars, bearing the legend "United States Mail," or "U. S. Mail," shall be reserved exclusively for carrying the mail and shall not be used for other classes of traffic.

(ii) Two properly framed "No admission" notices shall be placed in each full railway post office car, and one notice in each apartment post office car. These notices shall be located where they may be readily observed on entering the cars at the side doors.

§ 92.8 *Services provided by railroads*—(a) *Railroad employees*—(1) *To load and unload mail.* A railroad must furnish the necessary employees to handle mail, to load and pile mail into and unload mail from storage and baggage cars except as provided in § 92.9 (c) (3) and (d), and to load mail into and receive mail from doorways of RPO cars. Mail intended for delivery to a postal transportation clerk must not be placed in an RPO car unless a postal transportation clerk or an authorized postal representative is on duty.

(2) *As agents of railroads.* Persons employed to handle mail where a railroad is required to receive and deliver mail from post offices or postal stations or to transfer mail to connecting railroads must be regarded as agents of the railroad and not employees of the Postal Service. They need not be sworn but must be of suitable character and intelligence and more than 16 years of age. Postmasters must promptly report any violation of this requirement to the Department.

(3) *Restriction on railroad employees.* Train crews must not be permitted to ride in RPO cars while in use, even though an oversize car is furnished.

(b) *Special trains*—(1) *Designation of trains for local service.* A railroad carrying mail must designate one scheduled train in each direction in every 24-hour period to stop for the dispatch and receipt of mail at any station or point serving a post office, unless relieved of this requirement by the Department. The stop may be regularly scheduled or made on appropriate signal by a postmaster or mail messenger or on notice to the conductor by a postal transportation clerk or baggageman. A railroad may be permitted, under conditions approved by the Department, to transport mail by motor vehicle instead of local rail service.

(2) *For those detoured.* (i) When, for any reason, a mail-carrying train is operated between usual termini over a line other than that on which it is regularly operated, payment will be made on the basis of the regular mileage if it is the shorter. If the mileage via the detour is shorter, payment will be made on the basis of the actual mileage traveled.

(ii) When a detour occurs and a special train is operated over part of the regularly authorized run, a railroad will be required to carry in the special train any mail that can be advanced in delivery without additional compensation, if the volume of mail in both trains does not exceed that which could have been accommodated in the regularly authorized space.

(c) *Transfer office facilities.* Railroads shall furnish suitable office space for transfer clerks to perform their duties at points designated by the Department. Such offices must be kept in order by the railroad, lighted, heated, furnished, supplied with ice water, and provided with toilet facilities where such facilities are not otherwise easily accessible.

(d) *Timetables and distance circulars*—(1) *Timetables.* Railroads must forward timetables, not less than 72 hours before taking effect, to the regional and district transportation managers of the Post Office Department having supervision over service on their lines. They must also notify these officials by telegraph if it becomes necessary to annul, curtail, or suspend

service temporarily. Where a representative of the railroad is on duty, he must notify the postmaster as soon as possible after receipt of notice of any change in the schedule of a mail train.

(2) *Distance circulars.* (i) A railroad shall keep the Post Office Department informed at all times of correct mileage distances between all stations, junctions, or points where mail is put on and off trains. The Department shall be notified immediately of any change in trackage or other facility resulting in changes in mileage distances between such points. Such notification shall be made by submission to the Department, in quadruplicate, of a railroad distance circular, Form No. 2504–B, covering that segment of the route affected. The report shall state the correct distances and furnish the effective date of any change. Claims for pay covering the month following that in which changes in mileage distances occurred shall properly reflect the revised mileage distances, retroactive to the date of change.

(ii) In addition to the notification prescribed above a railroad on or before January 1 of each year shall submit to the Department, in quadruplicate, a certificate prepared by the Chief Engineer stating that the mileage distances previously submitted to the Department, including any corrections filed during the previous calendar year, are correct in every respect.

(iii) For purposes of reporting mileage distances to the Department, a railroad shall measure the mileage between stations, junctions, or points where mail is put on and off trains to the nearest hundredth of a mile. The measurement shall be in such a manner that the aggregate of the distances between the individual stations, junctions, or other points where mail is put on or off trains shall not exceed the distance between the origin and destination of the train on which mail is authorized.

(e) *Letter boxes.* Where the public convenience is better served, the Department may authorize a railroad to place letter boxes in its stations for the receipt of first-class mail other than that for local delivery.

(f) *Protection of mail by railroads—*(1) *Facilities for protection.* A railroad is required to furnish all necessary facilities for the proper protection and handling of mail in its custody.

(2) *Handling mail on platforms.* Mail must not be stored on trucks and allowed to stand on platforms at local stations or transfer points unprotected from depredation. When it is necessary to place close-connection mail on trucks to be left standing on platforms, the mail must be in full view of employees of the railroad at all times. The portion of a platform used for loading, unloading, and transfer of mail must be well lighted. Mail being trucked through subways and tunnels must be carefully guarded.

(3) *Holding mail in storage rooms.* Rooms in which mail is stored must be locked except when a railroad employee is on duty. A strong light must be provided above the door, and unauthorized employees or unknown persons shall not be allowed in the vicinity. When necessary at small stations to provide proper protection, mail must be stored in a locked room or in a room where railroad employees are present.

(4) *Exposing mail to weather.* Mail must not be left exposed to weather. Tarpaulins may not be used for protection from weather except in unusual cases or to cover close connection mail being held on station platform trucks.

(5) *While exchanging nonstop station mail.* A railroad employee or other authorized person shall be assigned to guard mail being exchanged at nonstop stations. At nonstop points where a railroad station representative is scheduled to be on duty at the time mail is received or dispatched, he must observe the exchange of mail and, if the pouch is not caught, must retrieve it for proper disposition.

(6) *No smoking in storage cars.* Railroad employees must not smoke or carry lighted cigars, cigarettes, or pipes in storage cars. District transportation managers will take appropriate action with railroad officials in all cases where violations are reported in order to enforce this regulation.

(7) *Reports of failure to comply.* Postal employees must report to the district transportation manager any failures on the part of a railroad to comply with the instructions in this paragraph.

(g) *Withdrawal of car at intermediate point.* (1) Where a RPO car is withdrawn at an intermediate point of its run because of an emergency and mail and clerks are transferred to other cars in the train, payment of the full rate will be allowed to the point of withdrawal. Additional pay will not be allowed for later deadhead operation over the remainder of the run.

(2) From the point of withdrawal to destination, payment will be allowed for the car used:

(i) At a prorate of the RPO car rate based upon the amount of space occupied as compared with the amount superseded when accompanied by PTS clerks.

(ii) At lesser storage unit rates based on the volume of mail carried when in the care of railroad representatives.

(3) A railroad will not be required to cut out an apartment car at an intermediate point on the authorized run of the car to substitute another car used for advance distribution.

(h) *Irregularities.* (1) The Post Office Department may fine a railroad an amount not in excess of the compensation due for the service authorized for failure to furnish an RPO car with sanitary drinking water, adequate toilet facilities, or adequate heat and light; or failure to regularly and thoroughly clean the car, provided the railroad has been given the opportunity to correct the conditions.

(2) The Department may impose fines on railroads for other delinquencies, including:

(i) Allowing the mail, or any part of it, to become wet, lost, injured, or destroyed, or conveying or keeping the mail in a place or manner that exposes it to depredation, loss, or injury.

(ii) Refusing, after demand, to transport mail by any car, boat, or other conveyance which the railroad operates or is concerned in operating on a mail route.

(iii) Leaving or putting aside the mail, or any part of it, for the accommodation of passengers, baggage, express, or other matter.

(iv) Habitual failure to observe schedules.

(v) Leaving mail which arrives at a station within a reasonable time before the departure of the train for which it is intended.

(vi) Failure to use the first practicable means of forwarding delayed mail.

(vii) Failure to sound proper signal when approaching a mail crane.

(viii) Failure to furnish proper accommodations for the handling, storage, and, if necessary, the distribution of mail in a railroad station.

(ix) Failure to place an RPO car in a station at the time specified by the Department for the advance distribution of mail.

(x) Permitting storage cars to accumulate at any point for operation in mail, or mail express, sections when suitable trains are available for dispatch to destinations.

(xi) Failure to operate regularly authorized storage cars in designated trains.

(xii) Failure to unload a storage car at the point of destination within the time specified by the Department when the mail is actually delayed.

(3) The fine in each case shall be such sum as the Postmaster General may impose, in view of the gravity of the delinquency, and shall be deducted from the railroad's pay for service on the route on which the delinquency occurred.

§ 92.9 *Handling of mail—*(a) *Receipt—*(1) *Advance deliveries to trains.* Where a railroad is responsible for the transfer of mail from a postal unit to a train, the railroad must make advance delivery to a train when the Department requires such delivery earlier than the regular closing time of the mail.

(2) *Holding trains for loading.* (i) A train shall not depart from a station and leave mail which is:

(*a*) Being loaded.

(*b*) Being trucked from vehicles or some part of the station to the train.

(*c*) Aboard a connecting train that has come to a stop.

(ii) When holding an important train for mail from a delayed connection would cause serious delay and subsequent train service is available within a reasonable period of time, the Department may authorize a time limit beyond which the important train may not be held except to load first-class mail and daily newspapers, and to load foreign mail if necessary to assure steamer connection, as follows:

(*a*) A railroad must request such authorization, if desired, from the regional transportation manager having jurisdiction of the train involved, specifying reasons and a time limit beyond which it is impracticable to hold the train.

(*b*) Where requests are approved by the regional transportation manager, any delayed mail involved must be carried without compensation on a later train to the extent of the unused space authorized on the first train. Additional pay is allowed only when the mail carried exceeds the volume which could have been accommodated in the regularly authorized space.

(iii) A mail train must not be held beyond its scheduled departure for mail originating in local postal units or offices of publication. The Postal Transportation Service must fix and enforce an ample time limit in which mail must be delivered to a railroad for dispatch.

(iv) At joint stations where mail is due for transfer from the train of one railroad to that of another, unloaded mail must be held to be in the custody of the outbound railroad which is responsible for the transfer.

(v) When it is necessary to transfer passengers, baggage, or express from one train to another, all mail must also be transferred unless the transfer is a regular connection coming within the provisions of subdivision (ii) of this subparagraph.

(3) *Withholding mail from train.* Regional transportation managers may withhold from dispatch catalog, circular, parcel post, and ordinary paper mail, in the order named, if necessary and advisable to prevent delay to important trains or to effect economies in transportation. Such mail must be forwarded in regular or excess space in other trains.

(4) *Loading by other than railroad employees.* Loading as used in this subparagraph, is defined as loading, separating and piling in the car.

(i) At plants:

(*a*) Destination and destination relay cars. The terminal charge (loading) will not apply to destination and destination-relay cars when loaded by plant employees.

(*b*) Working storage cars and lesser storage units. When mail is loaded by plant employees, the terminal charge will not apply for loading. The proper unloading charge shall be credited to the originating railroad on mail loaded in working storage cars and lesser storage units. The originating railroad shall make proper interline settlement for these charges.

(ii) Loading by star route and mail messenger contractors:

(*a*) When all mail at a point is loaded by a contractor, terminal charges shall be credited in the same manner as for plant loaded storage cars and lesser storage units.

(*b*) When only a portion of the mail is loaded by a contractor and the remainder by railroad employees, the terminal charge will apply to all mail loaded.

(5) *Loading storage cars.* (i) Storage cars shall be loaded solidly at initial point of the run as far as practicable, observing all safety regulations and leaving only such doorways or aisles as are needed en route to handle mail.

(ii) Where for any reason a railroad fails to load a storage car to its space capacity, and mail is available for loading, pro rata pay will be allowed on the basis of the space capacity load. However, where the weight of the mail is exceptionally heavy and a car satisfactory to the Department is furnished, full payment may be allowed for less than space capacity load.

(iii) Where a storage space unit is carried in an oversize RPO car, the mail shall be handled within the car by postal transportation employees.

(6) *Pouch list changes.* Regional or District Transportation Managers of the Post Office Department shall promptly notify the proper official of a railroad of any changes in the list of pouches to be handled by the railroad.

(b) *Nonstop station service.* (1) Railroads are required to construct, light, and maintain mail cranes and other adequate facilities for the exchange of mail at points or stations on the run where the train does not stop and exchange of mail is necessary. Until such facilities are erected, the train's speed must be reduced to permit safe exchange.

(2) When mail is caught or delivered at night, a railroad must furnish the lantern or light to be attached to the crane and keep it in proper condition, regularly placed, and lighted.

(3) The engineer of an RPO train shall give timely notice, by whistle or other signal, of its approach to the nonstop point where mail is delivered or taken from a crane, or both.

(4) Where the Department deems it necessary to the safe exchange of the mail, the railroad is required to reduce the speed or stop the train.

(c) *Transfers—*(1) *At connecting points.* (i) Unless relieved of the requirement by the Department, a railroad carrying mail on its train for a connecting train is required to deliver the connection mail to a departing train of another railroad where the railroad stations are directly contiguous when:

(*a*) Both railroads employ representatives.

(*b*) Passengers or baggage are transferred.

(ii) When the train connection is not immediate, the mail may be delivered to the representative of the railroad operating the departing train.

(iii) A railroad is responsible for separating mail when the mail:

(*a*) Received a previous rail haul and is due for dispatch to a star, mail messenger, or highway post office route at a connecting point.

(*b*) Is received from a star, mail messenger, or highway post office route at a connecting point and is due to receive a subsequent rail haul.

(iv) A railroad must provide necessary tailboard space for exchange of mail with star, mail messenger, or highway post office routes or make delivery at a point accessible to the vehicles involved, unless other arrangements are made between the Department and the railroad.

(v) Railroads must transfer mail between connecting trains of steam railroads and cars of electric railroads when:

(*a*) The steam railroad employs a representative.

(*b*) The steam railroad station is directly contiguous to the electric car tracks.

(c) Connection is immediate.

(2) *At night.* (i) Where mail is due receipt or dispatch at night and a railroad employee is on duty, the railroads must retain custody and safeguard the mail until:

(*a*) Dispatch can be made to the proper train.

(*b*) Delivery can be made to a highway post office clerk, mail messenger, star route, or other contractor.

(*c*) Delivery can be made to a post office when the building is directly contiguous to the railroad property.

The Department reserves the right to require such service of a railroad at times when the regular employee of the railroad is not on duty.

(ii) At railroad stations where no railroad employee is on duty, the railroad must, if deemed necessary by the Postal Transportation Service, provide for the exchange of mail by means of a safe room or suitable locked box at the station.

(iii) Where a railroad has no representative at a station, it must furnish the light which shall be cared for and hung by the Department's carrier.

(3) *Between cars on same train—*(i) *Mail transferred between storage and RPO cars.* When a storage car or baggage car containing mail is operated next to an RPO car and postal transportation clerks have access to such a car through end doors, they may handle the mail at intermediate points when considered advisable by the Department and the volume is small.

(ii) *Mail transferred from excess units to authorized distributing space.* At points where practicable, a railroad is required to transfer all or a part of the excess mail from a baggage car to available space in an authorized distributing unit upon the issuance of Form 5050, Request to Transfer Excess-Storage Mail. However, the railroad may elect to carry such mail through to destination with the understanding that the space occupied in the baggage car will be offset by that available in the distributing unit. The request form must show the number of pieces and the point at which they are to be transferred, and must be delivered to the designated railroad representative immediately upon arrival at the station where the transfer is ordered. Postal transportation clerks are not required to accept the transfer of such mail through end doors while the train is in motion. They may do so during the station stop if the storage end of the RPO car is next to the baggage car.

(4) *Combining mail where train is overtaken.* When one mail-carrying train is overtaken by another and mail is combined and forwarded from that point in a single train, payment will not be allowed for the non-mail-carrying train beyond the merger point.

(5) *In emergencies—*(i) *Wreck or washout.* If it becomes necessary to transfer at the place of a wreck or washout, officials and employees of a railroad must see that:

(a) The mail and any postal transportation clerks are promptly transferred.

(b) Every possible convenience is furnished the clerks for working the mail.

(ii) *Other operating conditions.* Whenever operating conditions require that a car with mail be set out, the railroad must arrange to transfer all mail in the car to any available space in the train except:

(a) Where an important passenger train is involved and the transfer of all mail would result in serious delay, such transfer may be limited to first-class, airmail, registered mail, daily newspapers, special delivery and special handling. Other classes will be transferred if time permits.

(b) Mail may be held for a following train if it makes substantially the same connections and delivery as the first train.

Where an RPO car is set out, postal transportation clerks must give all possible assistance in transferring mail.

(d) *Exchange of mail with other carriers.* Railroad agents and other carriers must exchange mail as follows:

(1) If a mail messenger is employed by the Department, a railroad may be relieved of the requirement of receiving or dispatching mail at cars, or from placing it on a crane, when:

(i) A railroad representative is on duty and the volume of mail is small enough so the mail messenger can readily carry it by hand on one trip.

(ii) A railroad representative is not on duty and the railroad makes sufficient trucks available to the mail messenger.

(2) The Department reserves the right to require the performance of such service by railroad representatives at any time during the 24-hour period.

(3) A mail messenger shall call for incoming mail and deliver it to the post office as soon as practicable. If the train's arrival is at night and the post office is closed, the mail may be handled as provided in paragraph (c) (2) of this section.

(4) A mail messenger will wait for a train's arrival when a representative of the railroad is not on duty. At the end of 2 hours, he may return the outgoing mail to the post office for inclusion in the next regular dispatch.

(5) A mail messenger need not wait for a delayed train when:

(i) Other mail would be delayed.

(ii) The railroad representative cannot give advance information as to time of arrival of the train.

(iii) The train is reported as more than 2 hours late.

In such cases the mail messenger may deliver the mail to the railroad's representative. The railroad is responsible for the safe dispatch of outgoing mail to the proper train and the safe delivery of incoming mail to the messenger or other authorized representative of the Department.

(6) Where mail cars are not accessible to vehicles of mail messengers or other carriers, a railroad shall receive and deliver mail at points accessible to such vehicles, except as provided in paragraph (d) (1) of this section.

(e) *Side, terminal, and transfer service.* Requirements for side, terminal, and transfer service are as follows:

(1) Every railroad must, where it has an agent, take mail from and deliver it to all postal units located 80 rods or less from the station, when so required by the Department.

(2) The Department will provide for the transportation of mail to and from postal units located:

(i) More than 80 rods from the nearest railroad station or terminal.

(ii) 80 rods or less from the nearest railroad station or terminal where a representative of the railroad is not on duty.

(3) The Department may relieve a railroad of the performance of service required at any postal unit, and provide for such service, whenever it deems advisable.

(4) In all cases the distance between the railroad station or terminal and postal unit must be measured by the shortest route open to public travel, avoiding angles, from the nearest door of the baggage room to the nearest door of the postal unit involved. Where there is no baggage room or station, the measurement must be made from the middle of the station platform. The route need not be a regularly used public way, and, if over private property, no prohibition against the Government shall hold that has not also been made and enforced against the public.

(5) A railroad shall give 30 days' notice to the Department of the discontinuance of any agency handling mail or the removal of a station beyond the 80-rod limit. A railroad must not be relieved of the duty of handling mail unless this advance notice is given.

(f) *Terminal piece charges in RPO cars.* (1) The per piece charge will not apply to mail loaded into a RPO car while postal transportation clerks are on duty.

(2) The per piece charge will apply to one-half the number of pieces loaded into a RPO car while postal transportation clerks are not on duty when:

(i) Loaded by railroad employees at points prior to origin of clerks' run; or

(ii) Unloaded by railroad employees at points beyond end of clerks' run.

(g) *No terminal charges for additional handling.* Terminal charges will not be allowed for the additional handling of mail when:

(1) A railroad orders a car out of service after mail has been loaded for onward dispatch to destination; or

(2) The receiving railroad at an interchange point refuses to operate a car because of size, type or bad order and transfer of the mail to another car is required.

PART 93—TRANSPORTATION OF MAIL BY URBAN AND INTERURBAN ELECTRIC RAILWAY COMMON CARRIERS

Sec.

93.1 Service authorized only by Department.
93.2 Railroad employees handling mail regarded as agents of carrier.
93.3 Compensation for transportation of mail covers transportation of postal employees and agents.
93.4 Construction, equipment, and maintenance of RPO cars.
93.5 Use of and admission to RPO cars and RPO apartments.
93.6 Regularly authorized RPO service.
93.7 Closed pouch service authorized monthly.
93.8 Excess service.
93.9 Side, terminal, and transfer service.
93.10 Responsibility for safety of the mail.
93.11 Designation of stopping points for safe exchange of mail.
93.12 Use of signs "U. S. Mail" or "United States Mail."
93.13 Power for canceling mashines in cars.
93.14 Failure of service.
93.15 Evidence of performance to be submitted by transportation companies.
93.16 Deductions and fines.

AUTHORITY: §§ 93.1 to 93.16 issued under R. S. 161, 396, secs. 1, 5, 39 Stat. 419, 425–431, sec. 1, 40 Stat. 748, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 39 U. S. C. 523–541, 542–568, 570.

§ 93.1 *Service authorized only by Department.* Mail transportation service on an electric railroad shall be established only by direct order of the Post Office Department. No increase, decrease, or change in the service ordered shall be made without first securing authority therefor from the Assistant Postmaster General, Bureau of Transportation.

§ 93.2 *Railroad employees handling mail regarded as agents of carrier.* Any person employed by an electric railroad and designated to handle the mail shall be considered an agent of the carrier. Such employees need not be sworn as Postal Transportation Service employees.

§ 93.3 *Compensation for transportation of mail covers transportation of postal employees and agents.* The compensation for the transportation of mail by an electric railroad shall include the transportation of Postal Transportation Service employees who accompany and distribute the mail and postal inspectors and other duly accredited agents of the Department who are performing their duties. Such transportation shall be in cars carrying the mail or on trips designated by the Post Office Department.

§ 93.4 *Construction, equipment, and maintenance of RPO cars.* All railway post office cars or apartments used for the transportation of mail on an electric railroad route shall conform to the requirements stipulated by the Assistant Postmaster General, Bureau of Transportation. All such cars shall be constructed, painted, lettered, equipped, furnished, heated, lighted, and maintained by the companies performing the service, without expense to the Post Office Department.

§ 93.5 *Use of and admission to RPO cars and RPO apartments.* No part of the space authorized in a railway post office car or apartment shall be used for other than mail purposes. Only authorized clerks, carriers, messengers, postal inspectors, and officers and agents of the Post Office Department shall be admitted to such cars and apartments. These persons shall be admitted only upon exhibition of their credentials.

§ 93.6 *Regularly authorized RPO service.* Space in railway post office cars and railway post office apartments will be authorized in both directions of the authorized car run. In railway post office cars the space to be authorized will be the actual linear-foot inside measurement needed to accommodate the mail.

§ 93.7 *Closed pouch service authorized monthly.* (a) The units of space to be authorized for closed pouch service shall be determined on the basis of count of pouches, sacks, and parcels.

(b) Whenever a regular authorization of closed pouch service is exceeded on more than 50 percent of the trips on any day of the week in any calendar month, the appropriate higher unit which was needed on more than 50 percent of trips on such day of the week shall be authorized on that day of the week. A regular authorization shall be reduced to the appropriate smaller unit on any day of the week on which a smaller unit would have accommodated the mail on more than 50 percent of the trips on such day of the week in any calendar month. This rule will not apply to the month of December. Changes in authorizations based upon the operation of this rule in any month (except December) shall become effective on the first day of the succeeding month.

(c) Effective January 1, 1943, 14 pieces of mail (pouches, sacks, outside pieces, or a combination of these classes) will be considered as equivalent to 30 cubic feet of space in authorizing service. This determination is based on the result of the test during the period October 12–18, 1952.

(d) Where not more than 10 pouches, sacks, and parcels are regularly carried on a car constructed and operated primarily for passenger service with no separate compartment for mail, baggage, or express, one "ten-bag" unit will be authorized. Where more than 10 and not more than 28 pieces are regularly carried, a 60-cubic-foot unit will be authorized. Where more than 28 pieces are regularly carried, the appropriate cubic-foot unit (in multiples of 30 cubic feet, based on 30 cubic feet for each 14 pieces of mail or fraction of that number) will be authorized. The space unit required to accommodate the mails at any point on a mail route will be the space authorized for the "authorized car run" in this class of service. For example: Where a 60-cubic-foot unit is necessary over part of the route, and a "10-bag" unit is sufficient over the remainder of the route on the same trip, the authorization will be issued for a 60-cubic-foot unit over the authorized car run of a given trip.

(e) In baggage or express cars or in baggage and express compartments in passenger cars, units of service may be increased or decreased at any point on the car run according to the requirements of the service. For example: A 60-cubic-foot unit (or other large unit) may be authorized over part of the car run, and a smaller unit over another part of the same run.

(f) Closed pouch space in passenger cars, in baggage and express cars, and in baggage and express compartments in passenger cars, will be authorized only between the points the mail is actually carried in either direction of the car run. Such authorization will be considered as the mileage of the "authorized car run."

(g) Space in independent cars will be authorized in both directions and paid for accordingly, unless the car or any part thereof is used by the electric railroad in the return movement. In independent car service, linear-foot space will be authorized in cars 36 feet or less in length to the extent of the full length of the car (inside measurement less any obstructions). In cars more than 36 feet in length, space will be authorized to the extent of 36 linear feet or such additional linear feet of space in the car as may be necessary to accommodate the mail.

§ 93.8 *Excess service.* (a) When greater amounts of mail are carried than are provided for in the regular authorizations, transportation of the excess mail will be paid for as excess service. Upon approval of the Regional Transportation Manager, the District Transportation Manager may authorize a postmaster to employ excess service on additional trips and in independent cars. Additional service needed on an electric railroad during the Christmas holiday period each year should be employed as excess service.

(b) When a closed pouch unit is regularly authorized, the electric railroad's claim for excess mail should be based on 30 cubic feet of space (or multiple thereof) at the prevailing rate for additional mail.

(c) Where an independent car or railway post office service is regularly authorized, the excess service should be requested for a separate unit of closed pouch service. If service becomes necessary on additional trips or in additional independent cars, the postmaster or other Department representative should make requisition on the electric railroad before the service is to be performed. Railroad employees shall accept all mail offered on trips on which regular service is authorized. The railroad shall be entitled to compensation for carrying any excess mail, without further authorization.

(d) Electric railroads are not permitted to carry mail on trips on which space is not regularly authorized, unless requested to do so by a postmaster or by an authorized official of the Post Office Department.

§ 93.9 *Side, terminal, and transfer service*—(a) *When performed by an electric railroad over whose line the transportation of mail is authorized.* The railroad shall accept the mail from and deliver it into each post office, mail station, or other point of exchange, when required to do so by the Post Office Department. The railroad will receive separate compensation for such service unless it is performed directly contiguous to the line.

(b) *When performed by the Department.* At any point where service is not required to be performed by the electric railroad, the postmaster (if of the fourth class) may be required to transfer mail over slight distances between the cars and the post office without expense to the Department. Where the post office or mail station is located a considerable distance from the point of exchange with the cars, the Department will make provision for the carriage of the mail. Where the train service and agency conditions are similar to those found in the railroad service, the applicable provisions of § 92.9 (c) (1) and (e) of this chapter relative to the exchange of mail shall be observed.

§ 93.10 *Responsibility for safety of the mail.* (a) An electric railroad authorized to perform mail transportation service shall be held responsible for the safety and security of the mail while in the custody of its employees. Where service and conditions are similar to those found in the railroad service, the applicable provisions of § 92.8 (f) of this chapter, relating to responsibility for protection of mail, shall be observed.

(b) In the transportation of mail, the Department is not restricted to the use of the vestibule platform of passenger cars. The mail should be carried in any available space where it can be safeguarded.

§ 93.11 *Designation of stopping points for safe exchange of mail.* Where necessary to effect the safe exchange of mail, an electric railroad shall be required to stop its cars at the points designated by the Post Office Department.

§ 93.12 *Use of signs "U. S. Mail" or "United States Mail."* Such signs shall be displayed on cars actually carrying the mail. The signs shall be painted on cars used exclusively for transportation of mail. Removable signs shall be displayed on cars only when mail is actually being transported therein.

§ 93.13 *Power for canceling machines in cars.* The electric railroad furnishing the railway post office cars or apartments shall provide power to operate any canceling machines used therein. The power shall be provided without additional expense to the Post Office Department.

§ 93.14 *Failure of service.* In the event of an electric railroad's failure to provide for the transportation of mail in accordance with the Department's requirements, temporary mail service by some other mode of conveyance shall be authorized by the Assistant Postmaster General, Bureau of Transportation.

§ 93.15 *Evidence of performance to be submitted by transportation companies.* An electric railroad shall submit monthly evidence of the performance of service. This evidence shall be submitted through the Postal Transportation Service on the form prescribed by the Post Office Department.

§ 93.16 *Deductions and fines.* The provisions of § 92.8 (h) of this chapter, pertaining to deductions and fines which may be imposed on railroads for service failures and delinquencies, shall also apply to electric railroads.

PART 96—AIR CARRIERS

Sec.
96.1 Carriers' responsibilities.
96.2 Flight operations.
96.3 Handling of mail.
96.4 Reports.
96.5 Submission of claims.
96.6 Deductions and fines.
96.7 International airmail regulations.
96.8 Applicability of part.

AUTHORITY: §§ 96.1 to 96.8 issued under R. S. 161, 396, secs. 304, 309, 42 Stat. 24, 25, sec. 405, 52 Stat. 994, as amended; 5 U. S. C. 22, 369, 49 U. S. C. 485.

§ 96.1 *Carriers' responsibilities*—(a) *For mail priority.* From each point served, the normal mail load for each trip must be given priority of transportation over all other traffic on each trip designated for the transportation of mail. The normal mail load for each trip is determined for each day of the week on the basis of the mail dispatched to such trip on the same day of the week for the 5 previous weeks (excluding mail dispatched under unusual conditions). If additional fuel is necessary for a particular trip, the carrier must allow for its weight when booking other traffic for that trip. No part of the normal mail load must be displaced by such additional fuel. Mail in excess of normal must be given priority over all other traffic except revenue passengers with space confirmed prior to knowledge that additional mail would be available. Mail aboard a plane must not be reduced below normal to accommodate local boarding passengers. Carriers in the Alaskan Service must provide adequate weight space on all flights to accommodate the normal or expected volume of mail. In loading, unloading, transferring mail to connecting planes, and delivering mail to the designated postal representative, mail must be given preference over all other cargo (including baggage).

(b) *For protecting mail.* Carriers are held strictly responsible and accountable for mail in their custody. Mail must not be left exposed on trucks or otherwise subjected to depredation or weather. Every precaution must be taken to protect the mail from fire. Mail handlers must be identified by a distinguishing cap, badge, or clothing.

(c) *For cooperating with postal inspectors.* Postal inspectors are special representatives of the Postmaster General. All employees of air carriers engaged in the transportation of mail are required to cooperate with and assist inspectors in the performance of their duties which may include the opening of pouches and sacks and the examination of mail therein.

(d) *For providing quarters*—(1) *At air stops.* Carriers must furnish adequate and suitable quarters at air stops where necessary for the receipt, dispatch, distribution, and transfer of mail, unless and until otherwise provided by the Post Office Department.

(2) *Location of quarters.* Quarters must be located so as to provide expeditious handling of mail to and from planes. They must also be conveniently accessible to all mail-carrying vehicles.

(3) *Requests for changes in quarters.* Requests by air carriers or by officials of the Postal Service for changes in existing quarters or for the establishment of new quarters must be made through the Regional Transportation Manager, Post Office Department, in the area concerned. Plans and specifications are subject to the approval of the Assistant Postmaster General, Bureau of Transportation.

(e) *For preparing schedules.* Schedules must be prepared north to south and east to west, with flights arranged in chronological order left to right. A brief explanatory letter or cover sheet must accompany proposed new schedules. Copies of changes to existing schedules must be filed with the Post Office Department not less than 10 days prior to the effective date. Three copies must be filed with the Assistant Postmaster General, Bureau of Transportation, Post Office Department, Washington 25, D. C. Three copies must be filed with the Assistant Controller, Bureau of Finance, Post Office Department, Washington 25, D. C. One copy must be filed with the Regional Transportation Manager, Post Office Department, in each region concerned. The date of filing will be the date of receipt in the office of the Assistant Postmaster General, Bureau of Transportation, Washington, D. C. A copy of the schedule of all Alaskan routes must also be furnished the District Transportation Manager, Post Office Department, Anchorage, Alaska. The Assistant Postmaster General, Bureau of Transportation, will determine which trips are to be designated for the transportation of mail, and notify the carrier accordingly.

(f) *For answering correspondence.* Air carriers must answer promptly all correspondence from officials of the Post Office Department. Correspondence concerning the operations of the airmail service (except that which is initiated by and directed to the Department at Washington, D. C., and postal inspectors) must be channeled through the Regional Transportation Manager, Post Office Department, having jurisdiction of the region or route involved. Correspondence concerning the operation of the Alaskan airmail service must be channeled through the District Transportation Manager, Post Office Department, Anchorage.

§ 96.2 *Flight operations*—(a) *Notification of plane movement.* Carriers must operate designated trips as nearly as practicable at times shown in filed schedules. In the event of irregular operation, as much advance notice as possible must be given to the airmail field or post office at the initial terminal. When a plane is operating 30 minutes or more late, dispatching offices en route should be notified as to the approximate arrival and departure.

(b) *Originating sections, resumed flights, and delayed operations.* Delayed scheduled trips may operate with available mail from the initial terminal or intermediate points. When a scheduled trip has been canceled at the initial terminal or at some intermediate point, a section may be originated at any intermediate point on the route.

(c) *Omissions of service.* If a scheduled stop will not be made by a trip, the carrier must immediately notify the local postal representative. If service is to be suspended for one week or more, the carrier must immediately notify the Assistant Postmaster General, Bureau of Transportation, Washington 25, D. C., also the Regional Transportation Manager, Post Office Department, in the regions concerned, and the postal units concerned. The same offices must be notified when service is to be resumed.

(d) *Emergency trips and extra sections.* Emergency trips and extra sections operated by the carrier may be used for the transportation of mail. It may be placed on the plane at an unscheduled stop when offered for dispatch by the local postal representative, except that mail will not be accepted if the carrier is not authorized to serve that city. In Alaska, carriers must obtain postal authority for the transportation of mail on emergency trips and extra sections.

§ 96.3 *Handling of mail*—(a) *Delivery to carriers*—(1) *Authorized location.* Mail for outgoing trips must be delivered to the carrier at the time and place authorized by the Regional Transportation Manager in the region concerned.

(2) *Dispatch lists required.* (i) The postal unit delivering mail to carriers for transportation must prepare POD Form 2729, Airmail Dispatch Record, showing weights of mail for each destination and listing mail for off-line points to indicate the point of transfer.

(ii) On receipt of the mail from the local postal unit, the carrier must check the entries and weights as shown on the pouch labels against such entries on the dispatch list.

(iii) If mail received at non-airmail fields from the mail messenger or motor vehicle service driver does not agree with that listed on POD Form 2729, the carrier must make corrections. If pouches are listed but not received, line through the individual listing, the destination subtotal, station total, and grand total. Insert the correct totals adjacent thereto. If mail is received but not listed, insert the weight of each pouch in the proper destination column and amend the totals as instructed above. In either event, note the facts prominently on POD Form 2729 in any blank space. Advise the messenger of any discrepancy.

(iv) In the Alaskan Service, POD Form 2713–A, Alaskan Airmail Dispatch Record, is used in lieu of POD Form 2729. At non-post office points on Alaskan routes where it has not been possible to arrange for the preparation of POD Form 2713–A, Alaskan Airmail Dispatch Record, the carrier's on-and-off record on POD Form 2702 is acceptable as evidence of service performed to these points.

(v) Carriers must obtain a receipt on POD Form 2753, Receipt to Airline, for all mail delivered to an airmail field. Where no airmail field is located, the receipt must be prepared by the carrier for signature of either the mail messenger or motor vehicle service driver.

(b) *Direct transfer between planes.* At stop points where mail is due to be transferred between routes or trips of the same route, the carrier must make the transfer to trips of the same route in accordance with the routing outlined on the original dispatch forms and to trips of other routes in accordance with transfer forms prepared by the dispatching office. Air carriers must transport POD Forms 2733, Inter-Line Dispatch Record, from the point of dispatch to the point of transfer, delivering the forms to the receiving carrier with the mail. The receiving carrier must accept and receipt for all mail transferred from incoming planes regularly due to connect his route. If the mail does not agree with the forms, the delivering carrier must prepare POD Form 2734, Airmail Exception Record. Actual mail transferred must be listed by on-line destination. In any case of failure to connect the trip prescribed in the original routing, the carrier must contact the local postal unit for routing instructions.

(c) *Delivery to postal representative.* Upon arrival of the plane at the stop point, carrier representatives must immediately unload the mail and deliver it to the authorized postal representative at such point as may be designated. Maximum unloading time may be specified by the Regional Transportation Manager, Post Office Department, in the region concerned. Mail for outgoing trips must be delivered to the carrier at the time and place authorized by the Regional Transportation Manager, Post Office Department, in the region concerned.

(d) *Disposition of mail; canceled flights.* (1) When a trip is to be canceled at the initial terminal or any point en route, the carrier must promptly notify the local postal officials concerned.

(2) In event of cancellation, available regular scheduled trips of the mail messenger or motor vehicle service may be used to transport the mail to the post office or train. If neither service is available, the carrier must promptly arrange for necessary transportation to the post office or train, without expense to the Department. The mail will be disposed of in accordance with instructions from the local postal unit. If unable to obtain instructions the carrier will reroute the mail in accordance with the best available information. He will prepare forms necessary to accomplish any rerouting and the accounting necessary to adjust the claims in accordance with current procedures.

(3) Mail from canceled trips arriving by train to connect a resumed trip must be transported to the airport by the carrier whose service was canceled, unless otherwise instructed by the Postal Transportation Service.

(4) Mail from canceled trips must be reported on prescribed forms. Dispatch forms covering mail not enplaned must be voided if no mail is dispatched.

(e) *Refusals and removals of mail.* Refusals and removals of mail by a carrier (except as provided in § 96.1 (a)) may result in diversion of the mail to another carrier and in the imposition of fines.

§ 96.4 *Reports*—(a) *Refusal or removal report.* When an air carrier cannot accommodate all mail offered for a trip or mail already on board is removed, the carrier concerned must submit POD Form 2760, Refusal or Removal Report, in duplicate to the Regional Transportation Manager, Post Office Department, in whose area the refusal or removal occurs. The report must give the reason for the refusal or removal. It must contain detailed information on the mail refused, removed, and transported, also information relative to the number of passengers and other cargo aboard the plane on departure.

(b) *One-way trip report.* POD Form 2702, Report of One-Way Trip, is an operating form used by the Post Office Department in determining performance by the carrier. The form in duplicate (triplicate in Alaska) is required for each trip designated by the Post Office Department for the transportation of mail over helicopter airmail routes 84, 96, and 111, and over all routes operating within Alaska.

(1) The carrier must prepare the form, listing all stops made in proper station sequence.

(2) In the column headed "Remarks" the carrier must explain all failures, irregularities, and delays in handling the mail.

(3) Where transfers are made by carriers, mail and weights transferred must be entered by both the delivering and receiving carrier on their respective POD Form 2702's in the space immediately below that listing the station at which the transfer is made.

(4) POD Form 2729 must be used to correct entries of weight of on-and-off mail on POD Form 2702. The weight of mail placed on the plane (as listed on POD Form 2729) is the weight due off. When corrections on POD Form 2702 are necessary, the original figures should be lined out but not erased or obliterated. In Alaska POD Form 2713–A, Alaskan Airmail Dispatch Record, is used in lieu of POD Form 2729.

(5) When a flight is canceled at an intermediate or off-line point, POD Form 2702 must be completed with a brief explanation under "Remarks" as to the reason for cancellation and the disposition of the mail.

(6) The carrier must submit POD Form 2702 promptly to the designated Regional Transportation Manager, Post Office Department. In any event the form must be submitted within 14 days after the completion of a trip. The original and triplicate copy of POD Form 2702 for Alaskan routes must be forwarded to the District Transportation Manager, Post Office Department, Anchorage, Alaska, except that forms for routes operating from Seattle and for service performed in Southeastern Alaska must be forwarded to the Regional Transportation Manager, Post Office Department, Seattle, Washington.

(c) *Irregularly handled mail report.* POD Form 2734, Airmail Exception Record, properly completed and endorsed by the carrier, must be used to record any mail not handled by the carriers concerned in accordance with the routing as originally planned. An irregular handling is termed as an off-loading short of or beyond the scheduled destination and the mail is forwarded via another carrier or turned into the post office for redispatch, removals en route, refusals after mail is accepted by the carrier and transfers to a carrier other than as ordered in dispatch forms.

(d) *Accident report.* Carriers must make an immediate telegraph or telephone report of any accident resulting in possible damage to or loss of mail. The report must be made to the Regional Transportation Manager, Post Office Department, in the area concerned. Mail should not be disturbed, except to prevent further damage. It must be guarded until the arrival of a postal official.

§ 96.5 *Submission of claims*—(a) *Domestic*—(1) *Forms required.* All carriers operating within the continental United States and between the United States and terminal points in Canada must submit claims for the transportation of airmail on POD Form 2703, Carrier's Claim for Airmail Transportation. Separate claims must be prepared for each calendar month and include all airmail transported that month. Claims must be prepared from POD Form 2729, Airmail Dispatch Record, POD Form 2733, Interline Airmail Record, and POD Form 2734, Airmail Exception Record. POD Forms 2729 and 2733 are prepared by postal personnel. POD Form 2734 is prepared by either carrier or postal representative when an error in handling is discovered that affects airmail compensation. Carriers should requisition POD Forms 2734 from the Regional Transportation Manager of the region in which the headquarters or supply center of the carrier is located. POD Form 2703, Carriers' Claim for Airmail Transportation, shall be supported by either POD Form 2732, Monthly Summary of Airmail Carried, or by POD Form 2730, U. S. Airmail Billing Card—Domestic. Carriers must provide their own supply of POD Forms 2703, 2732, and 2730, printed in the specified style and size.

(2) *Claims prepared manually.* Separate POD Forms 2732 must be prepared for the normal transportation of mail on regular, and equalized and interchange flights, and for each origin within each type of flight. Prepare the forms in triplicate as follows:

(i) *For regular flights.* (*a*) Enter the route and trip number, the origin code, and the month and year of service in the appropriate boxes across the top of the form.

(*b*) Enter the final airmail stops on the billing carrier's system in the "Dest" boxes. Make these entries in ascending order of the Airline Clearing House numerical codes.

(*c*) Enter the weights shown on POD Forms 2729, 2733, and 2734 in the appropriate "Dest" column and on line with the flight date. Weights shown on each form for a particular destination and date maybe added together.

(*d*) After all entries have been made to POD Form 2732, add, cross-add, and cross-foot the pound columns.

(*e*) Enter either the short-line mileage between the origin and each destination or the pound rate in the appropriate "Rate or Miles" boxes. (Helicopter carriers should use scheduled miles flown in airmail service.)

mail transported that month. They must be prepared from POD Form 2942. Delivery of Airmail Dispatches AV–7. Carriers must provide their own supplies of POD Forms 2703 and 2732.

(c) *States-Alaska and Intra-Alaska.* Carriers operating over States-Alaska and intra-Alaska routes (except NWA) must prepare POD Form 2703 supported by POD Forms 2720 and 2702 when required. POD Form 2720 must be prepared from POD Form 2713–A. Claims must be prepared for each calendar month computed in accordance with the applicable CAB order.

(d) *Designated regional controllers.* Claims must be submitted to the appropriate Regional Controller as follows:

Regional Controller	Air Lines
Regional Controller, Post Office Department, Main Post Office Building, Philadelphia 4, Pa.	Colonial Airlines. Mohawk Airlines. New York Airways. Northeast Airlines. Lake Central Airlines. Helicopter Air Service.
Regional Controller, Post Office Department, Parcel Post Building, Richmond 19, Va.	Allegheny Airlines. Piedmont Aviation. National Aviation. Caribbean Atlantic Airlines. Eastern Air Lines. Riddle Airlines, Inc. Capital Airlines.
Regional Controller, Post Office Department, Main Post Office Building, P. O. Box 1557, Dallas 1, Tex.	Delta Airlines. Southern Airways. Braniff Airways. Central Airlines. Trans Texas Airways. American Airlines.
Regional Controller, Post Office Department, First and Hennepin Streets, Minneapolis 1, Minn.	Northwest Airlines. Ozark Air Lines. North Central Airlines.
Regional Controller, Post Office Department, Building 56, Federal Center, Denver 2, Colo.	United Airlines. Trans World Airlines. Frontier Airlines. Continental Air Lines.
Regional Controller, Post Office Department, Main Post Office Building, P. O. Box 3728, Portland 8, Oreg.	West Coast Airlines. Alaska Airlines. Alaska Coastal Airlines. Byers Airways. Cordova Airlines. Ellis Air Lines. Northern Consolidated Airlines. Pacific Northern Airlines. Pan American (Alaska) Airways. Reeve Aleutian Airways. Wien Alaska Airlines.
Regional Controller, Post Office Department, 1011 Bryant Street, San Francisco 19, Calif.	Bonanza Air Lines. Southwest Airways. Los Angeles Airways. Trans Pacific Airlines. Western Airlines. Hawaiian Airlines. Silck Airways. Flying Tiger Line.

NOTE: Each carrier must file with the appropriate Regional Controller the name of the person or persons authorized to sign the POD Form 2703.

(f) Multiply the total pounds by the appropriate mileage or rate, and enter the product in the appropriate box on the line labeled "Total Pound Miles or Charge."

(g) Add the products on the line labeled "Total Pound Miles or Charge" to determine the grand total pound miles or charge for each POD Form 2732.

(h) Add the grand total pound miles or charge on each POD Form 2732, and enter the total to POD Form 2703.

(i) If the carrier calculates pound miles instead of charge, enter the city classification letter code in the box labeled "City Class." Add the pounds of mail enplaned at each class of city, and enter the sums to POD Form 2703.

(ii) *For equalized and interchange flights.* Prepare POD Form 2732 in the same manner as specified above. The following instructions also apply:

(a) Enter the applicable equalization or interchange agreement number in the space provided.

(b) Enter the total claim for equalized and interchange flights on POD Form 2703.

(c) List excepted shipments on a worksheet which contains the following columns:

Serial number of 2734	Flight number	Flight date	Air stop points		Rate per pound between A and B	Amount
			A Actually off-loaded	B Billed by POD		

[1] Line haul and terminal charge as contained in the mileage and rate manual. (Helicopters use scheduled miles flown in airmail service and extend pound miles.)

(d) List POD Forms 2734 on the worksheet in ascending trip number order. List origin and final airmail stops on the billing carrier's system in ascending order of the Airline Clearing House numerical codes within each trip of initial dispatch.

(e) Enter the sum of the deduction for excepted flights on POD Form 2703.

(f) Submit POD Form 2703 to the Regional Controller designated to pay the claim of each carrier supported by the original and duplicate of both POD Form 2732 and the worksheet of exceptions.

(3) *Claims prepared on IBM.* Carriers must prepare and submit claims as follows:

(i) Use POD Form 2730, U. S. Airmail Billing Card—Domestic. Sort the cards into 4 groups:

(a) Regular shipments (keypunched from POD Forms 2729 and 2733, coded 1 and 2 in column 4 of POD Form 2730).

(b) Equalized or interchange shipments (keypunched from POD Forms 2729 and 2733, coded 1 and 2 in column 4).

(c) Adjustments to regular shipments (keypunched from POD Form 2734, coded 3 and 4 in column 4 of POD Form 2730).

(d) Adjustments to equalized or interchange shipments (keypunched from POD Form 2734, coded 3 and 4 in column 4 of POD Form 2730).

(ii) Sort Groups 1 and 2 into serial number, origin, and destination (Airline Clearing House numerical code) order for submission with POD Form 2703. Sort Groups 3 and 4 by ascending trip number and in ascending numerical order of the Airline Clearing House codes for origin and final airmail stop on the billing carrier's system.

(iii) POD Form 2703 must contain an entry for each group of IBM cards. It must be submitted to the Regional Controller designated to pay each carrier's claim, together with one deck of IBM cards in support of the claim.

(b) *Hawaiian Islands, Puerto Rico, and Virgin Islands.* All U. S. carriers operating within the above-named possessions must submit claims for the transportation of airmail on POD Form 2703, Carrier's Claim for Airmail Transportation, supported by POD Form 2732. Separate claims must be prepared for each calendar month, including all air-

§ 96.6 *Deductions and fines.* Carriers transporting mail will observe all applicable postal laws, and regulations issued by the Post Office Department. Carriers may be subject to fines and deductions for failure to comply therewith.

§ 96.7 *International airmail regulations*—(a) *Carriers' responsibilities*—(1) *For mail priority.* The normal mail load for each trip, from each point served in the United States, must be given priority over all other traffic on each trip designated for the transportation of mail. The normal mail load for each trip is determined from weight allocations issued by the Post Office Department, based on consultations with the carriers concerned. Mail in excess of normal must be given priority over all other traffic except revenue passengers with space confirmed prior to knowledge that additional mail would be available.

(2) *For retaining and protecting mail.* In a foreign country, carriers may retain custody of United States civilian mail aboard a trip when the departure is delayed up to 24 hours. On delays over 24 hours, or upon cancellation, civilian mail must be transferred to another carrier either direct or through the local post office. The original mail documents, properly endorsed, must accompany the mail. Military (Army Post Office, Air Post Office, and Fleet Post Office) mail must be held in the custody of the carrier and the Post Office Department, Washington, D. C., promptly requested by wire to furnish instructions for its disposal. Under no circumstances must military mail be turned over to a foreign post office or to a foreign air carrier. For additional instructions see § 96.1 (b).

(3) *For cooperating with postal inspectors.* See § 96.1 (c).

(4) *For preparing schedules.* See § 96.1 (e).

(5) *For answering correspondence.* See § 96.1 (f).

(b) *Flight operations.* Carriers must operate designated trips as nearly as practicable at times shown in filed schedules. As much advance notice as possible of any irregular operation must be given to the United States exchange offices involved.

(c) *Handling of mail*—(1) *Delivery to carrier.* (i) The postal unit delivering the mail must prepare POD Form 2942 (AV–7) Delivery List, listing the origin, destination and weight of each dispatch. One set of Form AV–7 must be prepared for each stop point of the trip.

(ii) On receipt of the mail from the postal unit, the carrier must check the entries on Form AV–7 with the tags and verify the condition of each dispatch.

(iii) When delays occur after mail has been delivered, additional mail may be accepted. Cargo already on board need not be removed nor the flight further delayed for this purpose.

(2) *Labels lost in transit.* When a dispatch is discovered to have lost its label in transit, the carrier may transport the dispatch to its off-loading point if it can be identified from the mail documents. Otherwise it must be delivered to the first local postal unit.

(3) *Transfers between flights.* International carriers must transfer mail between flights of the same company in accordance with routings shown on Form AV–7. They must transfer mail at points in the United States, territories and possessions with domestic carriers as instructd by the Post Office Department.

(4) *Delivery to postal representative.* Upon arrival of the plane at stations, the carrier's representative must immediately unload the mail and deliver it to the authorized postal representative at such point as may be designated. One copy of each set of Form AV–7 must be delivered with the mail, also any additional copies which are required for receipt to the carrier. Any irregularity must be noted on all copies.

(d) *Accident reports.* Accidents occurring outside the United States must be reported to the postal administration of the country to which the carrier belongs and to the postal administration of the country in which the accident occurs.

(e) *Submission of claims.* Claims must be submitted to the Bureau of Finance, Post Office Department, Washington 25, D. C. Claims must be made on POD Form 2703, supported by POD Forms 2720 and AV–7. Each carrier must file with the Bureau of Finance, Post Office Department, Washington 25, D. C., the names of persons authorized to sign POD Form 2703.

(f) *Deductions and fines.* See § 96.6.

§ 96.8 *Applicability of part.* The regulations in this part are applicable to airmail and air parcel post.

[SEAL] ABE MCGREGOR GOFF,
The Solicitor.

[F. R. Doc. 55–10459; Filed, Dec. 29, 1955; 8:50 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 148]

PART 608—RESTRICTED AREAS

ALTERATIONS

The restricted area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure, and effective date, provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.36, the Fallon, Nevada, area (R–267 formerly D–267), amended on November 10, 1953, in 18 F. R. 7056, is further amended by changing the "Description by Geographical Coordinates" column to read: "Beginning at latitude 39°48'00", longitude 118°12'00"; thence to latitude 39°58'00", longitude 118°11'-30"; thence to latitude 39°53'30", longitude 118°26'30"; thence to latitude 39°48'00", longitude 118°26'30"; thence to point of beginning".

2. In § 608.36, the Fallon, Nevada, area (R–268 formerly D–268), amended on November 10, 1953, in 18 F. R. 7056, is further amended by changing the "Description by Geographical Coordinates" column to read: "Beginning at latitude 39°24'00", longitude 119°00'00"; thence to latitude 39°24'00", longitude 118°55'-30"; thence to latitude 39°16'30", longitude 118°37'00"; thence to latitude 39°11'30", longitude 118°32'00"; thence to latitude 39°02'00", longitude 118°32'-00"; thence to latitude 39°02'00", longitude 118°51'20"; thence to latitude 39°10'30", longitude 119°06'00"; thence to latitude 39°15'00", longitude 119°-06'00"; thence to point of beginning".

3. In § 608.36, the Fallon, Nevada, East Gate area (R–270 formerly D–270), amended on November 10, 1953, in 18 F. R. 7056, is further amended by changing the "Description by Geographical Coordinates" column to read: "Beginning at latitude 39°09'00", longitude 118°13'-45"; thence to latitude 39°19'00", longitude 118°24'30"; thence to latitude 39°-19'00", longitude 118°07'00"; thence to latitude 39°09'00", longitude 118°07'00"; thence to point of beginning".

4. In § 608.36, the Fallon, Nevada, Schurz area (R–269 formerly D–269), amended on November 10, 1953 in 18 F. R. 7056, is rescinded.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies Sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective January 20, 1956.

[SEAL] C. J. LOWEN,
Administrator of Civil Aeronautics.

[F. R. Doc. 55–10432; Filed, Dec. 29, 1955; 8:45 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53989]

PART 18—TRANSPORTATION IN BOND AND MERCHANDISE IN TRANSIT

RECEIPT OF BONDED MERCHANDISE CARRIER

In order to prevent any loss of customs control over imported merchandise which is to be forwarded to another port under an entry or withdrawal for transportation in bond, it is essential that the bonded carrier to whom such merchandise is initially delivered give an immediate receipt to customs on the in-bond manifest covering the merchandise. Although this is the intent of the present regulations, it is considered necessary to make the requirement definite and specific. Section 18.2 (a) of the Customs Regulations is therefore amended to read as follows:

(a) When merchandise is delivered to a bonded carrier for transportation in bond, the carrier's receipt shall be given immediately to the lading inspector on the customs in-bond manifest covering the merchandise. The merchandise shall be laden on the convey-

ance under the supervision of a customs officer, unless the transporting conveyance is not to be sealed with customs seals or the lading inspector accepts the check of the carrier as to the merchandise laden thereon.

(Secs. 551, 624, 46 Stat. 742, as amended, 759; 19 U. S. C. 1551, 1624)

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: December 23, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[F. R. Doc. 55-10454; Filed, Dec. 29, 1955; 8:48 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 3—VETERANS CLAIMS

PART 4—DEPENDENTS AND BENEFICIARIES CLAIMS

MISCELLANEOUS AMENDMENTS

1. In Part 3, paragraph (f) of § 3.55 is amended to read as follows:

§ 3.55 *Proof of death.* Where a claim is filed on account of the death of a person, the proof of death shall be established as follows:

• • • • • •

(f) In cases wherein proof of death, as defined in paragraphs (a) to (e), inclusive, of this section cannot be furnished, the director, claims service, in district office cases, the adjudication officer, in regional office cases, or the chief, dependents claims division, in cases under the jurisdiction of Veterans Benefits Office, District of Columbia, may make a finding of fact of death where death is otherwise shown by competent evidence. Where it is indicated that the veteran died under circumstances which precluded recovery or identification of the body, the fact of death should be established by the best evidence, which from the nature of the case must be supposed to exist.

2. In § 3.57, paragraph (b) (3) is amended to read as follows:

§ 3.57 *Conditions which determine dependency.* • • •

(b) *Sources of income.* • • •

(3) In determining dependency, amounts received from the following named sources, by the father or mother or other member of the family, will be disregarded, viz., (i) as designated beneficiary or otherwise of any insurance under the War Risk Insurance Act, the World War Veterans' Act, 1924, as amended, or the National Service Life Insurance Act, or any amendments to either; (ii) any pension or compensation under laws administered by the Veterans Administration; (iii) benefits under the World War Adjusted Compensation Act or the Adjusted Compensation Payment Act, or any amendments to either; (iv) the 6-month pay made to the designated beneficiary thereof pursuant to 10 U. S. C. 903, 903 (a), and 456; 34 U. S. C. 943 and 944; 50 U. S. C. 975; (v) payments pursuant to Mustering-Out Payment Act of 1944 (Public Law 225, 78th Cong.); (vi) donations or assistance from charitable sources; (vii) payments of servicemen's indemnity under Public Law 23, 82d Congress; (viii) annuities received under the Uniformed Services Contingency Option Act of 1953 (Public Law 239, 83d Cong.).

• • • • • •

3. In Part 4, paragraph (b) of § 4.18 is amended to read as follows:

§ 4.18 *Unexplained absence for seven years.* • • •

(b) A determination of whether the evidence furnished is satisfactory will be made by the director, claims service, in district office cases, the adjudication officer, in regional office cases, or the chief, dependents claims division, in cases under the jurisdiction of Veterans Benefits Office, D. C.

4. In § 4.91, paragraph (d) is amended to read as follows:

§ 4.91 *Apportionment.* • • •

(d) *Special apportionments.* In any case wherein it is clearly shown by competent evidence that the application of the foregoing provisions of this section will result in undue hardship upon the widow or children, and relief can be afforded without undue hardship to other persons at interest, the director of claims activities in district office and Veterans Benefits Office cases and the adjudication officer in regional office cases shall determine, without regard to the foregoing provisions of this section, the exact amount to be apportioned to each individual in interest. The chief of the division responsible for death claims will make appropriate recommendation to the official authorized to make determinations in such cases.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation is effective December 30, 1955.

[SEAL] J. C. PALMER,
Assistant Deputy Administrator.

PART 8—NATIONAL SERVICE LIFE INSURANCE

CLAIMS ALLEGING INSURANCE CONTRACT WHERE THERE IS NO APPLICATION FOR INSURANCE ON FILE

Section 8.70 is revised to read as follows:

§ 8.70 *Claims alleging insurance contract where there is no application for insurance on file.* In those cases where claim is made alleging that a person made valid application for National Service life insurance, and that the insurance is subject to reinstatement or a waiver of payment of premiums is in order, or that the insurance matured by reason of the death of the insured at a time when the insurance was in force, and that there was a valid designation of beneficiary, and where there is no application for insurance on file, the claimant will be required to submit all available evidence concerning the alleged application for insurance in such manner and on such forms as may be deemed necessary. The evidence submitted by the claimant and the evidence as disclosed by records in possession of the Government relative to the question as to whether the person made a valid application for insurance will be considered and, if found sufficient to establish as a fact that the said person did apply for insurance and if the other allegations of said claim are sustained, a record of insurance will be established in accordance with such finding. However, if it be determined that the evidence is not sufficient to establish as a fact that the said person applied for insurance as alleged, or determined that any insurance applied for as alleged would not be valid or not subject to reinstatement, or determined that the said person did not die at a time when the insurance would have been in force if insurance had been applied for, or, in case of death, if it be determined that there was no valid designation of beneficiary, the claimant will be so informed and will be notified that unless he desires to appeal to the Administrator, a disagreement exists as to the matters in controversy as contemplated by the provisions of section 617 of the National Service Life Insurance Act of 1940, as amended, as far as the Veterans Administration is concerned. Further, the claimant will be informed that an appeal may be taken from the decision to the Administrator of Veterans Affairs by giving notice in writing in accordance with § 19.2 of this chapter. The Director, Underwriting Service will make all original determinations as to whether a person made valid application for insurance as alleged. The determination as to the validity of beneficiary designations, in death cases, will be made by the claims activity in the office having jurisdiction over the insurance death claim.

(Sec. 608, 54 Stat. 1012, as amended, sec. 6, 65 Stat. 35; 38 U. S. C. 808, 855. Interpret or apply sec. 602, 54 Stat. 1009, as amended; 38 U. S. C. 802)

This regulation is effective December 30, 1955.

[SEAL] J. C. PALMER,
Assistant Deputy Administrator.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1263]

[Colorado 011417]

COLORADO

RESERVING PUBLIC LANDS WITHIN SAN ISABEL NATIONAL FOREST FOR USE OF FOREST SERVICE AS COOPER HILL WINTER SPORTS AREA

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473) and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands within the San Isabel National Forest in Colorado are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining but not the mineral-leasing laws, and reserved for use of the Forest Service, Department of Agriculture, as the Cooper Hill Winter Sports Area:

SIXTH PRINCIPAL MERIDIAN

T. 8 S., R. 80 W.,
Sec. 11, S½S½;
Sec. 12, S½SW¼, SW¼SE¼;
Sec. 13, W½, SE¼;
Sec. 14, E½, NE¼SW¼, SE¼NW¼, N½NW¼.

The areas described aggregate 1,240 acres.

This order shall take precedence over, but not otherwise affect the existing reservation of the lands for national forest purposes.

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

DECEMBER 22, 1955.

[F. R. Doc. 55-10435; Filed, Dec. 29, 1955; 8:45 a. m.]

TITLE 45—PUBLIC WELFARE

Chapter III—Bureau of Federal Credit Unions, Social Security Administration, Department of Health, Education, and Welfare

PART 350—CREDIT UNIONS CHARTERED BY THE DISTRICT OF COLUMBIA

Notice having been published in the FEDERAL REGISTER on November 29, 1955 (20 F. R. 8760), that the Director of the Bureau of Federal Credit Unions, with the approval of the Commissioner of Social Security and the Secretary of Health, Education, and Welfare, proposed to prescribe certain regulations concerning the reserves to be established and maintained by credit unions chartered by the District of Columbia, and that prior to the official adoption of the proposed regulations consideration would be given to any data, views, or arguments pertaining thereto submitted to the Director of the Bureau of Federal Credit Unions, Department of Health, Education, and Welfare, Washington 25, D. C., within a period of 30 days from the date of publication of the notice in the FEDERAL REGISTER, and the regulations proposed to be adopted having been set forth in the FEDERAL REGISTER on page 8760 (20 F. R. 8760), and the 30-day period having elapsed and no data, views, or arguments pertaining to the proposed regulations having been submitted, the proposed regulations as published in the FEDERAL REGISTER (20 F. R. 8760) are hereby adopted and promulgated as set forth below effective December 31, 1955.

Dated: December 27, 1955.

[SEAL] J. DEANE GANNON,
Director,
Bureau of Federal Credit Unions.

Approved: December 28, 1955.

CHARLES I. SCHOTTLAND,
Commissioner of Social Security.

Approved: December 29, 1955.

HEROLD C. HUNT,
Acting Secretary of Health, Education, and Welfare.

Sec.
350.1 Reserves in general.
350.2 Special reserve for delinquent loans.

AUTHORITY: §§ 350.1 and 350.2 issued under 47 Stat. 330, as amended; 68 Stat. 682; 26 D. C. Code 512.

§ 350.1 *Reserves in general.* Credit unions organized under the provisions of the District of Columbia Credit Unions Act (D. C. Code 26-501 to 26-518), shall establish and maintain such reserves as may be required by the regulations in this part, or in special cases by the Director of the Bureau of Federal Credit Unions on his finding that the reserves of a credit union chartered by the District of Columbia are insufficient.

§ 350.2 *Special reserves for delinquent loans.* (a) Each credit union chartered by the District of Columbia shall establish a special reserve to be known as the Special Reserve for Delinquent Loans.

(b) For purposes of this section, the provisions of § 302.3 of this chapter with respect to Federal credit unions shall be deemed to be applicable to credit unions chartered by the District of Columbia, except that wherever reference is made in said § 302.3 to the term "the Regular Reserve", such term shall be deemed to refer to the regular reserve provided for by section 26-512 of the District of Columbia Code.

[F. R. Doc. 55-10604; Filed, Dec. 29, 1955; 11:55 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 130]

FORT BELKNAP INDIAN IRRIGATION PROJECT, MONTANA

ORDER FIXING OPERATION AND MAINTENANCE CHARGES

DECEMBER 23, 1955.

Pursuant to Section 4 (a) of the Administrative Procedure Act of June 11, 1946 (Public Law 404, 79th Congress, 60 Stat. 238), and authority contained in the acts of Congress approved August 1, 1914; May 18, 1916; and March 7, 1928 (38 Stat. 583, 25 U. S. C. 385; 39 Stat. 1942; and 45 Stat. 210, 25 U. S. C. 387), and by virtue of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs (Order No. 2508; 14 F. R. 258), and by virtue of authority delegated by the Commissioner of Indian Affairs to the Area Director (Bureau Order No. 551, Amendment No. 1; 16 F. R. 5454-7), notice is hereby given of intention to modify § 130.30 of Title 25, Code of Federal Regulations, dealing with irrigable lands of the Fort Belknap Indian Irrigation Project to read as follows:

§ 130.30 *Charges.* Pursuant to the provisions of the acts of August 1, 1914 and March 7, 1928 (38 Stat. 583, 45 Stat. 210; 25 U. S. C. 385, 387), the basic annual charge for operation and maintenance against the irrigable lands to which water can be delivered and beneficially applied under the constructed works of the Fort Belknap Indian irrigation project in Montana, including the lands operated as a tribal farming and livestock enterprise, is hereby fixed at $2.00 per acre for the year 1956 and thereafter until further notice.

Interested persons are hereby given opportunity to participate in preparing the proposed amendments by submitting their views and data or arguments in writing to the Area Director, Bureau of Indian Affairs, Billings, Montana, within 30 days from the date of publication of this notice of intention in the daily issue of the FEDERAL REGISTER.

M. A. JOHNSON,
Acting Area Director.

[F. R. Doc. 55-10456; Filed, Dec. 29, 1955; 8:49 a. m.]

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 522]

SHOE MANUFACTURING INDUSTRY

EMPLOYMENT OF LEARNERS

Pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1068, as amended; 29 U. S. C. 214), notice is hereby given that the Administrator of the Wage and Hour Division, United States Department of Labor, proposes to amend paragraph (a) of § 522.55 (29 CFR, Part 522) to read as follows:

(a) The subminimum rates which may be authorized in special certificates issued in the shoe manufacturing industry shall be not less than 80 cents per hour for the first 240 hours and not less than 90 cents per hour for the second 240 hours.

It is proposed that these amendments shall be made effective March 1, 1956, the effective date of the Fair Labor

Standards Amendments of 1955. However, applications under the amended regulations for learners certificates to become effective March 1, 1956, would be entertained by the Administrator prior to such date.

Prior to final adoption of the proposed amendment, consideration will be given to any data, views or arguments pertaining thereto which are submitted in writing to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C., on or before January 19, 1956.

Signed at Washington, D. C., this 23d day of December 1955.

NEWELL BROWN,
Administrator,
Wage and Hour Division.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

IDAHO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS; CORRECTION

DECEMBER 20, 1955.

In Federal Register Document 55-4589 (20 F. R. 4039) dated June 8, 1955, description of the lands proposed to be withdrawn by the United States Department of Agriculture, Idaho 05279, Sharon Administrative Site Section 13 should read Section 12, correcting the document as follows:

SHARON ADMINISTRATIVE SITE

T. 12 S., R. 42 E.,
Sec. 12, E½W½SW¼, E½SW¼, SW¼NW¼ SE¼, NW¼SW¼SE¼.

J. R. PENNY,
State Supervisor.

[F. R. Doc. 55-10460; Filed, Dec. 29, 1955; 8:50 a. m.]

[Document 88]

ARIZONA

SMALL TRACT CLASSIFICATION 47

DECEMBER 22, 1955.

1. Pursuant to authority delegated by Document No. 43, Arizona, effective May 19, 1955 (20 F. R. 3514-15), the following described lands totaling 1,051.17 acres located in Pima County are hereby classified for lease and sale for residence and/or business purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended:

GILA AND SALT RIVER MERIDIAN

T. 14 S., R. 12 E.,
Sec. 34: Lots 5 to 69 inclusive (S½);
Sec. 35: Lots 5 to 70 inclusive (E½).
T. 15 S., R. 12 E.,
Sec. 3: Lots 5 to 28 inclusive (N½NW¼, SE¼NW¼).
T. 14 S., R. 13 E.,
Sec. 30: Lots 5 to 31 inclusive (N½SE¼ SE¼, S½S½S½);
Sec. 31: Lots 5 to 48 inclusive (N½N½, SE¼SE¼).

2. Classification of the above described lands by this order segregates them from all appropriations, including locations under the mining laws, except as to applications under the Small Tract Act and applications under the mineral leasing laws.

3. The lands classified by this order shall not become subject to lease under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a) as amended, until it is so provided by an order to be issued by an authorized officer opening the lands to lease, with a preference right to veterans of World War II and of the Korean Conflict and other qualified persons entitled to preference under the Act of September 27, 1944 (58 Stat. 497; 43 U. S. C. 279-284), as amended.

E. R. TRAGITT,
State Lands and Minerals,
Staff Officer.

[F. R. Doc. 55-10458; Filed, Dec. 29, 1955; 8:49 a. m.]

[Order 541, Amdt. 8]

AREA ADMINISTRATORS

REDELEGATION OF AUTHORITY CONCERNED WITH LANDS AND RESOURCES

DECEMBER 21, 1955.

Bureau Order No. 541 is further amended as follows:

1. Section 1.6 (k) is amended to read:

(k) *Mining claims.* Take all action on claims pursuant to the General Mining Laws supplemental thereto, and 43 CFR Parts 69, 185, and 186.

2. Section 1.7 (a) (2) (a) is amended to read:

(a) Section 2 of the Act 43 U. S. C. sec. 315 (a).

3. Section 1.8 (d) is amended to read:

(d) *Roads.* Act on matters involving the acquisition of rights-of-way and roads under the Act of July 26, 1955 (69 Stat. 374), including purchases after clearance with the Department of Justice but not including recommendations to the Attorney General for condemnation proceedings: also the approval of projects for the construction of roads to provide access to the timber on public lands subject to that act.

4. Section 1.9 (n) (1) is amended to read:

(n) *Rights-of-way.* (1) Grant right-of-way permits and easements over public and acquired lands, including revested Oregon and California Railroad and reconveyed Coos Bay Wagon Road grant lands in Oregon, and over reservations other than Indian reservations, when authorized by law, and rights-of-way over the Outer Continental Shelf pursuant to 43 CFR Part 202. However, only the Secretary of the Interior may issue an order, pursuant to 43 CFR 244.9 (m), requiring the discontinuance, without liability or expense to the United States, of the use of a right-of-way for the purpose granted.

5. Section 4.11 (b) is amended to read:

(b) *Mineral leases of submerged lands of Outer Continental Shelf.* (1) Make determinations respecting the compliance or noncompliance of mineral leases issued by a State with the requirements of section 6 of the Outer Continental Shelf Lands Act (67 Stat. 462; 43 U. S. C. 1331 et seq.), provided that such determinations shall be submitted to the Solicitor for concurrence.

(2) Act on all matters involving mineral leases pursuant to the act of August 7, 1953 (67 Stat. 462; 43 U. S. C. 1331 et seq.) and the regulations under 43 CFR, Part 201.

EDWARD WOOZLEY,
Director.

[F. R. Doc. 55-10457; Filed, Dec. 29, 1955; 8:49 a. m.]

Bureau of Reclamation

BOISE PROJECT, IDAHO

ORDER OF REVOCATION

NOVEMBER 9, 1955.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, I hereby revoke Departmental Orders of December 5, 1905, February 28, 1903, and December 4, 1909, in so far as said orders affect the following-described land; provided, however, that such revocation shall not affect the withdrawal of any other lands by said orders or affect any other orders withdrawing or reserving the land hereinafter described:

BOISE MERIDIAN, IDAHO

T. 1 N., R. 7 E.,
Sec. 22, SE¼NE¼;
Sec. 23, Lots 3 and 7.

The above area aggregates 105.40 acres.

E. G. NIELSEN,
Assistant Commissioner.

[69650]

DECEMBER 23, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The lands released from withdrawal by this order are all within the Boise National Forest. Subject to any valid existing rights and the requirements of applicable law, these lands are hereby opened to such applications, selections, and locations as are permitted on national forest lands, effective at 10:00 a. m. on January 28, 1956.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

[F. R. Doc. 55-10436; Filed, Dec. 29, 1955; 8:45 a. m.]

UMATILLA PROJECT, OREGON

ORDER OF REVOCATION

OCTOBER 13, 1954.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954, I hereby revoke Departmental Order of August 16, 1905, in so far as said orders affect the following-described land; provided, however, that such revocation shall not affect the withdrawal of any other lands by said orders or affect any other orders withdrawing or reserving the land hereinafter described:

WILLAMETTE MERIDIAN, OREGON

T. 4 N., R. 28 E.,
Sec. 3, SE¼SW¼.
T. 5 N., R. 29 E.,
Sec. 28, S½NW¼.

The above areas aggregate approximately 120 acres.

E. V. LINDSETH,
Acting Commissioner.

[67978]

DECEMBER 23, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

The lands are included in allowed homestead entries, The Dalles 023684 and 023690, and are, therefore, not subject to the provisions of the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279-284), as amended, granting preference rights to veterans of World War II, the Korean Conflict, and others.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

[F. R. Doc. 55-10437; Filed, Dec. 29, 1955; 8:45 a. m.]

ORLAND PROJECT, CALIFORNIA

ORDER OF REVOCATION

NOVEMBER 8, 1954.

Pursuant to the authority delegated by Departmental Order No. 2765 of July 30, 1954 (19 F. R. 5004), I hereby revoke Departmental Orders of December 28, 1908; August 9, 1909; September 3, 1909; July 21, 1913; November 16, 1917; April 27, 1926, and December 23, 1926, insofar as said orders affect the following described lands; provided, however, that such revocation shall not affect the withdrawal of any other lands by said orders or affect any other orders withdrawing or reserving the lands hereinafter described:

The above areas aggregate 34,466.59 acres.

E. V. LINDSETH,
Acting Commissioner.

[1243675]

DECEMBER 23, 1955.

I concur. The records of the Bureau of Land Management will be noted accordingly.

Most of the lands released from withdrawal by this order are withdrawn for the Mendocina National Forest. Subject to any valid existing rights and the requirements of applicable law, these lands are hereby opened to such applications, selections, and locations as are permitted on national forest lands, effective at 10:00 a. m. on January 28, 1956.

Portions of the released lands have been patented. The following-described lands are vacant public domain:

MOUNT DIABLO MERIDIAN

T. 16 N., R. 5 W.,
Sec. 20, lots 11, 15, and 16.
T. 17 N., R. 6 W.,
Sec 23, NE¼NW¼.
T. 18 N., R. 6 W.,
Sec. 10, lots 2, 3, 7, 11, 12, and 16;
Sec. 15, lots 3 and 6;
Sec. 17, NW¼SW¼, SE¼SW¼;
Sec. 22, lots 11 and 14;
Sec. 27, lots 5, 12, and 13.
T. 19 N., R. 6 W.,
Sec. 5, lots 3, 4, and 5;
Sec. 6, lots 1 to 14, inclusive, W½SE¼, NE¼SE¼;
Sec. 7, lots 2, 3, and 4.
T. 20 N., R. 6 W.,
Sec. 7, lot 3;
Sec. 15, E½NE¼, NE¼SE¼;
Sec. 29, E½W½, SW¼SW¼;
Sec. 31, SW¼NE¼, SE¼SW¼.
T. 19 N., R. 7 W.,
Sec. 12, S½NW¼, NW¼SW¼.
T. 20 N., R. 7 W.,
Sec. 2, NW¼SE¼.

The areas described aggregate 2,234.88 acres.

The restored lands lie mostly in extreme western Glenn County, California, on the drainage of Stoney Creek. In general, the topography is rough and mountainous, becoming somewhat more gentle on the eastern side near Stoney Gorge Reservoir, and steeper and higher on the western side as the divide between the Pacific Ocean and Central Valley drainages is neared. The vegetation consists mostly of such scrub and brush species as chamise, scrub oak, toyon, and manzanita. On the higher portions of the land a small amount of timber is to be found, although most of this is short and scrubby and of low value. The land is, in general, too rough and mountainous for cultivation. Much of the land has some value for grazing.

No application for the restored lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any valid existing rights and the requirements of applicable law, the restored lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on January 28, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on April 28, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on April 28, 1956, will be considered as simultaneously filed at that hour. Rights, under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral-leasing laws. They will be open to location under the United States mining laws beginning at 10:00 a. m. on April 28, 1956.

Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Sacramento, California.

EDWARD WOOZLEY,
Director,
Bureau of Land Management.

DEPARTMENT OF COMMERCE

Maritime Administration

BLOOMFIELD STEAMSHIP CO.

APPLICATION FOR PERMISSION TO OPERATE "SS ALICE BROWN" BY CHARTER

Notice is hereby given of the application of Bloomfield Steamship Company for written permission of the Maritime Administrator under section 805 (a) of the Merchant Marine Act, 1936, 46 U. S. C. 1223, to permit operation of its owned vessel "SS Alice Brown" by the charterer of said vessel, States Marine Corporation, on a voyage (commencing January 17/30, 1956) carrying lumber and lumber products only from United States North Pacific ports to Poughkeepsie, N. Y. and New Haven, Connecticut.

Any person, firm or corporation having any interest in such application and desiring a hearing on issues pertinent to section 805 (a) should notify the Secretary, Maritime Administration within fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER.

Dated: December 27, 1955.

By order of the Maritime Administrator.

[SEAL] A. J. WILLIAMS,
Secretary.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

NORTH CAROLINA

DESIGNATION OF AREAS FOR ECONOMIC EMERGENCY LOANS

For the purpose of making Economic Emergency loans pursuant to section 2 (b) of Public Law 38, 81st Congress (12 U. S. C. 1148a–2 (b)), as amended, it has heretofore been determined that an economic emergency exists that has caused a need for agricultural credit that cannot be met for a temporary period from commercial banks, cooperative lending agencies, or by the Farmers Home Administration under its regular programs, or other responsible sources, in those counties listed below in the State of North Carolina which were in the area affected by a major disaster determined by the President pursuant to Public Law 875, 81st Congress (42 U. S. C. 1855; 19 F. R. 6557, 6974, and 8758).

NORTH CAROLINA

Alamance.	Lee.
Alexander.	Montgomery.
Anson.	Moore.
Ashe.	Northampton.
Caldwell.	Orange.
Caswell.	Randolph.
Chatham.	Rockingham.
Davidson.	Richmond.
Durham.	Stokes.
Forsyth.	Surry.
Guilford.	Union.
Harnett.	Wake.
Henderson.	Watauga.
Hoke.	Wilkes.
Iredell.	Yadkin.
Johnston.	

The period for making such loans in such counties is hereby extended or further extended until December 31, 1956. Thereafter, no such loans will be made in those counties except to persons who previously received such assistance.

Done at Washington, D. C., this 23d day of December 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 55-10449; Filed, Dec. 29, 1955; 8:47 a. m.]

WASHINGTON AND OREGON

DESIGNATION OF AREAS FOR PRODUCTION EMERGENCY LOANS

For the purpose of making Production Emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a–2 (a)), as amended, it has been determined that in the following named additional counties in the States of Washington and Oregon a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

OREGON

Columbia.	Multnomah.	Polk.

WASHINGTON

Clark.	Pierce.
Cowlitz.	San Juan.
Island.	Skagit.
King.	Snohomish.
Kitsap.	Thurston.
Lewis.	Whatcom.

Pursuant to the authority set forth above, such loans will not be made in such counties after December 31, 1956, except to persons who previously received such assistance.

For the purpose of making Production Emergency loans pursuant to section 2 (a) of said Public Law 38, it was heretofore determined that a production disaster has caused the need for agricultural credit not readily available from commercial banks, cooperative lending agencies, and other responsible sources in the following counties in the State of Oregon (20 F. R. 8393).

OREGON

Clackamas.	Yamhill.
Marion.	Washington.

Pursuant to the authority set forth above, such loans will not be made in the counties listed immediately above after December 31, 1956, except to persons who previously received such assistance.

Done at Washington, D. C., this 23d day of December, 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 55-10450; Filed, Dec. 29, 1955; 8:47 a. m.]

MISSISSIPPI

DESIGNATION OF AREA FOR PRODUCTION EMERGENCY LOANS

For the purpose of making loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a–2 (a)), certain counties in the State of Mississippi have heretofore been found to have suffered from a production disaster causing a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources (19 F. R. 6557).

The period for making Initial Production Emergency loans in Issaquena and Sharkey Counties, Mississippi, is hereby extended to December 31, 1956. Thereafter, in said counties such loans will not be made except to persons who previously received such assistance.

Done at Washington, D. C., this 23d day of December 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup. 214) and Parts 522 and 527 of the regulations issued thereunder (29 CFR Parts 522 and 527), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Parts 522 and 527. The effective and expiration dates, occupations, wage rates, number or proportion of learners and learning periods for certificates issued under general learner regulations (§§ 522.1 to 522.12) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Apparel Industry Learner Regulations (29 CFR 522.20 to 522.24, as amended April 19, 1955, 20 F. R. 2304).

American Modes, Inc., White Hall, Ill., effective 12–28–55 to 12–27–56; 10 learners for normal labor turnover purposes (women's and junior dresses).

American Modes, Inc., Roodhouse, Ill., effective 12–28–55 to 12–27–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (misses', women's junior dresses).

Blue Bell, Inc., Nappanee, Ind., effective 12–19–55 to 12–18–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (girls' and ladies' dungarees).

Devil Dog Manufacturing Co., Inc., Wendell, N. C., effective 12–29–55 to 12–28–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (children's and ladies' dungarees).

J. Freezer & Son, Inc., Rural Retreat, Va., effective 12–23–55 to 12–22–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' shirts).

Griffin Garment Co., 123 Experiment Street, Griffin, Ga., effective 12–18–55 to 12–17–56; 10 percent of total number of factory production workers for normal labor turnover purposes (brassieres).

Honea Path Shirt Co., Honea Path, S. C., effective 12–13–55 to 12–12–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's sport shirts and pajamas).

F. Jacobson & Sons, Inc., Kingston, N. Y., effective 12–31–55 to 12–30–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's shirts).

Lark Dress Co., Fifth and Walnut Streets, Shamokin, Pa., effective 12–28–55 to 12–27–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (women's and misses' dresses).

Morgan Shirt Co., Inc., Morgantown, W. Va., effective 12–28–55 to 12–27–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (women's and girls' blouses).

P. & M. Dress Co., Main Street, Turkey Run, Shenandoah, Pa., effective 12–14–55 to 6–20–56; 10 learners for normal labor turnover purposes (ladies' dresses) (replacement).

Reidbord Bros. Co., Blairton, Washington Township, Westmoreland County, Pa., effective 12–21–55 to 12–20–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's work trousers and work shirts).

Sanford Manufacturers, Inc., 400 Sanford Avenue, Sanford, Fla., effective 12–19–55 to 12–18–56; 10 learners for normal labor turnover purposes (men's and boys' pajamas and shirts).

Southern Garment Manufacturing Co., Inc., Culpeper, Va., effective 12–28–55 to 12–27–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (work trousers, work jackets).

Stahl-Urban Co., Brookhaven, Miss., effective 12–19–55 to 12–18–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' work trousers, outerwear jackets, etc.).

W. E. Stephens Manufacturing Co., Inc., Pulaski, Tenn., effective 1–2–56 to 1–1–57; 10 percent of the total number of factory production workers for normal labor turnover purposes (men's and boys' cotton work pants).

Waverly Garment Co., Waverly, Tenn., effective 12–27–55 to 12–26–56; 10 percent of the total number of factory production workers for normal labor turnover purposes (work shirts).

Wildwood Clothing Co., Inc., 112 East Schellenger Avenue, Wildwood, N. J., effective 12–12–55 to 12–11–56; 3 learners for normal labor turnover purposes (ladies' Bermuda shorts).

Wildwood Clothing Co., Inc., 112 East Schellenger Avenue, Wildwood, N. J., effective 12–12–55 to 12–11–56; 7 learners for normal labor turnover purposes (men's pants).

Cigar Industry Learner Regulations (29 CFR 522.80 to 522.85, as amended April 19, 1955, 20 F. R. 2304).

General Cigar Co., Inc., 715–25 North Fourth Street, Allentown, Pa., effective 12–27–55 to 12–26–56; 10 percent of the total number of factory production workers engaged in each occupation listed hereinafter. Cigar machine operating, cigar packing (cigars retailing for more than 6 cents) 320 hours each at 65 cents an hour; machine stripping, hand stripping 160 hours each at 65 percent an hour.

General Cigar Co., Inc., 154 West Church Street, Manticoke, Pa., effective 12–17–55 to 12–16–56; 10 percent of the total number of factory production workers engaged in each occupation listed below. Cigar machine operating, cigar packing (cigars retailing for over 6 cents) 320 hours at 65 cents an hour;

machine stripping 160 hours at 65 cents an hour.

General Cigar Co., Inc., Robert Burns Drive, Philipsburg, Pa., effective 12–17–55 to 12–16–56; 10 percent of the total number of factory production workers in each occupation listed hereinafter. Cigar machine operating 320 hours at 65 cents an hour; cigar packing (cigars retailing for 6 cents or less) 160 hours at 65 cents an hour; machine stripping 160 hours at 65 cents an hour.

General Cigar Co., Inc., 1301 Eleventh Seventh Avenue, Huntington, W. Va., effective 12–17–55 to 12–16–56; 10 percent of the total number of factory production workers in each occupation listed hereinafter. Cigar machine operating; packing (cigars retailing for more than 6 cents each) 320 hours each at 65 cents an hour; handstripping, machine stripping 160 hours each at 65 cents an hour.

General Cigar Co., Inc., Fifth and Hickory Streets., Mt. Carmel, Pa., effective 12–17–55 to 12–16–56; 10 percent of the total number of factory production workers in each occupation listed hereinafter. Cigar machine operating, cigar packing (cigars retailing for over 6 cents); 320 hours each at 65 cents an hour; machine stripping; 160 hours at 65 cents an hour.

Glove Industry Learner Regulations (29 CFR 522.60 to 522.65, as amended April 19, 1955, 20 F. R. 2304).

The Boss Manufacturing Co., 105 Elm Street, Chillicothe, Mo., effective 12–15–55 to 12–14–56; 10 percent of the total number of machine stitchers for normal labor turnover purposes (work gloves).

Knoxville Glove Co., 819 McGhee Street, Knoxville, Tenn., effective 12–31–55 to 12–30–56; 10 percent of the total number of machine stitchers for normal labor turnover purposes (cotton, jersey and leather palm work gloves).

Knitted Wear Industry Learner Regulations (29 CFR 522.30 to 522.35, as amended April 19, 1955, 20 F. R. 2304).

Lady Jane Manufacturing Co., Inc., 125 South Spruce Street, Mt. Carmel, Pa., effective 12–27–55 to 12–26–56; 5 percent of the total number of factory production workers for normal labor turnover purposes (ladies' underwear).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended February 28, 1955, 20 F. R. 645).

Palm Beach Co., Talladega, Ala., effective 12–19–55 to 10–30–56; 7 percent of the total number of factory production workers for normal labor turnover purposes. Machine operators (except cutting), handsewers, pressers each at 480 hours. Learners shall be paid not less than 70 cents an hour for the first 240 hours and not less than 72½ cents an hour for the remaining 240 hours (men's summer wash pants).

The following special learner certificate was issued in Puerto Rico to the company hereinafter named. The effective and expiration dates, the number of learners, the learner occupations, the length of the learning periods and the learner wage rates are indicated, respectively.

Weller Electric Corp., Km. 38.7, Road No. 3, Luquillo, P. R., effective 11–29–55 to 5–28–56; 6 persons as learners to be employed in the occupations listed hereinafter; Assembling cord, grinding, and clearing up ventilation windows and ends of plastic housing, etc., each 240 hours at 52 cents an hour and 240 hours at 62 cents an hour (electric sanders).

Regulations Applicable to the Employment of Student-Workers (29 CFR 527.1 to 527.9, October 14, 1955, 20 F. R. 7737).

Enterprise Academy, Enterprise, Kans., effective 12–14–55 to 8–31–56; print shop; pressman, compositor, linotype operator, bindery worker, and related skilled and semi-skilled occupations; 12 learners to be employed in the above occupations; 500 hours each at 65 cents an hour and 500 hours each at 70 cents an hour.

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be canceled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Parts 522 and 527.

Signed at Washington, D. C., this 20th day of December 1955.

MILTON BROOKE,
Authorized Representative of the Administrator.

[F. R. Doc. 55–10439; Filed, Dec. 29, 1955; 8:46 a. m.]

FEDERAL POWER COMMISSION

[Docket No. G–9800]

ARKANSAS FUEL OIL CORP.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Arkansas Fuel Oil Corporation (Applicant), on November 23, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filings which are proposed to become effective on the date shown:

Description; Purchaser; Rate Schedule Designation; and Effective Date [1]

Ratification dated March 18, 1955; United Fuel Gas Company, Applicant's FPC Gas Rate Schedule No. 49; December 24, 1955.

Contract dated October 31, 1952; United Fuel Gas Company; Supplement No. 1 to Applicant's FPC Gas Rate Schedule No. 49; December 24, 1955.

Letter dated October 31, 1952; United Fuel Gas Company; Supplement No. 2 to Applicant's FPC Gas Rate Schedule; December 24, 1955.

Applicant's share of the natural gas from the "P" Sand Unit in the Bourg Field, Terre Bonne Parish, Louisiana, is presently being sold to United Fuel Gas Company under Cities Service Production Company's (Cities Service) FPC Gas Rate Schedule No. 1. By order of the Commission issued October 24, 1955, in Docket No. G–9510, the increase proposed by Cities Service in its base price for gas sold under its FPC Gas Rate Schedule No. 1 was suspended and the use thereof deferred until April 1, 1956. The increase proposed by Applicant herein is identical to the increase suspended in Docket No. G–9510.

The increased rates and charges proposed by Applicant's filing of November 23, 1955, have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated rate schedule and supplements be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders: (A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated rate schedule and supplements be and the same hereby are suspended and the use thereof deferred until April 1, 1956, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: December 20, 1955.

Issued: December 23, 1955.

By the Commission.[2]

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55–10440; Filed, Dec. 29, 1955; 8:46 a. m.]

[1] The stated effective date is the first day after expiration of the required thirty days' notice, or the effective date proposed by Applicant if later.

[Docket No. G–9801]

HUMBLE OIL & REFINING CO.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Humble Oil & Refining Company (Applicant) on November 23, 1955, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description; Purchaser; Rate Schedule Designation; and Effective Date [1]

Notice of change (undated), Tennessee Gas Transmission Company, Supplement No. 7 to Applicant's FPC Gas Rate Schedule No. 6, 12–24–55.

[2] Commissioner Digby dissenting.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as herinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until May 24, 1956, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: December 20, 1955.

Issued: December 23, 1955.

By the Commission.[1]

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55–10441; Filed, Dec. 29, 1955; 8:46 a. m.]

[Docket No. E–6653]

ARIZONA PUBLIC SERVICE CO.

NOTICE OF APPLICATION

DECEMBER 23, 1955.

Take notice that on December 16, 1955, an application was filed by the Arizona Public Service Company (Applicant), for an order, pursuant to section 203 of the Federal Power Act authorizing the sale by it of certain electric facilities to the Salt River Project Agricultural Improvement and Power District (District), or in the alternative, for an order disclaiming jurisdiction in regard thereto.

Applicant, a corporation, organized and existing under the laws of the State of Arizona, with its principal place of business in Phoenix, Arizona, proposes to transfer electric facilities located, in part, near Phoenix, Arizona, and in part, near Tempe, Arizona, to District at a price of $67,063.15, subject to closing adjustments. The proposed disposition would be made under an agreement between Applicant and District dated August 31, 1955, whereby Applicant will also acquire certain electric facilities from District principally located in Maricopa County, Arizona, at a price of $1,304,926.27, subject to closing adjustments.

According to the application District is a political subdivision of the State of Arizona whose principal business is the operation of the Salt River Project. It maintains an electric system and renders electric service in Maricopa, Pinal and Gila Counties of Arizona, in which areas Applicant likewise renders electrical service.

The application states that the Applicant and District have also entered into a power coordination agreement designed to coordinate the effective upon the taking effect of the aforementioned agreement relating to the transfer of electric facilities; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to the application should on or before the 13th day of January 1956 file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's General Rules and Regulations.

The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55–10442; Filed, Dec. 29, 1955; 8:47 a. m.]

[1] Commissioner Digby dissenting.

[Docket No. G–7468]

DR. P. E. SMITH ET AL.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 23, 1955.

Take notice that Dr. P. E. Smith, Katie A. Smith, Katherine Smith and P. E. Smith, Jr., hereinafter referred to as Applicant, individuals whose addresses are 2000 Hardy Street, Hattiesburg, Mississippi, filed on December 1, 1954, a joint application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of approximately 3½ acres in Unit SW 31,[1] Maxie Field and approximately 1½ acres in Creosote No. 2 Unit,[2] Pistol Ridge Field, Forrest County, Mississippi, to United Gas Pipe Line Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Tuesday, January 31, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 10, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55–10443; Filed, Dec. 29, 1955; 8:47 a. m.]

[1] The operator of SW 31 Unit is Ohio Oil Company in accordance with a Joint Operating Agreement. Applicant has not individually made any contract of sale with regard to this interest.

[2] The operator of the Creosote No. 2 Unit is Morgan and Norton. See Docket No. G–5930. The sales contract involved was signed by predecessor in title to Applicant.

[Docket No. G–8483, etc.]

CABOT CARBON CO. ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 23, 1955.

In the matters of Cabot Carbon Company, Docket No. G–8483; White Eagle Oil Company and/or Helmerich & Payne, Inc., Docket No. G–8662; Appell Drilling Company, Docket No. G–9372; Chas. A. Daubert, Docket No. G–9373; J. P. Petkas, Docket No. G–9374; Texita Oil Company, Docket No. G–9375; Gas Gathering Company, Docket No. G–9376.

There have been filed with the Federal Power Commission applications as hereinafter specified:

Docket No.; Address; Location of Field; and Buyer

G–8483; 77 Franklin Street, Boston 10, Massachusetts, Hugoton Field, Seward County, Kansas; Panhandle Eastern Pipe Line Company.

G–8662; Tulsa, Oklahoma, Hugoton Field, Morton County, Kansas; Panhandle Eastern Pipe Line Company.

G–9372; Drawer 330, Alice, Texas; East Mathis Field, San Patricio County, Texas; Gas Gathering Company.

G–9373; Milam Building, San Antonio, Texas; North William Field, San Patricio County, Texas; Gas Gathering Company.

G–9374; 922 San Jacinto Building, Houston 2, Texas; Willman Field, San Patricio County, Texas; Gas Gathering Company.

G–9375; 1712 Milam Building, San Antonio, Texas; Het Field, San Patricio County, Texas; Gas Gathering Company.

G–9376; Driscoll Building, Corpus Christi, Texas; East Mathis, Het, Willman, and North

Willman Fields, San Patricio County, Texas; Trunkline Gas Company.

Each has filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render services as hereinbefore described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicants produce and propose to sell natural gas for transportation in interstate commerce for resale, as indicated above.

These matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 30, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 16, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[Docket No. G-8821, etc.]

FRANCIS A. CALLERY ET AL.

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 23, 1955.

In the matters of Francis A. Callery, Docket No. G-8821; United Gas Pipe Line Company, Docket No. G-8824; N. C. Ginther, et al., Docket No. G-8853.

Take notice that Francis A. Callery and N. C. Ginther, et al. (Applicants), individuals whose address is Houston, Texas, filed on April 28, 1955, and May 4, 1955, respectively, applications for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicant, Francis A. Callery, produces gas from the Scott Field, Lafayette Parish, Louisiana and Applicant, N. C. Ginther, et al., produces gas from the Fromme Field, Goliad County, Texas, which they propose to sell to United Gas Pipe Line Company for transportation in interstate commerce for resale.

Applicant, United Gas Pipe Line Company (United), a Delaware corporation with its principal place of business at Shreveport, Louisiana, filed its application on April 28, 1955, as supplemented on May 31, 1955, for a certificate of public convenience and necessity authorizing it to construct and operate two purchase meter stations and appurtenant facilities, together with other facilities required from time to time to connect or take additional deliveries from wells in the Scott Field, Lafayette Parish, Louisiana and the Fromme Field, Goliad County, Texas to United's existing pipe line system, subject to the jurisdiction of the Commission all as more fully represented in its application and supplement which is on file with the Commission and open for public inspection.

The estimated cost of the above proposed facilities is $9,586, which will be financed from current working funds.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 31, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 16, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-9395]

SINCLAIR OIL & GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 23, 1955.

Take notice that Sinclair Oil & Gas Company (Applicant), a Maine corporation whose address is Sinclair Building, Tenth and Boston, Tulsa, Oklahoma, filed, on September 26, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of certain acreage, Pistol Ridge Field, Forrest County, Mississippi, to United Gas Pipe Line Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Tuesday, January 31, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 10, 1956. SEVEN STATES AREA INVESTIGATION

NOTICE OF PREHEARING CONFERENCE

Notice is hereby given that a prehearing conference in the above-entitled investigation is assigned to be held on January 24, 1956, at 10:00 a. m., e. s. t., in Room E-210, Temporary Building No. 5, Sixteenth Street and Constitution Avenue NW., Washington, D. C., before Examiner Curtis C. Henderson.

Attention is directed to the Rule 302.12 (b) of the Board's Rules of Practice which specifies:

A motion to consolidate or contemporaneously consider an application with any other application shall be filed not later than the prehearing conference in the proceeding with which consolidation or contemporaneous consideration is requested, and shall relate only to a then pending application.

In order to facilitate conduct of the conference and in accord with the above rule it is requested that any party desiring to prosecute an application in this proceeding file on or before January 16, 1956, a motion for consolidation with Examiner Henderson and/or any new applications for which consolidation may be sought. Copies of such motions should be served on all applicants.

In addition, it is requested that any "request for evidence" be transmitted to the examiner and to the party from whom the evidence is sought on or before January 16, 1956.

Counsel will be expected to state the views of their client with respect to issues discussed during the course of this conference.

Dated at Washington, D. C., December 27, 1955.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-1353]

HOME DAIRY CO.

NOTICE OF APPLICATION TO WITHDRAW FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

DECEMBER 23, 1955.

In the matter of Home Dairy Company, 80¢ Cumulative Preferred Stock, No Par Value.

The above named issuer, pursuant to Section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to withdraw the specified security from listing and registration on the Detroit Stock Exchange.

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

The holders of record number only 211. Transactions on the Detroit Stock Exchange are negligible, being reported at 3 shares in 1952, none in 1953 and 1954, and 25 shares March 1955. The Detroit Stock Exchange has no objection to the making of this application to remove the shares from listing and registration thereon.

Upon receipt of a request, on or before January 12, 1956, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15 cents) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended August 5, 1953. The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of books and pocket supplements vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER, or the CODE OF FEDERAL REGULATIONS.

CFR SUPPLEMENTS
(For use during 1955)

The following Supplement is now available:

General Index ($1.25)

All of the Cumulative Pocket Supplements and revised books of the Code of Federal Regulations (as of January 1, 1955) are now available with the exception of Titles 1–3

Order from Superintendent of Documents, Government Printing Office, Washington 25, D. C.

AVERAGE VALUES OF FARMS; IDAHO

For the purposes of title I of the Bankhead-Jones Farm Tenant Act, as amended, average values of efficient family-type farm-management units for the counties identified below are determined to be as herein set forth. The average values heretofore established for said counties, which appear in the tabulations of average values under § 311.29, Chapter III, Title 6 of the Code of Federal Regulations, are hereby superseded by the average values set forth below for said counties.

IDAHO	*Average value*
County:	
Ada	$26,000
Adams	28,000
Bannock	30,000
Bear Lake	30,000
Benewah	25,000
Bingham	30,000
Blaine	28,000
Boise	28,000
Bonner	25,000
Bonneville	30,000
Boundary	25,000
Butte	28,000
Camas	28,000
Canyon	26,000
Caribou	30,000
Cassia	26,000
Clark	30,000
Clearwater	25,000
Custer	28,000
Elmore	28,000
Franklin	30,000
Fremont	30,000
Gem	26,000
Gooding	28,000
Idaho	25,000
Jefferson	30,000
Jerome	26,000
Kootenai	25,000
Latah	30,000
Lemhi	28,000
Lewis	25,000
Lincoln	26,000
Madison	30,000

IDAHO—Continued County:	Average value
Minidoka	$26,000
Nez Perce	25,000
Oneida	30,000
Owyhee	26,000
Payette	26,000
Power	30,000
Shoshone	25,000
Teton	30,000
Twin Falls	26,000
Valley	28,000
Washington	26,000

Chapter VIII—Commodity Stabilization Service (Sugar), Department of Agriculture

Subchapter H—Determination of Wage Rates

[Sugar Determination 868.8]

PART 868—WAGE RATES; SUGARCANE; VIRGIN ISLANDS

CALENDAR YEAR 1956

Pursuant to the provisions of section 301 (c) (1) of the Sugar Act of 1948, as amended, (herein referred to as "act"), after investigation, and consideration of the evidence obtained at the public hearing held in Christiansted, St. Croix, Virgin Islands, on October 11, 1955, the following determination is hereby issued.

§ 868.8 *Fair and reasonable wage rates for persons employed in the production, cultivation, or harvesting of sugarcane in the Virgin Islands during the calendar year 1956*—(a) *Requirements.* A producer of sugarcane in the Virgin Islands shall be deemed to have complied with the wage provisions of the act during the calendar year 1956 if all persons employed on the farm in the production, cultivation, or harvesting of sugarcane shall have been paid in accordance with the following:

(1) *Wage rates.* All such persons shall have been paid in full for all such work and shall have been paid wages in cash therefor at rates as agreed upon between the producer and the worker, but after the date of publication of this section in the FEDERAL REGISTER or January 1, 1956, whichever is later, not less than the following:

(i) *Basic time rates.* The basic rates per hour for the first 8 hours of work performed in any 24-hour period shall be as follows:

Class of worker:	Basic rate per hour
A—Operators of mechanical loaders	$0.65
B—Operators of tractors and trucks	.50
C—Chemical sprayers	.43
D—All others	.40

(ii) *Apprentice operators of mechanical loaders and tractors.* For a learner or apprentice the hourly wage rate for Class A work in subdivision (i) of this subparagraph may be reduced by not more than 15 cents per hour and the hourly rate for Class B tractor driver work in subdivision (i) of this subparagraph may be reduced by not more than 10 cents per hour: *Provided,* That the training period for such workers shall not exceed six work-weeks and: *Provided further,* That the employer shall have available for examination by the local supervisor of the Caribbean Area Agricultural Stabilization and Conservation Office, San Juan, Puerto Rico (hereinafter referred to as "Area Office"), a copy of the certificate of learner or apprentice status issued by the St. Croix Municipal Wage Commissioner in accordance with the provisions of section 6 (a) of St. Croix Municipal Council Bill No. 43, passed July 3, 1952.

(iii) *Handicapped workers.* For an individual whose productive capacity is impaired by age or physical or mental deficiency the hourly wage rates provided under subdivision (i) of this subparagraph may be decreased by not more than one-third: *Provided,* That the employer shall have available for examination by the local supervisor of the Area Office, a copy of the certificate of individual worker impairment issued by the St. Croix Municipal Council Wage Commissioner in accordance with the provisions of section 6 (a) of St. Croix Municipal Council Bill No. 43, passed July 3, 1952.

(iv) *Overtime.* Persons employed in excess of 8 hours in any 24-hour period or in excess of 44 hours in any one week shall be paid for the overtime work at a rate not less than one and one-half times the applicable hourly rate provided in subdivisions (i), (ii), and (iii) of this subparagraph: *Provided,* That this provision shall be inapplicable to workers who are employed under extraordinary emergencies as defined in Section 4 (c) of St. Croix Municipal Council Bill No. 2 passed January 5, 1950.

(v) *Piecework rates.* If work is performed on a piecework basis, the rate shall be as agreed upon between the producer and the worker: *Provided,* That the hourly rate of earnings for each worker for the time involved on each separate unit of work for which a piecework rate is agreed upon shall be not less than the applicable hourly rate provided under subdivisions (i), (ii), (iii), and (iv) of this subparagraph.

(2) *Compensable working time.* For work performed under subparagraph (1) of this paragraph, compensable working time includes all time which the worker spends in the performance of his duties except time taken out for meals during the work day. Compensable working time commences at the time the worker is required to start work in the field and ends upon completion of work in the field. However, if the producer requires the operator of mechanical equipment, driver of animals, or any other class of worker to report to a place other than the field, such as an assembly point, stable, tractor shed, etc., located on the farm, time spent in transit to and from the field is compensable working time. Any time spent in performing work directly related to the principal work performed by the worker such as servicing equipment, is compensable working time. Time of the worker while being transported from a central recruiting point or labor camp to the farm is not compensable working time.

(b) *Subterfuge.* The producer shall not reduce the wage rates to workers below those determined herein through any subterfuge or device whatsoever.

(c) *Claim for unpaid wages.* Any person who believes he has not been paid in accordance with this determination may file a wage claim with the Caribbean Area Agricultural Stabilization and Conservation Office, San Juan, Puerto Rico, against the producer on whose farm the work was performed. Such claim must be filed within two years from the date the work with respect to which the claim is made was performed. Detailed instructions and wage claim forms are available at that office. Upon receipt of a wage claim the Area Office shall thereupon notify the producer against whom the claim is made concerning the representation made by the worker. The Area Office shall make such investigation as it deems necessary and shall notify the producer and worker in writing of its recommendation for settlement of the claim. If the recommendation of the Area Office is not acceptable, either party may file an appeal with the Director of the Sugar Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington 25, D. C. All such appeals shall be filed within 15 days after receipt of the recommended settlement from the Area Office; otherwise, such recommended settlement will be applied in making payments under the act. If a claim is appealed to the Director of the Sugar Division, his decision shall be binding on all parties insofar as payment under the act is concerned.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination establishes fair and reasonable wage rates to be paid for work performed by persons employed on the farm in the production, cultivation, or harvesting of sugarcane during the calendar year 1956, as one of the conditions with which producers must comply to be eligible for payments under the act.

(b) *Requirements of the act and standards employed.* Section 301 (c) (1) of the act requires that all persons employed on the farm in the production, cultivation, or harvesting of sugarcane with respect to which an application for payment is made shall have been paid in full for all such work, and shall have been paid wages therefor at rates not less than those that may be determined by the Secretary to be fair and reasonable after investigation and due notice and opportunity for public hearing; and in making such determinations the Secretary shall take into consideration the standards therefor formerly estabilshed by him under the Agricultural Adjustment Act, as amended (i. e., cost of living, prices of sugar and by-products, income from sugarcane, and cost of production), and the differences in conditions among various producing areas.

(c) *1956 wage determination.* The 1956 determination continues the provisions of the 1955 wage determination. Minor language changes have been made which do not affect the requirements.

At the public hearing held in Christiansted, St. Croix, Virgin Islands, on October 11, 1955, interested persons presented testimony with respect to fair and reasonable wage rates for the calendar year 1956. A representative of the Federally-owned Virgin Islands Corporation recommended that there be no change in the 1956 determination from that effective in 1955. He submitted a financial statement of the Corporation for the fiscal year ending June 30, 1955 which indicated that the losses of the Corporation continue to be substantial. He also stated that the scarcity of labor is still the most serious problem confronting the Corporation. The witness stated that the provisions for apprentice operators of mechanical loaders and tractors and for the employment of handicapped workers had not been utilized but recommended that both be retained in the determination.

A representative of the St. Croix Labor Union recommended that the provision for perquisites be restored to the 1956 determination and that the other provisions of the 1955 determination to continued unchanged for 1956. He stated that while the resident workers were charged rent for housing owned by the Virgin Islands Corporation the imported workers received free housing and lights. The witness testified that food prices during the past year have remained essentially the same but increases in clothing prices have raised the cost of living slightly, and that small farmers generally pay higher wage rates than the minimum rates set forth in the determination.

A representative of the St. Croix Sugar Industries, Inc., recommended that the wage determination in effect in 1955 be continued for 1956. The witness testified that while sugar prices have been declining, field labor wage rates have remained the same and the scarcity of labor has necessitated importing workers which has increased costs. The witness endorsed retention of the handicapped worker's rate as well as the provision for apprentice workers.

A representative of the Farmers' Production and Marketing Service recommended that the provisions of the wage determination remain unchanged. He commented on the inequity of the Virgin Islands Corporation furnishing free housing to imported workers while charging resident workers rent. He further stated that workers demand 10 cents per hour above the minimum wage when working for the small farmer.

A representative of a large independent grower testified that he had to import workers for harvest because he was unable to find enough workers locally. The witness also testified that he had been unable to find any increases in food and clothing prices during the past year.

Consideration has been given to the recommendations made, to the economic position of producers and workers, to information resulting from investigations, to the required standards of the act, and other pertinent factors. Analysis of available data indicates that while the losses of the Virgin Islands Corporation for the 1955 crop were not as great as in 1954, it does not appear likely under prospective conditions that the Corporation's financial position with respect to sugarcane-growing operations will improve substantially for the 1956 crop.

Recent wage determinations have conformed to minimum wage legislation prescribed by the Municipal Council of St. Croix even though the wage rates are higher than those indicated by application of the standards customarily considered in wage determinations under the Sugar Act.

The recommendation that the perquisite provision be restored in the determination has not been adopted. The perquisite provision was eliminated from the wage determination in 1954 because the Virgin Islands Corporation, the largest employer of labor, is required by federal statutes and regulations to make a charge for housing furnished to workers. A witness for the Corporation stated at the hearing that the Corporation was required by contract with foreign governments to furnish free sleeping quaraters and lights to imported workers.

After consideration of all factors, the wage rates and other provisions in this determination are deemed to be fair and reasonable.

Accordingly, I hereby find and conclude that the foregoing wage determination will effectuate the wage provision of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U. S. C. 1153. Interprets or applies sec. 301, 61 Stat. 929; 7 U. S. C. 1131).

Issued this 28th day of December 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 55-10584; Filed, Dec. 30, 1955; 8:50 a. m.]

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 68]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.368 *Navel Orange Regulation 68*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 19 F. R. 2941), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on December 29, 1955, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at

12:01 a. m., P. s. t., January 1, 1956, and ending at 12:01 a. m., P. s. t., January 8, 1956, is hereby fixed as follows:

(i) District 1: 739,200 cartons;

(ii) District 2: 107,240 cartons;

(iii) District 3: Unlimited movement;

(iv) District 4: Unlimited movement.

(2) Navel oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "District 1," "District 2," "District 3," and "District 4" have the same meaning as when used in said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit, or lemon box set forth as standard container number 58 in section [redacted] amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 30, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-10613; Filed, Dec. 30, 1955; 11:25 a. m.]

PART 934—MILK IN MERRIMACK VALLEY, MASS., MARKETING AREA

STANDARD WEIGHTS

Findings and determinations. In accordance with the provisions of the Administrative Procedure Act (60 Stat. 237), there was published in the FEDERAL REGISTER of December 17, 1955 (20 F. R. 9495), notice that the market administrator under Order No. 34, regulating the handling of milk in the Merrimack Valley, Massachusetts, marketing area (7 CFR Part 934), was considering the issuance of a proposed amendment to the rules and regulations (7 CFR 934.101 et seq.) issued by him to effectuate the terms and provisions of that order.

The aforesaid notice specified that all persons who desired to submit data, views, or arguments in connection with the proposed amendment to the rules and regulations should submit them in writing to the market administrator in time to be received not later than 5:15 p. m., December 22, 1955. No such data, views, or arguments were received within the time specified in the notice.

It is hereby found and determined that the amendment to the rules and regulations herein set forth is necessary to effectuate the terms and provisions of Order No. 34, as amended, and as further amended effective January 1, 1956. Since it does not require substantial or extensive preparation by the persons affected, it is impractical and unnecessary to delay the effective date of this amendment to the rules and regulations. Therefore, pursuant to authority contained in said Order No. 34, the following amendment to the rules and regulations is hereby issued, to be effective on and after the 1st day of January 1956.

Amend the table of standard weights in § 934.141 to provide the following standard weights for half and half, to be used in the absence of specific weights:

Product	Butterfat test	Weight (pounds)	
		Per quart container	Per 40-quart container
Half and Half	Any test	2.14	84.5

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Boston, Massachusetts, this 23d day of December 1955.

[SEAL] ROBERT W. CHERRY,
Acting Market Administrator.

[F. R. Doc. 55-10579; Filed, Dec. 30, 1955; 8:53 a. m.]

[Docket No. AO-101-A20]

PART 941—MILK IN CHICAGO, ILL., MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 941.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), a public hearing was held at Chicago, Illinois, on July 5-8, 1955, upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for such milk and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making effective as soon as possible and not later than January 1, 1956, this order amending the order, as amended. This action is necessary in the public interest to reflect current marketing conditions. Accordingly, any delay in the effective date of this order beyond the aforesaid date, will seriously impair orderly marketing of milk in the Chicago, Illinois, marketing area. The provisions of the said amendatory order are well known to handlers, the public hearing having been held on July 5-8, 1955, a recommended decision having been issued on November 29, 1955, and a final decision having been issued on December 22, 1955. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this amendatory order 30 days after its publication in the FEDERAL REGISTER (See section 4 (c) Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determination.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping the milk covered by this order amending the order, as amended, which is marketed within the Chicago, Illinois, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who, during the determined representative period (September 1955) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Chicago, Illinois, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 941.69 (a) (1) delete the words "December 31" and insert instead the words "January 15 preceding the months in which the base applies,".

2. In § 941.69 (a) (2) delete subdivision (ii) and substitute the following:

(ii) Determine the percentage that base milk was of the remaining pounds and subtract ten, except that for the months of March, April, May and June 1956 the percentages computed pursuant to this subdivision shall be as follows:

Month:	Percentage
March 1956	65
April 1956	60
May 1956	55
June 1956	55

3. Delete § 941.69 (b) (3) and substitute the following:

(3) Where two or more producers deliver milk from the same farm, the market administrator shall compute one base for each such farm, which base shall be held jointly in the names of the producers, and during March, April, May and June, each producer having an interest in a jointly held base shall share the base during each delivery period in the same proportion as he shares in the milk deliveries in such delivery period: *Provided*, That if the producers have earned bases separately, one or more of which was earned on another farm, each producer may retain his individual base if application is made in writing to the market administrator postmarked not later than the last day of the first month during which the base is to apply.

4. Renumber § 941.69 (b) (4) as § 941.69 (b) (5) and insert a new subparagraph (4) as follows:

(4) When two or more producers holding a joint base cease delivering milk from the same farm, the base may be divided among the producers having an interest in such base by notification in writing to the market administrator postmarked not later than the last day of the month during which the division is to be effective, such notification to specify the terms of division of base and bearing the signatures of all interested producers: *Provided*, That in the event producers do not notify the market administrator of their agreed terms of division of base by letter postmarked not later than the last day of the month during which the division is effective, the market administrator shall divide the base among the producers in the same ratio as they shared in the milk deliveries during the base-making period, or if the base is held in the name of a partnership, it shall be divided equally among the interested producers.

5. In § 941.69 (b) insert subparagraph (6) as follows:

(6) Subject to the provisions set forth in subparagraphs (1) and (2) of this paragraph, a producer who discontinues shipping milk to a pool plant during September, October, or November may transfer to another producer credit for milk deliveries for base making purposes.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 28th day of December 1955, to be effective on and after the 1st day of January 1956.

[SEAL] TRUE D. MORSE,
Acting Secretary.

[F. R. Doc. 55-10578; Filed, Dec. 30, 1955; 8:49 a. m.]

[945.301 Amdt. 1]

PART 945—TOMATOES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

Findings. (a) Pursuant to Marketing Agreement No. 125 and Order No. 45 (7 CFR Part 945; 20 F. R. 7357), regulating the handling of tomatoes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Florida Tomato Committee, established pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the amendment to the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(b) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of tomatoes, in the manner set forth below, on and after the effective date of this amendment, (iii) compliance with this amendment will not require any special preparation on the part of handlers which cannot be completed by the effective date, (iv) reasonable time is permitted, under the circumstances, for such preparation, (v) information regarding the committee's recommendations has been made available to producers and handlers in the production area, and (vi) this amendment relieves restrictions on the handling of tomatoes grown in the production area.

Order, as amended. The provisions of § 945.301 (b) (3) (FEDERAL REGISTER, December 1, 1955; 20 F. R. 8808) are hereby amended as follows:

(3) The requirements of subparagraph (1) of this paragraph shall not be applicable to shipments of tomatoes (i) within the production area, (ii) to canning plants, or (iii) for relief or charity.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 28th day of December 1955, to become effective January 2, 1956.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division.

[F. R. Doc. 55-10581; Filed, Dec. 30, 1955; 8:50 a. m.]

[Lemon Reg. 622]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.729 *Lemon Regulation 622*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 8451), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on December 28, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to ef-

fectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., January 1, 1956, and ending at 12:01 a. m., P. s. t., January 8, 1956, is hereby fixed as follows:

(i) District 1: 37,200 cartons;

(ii) District 2: 176,700 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," and "District 3" have the same meaning as when used in the said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c).

Dated: December 29, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55-10609; Filed, Dec. 30, 1955; 8:55 a. m.]

PART 996—MILK IN SPRINGFIELD, MASS., MARKETING AREA

STANDARD WEIGHTS

Findings and determinations. In accordance with the provisions of the Administrative Procedure Act (60 Stat. 237), there was published in the FEDERAL REGISTER of December 17, 1955 (20 F. R. 9495), notice that the market administrator under Order No. 96, regulating the handling of milk in the Springfield, Massachusetts, marketing area (7 CFR Part 996), was considering the issuance of a proposed amendment to the rules and regulations (7 CFR 996.101 et seq.) issued by him to effectuate the terms and provisions of that order.

The aforesaid notice specified that all persons who desired to submit data, views, or arguments in connection with the proposed amendment to the rules and regulations should submit them in writing to the market administrator in time to be received not later than 5:15 p. m., December 22, 1955. No such data, views, or arguments were received within the time specified in the notice.

It is hereby found and determined that the amendment to the rules and regulations herein set forth is necessary to effectuate the terms and provisions of Order No. 96, as amended, and as further amended effective January 1, 1956. Since it does not require substantial or extensive preparation by the persons affected, it is impractical and unnecessary to delay the effective date of this amendment to the rules and regulations. Therefore, pursuant to authority contained in said Order No. 96, the following amendment to the rules and regulations is hereby issued, to be effective on and after the 1st day of January 1956.

Amend the table of standard weights in § 996.141 to provide the following standard weights for half and half, to be used in the absence of specific weights:

Product	Butterfat test	Weight (pounds)	
		Per quart container	Per 40-quart container
Half and Half....	Any test.....	2.14	84.5

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Boston, Massachusetts, this 23d day of December 1955.

[SEAL] ROBERT W. CHERRY,
Acting Market Administrator.

[F. R. Doc. 55-10600; Filed, Dec. 30, 1955; 8:49 a. m.]

PART 999—MILK IN WORCESTER, MASS., MARKETING AREA

STANDARD WEIGHTS

Findings and determinations. In accordance with the provisions of the Administrative Procedure Act (60 Stat. 237), there was published in the FEDERAL REGISTER of December 17, 1955 (20 F. R. 9495), notice that the market administrator under Order No. 99, regulating the handling of milk in the Worcester, Massachusetts, marketing area (7 CFR Part 999), was considering the issuance of a proposed amendment to the rules and regulations (7 CFR 999.101 et seq.) issued by him to effectuate the terms and provisions of that order.

The aforesaid notice specified that all persons who desired to submit data, views, or arguments in connection with the proposed amendment to the rules and regulations should submit them in writing to the market administrator in time to be received not later than 5:15 p. m., December 22, 1955. No such data, views, or arguments were received within the time specified in the notice.

It is hereby found and determined that the amendment to the rules and regulations herein set forth is necessary to effectuate the terms and provisions of Order No. 99, as amended, and as further amended effective January 1, 1956. Since it does not require substantial or extensive preparation by the persons affected, it is impractical and unnecessary to delay the effective date of this amendment to the rules and regulations. Therefore, pursuant to authority contained in said Order No. 99, the following amendment to the rules and regulations is hereby issued, to be effective on and after the 1st day of January 1956.

Amend the table of standard weights in § 999.141 to provide the following standard weights for half and half, to be used in the absence of specific weights:

Product	Butterfat test	Weight (pounds)	
		Per quart container	Per 40-quart container
Half and Half....	Any test.....	2.14	84.5

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Boston, Massachusetts, this 23d day of December 1955.

[SEAL] ROBERT W. CHERRY,
Acting Market Administrator.

[F. R. Doc. 55-10599; Filed, Dec. 30, 1955; 8:53 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53990]

PART 3—DOCUMENTATION OF VESSELS

CHANGE OF NAME OF VESSEL

Section 3.51 (i) of the Customs Regulations requires an accurate index of each change of name of a documented vessel to be maintained at the vessel's home port. Since the index of marine documents (customs Form 1241) and the title records at the home port, the annual publication "Merchant Vessels of the United States," and the monthly supplements to that publication afford sufficient information on name changes, the requirement for a special index is being eliminated.

In addition, to afford a greater measure of protection to vessel creditors, as contemplated by the change of name statute, it is desirable to limit to 6 months the period during which an order for change of name may be made effective.

For these reasons, § 3.51 (i) of the Customs Regulations is amended to read as follows:

(i) The order for change of name shall be effective only if the vessel is documented in the new name within a period of 6 months from the date of the order.

(Sec. 2, 23 Stat. 118, as amended; 46 U. S. C. 2. Interprets or applies R. S. 4179, secs. 1–3, 41 Stat. 436, as amended, 437, as amended; 46 U. S. C. 50–53)

Pending revision of customs Form 1323, any order on the present form approving a change of name shall be limited in accordance with § 3.51 (i) as amended above.

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: December 23, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[F. R. Doc. 55-10601; Filed, Dec. 30, 1955; 8:53 a. m.]

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

PART 40—SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

REVISION OF PART

Because of the great number of amendments to Part 40, it has been decided to issue a revision of this part incorporating all amendments thereto in effect on December 31, 1955. Attention is also called to the following changes which have been made:

(1) Minor editorial changes have been made in a few of the definitions in § 40.5. These changes are for the purpose of obtaining uniformity in language or clarification of intent.

(2) Minor editorial changes have been made in §§ 40.18, 40.33, 40.35, 40.61 (a) (2), 40.63 (a), 40.117, 40.171 (g), 40.175 (b), 40.176, 40.284 (a), 40.304 (b), 40.340 (a) and (b), 40.363 (c), 40.406 (c), and 40.508 (b).

(3) Obsolete compliance dates have been deleted from §§ 40.90, 40.172 (k), 40.173 (b) (3), and 40.175 (d).

(4) An obsolete footnote in § 40.110 has been deleted.

(5) A proviso containing an obsolete compliance date in § 40.175 (c) has been deleted.

(6) All footnotes have been changed to notes and follow the sections to which they apply.

Since the changes effected by this revision are minor in nature and impose no additional burden on any person, notice and public procedure hereon are unnecessary and the revised part may be made effective on less than 30 days' notice.

In consideration of the foregoing, the Civil Aeronautics Board hereby revises Part 40 of the Civil Air Regulations (14 CFR Part 40, as amended) as attached hereto, effective on December 31, 1955.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

APPLICABILITY AND DEFINITIONS

Sec.
40.1 Applicability of this part.
40.2 Applicability of Parts 43 and 60 of this subchapter.
40.5 Definitions.

CERTIFICATION RULES AND OPERATIONS SPECIFICATIONS REQUIREMENTS

40.10 Certificate required.
40.11 Contents of certificate.
40.12 Application for certificate.
40.13 Issuance of certificate.
40.14 Amendment of certificate.
40.15 Display of certificate.
40.16 Duration of certificate.
40.17 Transferability of certificate.
40.18 Operations specifications required.
40.19 Contents of specifications.
40.20 Utilization of operations specifications.
40.21 Amendment of operations specifications.
40.22 Inspection authority.
40.23 Operations and maintenance base and office.

REQUIREMENTS FOR SERVICES AND FACILITIES

40.30 Route requirements; demonstration of competence.
40.31 Width of routes.
40.32 IFR routes outside of control areas.
40.33 Airports.
40.34 Communications facilities.
40.35 Weather reporting facilities.
40.36 En route navigational facilities.
40.37 Servicing and maintenance facilities.
40.38 Location of dispatch centers.

MANUAL REQUIREMENTS

40.50 Preparation of manual.
40.51 Contents of manual.
40.52 Distribution of manual.
40.53 Airplane Flight Manual.

AIRPLANE REQUIREMENTS

40.60 General.
40.61 Airplane certification requirements.
40.62 Airplane limitation for type of route.
40.63 Proving tests.

AIRPLANE PERFORMANCE OPERATING LIMITATIONS; TRANSPORT CATEGORY

40.70 Transport category airplane operating limitations.
40.71 Weight limitations.
40.72 Take-off limitations to provide for engine failure.
40.73 En route limitations; all engines operating.
40.74 En route limitations; one engine inoperative.
40.75 En route limitations; two engines inoperative.
40.76 Special en route limitations.
40.77 Landing distance limitations; airport of destination.
40.78 Landing distance limitations; alternate airports.

AIRPLANE PERFORMANCE OPERATING LIMITATIONS; NONTRANSPORT CATEGORY

40.90 Nontransport category airplane operating limitations.
40.91 Take-off limitations.
40.92 En route limitations; one engine inoperative.
40.93 Landing distance limitations; airport of intended destination.
40.94 Landing distance limitations; alternate airports.

SPECIAL AIRWORTHINESS REQUIREMENTS

40.110 Fire prevention.
40.111 Susceptibility of materials to fire.
40.112 Cabin interiors.
40.113 Internal doors.
40.114 Ventilation.
40.115 Fire precautions.
40.116 Proof of compliance.
40.117 Propeller de-icing fluid.
40.118 Pressure cross-feed arrangements.
40.119 Location of fuel tanks.
40.120 Fuel system lines and fittings.
40.121 Fuel lines and fittings in designated fire zones.
40.122 Fuel valves.
40.123 Oil lines and fittings in designated fire zones.
40.124 Oil valves.
40.125 Oil system drains.
40.126 Engine breather line.
40.127 Fire walls.
40.128 Fire-wall construction.
40.129 Cowling.
40.130 Engine accessory section diaphragm.
40.131 Powerplant fire protection.
40.132 Flammable fluids.
40.133 Shutoff means.
40.134 Lines and fittings.
40.135 Vent and drain lines.
40.136 Fire-extinguishing systems.
40.137 Fire-extinguishing agents.
40.138 Extinguishing agent container pressure relief.
40.139 Extinguishing agent container compartment temperature.
40.140 Fire-extinguishing system materials.
40.141 Fire-detector systems.
40.142 Fire detectors.
40.143 Protection of other airplane components against fire.
40.150 Control of engine rotation.
40.151 Fuel system independence.
40.152 Induction system ice prevention.
40.153 Carriage of cargo in passenger compartments.

INSTRUMENTS AND EQUIPMENT FOR ALL OPERATIONS

40.170 Aircraft instruments and equipment for all operations.
40.171 Flight and navigational equipment for all operations.
40.172 Engine instruments for all operations.
40.173 Emergency equipment for all operations.
40.174 Seats and safety belts for all occupants.
40.175 Miscellaneous equipment for all operations.
40.176 Cockpit check procedure.
40.177 Passenger information for all operations.
40.178 Exterior exit and evacuation markings for all operations.

INSTRUMENTS AND EQUIPMENT FOR SPECIAL OPERATIONS

40.200 Instruments and equipment for operations at night.
40.201 Instruments and equipment for operations under IFR or over-the-top.
40.202 Supplemental oxygen.
40.203 Supplemental oxygen requirements for pressurized cabin airplanes.
40.204 Equipment standards.
40.205 Protective breathing equipment for the flight crew.
40.206 Equipment for overwater operations.
40.207 Equipment for operations in icing conditions.

RADIO EQUIPMENT

40.230 Radio equipment.
40.231 Radio equipment for operations under VFR over routes navigated by pilotage.
40.232 Radio equipment for operations under VFR over routes not navigated by pilotage or for operations under IFR or over-the-top.

MAINTENANCE AND INSPECTION REQUIREMENTS

40.240 Responsibility for maintenance.
40.241 Maintenance and inspection requirements.
40.242 Maintenance and inspection training program.
40.243 Maintenance and inspection personnel duty time limitations.

AIRMAN AND CREW MEMBER REQUIREMENTS

40.260 Utilization of airman.
40.261 Composition of flight crew.
40.263 Flight engineer.
40.265 Flight attendant.
40.266 Aircraft dispatcher.
40.267 Assignment of emergency evacuation functions for each crew member.

TRAINING PROGRAM

40.280 Training requirements.
40.281 Initial pilot ground training.
40.282 Initial pilot flight training.
40.284 Initial flight engineer training.
40.286 Initial crew member emergency training.
40.288 Initial aircraft dispatcher training.
40.289 Recurrent training.

FLIGHT CREW MEMBER AND DISPATCHER QUALIFICATION

40.300 Qualification requirements.
40.301 Pilot recent experience.
40.302 Pilot checks.

Sec.
40.303 Pilot route and airport qualification requirements.
40.304 Maintenance and reestablishment of pilot route and airport qualifications for particular trips.
40.305 Competence check; other pilots.
40.307 Flight engineer qualification for duty.
40.310 Aircraft dispatcher qualification for duty.

FLIGHT TIME LIMITATIONS

40.320 Flight time limitations.

DUTY TIME LIMITATIONS; AIRCRAFT DISPATCHER

40.340 Aircraft dispatcher daily duty time limitations.

FLIGHT OPERATIONS

40.351 Operational control.
40.352 Operations notices.
40.353 Operations schedules.
40.354 Flight crew members at controls.
40.355 Manipulation of controls.
40.356 Admission to flight deck.
40.357 Use of cockpit check procedure.
40.358 Personal flying equipment.
40.359 Restriction or suspension of operation.
40.360 Emergency decisions; pilot in command and aircraft dispatcher.
40.361 Reporting potentially hazardous meteorological conditions and irregularities of ground and navigational facilities.
40.362 Reporting mechanical irregularities.
40.363 Engine failure or precautionary stoppage.
40.364 Instrument approach procedures.
40.365 Requirements for air carrier equipment interchange.
40.370 Briefing of passengers.

DISPATCHING RULES

40.381 Necessity for dispatching authority.
40.382 Familiarity with weather conditions.
40.383 Facilities and services.
40.384 Airplane equipment required for dispatch.
40.385 Communications and navigational facilities required for dispatch.
40.386 Dispatching under VFR.
40.387 Dispatching under IFR or over-the-top.
40.388 Alternate airport for departure.
40.389 Alternate airport for destination; IFR or over-the-top.
40.390 Alternate airport weather minimums.
40.391 Continuance of flight; flight hazards.
40.392 Operation in icing conditions.
40.393 Redispatch and continuance of flight.
40.394 Dispatch to and from provisional airport.
40.395 Take-offs from alternate airports or from airports not listed in the operations specifications.
40.396 Fuel supply for all operations.
40.397 Factors involved in computing fuel required.
40.405 Take-off and landing weather minimums; VFR.
40.406 Take-off and landing weather minimums; IFR.
40.408 Flight altitude rules.
40.409 Altitude maintenance on initial approach.
40.411 Preparation of dispatch release.
40.412 Preparation of load manifest.

REQUIRED RECORDS AND REPORTS

40.500 Records.
40.501 Crew member and dispatcher records.
40.502 List of airplanes.
40.503 Dispatch release form.
40.504 Load manifest.
40.505 Disposition of load manifest, dispatch release form, and flight plans.
40.506 Maintenance records.
40.507 Maintenance log.
40.508 Daily mechanical reports.
40.509 Mechanical interruption summary report.
40.510 Alteration and repair reports.
40.511 Maintenance release.

AUTHORITY: §§ 40.1 to 40.511 issued under sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601, 604, 605, 52 Stat. 1007, 1010, as amended; 49 U. S. C. 551, 554, 555.

APPLICABILITY AND DEFINITIONS

§ 40.1 *Applicability of this part.* The provisions of this part are applicable to air carriers holding certificates of public convenience and necessity issued in accordance with Title IV of the Civil Aeronautics Act of 1938, as amended, when they engage in scheduled interstate air transportation within the continental limits of the United States: *Provided,* That the provisions of this part shall not apply to operations conducted pursuant to economic exemption authority issued by the Board for a period of 90 days or less: *And provided further,* That the Administrator may authorize any air carrier holding authority to engage in scheduled cargo operations pursuant to Title IV of the Civil Aeronautics Act of 1938, as amended, to conduct such operations in accordance with the air carrier certification and operations rules prescribed in Part 42 of this subchapter: *And provided further,* That in the case of segments of routes extending beyond the continental limits of the United States the Administrator may authorize an air carrier to conduct operations over such route segments pursuant to provisions of this part.

§ 40.2 *Applicability of Parts 43 and 60 of this subchapter.* The provisions of Parts 43 and 60 of this subchapter shall be applicable to all air carrier operations conducted under the provisions of this part unless otherwise specified in this part.

§ 40.5 *Definitions.* As used in this part terms shall be defined as follows:

Accelerate-stop distance. Accelerate-stop distance is the distance required to accelerate an airplane to a specified speed and, assuming failure of the critical engine at the instant that speed is attained, to bring the airplane to a stop. (See the pertinent airworthiness requirements for the manner in which such distance is determined.)

Administrator. The Administrator is the Administrator of Civil Aeronautics.

Air carrier. An air carrier is any citizen of the United States who undertakes directly, or by lease or by other arrangement, the carriage by airplane of persons or property as a common carrier for compensation or hire, or the carriage of mail by airplane.

Air traffic clearance. An air traffic clearance is an authorization issued by air traffic control for an airplane to proceed under specified conditions.

Air traffic control. Air traffic control is a service provided for the purpose of: (1) Preventing collisions between airplanes, and, on the airport ground maneuvering area, between airplanes and obstructions; and (2) expediting and maintaining an orderly flow of air traffic.

Aircraft dispatcher. An aircraft dispatcher is an individual holding a valid aircraft dispatcher certificate issued by the Administrator who exercises responsibility with the pilot in command in the operational control of each flight.

Airframe. Airframe means any and all kinds of fuselages, booms, nacelles, cowlings, fairings, empennages, airfoil surfaces, and landing gear, and all parts, accessories, or controls, of whatever description, appertaining thereto, but not including engines and propellers.

Airplane. An airplane is a power-driven fixed-wing aircraft, heavier than air, which is supported by the dynamic reaction of the air against its wings.

Airport. An airport is an area of land or water which is used, or intended for use, for the landing and take-off of airplanes.

Alternate airport. An alternate airport is an approved airport to which a flight may proceed if a landing at the airport to which the flight was dispatched becomes inadvisable.

Appliances. Appliances are instruments, equipment, apparatus, parts, appurtenances, or accessories of whatever description, which are used, or are capable of being or intended to be used, in the navigation, operation, or control of airplanes in flight (including communication equipment, electronic devices, and any other mechanism or mechanisms installed in or attached to airplanes during flight, but excluding parachutes), and which are not a part or parts of airframes, engines, or propellers.

Approved. Approved, when used alone or as modifying terms such as means, method, action, equipment, etc., means approved by the Administrator.

Authorized representative of the Administrator. An authorized representative of the Administrator is any employee of the Civil Aeronautics Administrator or any private person, authorized by the Administrator to perform particular duties of the Administrator under the provisions of this part.

Ceiling. Ceiling is the height above the ground or water of the lowest layer of clouds or obscuring phenomena that is reported as "broken," "overcast," or "obscuration" and not classified as "thin" or "partial."

Check airman. A check airman is an airman designated by the air carrier and approved by the Administrator to examine other airmen to determine their proficiency with respect to procedures and technique and their competence to perform their respective airman duties.

Control area. Control area is airspace having defined dimensions, designated by the Administrator, which extends upward from an altitude of 700 feet above the surface, within which air traffic control is exercised. In the case of operations conducted in the airspace of a foreign country, control area shall mean the airspace designated by the appropriate authority of such country.

Control zone. A control zone is airspace having defined dimensions, designated by the Administrator, which extends upward from the surface, which includes one or more airports, and within which rules additional to those governing control areas apply for the protection of air traffic. In the case of control zones located in foreign countries, the control zone shall be designated by the appropriate authority of such country.

Crew member. A crew member is any individual assigned by an air carrier for the performance of duty on an airplane in flight.

Critical engine. The critical engine is that engine the failure of which gives the most adverse effect on the airplane flight characteristics relative to the case under consideration.

Critical-engine-failure speed, V_1 (transport category airplanes). The critical-engine-failure speed is the airplane speed used in the determination of the take-off distance required at which the critical engine is assumed to fail. (See the pertinent airworthiness requirements for the manner in which such speed is determined.)

Dispatch release. A dispatch release is an authorization issued by an air carrier specifying the conditions for the origination or continuance of a particular flight.

Duty aloft. Duty aloft includes the entire period during which an individual is assigned as a member of an airplane crew during flight time.

Effective length of runway—(1) *Take-off.* The effective length of runway for take-off as used in the take-off operating limitations for nontransport category airplanes is the distance from the end of the runway at which the take-off is started to the point at which the obstruction clearance plane associated with the other end of the runway intersects the center line of the runway.

(2) *Landing.* The effective length of runway for landing as used in the landing operating limitations for both transport and nontransport category airplanes is the distance from the point at which the obstruction clearance plane associated with the approach end of the runway intersects the center line of the runway to the far end thereof.

En route. En route means the entire flight from the point of origination to the point of termination, including intermediate stops.

Extended overwater operation. An extended overwater operation is an operation over water conducted at a distance in excess of 50 miles from the nearest shore line.

Fireproof. Fireproof material means a material which will withstand heat equally well or better than steel in dimensions appropriate for the purpose for which it is to be used. When applied to material and parts used to confine fires in designated fire zones, fireproof means that the material or part will perform this function under the most severe conditions of fire and duration likely to occur in such zones.

Fire-resistant. When applied to sheet or structural members, fire-resistant material means a material which will withstand heat equally well or better than aluminum alloy in dimensions appropriate for the purpose for which it is to be used. When applied to fluid-carrying lines, this term refers to a line and fitting assembly which will perform its intended protective functions under the heat and other conditions likely to occur at the particular location.

Flame-resistant. Flame-resistant material means a material which will not support combustion to the point of propagating beyond safe limits, a flame after the removal of the ignition source.

Flammable. Flammable fluids or gases mean those which will ignite readily or explode.

Flash-resistant. Flash-resistant material means material which will not burn violently when ignited.

Flight crew member. A flight crew member is a crew member assigned to duty on an airplane as a pilot or flight engineer.

Flight engineer. A flight engineer is an individual holding a valid flight engineer certificate issued by the Administrator and whose primary assigned duty during flight is to assist the pilots in the mechanical operation of an airplane.

Flight time. Flight time is the time from the moment the airplane first moves under its own power for the purpose of flight until it comes to rest at the next point of landing (block-to-block time).

High-altitude operation. High-altitude operation is flight conducted at or above 12,500 feet above sea level east of longitude 100° W. and at or above 14,500 feet above sea level west of longitude 100° W.

IFR. IFR is the symbol used to designate instrument flight rules.

Interstate air transportation. Interstate air transportation is the carriage by airplane of persons or property as a common carrier for compensation or hire or the carriage of mail by airplane, in commerce between a place in any State of the United States, or the District of Columbia, and a place in any other State of the United States, or the District of Columbia; or between places in the same State of the United States, or the District of Columbia; whether such commerce moves wholly by airplane or partly by airplane and partly by other forms of transportation.

Maximum certificated take-off weight. Maximum certificated take-off weight is the maximum take-off weight authorized by the terms of the airplane airworthiness certificate.

NOTE: The airplane airworthiness certificate incorporates as a part thereof the airplane operating record or that portion of an Airplane Flight Manual which contains the pertinent limitation.

Minimum control speed. The minimum control speed is the minimum speed at which an airplane can be safely controlled in flight after an engine suddenly becomes inoperative. (See pertinent airworthiness requirements for the manner in which such speed is determined.)

Month. A month is that period of time extending from the first day of any month as delineated by the calendar through the last day thereof.

Night. Night is the time between the ending of evening civil twilight and the beginning of morning civil twilight as published in the American Air Almanac converted to local time for the locality concerned.

NOTE: The American Air Almanac containing the ending of evening twilight and the beginning of morning twilight tables may be obtained from the Superintendent of Documents, Government Printing Office, Washington 25, D. C. Information is also available concerning such tables in the Offices of the Civil Aeronautics Administration or the United States Weather Bureau.

Obstruction clearance area—(1) *Take-off.* A take-off obstruction clearance area as used in the take-off operating limitations for nontransport category airplanes is an area on the earth's surface defined as follows: The center line of the obstruction clearance area in plan view shall coincide with and prolong the center line of the runway, beginning at the point where the obstruction clearance plane intersects the center line of the runway and proceeding to a point not less than 1,500 feet from the beginning point. Thereafter the center line shall proceed in a path consistent with the take-off procedure for the runway or, where such a procedure has not been established, consistent with turns of at least 4,000-foot radius until a point is reached beyond which the obstruction clearance plane clears all obstructions. The obstruction clearance area shall extend laterally for a distance of 200 feet on each side of the center line at the point where the obstruction clearance plane intersects the runway and shall continue at this width until the end of the runway; thence it shall increase uniformly to 500 feet on each side of the center line at a point 1,500 feet from the intersection of the obstruction clearance plane with the runway; thereafter it shall extend laterally for a distance of 500 feet on each side of the center line.

(2) *Landing.* A landing obstruction clearance area as used in the landing operating limitations for both transport and nontransport category airplanes is an area on the earth's surface defined as follows: The center line of the obstruction clearance area in plan view shall coincide with and prolong the center line of the runway, beginning at the point where the obstruction clearance plane intersects the center line of the runway and proceeding to a point not less than 1,500 feet from the beginning point. Thereafter the center line shall proceed in a path consistent with the instrument approach procedure for the runway or, where such a procedure has not been established, consistent with turns of at least 4,000-foot radius until a point is reached beyond which the obstruction clearance plane clears all obstructions. The obstruction clearance area shall extend laterally for a distance of 200 feet on each side of the center line at the point where the obstruction clearance plane intersects the runway and shall continue at this width until the end of the runway; thence it shall increase uniformly to 500 feet on each side of the center line at a point 1,500 feet from the intersection of the obstruction clearance plane with the runway; thereafter it shall extend laterally for a distance of 500 feet on each side of the center line.

Obstruction clearance plane. An obstruction clearance plane is a plane which is tangent to or clears all obstructions within the obstruction clearance area and which slopes upward from the runway at a slope of 1:20 to the horizontal as shown in a profile view of the obstruction clearance area.

Operational control. Operational control is the exercise of authority over initiation, continuation, diversion, or termination of a flight.

Operations Specifications. Operations Specifications are rules of particular applicability issued by the Administrator under delegated authority from the Board and are not part of the air carrier operating certificate.

Over-the-top. Over-the-top means the operation of an airplane above a layer of clouds or obscuring phenomena that is reported as "broken," "overcast," or "obscuration" and not classified as "thin" or "partial."

Pilot in command. The pilot in command is the pilot designated by the aircarrier as the pilot responsible for the operation and safety of the airplane during the time defined as flight time.

Pilotage. Pilotage is navigation by means of visual reference to landmarks.

Propeller. A propeller is a device for propelling an airplane through the air, having blades mounted on a power-driven shaft, which when rotated produces by its action on the air a thrust approximately parallel to the longitudinal axis of the airplane.

Provisional airport. A provisional airport is an airport approved for use by an air carrier for the purpose of providing service to a community when the regular airport serving that community is not available.

Rating. A rating is an authorization issued with a certificate, and forming a part thereof, delineating special conditions, privileges, or limitations pertaining to such certificate.

Refueling airport. A refueling airport is an airport approved as an airport to which flights may be dispatched only for refueling.

Regular airport. A regular airport is an airport approved as a regular terminal or intermediate stop on an authorized route.

Route. A route is the airspace on either side of a course joining those points on the surface of the earth between which an air carrier provides air transportation in accordance with the terms of its certificate of public convenience and necessity issued by the Board.

Route segment. A route segment is a portion of a route each terminus of which is identified by: (1) A continental or insular geographic location, or (2) a point at which a definite radio fix can be established.

Runway. A runway is a clearly defined area of an airport suitable for the safe landing or take-off of airplanes.

Scheduled for duty aloft. Scheduled for duty aloft means the assignment of a flight crew member on the basis of the flight time established in the operations schedules rather than the actual flight time.

Show. Show means to demonstrate or prove to the satisfaction of the Administrator prior to the issuance of the air carrier operating certificate and at any time thereafter required by the Administrator.

Synthetic trainer. A synthetic trainer is a device the use of which is approved to simulate certain operating conditions.

Take-off safety speed, V_2. The take-off safety speed is the airplane speed used in the determination of the take-off flight path at which the climb-out following take-off can be safely executed with one engine inoperative and with the airplane in the take-off configuration. (See the pertinent airworthiness requirements for the manner in which such speed is determined.)

Time in service. Time in service, as used in computing maintenance time records, is the time from the moment an airplane leaves the ground until it touches the ground at the end of a flight.

Transport category airplane. A transport category airplane is an airplane which has been type certificated in accordance with the requirements of Part 4b of this subchapter or the transport category requirements of Part 4a of this subchapter.

Type. With regard to airman qualifications, type means all airplanes of the same basic design, including all modifications thereto except those modifications which the Administrator has found result in a substantial change in characteristics pertinent to the airman concerned.

VFR. VFR is the symbol used to designate visual flight rules.

V_{s_0}. V_{s_0} is the symbol used to designate the true indicated stalling speed or the minimum steady flight speed in the landing configuration.

Visibility. Visibility is the greatest distance at which conspicuous objects can be seen and identified.

(1) *Flight visibility.* Flight visibility is the average range of visibility forward from the cockpit of an airplane in flight to see and identify prominent unlighted objects by day and prominent lighted objects by night.

(2) *Ground visibility.* Ground visibility is the visibility at the earth's surface as reported by the United States Weather Bureau or by a source approved by the Weather Bureau.

Week. A week is that period of time extending from the first day of any week as delineated by the calendar through the last day thereof.

Year. A year is that period of time extending from the first day of any year as delineated by the calendar through the last day thereof.

CERTIFICATION RULES AND OPERATIONS SPECIFICATIONS REQUIREMENTS

§ 40.10 *Certificate required.* No person subject to the provisions of this part shall operate an airplane in scheduled interstate air transportation without, or in violation of the terms of, an air carrier operating certificate issued by the Administrator.

§ 40.11 *Contents of certificate.* An air carrier operating certificate shall specify the points to and from which, and the routes over which, an air carrier is authorized to operate.

§ 40.12 *Application for certificate.* An application for an air carrier operating certificate shall be made in the form and manner and contain information prescribed by the Administrator.

§ 40.13 *Issuance of certificate.* (a) An air carrier operating certificate shall be issued by the Administrator to an applicant having a certificate of public convenience and necessity issued by the Civil Aeronautics Board when the Administrator finds, after investigation, that such person is properly and adequately equipped and able to conduct a safe operation in accordance with the requirements of this part and with the operations specifications authorized in this part.

(b) Whenever, upon investigation, the Administrator finds that the general standards of safety required for air carrier operations in airplanes of 12,500 pounds or less maximum certificated take-off weight, or for air carrier operations conducted pursuant to a temporary authorization issued under Title IV of the Civil Aeronautics Act of 1938, as amended, require or permit a deviation from any specific requirement for a particular operation or class of operations for which an application for an air carrier operating certificate has been made, he may issue operations specifications prescribing requirements which deviate from the requirements of this part. The Administrator shall promptly notify the Board of such deviations in the operations specifications and the reasons therefor.

§ 40.14 *Amendment of certificate.* (a) The Administrator shall, after notice and opportunity for hearing to the carrier concerned, amend an air carrier operating certificate when he finds that such amendment is reasonably required in the interest of safety.

(b) Upon application by an air carrier the Administrator shall amend an air carrier operating certificate when he finds that the general standards of safety permit such an amendment.

§ 40.15 *Display of certificate.* The air carrier operating certificate shall be available at the principal operations office of an air carrier for inspection by any authorized representative of the Board or the Administrator.

§ 40.16 *Duration of certificate.* (a) An air carrier operating certificate shall remain in effect until termination of the certificate of public convenience and necessity or other economic authorization issued by the Board held by the air carrier, or until surrendered, suspended, revoked, or otherwise terminated by order of the Board. After suspension or revocation it shall be returned to the Administrator.

(b) Nothing in this section shall be construed to deny or to defeat the jurisdiction of the Federal courts, the Administrator, or the Board to impose any authorized sanction, including revocation of the certificate, for a violation of the Civil Aeronautics Act of 1938, as amended, regulations in this subchapter, or the air carrier operating certificate occurring during the effective period of such certificate.

§ 40.17 *Transferability of certificate.* An air carrier operating certificate is not transferable, except with the written consent of the Administrator.

§ 40.18 *Operations specifications required.* (a) No person subject to the provisions of this part shall operate as an air carrier without, or in violation of, operations specifications issued by the Administrator.

(b) New or amended specifications shall be issued by the Administrator for operations subject to this part in a form and manner prescribed by him and in accordance with the provisions of this part.

§ 40.19 *Contents of specifications.* The operations specifications shall contain the following:

(a) Types of operations authorized;

(b) Types of airplanes authorized for use;

(c) En route authorizations and limitations;

(d) Airport authorizations and limitations;

(e) Time limitation for overhauls, inspections, and checks of airframes, engines, propellers, and appliances, or standards by which such time limitations shall be determined;

(f) Procedures used to maintain control of weight and balance of airplanes;

(g) Interline equipment interchange requirements, if pertinent; and

(h) Such additional items as the Administrator determines, under the enabling provisions of this part, are necessary to cover a particular situation.

§ 40.20 *Utilization of operations specifications.* The air carrier shall keep its personnel informed with respect to the contents of the operations specifications and all amendments thereto applicable to the individual's duties and responsibilities. A set of specifications shall be maintained by the air carrier as a separate and complete document. Pertinent excerpts from the specifications or references thereto shall be inserted in the manual issued by the air carrier.

§ 40.21 *Amendment of operations specifications.* Any operations specification may be amended by the Administrator if he finds that safety in air transportation so requires or permits. Except in the case of an emergency requiring immediate action in respect to safety in air transportation or upon consent of the air carrier concerned, no amendment shall become effective prior to thirty days after the date the air carrier has been notified of such amendment. Within thirty days after either the receipt of such notice or the refusal of the Administrator to approve an air carrier's application for amendment, the air carrier may petition the Board to review the action of the Administrator. Except with regard to emergency amendments by the Administrator, the effectiveness of any amendment concerning which the carrier has petitioned for review shall be stayed pending the Board's decision.

§ 40.22 *Inspection authority.* An authorized representative of the Board or the Administrator shall be permitted at any time and place to make inspections or examinations to determine an air carrier's compliance with the requirements of the Civil Aeronautics Act of 1938, as amended, the regulations in this subchapter, the provisions of the air carrier's operating certificate, and the operations specifications.

§ 40.23 *Operations and maintenance base and office.* Each air carrier shall give written notice to the Administrator of his principal business office, his principal operations base, and his principal maintenance base. Thereafter, prior to any change in any such office or base, he shall give written notice to the Administrator.

REQUIREMENTS FOR SERVICES AND FACILITIES

§ 40.30 *Route requirements; demonstration of competence.* The air carrier shall show that it is competent to conduct scheduled operations over any route or route segment between any regular, provisional, or refueling airport and that the facilities and services available are adequate for the type of operation proposed. The Administrator shall not require actual flight over a route or route segment, if the air carrier shows that such flight is not essential to safety. The air carrier may thereafter conduct operations between regular, provisional, or refueling airports on any approved route or routes on which the operational facilities and procedures are substantially similar: *Provided*, That high-altitude operations may be conducted over any route.

§ 40.31 *Width of routes.* A route or route segment shall include the navigable airspace on each side of an approved course or courses, and it shall have a width designated by the Administrator consistent with terrain, available navigational aids, traffic density, and air traffic control procedures: *Provided*, That for high-altitude operations, courses need not be approved, and the width of navigable airspace on each side thereof need not be designated by the Administrator.

§ 40.32 *IFR routes outside of control areas.* IFR routes outside of control areas shall be approved if the air carrier shows that the navigational and communications facilities are adequate for the operations proposed, unless the Administrator finds that because of traffic density an adequate level of safety cannot be insured in a particular area: *Provided*, That for high-altitude operations IFR routes need not be approved.

§ 40.33 *Airports.* The air carrier shall show that each route has sufficient airports found by the Administrator to be properly equipped and adequate for the type of operations to be conducted. Consideration shall be given to items such as size, surface, obstructions, facilities, public protection, lighting, navigational and communications aids, and traffic control.

§ 40.34 *Communications facilities.* The air carrier shall show that a two-way air/ground radio communication system is available at such points as will insure reliable and rapid communications under normal operating conditions over the entire route, either direct or via approved point-to-point circuits for the following purposes:

(a) Communications between airplanes and the appropriate dispatch office, in which case such systems shall be independent of systems operated by the Federal Government, and

(b) Communications between airplanes and the appropriate air traffic control unit, in which case the Administrator may permit the use of communications systems operated by the Federal Government.

§ 40.35 *Weather reporting facilities.* The air carrier shall show that sufficient weather reporting services are available along the route to insure weather reports and forecasts necessary for the operation. Weather reports used to control flight movements shall be those prepared and released by the U. S. Weather Bureau, or by a source approved by the Weather Bureau. Forecasts used to control flight movements shall be prepared from such weather reports.

§ 40.36 *En route navigational facilities.* The air carrier shall show that nonvisual ground aids to air navigation are available along each route, that they are so located as to permit navigation to any regular, provisional, refueling, or alternate airport within the degree of accuracy necessary for the operation involved, and that they are available for the navigation of airplanes within the degree of accuracy required for air traffic control: *Provided*, That no nonvisual ground aids to navigation are required for day VFR operations where the characteristics of the terrain are such that navigation can be conducted by pilotage, or for night VFR operations along lighted airways or on routes where the Administrator has determined that reliably lighted landmarks are adequate for safe operations.

§ 40.37 *Servicing and maintenance facilities.* The air carrier shall show that competent personnel and adequate facilities and equipment, including spare parts, supplies, and materials, are available at such points along the air carrier's routes as are necessary for the proper servicing, maintenance, repair, and inspection of airplanes and auxiliary equipment.

§ 40.38 *Location of dispatch centers.* The air carrier shall show that it has a sufficient number of dispatch centers adequate for the operations to be conducted and located at such points as are necessary to insure the proper operational control of each flight.

MANUAL REQUIREMENTS

§ 40.50 *Preparation of manual.* The air carrier shall prepare and keep current a manual for the use and guidance of flight and ground operations personnel in the conduct of its operations.

§ 40.51 *Contents of manual.* (a) The manual shall contain instructions, information, and data necessary for the per-

sonnel concerned to carry out their duties and responsibilities with a high degree of safety. It shall be in a form to facilitate easy revision, and each page shall bear the date of the last revision thereof. The contents of such manual shall not be contrary to the provisions of any Federal regulations, operations specifications, or the operating certificate. The manual may be in two or more separate parts (e. g., flight operations, ground operations, maintenance, communications, etc.) to facilitate use by the personnel concerned, but each part shall contain so much of the information listed below as is appropriate for each group of personnel:

(1) General policies;

(2) Duties and responsibilities of each crew member and appropriate members of the ground organization;

(3) Reference to appropriate regulations in this subchapter and Civil Aeronautics Manuals;

(4) Flight dispatching and control;

(5) En route flight, navigation, and communication procedures, including procedures for the dispatch or continuance of flight, if any item of equipment required for the particular type of operation becomes inoperative or unserviceable en route;

(6) Appropriate information from the en route operations specifications, including for each approved route the types of airplanes authorized, their crew complement, the type of operation (i. e., VFR, IFR, day, night) and other pertinent information;

(7) Appropriate information from the airport operations specifications, including for each airport its location, its designation (i. e., regular, alternate, provisional, etc.), types of airplanes authorized, instrument approach procedures, landing and take-off minimums, and other pertinent information;

(8) Take-off, en route, and landing weight limitations;

(9) Procedures for familiarizing passengers with the use of emergency equipment during flight;

(10) Emergency procedures and equipment;

(11) The method of designating succession of command of flight crew members;

(12) Procedures for determining the usability of landing and take-off areas and for dissemination of pertinent information to operations personnel;

(13) Procedures for operation during periods of icing, hail, thunderstorms, turbulence, or any potentially hazardous meteorological conditions;

(14) Airman training programs, including appropriate ground, flight, and emergency phases;

(15) Instructions and procedures for maintenance, repair, overhaul, and servicing;

(16) Time limitations for overhaul, inspection, and checks, of airframes, engines, propellers, and appliances, or standards by which such time limitations shall be determined;

(17) Procedures for refueling airplanes, elimination of fuel contamination, protection from fire including electrostatic protection, and the supervision and protection of passengers during refueling;

(18) Inspections for airworthiness, including instructions covering procedures, standards, responsibilities, and authority of the inspection personnel;

(19) Methods and procedures for maintaining the airplane weight and center of gravity within approved limits;

(20) Pilot and dispatcher route and airport qualification procedures;

(21) Accident notification procedures; and

(22) Other data or instructions related to safety.

(b) At least one complete master copy of the manual containing all parts thereof shall be retained at the appropriate operations base of the air carrier.

§ 40.52 *Distribution of manual.* (a) Copies of the entire manual, or appropriate portions thereof, together with revisions thereto shall be furnished to the following:

(1) Appropriate ground operations and maintenance personnel of the air carrier;

(2) Flight crew members; and

(3) Authorized representatives of the Administrator assigned to the air carrier to act as aviation safety agents.

(b) All copies of the manual shall be kept up to date.

§ 40.53 *Airplane Flight Manual.* (a) The air carrier shall keep current an approved Airplane Flight Manual for each type of transport category airplane which it operates.

(b) An approved Airplane Flight Manual or a manual complying with § 40.50 and containing information required for the Airplane Flight Manual shall be carried in each transport category airplane.

AIRPLANE REQUIREMENTS

§ 40.60 *General.* Airplanes shall be identified, certificated, and equipped in accordance with the applicable airworthiness requirements of the regulations in this subchapter. No air carrier shall operate any airplane in scheduled operation unless such airplane meets the requirements of this part and is in an airworthy condition.

§ 40.61 *Airplane certification requirements*—(a) *Airplanes certificated on or before June 30, 1942.* Airplanes certificated as a basic type on or before June 30, 1942, shall either:

(1) Retain their present airworthiness certification status and meet the requirements of § 40.90, or

(2) Comply with either the performance requirements of §§ 4a.737–T through 4a.750–T of this subchapter or the performance requirements of §§ 4b.110 through 4b.125 of this subchapter and in addition shall meet the requirements of § 40.70: *Provided,* That should any type be so qualified, all airplanes of any one operator of the same or related types shall be similarly qualified and operated.

(b) *Airplanes certificated after June 30, 1942.* Airplanes certificated as a basic type after June 30, 1942, and used in passenger operation shall be certificated as transport category airplanes and shall meet the requirements of § 40.70.

§ 40.62 *Airplane limitation for type of route.* All airplanes used in passenger air transportation shall be multi-engine airplanes and shall comply with the following requirements:

(a) *Two- or three-engine airplanes.* Two- or three-engine airplanes shall not be used in passenger-carrying operations unless adequate airports are so located along the route that the airplanes will at no time be at a greater distance therefrom than one hour of flying time in still air at normal cruising speed with one engine inoperative: *Provided,* That the Administrator may specify distances greater or less than those set forth herein when he determines that the character of the terrain, the type of operation, or the performance of the airplanes to be used so permit or require.

(b) *Land airplanes on extended overwater routes.* Land airplanes operated on flights involving extended overwater operations shall be certificated as adequate for ditching in accordance with the ditching provisions of Part 4b of this subchapter.

§ 40.63 *Proving tests.* (a) A type of airplane not previously proved for use in scheduled operation shall have at least 100 hours of proving tests, in addition to the airplane certification tests, accomplished under the supervision of an authorized representative of the Administrator. As part of the 100-hour total at least 50 hours shall be flown over authorized routes and at least 10 hours shall be flown at night.

(b) A type of airplane which has been previously proved shall be tested for at least 50 hours, of which at least 25 hours shall be flown over authorized routes, unless deviations are specifically authorized by the Administrator on the ground that the special circumstances of a particular case make a literal observance of the requirements of this paragraph unnecessary for safety, when the airplane:

(1) Is materially altered in design, or

(2) Is to be used by an air carrier who has not previously proved such a type.

(c) During proving tests only those persons required to make the tests and those designated by the Board or the Administrator shall be carried. Mail, express, and other cargo may be carried when approved by the Administrator.

AIRPLANE PERFORMANCE OPERATING LIMITATIONS; TRANSPORT CATEGORY

§ 40.70 *Transport category airplane operating limitations.* (a) In operating any passenger-carrying transport category airplane the provisions of §§ 40.71 through 40.78 shall be complied with, unless deviations therefrom are specifically authorized by the Administrator on the ground that the special circumstances of a particular case make a literal observance of the requirements unnecessary for safety.

(b) For transport category airplanes the performance data contained in the Airplane Flight Manual shall be applied in determining compliance with these provisions. Where conditions differ from those for which specific tests were made, compliance shall be determined by interpolation or by computation of the effects of changes in the specific variables where such interpolations or computations will give results substantially equaling in accuracy the results of a direct test.

(c) No airplane shall be taken off at a weight which exceeds the allowable weight for the runway being used as determined in accordance with the take-off runway limitations of the transport category operating rules of this part, after taking into account the temperature operating correction factors required by §§ 4a.749a–T or 4b.117 of this subchapter, and set forth in the Airplane Flight Manual for the airplane.

§ 40.71 *Weight limitations.* (a) No airplane shall be taken off from any airport located at an elevation outside of the altitude range for which maximum take-off weights have been determined, and no airplane shall depart for an airport of intended destination or have any airport specified as an alternate which is located at an elevation outside of the altitude range for which maximum landing weights have been determined.

(b) The weight of the airplane at take-off shall not exceed the authorized maximum take-off weight for the elevation of the airport from which the take-off is to be made.

(c) The weight at take-off shall be such that, allowing for normal consumption of fuel and oil in flight to the airport of intended destination, the weight on arrival will not exceed the authorized maximum landing weight for the elevation of such airport.

§ 40.72 *Take-off limitations to provide for engine failure.* No take-off shall be made except under conditions which will permit compliance with the following requirements:

(a) It shall be possible, from any point in the take-off up to the time of attaining the critical-engine-failure speed, to bring the airplane to a safe stop on the runway as shown by the accelerate-stop distance data.

(b) It shall be possible, if the critical engine should fail at any instant after the airplane attains the critical-engine-failure speed, to proceed with the take-off and attain a height of 50 feet, as indicated by the take-off path data, before passing over the end of the runway. Thereafter it shall be possible to clear all obstacles, either by at least 50 feet vertically, as shown by the take-off path data, or by at least 200 feet horizontally within the airport boundaries and by at least 300 feet horizontally after passing beyond such boundaries. In determining the allowable deviation of the flight path in order to avoid obstacles by at least the distances above set forth, it shall be assumed that the airplane is not banked before reaching a height of 50 feet, as shown by the take-off path data, and that a maximum bank thereafter does not exceed 15°.

(c) In applying the requirements of paragraphs (a) and (b) of this section, corrections shall be made for any gradient of the take-off surface. To allow for wind effect, take-off data based on still air may be corrected by not more than 50 percent of the reported wind component along the take-off path if opposite to the direction of take-off, and shall be corrected by not less than 150 percent of the reported wind component if in the direction of take-off.

§ 40.73 *En route limitations; all engines operating.* No airplane shall be taken off at a weight in excess of that which would permit a rate of climb (expressed in feet per minute), with all engines operating, of at least $6\ V_{s_0}$ (when V_{s_0} is expressed in miles per hour) at an altitude of at least 1,000 feet above the elevation of the highest ground or obstruction within 10 miles on either side of the intended track. Transport category airplanes certificated under Part 4a of this subchapter are not required to comply with this section. For the purpose of this section it shall be assumed that the weight of the airplane as it proceeds along its intended track is progressively reduced by normal consumption of fuel and oil.

§ 40.74 *En route limitations; one engine inoperative.* (a) No airplane shall be taken off at a weight in excess of that which would permit a rate of climb (expressed in feet per minute), with one engine inoperative, of at least

$$\left(0.06-\frac{0.08}{N}\right)V_{s_0}{}^2$$

(when N is the number of engines installed and V_{s_0} is expressed in miles per hour) at an altitude of at least 1,000 feet above the elevation of the highest ground or obstruction within 10 miles on either side of the intended track, except that for transport category airplanes certificated under Part 4a of this subchapter, the rate of climb shall be $0.02\ V_{s_0}{}^2$.

(b) As an alternative to the provisions of paragraph (a) of this section, an air carrier may utilize an approved procedure whereby its airplanes are operated at an all-engine-operating altitude such that in the event of an engine failure the airplane can continue flight to an alternate airport where a landing can be made in accordance with the provisions of § 40.78, the flight path clearing all terrain and obstructions along the route within 5 miles on either side of the intended track by at least 2,000 feet. In addition, if such a procedure is utilized, subparagraphs (1) through (6) of this paragraph shall be complied with:

(1) The rate of climb (as presented in the Airplane Flight Manual for the appropriate weight and altitude) used in calculating the airplane's flight path shall be diminished by an amount, in feet per minute, equal to

$$\left(0.06-\frac{0.08}{N}\right)V_{s_0}{}^2$$

(when N is the number of engines installed and V_{s_0} is expressed in miles per hour) for airplanes certificated under Part 4b of this subchapter and by $0.02\ V_{s_0}{}^2$ for airplanes certificated under Part 4a of this subchapter.

(2) The all-engine-operating altitude shall be such that, in the event the critical engine becomes inoperative at any point along the route, the flight will be capable of proceeding to a predetermined alternate airport by use of this procedure. For the purpose of determining the take-off weight, the airplane shall be assumed to pass over the critical obstruction following engine failure at a point no closer to the critical obstruction than the nearest approved radio navigational fix: *Provided,* That the Administrator may authorize a procedure established on a different basis where adequate operational safeguards are found to exist.

(3) The airplane shall meet the provisions of paragraph (a) of this section at 1,000 feet above the airport used as an alternate in this procedure.

(4) The procedure shall include an approved method of accounting for winds and temperatures which would otherwise adversely affect the flight path.

(5) In complying with this procedure fuel jettisoning shall be permitted if the Administrator finds that the air carrier has an adequate training program, proper instructions are given to the flight crew, and all other precautions are taken to insure a safe procedure.

(6) The alternate airport shall be specified in the dispatch release and shall meet the provisions of § 40.390.

(c) For the purposes of this section it shall be assumed that the weight of the airplane as it proceeds along its intended track is progressively reduced by normal consumption of fuel and oil.

§ 40.75 *En route limitations; two engines inoperative.* The provisions of this section shall apply only to airplanes certificated in accordance with the performance requirements of Part 4b of this subchapter. No airplane having four or more engines shall be flown along an intended track except under the conditions of either paragraph (a) or paragraph (b) of this section.

(a) No place along the intended track shall be more than 90 minutes away from an available landing area at which a landing can be made in accordance with the requirements of § 40.78, assuming all engines to be operating at cruising power.

(b) The take-off weight shall not be greater than that which would permit the airplane, with the two critical engines inoperative, to have a rate of climb in feet per minute equal to 0.01 $V_{s_0}{}^2$ (V_{s_0} being expressed in miles per hour) along all points of the route, from the point where the two engines are assumed to fail simultaneously to the landing area, either at an altitude of 1,000 feet above the elevation of the highest ground or obstruction within 10 miles on either side of the intended track or at an altitude of 5,000 feet, whichever is higher. The point where the two engines are assumed to fail shall be that point along the route which is most critical with respect to the take-off weight. In showing compliance with this prescribed rate of climb, the following shall apply:

(1) It shall be permissible to consider that the weight of the airplane as it proceeds along its intended track is progressively reduced by normal consumption of fuel and oil with all engines operating up to the point where the two

engines are assumed to fail and with two engines operating beyond that point.

(2) Where the engines are assumed to fail at an altitude above the prescribed minimum altitude, compliance with the prescribed rate of climb at the prescribed minimum altitude need not be shown during the descent from the cruising altitude to an altitude at which the rate of descent becomes zero, if the latter is sufficiently above the prescribed minimum altitude to assure compliance with the prescribed rate of climb at the prescribed minimum altitudes during the subsequent portion of the flight.

(3) If fuel jettisoning is provided, the airplane's weight at the point where the two engines are assumed to fail shall be considered to be not less than that which would include sufficient fuel to proceed to an available landing area at which a landing can be made in accordance with the requirements of § 40.78 and to arrive there at an altitude of at least 1,000 feet directly over the landing area.

§ 40.76 *Special en route limitations.* The 10-mile lateral distance specified in §§ 40.73 through 40.75 may, for a distance of no more than 20 miles, be reduced to 5 miles, if operating VFR, or if air navigational facilities are so located as to provide a reliable and accurate identification of any high ground or obstruction located outside of such 5-mile lateral distance but within the 10-mile distance.

§ 40.77 *Landing distance limitations; airport of destination.* No airplane shall be taken off at a weight in excess of that which, under the conditions stated in this part would permit the airplane to be brought to rest at the field of intended destination within 60 percent of the effective length of the runway from a point 50 feet directly above the intersection of the obstruction clearance plane and the runway. For the purpose of this section it shall be assumed that the take-off weight of the airplane is reduced by the weight of the fuel and oil expected to be consumed in flight to the field of intended destination.

(a) It shall be assumed that the airplane is landed on the most favorable runway and direction in still air.

(b) It shall be assumed, considering the probable wind velocity and direction, that the airplane is landed on the most suitable runway, taking due account of the ground handling characteristics of the airplane type involved and other conditions (e. g., landing aids, terrain, etc.) and allowing for the effect on the landing path and roll of not more than 50 percent of the wind component along the landing path if opposite to the direction of landing, or not less than 150 percent of the wind component if in the direction of landing.

(c) If the airport of intended destination will not permit full compliance with paragraph (b) of this section, the airplane may be taken off if an alternate airport is designated which permits compliance with § 40.78.

§ 40.78 *Landing distance limitations; alternate airports.* No airport shall be designated as an alternate airport in a dispatch release unless the airplane at the weight anticipated at the time of arrival at such airport can comply with the requirements of § 40.77: *Provided,* That the airplane can be brought to rest within 70 percent of the effective length of the runway.

AIRPLANE PERFORMANCE OPERATING LIMITATIONS; NONTRANSPORT CATEGORY

§ 40.90 *Nontransport category airplane operating limitations.* In operating any large, nontransport category airplane in passenger service, the provisions of §§ 40.91 through 40.94 shall be complied with, unless deviations therefrom are specifically authorized by the Administrator on the ground that the special circumstances of a particular case make a literal observance of the requirements unnecessary for safety. Performance data published or approved by the Administrator for each such nontransport category airplane shall be used in determining compliance with the provisions of §§ 40.91 through 40.94.

§ 40.91 *Take-off limitations.* No take-off shall be made at a weight in excess of that which will permit the airplane to be brought to a safe stop within the effective length of the runway from any point during the take-off up to the time of attaining 105 percent of minimum control speed or 115 percent of the power-off stalling speed in the take-off configuration, whichever is the greater. In applying the requirements of this section:

(a) It may be assumed that take-off power is used on all engines during the acceleration;

(b) Account may be taken of not more than 50 percent of the reported wind component along the take-off path if opposite to the direction of take-off, and account shall be taken of not less than 150 percent of the reported wind component if in the direction of the take-off;

(c) Account shall be taken of the average runway gradient when the average gradient is greater than ½ percent. The average runway gradient is the difference between the elevations of the end points of the runway divided by the total length;

(d) It shall be assumed that the airplane is operating in the standard atmosphere.

§ 40.92 *En route limitations; one engine inoperative.* (a) No take-off shall be made at a weight in excess of that which will permit the airplane to climb at a rate of at least 50 feet per minute with the critical engine inoperative at an altitude of at least 1,000 feet above the elevation of the highest obstacle within 5 miles on either side of the intended track or at an altitude of 5,000 feet, whichever is the higher: *Provided,* That in the alternative an air carrier may utilize a procedure whereby the airplane is operated at an altitude such that, in event of an engine failure, the airplane can clear the obstacles within 5 miles on either side of the intended track by 1,000 feet, if the air carrier can demonstrate to the satisfaction of the Administrator that such a procedure can be used without impairing the safety of operation. If such a procedure is utilized, the rate of descent for the appropriate weight and altitude shall be assumed to be 50 feet per minute greater than indicated by the performance information published or approved by the Administrator. Before approving such a procedure, the Administrator shall take into account, for the particular route, route segment, or areas concerned, the reliability of wind and weather forecasting, the location and types of aids to navigation, the prevailing weather conditions, particularly the frequency and amount of turbulence normally encountered, terrain features, air traffic control problems, and all other operational factors which affect the safety of an operation utilizing such a procedure.

(b) In applying the requirements of paragraph (a) of this section, it shall be assumed that:

(1) The critical engine is inoperative;

(2) The propeller of the inoperative engine is in the minimum drag position;

(3) The wing flaps and landing gear are in the most favorable positions;

(4) The operative engine or engines are operating at the maximum continuous power available;

(5) The airplane is operating in the standard atmosphere; and

(6) The weight of the airplane is progressively reduced by the weight of the anticipated consumption of fuel and oil.

§ 40.93 *Landing distance limitations; airport of intended destination.* No take-off shall be made at a weight in excess of that which, allowing for the anticipated weight reduction due to consumption of fuel and oil, will permit the airplane to be brought to a stop within 60 percent of the effective length of the most suitable runway at the airport of intended destination.

(a) This weight shall in no instance be greater than that permissible if the landing were to be made:

(1) On the runway with the greatest effective length in still air, and

(2) On the runway required by the probable wind, taking into account not more than 50 percent of the probable headwind component and not less than 150 percent of the probable tail-wind component.

(b) In applying the requirements of this section it shall be assumed that:

(1) The airplane passes directly over the intersection of the obstruction clearance plane and the runway at a height of 50 feet in a steady gliding approach at a true indicated air speed of at least 1.3 V_{s_0};

(2) The landing is made in such a manner that it does not require any exceptional degree of skill on the part of the pilot; and

(3) The airplane is operating in the standard atmosphere.

§ 40.94 *Landing distance limitations; alternate airports.* No airport shall be designated as an alternate airport in a dispatch release unless the airplane at the weight anticipated at the time of arrival at such airport can comply with the requirements of § 40.93: *Provided,* That the airplane can be brought to rest within 70 percent of the effective length of the runway.

SPECIAL AIRWORTHINESS REQUIREMENTS

§ 40.110 *Fire prevention.* All airplanes used in passenger service, powered by engines rated at more than 600 horsepower each for maximum continuous operation and which have not been certificated in accordance with the provisions of Part 4b of this subchapter in effect on or after November 1, 1946, shall comply with the requirements contained in §§ 40.111 through 40.143: *Provided,* That if the Administrator finds that in particular models of existing airplanes literal compliance with specific items of these requirements might be extremely difficult of accomplishment and that such compliance would not contribute materially to the objective sought, he may accept such measures of compliance as he finds will effectively accomplish the basic objectives of these regulations.

§ 40.111 *Susceptibility of materials to fire.* The Administrator shall prescribe the heat conditions and testing procedures which any specific material or individual part must meet where necessary for the purpose of applying the following defined terms: fireproof, fire-resistant, flame-resistant, flash-resistant, and flammable.

§ 40.112 *Cabin interiors.* All compartments occupied or used by the crew or passengers shall comply with the following provisions:

(a) Materials shall in no case be less than flash-resistant.

(b) The wall and ceiling linings, the covering of all upholstering, floors, and furnishings shall be flame-resistant.

(c) Compartments where smoking is to be permitted shall be equipped with ash trays of the self-contained type which are completely removable. All other compartments shall be placarded against smoking.

(d) All receptacles for used towels, papers, and wastes shall be of fire-resistant material and shall incorporate covers or other provisions for containing possible fires started in the receptacles.

§ 40.113 *Internal doors.* Where internal doors are equipped with louvres or other ventilating means, provision convenient to the crew shall be made for closing the flow of air through the door when such action is found necessary.

§ 40.114 *Ventilation.* All passenger and crew compartments shall be suitably ventilated. Carbon monoxide concentration shall not exceed one part in 20,000 parts of air, and fuel fumes shall not be present. Where partitions between compartments are equipped with louvres or other means allowing air to flow between such compartments, provision convenient to the crew shall be made for closing the flow of air through the louvres or other means when such action is found necessary.

§ 40.115 *Fire precautions.* Each compartment shall be designed so that, when used for the purpose of storing cargo or baggage, it shall comply with all of the requirements prescribed for cargo or baggage compartments. It shall include no controls, wiring, lines, equipment, or accessories the damage or failure of which would affect the safe operation of the airplane, unless such item is adequately shielded, isolated, or otherwise protected so that it cannot be damaged by movement of cargo in the compartment, and so that any breakage or failure of such item would not create a fire hazard in the compartment. Provision shall be made to prevent cargo or baggage from interfering with the functioning of the fire-protective features of the compartment. All materials used in the construction of cargo or baggage compartments, including tie-down equipment, shall be flame-resistant or better. In addition, all cargo and baggage compartments shall include provisions for safeguarding against fires according to the following classifications:

(a) Cargo and baggage compartments shall be classified in the "A" category, if presence of a possible fire therein can be readily discernible to a member of the crew while at his station, and if all parts of the compartment are easily accessible in flight. A hand fire extinguisher shall be available for such compartment.

(b) Cargo and baggage compartments shall be classified in the "B" category, if sufficient access is provided while in flight to enable a member of the crew to move by hand all contents and to reach effectively all parts of the compartment with a hand fire extinguisher. Furthermore, the design of the compartment shall be such that, when the access provisions are being used, no hazardous quantity of smoke, flames, or extinguishing agent will enter any compartment occupied by the crew or passengers. Each compartment in this category shall be equipped with a separate system of an approved type smoke detector or fire detector to give warning at the pilot or flight engineer station. Hand fire extinguishers shall be readily available for use in all compartments of this category. Compartments in this category shall be completely lined with fire-resistant material, except that additional service lining of flame-resistant material may be employed.

(c) Cargo and baggage compartments shall be classified in the "C" category, if they do not conform with the requirements for the "A" or "B" categories. Each compartment of the "C" category shall be equipped with: (1) A separate system of an approved type smoke detector or fire detector to give warning at the pilot or flight engineer station, and (2) an approved built-in fire-extinguishing system controlled from the pilot or flight engineer station. Means shall be provided to exclude hazardous quantities of smoke, flames, or extinguishing agent from entering into any compartment occupied by the crew or passengers. Ventilation and drafts shall be further controlled within each such cargo or baggage compartment to the extent that the extinguishing agent provided can control any fire which may start within the compartment. All cargo and baggage compartments of this category shall be completely lined with fire-resistant material, except that additional service lining of flame-resistant material may be employed.

§ 40.116 *Proof of compliance.* Compliance with those provisions of § 40.115 which refer to compartment accessibility, the entry of hazardous quantities of smoke or extinguishing agent into compartments occupied by the crew or passengers, and the dissipation of the extinguishing agent in category "C" compartments shall be demonstrated by tests in flight. It shall also be demonstrated during these tests that no inadvertent operation of smoke or fire detectors in adjacent or other compartments within the airplane would occur as a result of fire contained in any one compartment, either during or after extinguishment, unless the extinguishing system floods such compartments simultaneously.

§ 40.117 *Propeller de-icing fluid.* If combustible fluid is used for propeller de-icing, the provisions of § 40.131 shall be complied with.

§ 40.118 *Pressure cross-feed arrangements.* Pressure cross-feed lines shall not pass through portions of the airplane devoted to carrying personnel or cargo unless means are provided to permit the flight personnel to shut off the supply of fuel to these lines, or unless the lines are enclosed in a fuel and fume-proof enclosure that is ventilated and drained to the exterior of the airplane. Such enclosures need not be used if these lines incorporate no fittings on or within the personnel or cargo areas and are suitably routed or protected to safeguard against accidental damage. Lines which can be isolated from the remainder of the fuel system by means of valves at each end shall incorporate provisions for the relief of excessive pressures that may result from exposure of the isolated line to high ambient temperatures.

§ 40.119 *Location of fuel tanks.* Location of fuel tanks shall comply with the provisions of § 40.132. In addition, no portion of engine nacelle skin which lies immediately behind a major air egress opening from the engine compartment shall act as the wall of an integral tank. Fuel tanks shall be isolated from personnel compartments by means of fume- and fuel-proof enclosures.

§ 40.120 *Fuel system lines and fittings.* Fuel lines shall be installed and supported in a manner that will prevent excessive vibration and will be adequate to withstand loads due to fuel pressure and accelerated flight conditions. Lines which are connected to components of the airplane between which relative motion may exist shall incorporate provisions for flexibility. Flexible connections in lines which may be under pressure and subjected to axial loading shall employ flexible hose assemblies rather than hose clamp connections. Flexible hose shall be of an acceptable type or proven suitable for the particular application.

§ 40.121 *Fuel lines and fittings in designated fire zones.* Fuel lines and fittings in all designated fire zones (see § 40.131) shall comply with the provisions of § 40.134.

§ 40.122 *Fuel valves.* In addition to the requirements contained in § 40.133

for shutoff means, all fuel valves shall be provided with positive stops or suitable index provisions in the "on" and "off" positions and shall be supported in such a manner that loads resulting from their operation or from accelerated flight conditions are not transmitted to the lines connected to the valve.

§ 40.123 *Oil lines and fittings in designated fire zones.* Oil lines and fittings in all designated fire zones (see § 40.131) shall comply with the provisions of § 40.134.

§ 40.124 *Oil valves.* Requirements of § 40.133 for shutoff means shall be complied with. Closing of oil shutoff means shall not prevent feathering the propeller, unless equivalent safety provisions are incorporated. All oil valves shall be provided with positive stops or suitable index provisions in the "on" and "off" positions, and shall be supported in such a manner that loads resulting from their operation or from accelerated flight conditions are not transmitted to the lines attached to the valve.

§ 40.125 *Oil system drains.* Accessible drains shall be provided to permit safe drainage of the entire oil system and shall incorporate means for positive or automatic locking in the closed position. (See also § 40.135.)

§ 40.126 *Engine breather line.* Engine breather lines shall be so arranged that condensed water vapor which may freeze and obstruct the line cannot accumulate at any point. Breathers shall discharge in a location which will not constitute a fire hazard in case foaming occurs and so that oil emitted from the line will not impinge upon the pilots' windshield. The breather shall not discharge into the engine air induction system. (See also § 40.135.)

§ 40.127 *Fire walls.* All engines, auxiliary power units, fuel-burning heaters, and other combustion equipment which are intended for operation in flight shall be isolated from the remainder of the airplane by means of fire walls or shrouds, or other equivalent means.

§ 40.128 *Fire-wall construction.* Fire walls and shrouds shall be constructed in such a manner that no hazardous quantity of air, fluids, or flame can pass from the engine compartment to other portions of the airplane. All openings in the fire wall or shroud shall be sealed with close-fitting fireproof grommets, bushings, or fire-wall fittings. Fire walls and shrouds shall be constructed of fireproof material and shall be protected against corrosion. The following materials have been found to comply with this requirement:

(a) Heat and corrosion resistant steel 0.015 inch thick;

(b) Low carbon steel, suitably protected against corrosion, 0.018 inch thick.

§ 40.129 *Cowling.* Cowling shall be constructed and supported in such a manner as to be capable of resisting all vibration, inertia, and air loads to which it may normally be subjected. Provision shall be made to permit rapid and complete drainage of all portions of the cowling in all normal ground and flight attitudes. Drains shall not discharge in locations constituting a fire hazard. Cowling, unless otherwise specified by these regulations, shall be constructed of fire-resistant material. Those portions of the cowling which are subjected to high temperatures due to their proximity to exhaust system parts or exhaust gas impingement shall be constructed of fireproof material.

§ 40.130 *Engine accessory section diaphragm.* Unless equivalent protection can be demonstrated by other means, a diaphragm shall be provided on air-cooled engines to isolate the engine power section and all portions of the exhaust system from the engine accessory compartment. This diaphragm shall comply with the provisions of § 40.128.

§ 40.131 *Powerplant fire protection.* Engine accessory sections, installations where no isolation is provided between the engine and accessory compartment, also regions wherein lie auxiliary power units, fuel-burning heaters, and other combustion equipment shall be referred to as designated fire zones. Such zones shall be protected from fire by compliance with §§ 40.132 through 40.135.

§ 40.132 *Flammable fluids.* No tanks or reservoirs which are a part of a system containing flammable fluids or gases shall be located in designated fire zones, except where the fluid contained, the design of the system, the materials used in the tank, the shutoff means, and all connections, lines, and controls are such as to provide equivalent safety. Not less than ½ inch of clear air space shall be provided between any tank or reservoir and a fire wall or shroud isolating a designated fire zone.

§ 40.133 *Shutoff means.* Means for each individual engine shall be provided for shutting off or otherwise preventing hazardous quantities of fuel, oil, de-icer, and other flammable fluids from flowing into, within, or through any designated fire zone, except that means need not be provided to shut off flow in lines forming an integral part of an engine. In order to facilitate rapid and effective control of fires, such shutoff means shall permit an emergency operating sequence which is compatible with the emergency operation of other equipment, such as feathering the propeller. Shutoff means shall be located outside of designated fire zones, unless equivalent safety is provided (see § 40.132), and it shall be shown that no hazardous quantity of such flammable fluid will drain into any designated fire zone after shutting off has been accomplished. Adequate provisions shall be made to guard against inadvertent operation of the shutoff means and to make it possible for the crew to reopen the shutoff means after it has once been closed.

§ 40.134 *Lines and fittings.* All lines and fittings for same located in designated fire zones which carry flammable fluids or gases and which are under pressure, or which attach directly to the engine, or are subject to relative motion between components, exclusive of those lines and fittings forming an integral part of the engine, shall be flexible, fire-resistant lines with fire-resistant, factory-fixed, detachable, or other approved fire-resistant ends. Lines and fittings which are not subject to pressure or to relative motion between components shall be of fire-resistant materials.

§ 40.135 *Vent and drain lines.* All vent and drain lines and fittings for same located in designated fire zones and which carry flammable fluids or gases shall comply with the provisions of § 40.134, if the Administrator finds that rupture or breakage of a particular drain or vent line may result in a fire hazard.

§ 40.136 *Fire-extinguishing systems.* (a) Unless it can be demonstrated that equivalent protection against destruction of the airplane in case of fire is provided by the use of firepoof materials in the nacelle and other components which would be subjected to flame, fire-extinguishing systems shall be provided to serve all designated fire zones.

(b) Materials in the fire-extinguishing system shall not react chemically with the extinguishing agent so as to constitute a hazard.

§ 40.137 *Fire-extinguishing agents.* Extinguishing agents employed shall be methyl bromide, carbon dioxide, or any other agent which has been demonstrated to provide equivalent extinguishing action. If methyl bromide or any other toxic extinguishing agent is employed, provisions shall be made to prevent the entrance of harmful concentrations of fluid or fluid vapors into any personnel compartment either due to leakage during normal operation of the airplane or as a result of discharging the fire extinguisher on the ground or in flight when a defect exists in the extinguishing system. If a methyl bromide system is provided, the containers shall be charged with dry agent and shall be sealed by the fire-extinguisher manufacturer or any other party employing satisfactory recharging equipment. If carbon dioxide is used, it shall not be possible to discharge sufficient gas into personnel compartments to constitute a hazard from the standpoint of suffocation of the occupants.

§ 40.138 *Extinguishing agent container pressure relief.* Extinguishing agent containers shall be provided with a pressure relief to prevent bursting of the container due to excessive internal pressures. The discharge line from the relief connection shall terminate outside the airplane in a location convenient for inspection on the ground. An indicator shall be provided at the discharge end of the line to provide a visual indication when the container has discharged.

§ 40.139 *Extinguishing agent container compartment temperature.* Precautions shall be taken to assure that the extinguishing agent containers are installed in locations where reasonable temperatures can be maintained for effective use of the extinguishing system.

§ 40.140 *Fire-extinguishing system materials.* All components of fire-extinguishing systems located in designated fire zones shall be constructed of

fireproof materials, except for connections which are subject to relative motion between components of the airplane, in which case they shall be of flexible fire-resistant construction so located as to minimize the possibility of failure.

§ 40.141 *Fire-detector systems.* Quick-acting fire detectors shall be provided in all designated fire zones and shall be sufficient in number and location to assure the detection of fire which may occur in such zones.

§ 40.142 *Fire detectors.* Fire detectors shall be constructed and installed in such a manner as to assure their ability to resist without failure, all vibration, inertia, and other loads to which they may normally be subjected. Detectors shall be unaffected by exposure to oil, water, or other fluids or fumes which may be present.

§ 40.143 *Protection of other airplane components against fire.* All airplane surfaces aft of the nacelles in the region of one nacelle diameter on both sides of the nacelle center line shall be constructed of fire-resistant material. This provision need not be applied to tail surfaces lying behind nacelles unless the dimensional configuration of the airplane is such that the tail surfaces could be affected readily by heat, flames, or sparks emanating from a designated fire zone or engine compartment of any nacelle.

§ 40.150 *Control of engine rotation.* All airplanes shall be provided with means for individually stopping and restarting the rotation of any engine in flight, except that for turbine engine installations means for completely stopping the rotation need be provided only if the Administrator finds that rotation could jeopardize the safety of the airplane.

§ 40.151 *Fuel system independence.* Airplane fuel systems shall be arranged in such manner that the failure of any one component will not result in the irrecoverable loss of power of more than one engine. A separate fuel tank need not be provided for each engine if the Administrator finds that the fuel system incorporates features which provide equivalent safety.

§ 40.152 *Induction system ice prevention.* Means for preventing the malfunctioning of each engine due to ice accumulation in the engine air induction system shall be provided for all airplanes.

§ 40.153 *Carriage of cargo in passenger compartments.* When operating conditions require the carriage of cargo which cannot be loaded in approved cargo racks, bins, or compartments which are separate from passenger compartments, such cargo may be carried in a passenger compartment if the following requirements are complied with: *Provided*, That the Administrator, under a particular set of circumstances, may authorize deviations from these requirements when he finds that safety will not be adversely affected and that it is in the public interest to carry such cargo:

(a) It shall be packaged or covered in a manner to avoid possible injury to passengers.

(b) It shall be properly secured in the airplane by means of safety belts or other tie-downs possessing sufficient strength to eliminate possibility of shifting under all normally anticipated flight and ground conditions.

(c) It shall not be carried aft of or directly above seated passengers.

(d) It shall not impose any loads on seats or on the floor structure which exceed the designed loads for those components.

(e) It shall not be placed in any position which restricts the access to or use of any required emergency or regular exit or the use of the aisle between the crew and the passenger compartments.

INSTRUMENTS AND EQUIPMENT FOR ALL OPERATIONS

§ 40.170 *Aircraft instruments and equipment for all operations.* (a) Instruments and equipment required by §§ 40.171 through 40.232 shall be approved and shall be installed in accordance with the provisions of the airworthiness requirements applicable to the instruments or equipment concerned.

(b) The following provisions apply to air-speed limitations, air-speed indicators, and related information:

(1) Air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards shall be expressed in the same units as used on the air-speed indicator.

(2) When more than one air-speed indicator is required, all such indicators shall be calibrated to read in the same units.

(3) When an air-speed indicator is calibrated in statute miles per hour, a readily usable means shall be provided for the flight crew to convert statute miles per hour to knots.

(4) On and after April 1, 1956, all air-speed indicators shall be calibrated in knots, and all air-speed limitations and related information contained in the Airplane Flight Manual and pertinent placards shall be expressed in knots.

(c) The following instruments and equipment shall be in operable condition prior to take-off, except as provided in § 40.391 (b) for continuance of flight with equipment inoperative:

(1) Instruments and equipment required to comply with airworthiness requirements under which the airplane is type certificated and as required by the provisions of § 40.110 and §§ 40.150 through 40.153,

(2) Instruments and equipment specified in §§ 40.171 through 40.178 for all operations, and the instruments and equipment specified in §§ 40.200 through 40.232 for the type of operation indicated, wherever these items are not already provided in accordance with subparagraph (1) of this paragraph.

§ 40.171 *Flight and navigational equipment for all operations.* The following flight and navigational instruments and equipment are required for all operations:

(a) An air-speed indicating system with heated pitot tube or equivalent means for preventing malfunctioning due to icing:

(b) Sensitive altimeter;

(c) Clock (sweep-second);

(d) Free-air temperature indicator;

(e) Gyroscopic bank and pitch indicator (artificial horizon);

(f) Gyroscopic rate-of-turn indicator combined with a slip-skid indicator (turn and bank indicator);

(g) Gyroscopic direction indicator (directional gyro or equivalent);

(h) Magnetic compass; and

(i) Vertical speed indicator (rate-of-climb indicator).

§ 40.172 *Engine instruments for all operations.* The following engine instruments are required for all operations, except that the Administrator may permit or require different instrumentation for turbine-powered airplanes to provide equivalent safety:

(a) Carburetor air temperature indicator for each engine;

(b) Cylinder head temperature indicator for each air-cooled engine;

(c) Fuel pressure indicator for each engine;

(d) Fuel flowmeter or fuel mixture indicator for each engine not equipped with an automatic altitude mixture control;

(e) Means for indicating fuel quantity in each fuel tank;

(f) Manifold pressure indicator for each engine;

(g) Oil pressure indicator for each engine;

(h) Oil quantity indicator for each oil tank when a transfer or separate oil reserve supply is used;

(i) Oil-in temperature indicator for each engine;

(j) Tachometer for each engine;

(k) An independent fuel pressure warning device for each engine or a master warning device for all engines with means for isolating the individual warning circuits from the master warning device; and

(l) Effective July 1, 1956, a means shall be provided for each reversible propeller on airplanes equipped with reversible propellers, which will indicate to the pilots when the propeller is in reverse pitch. Such means may be actuated at any point in the reversing cycle between the normal low pitch stop position and full reverse pitch. No indication shall be given at or above the normal low pitch stop position. The source of indication shall be actuated by the propeller blade angle or be directly responsive to the propeller blade angle.

§ 40.173 *Emergency equipment for all operations*—(a) *General.* The emergency equipment specified in paragraphs (b), (c), and (d) of this section is required for all operations. Such equipment shall be readily accessible to the crew, and the method of operation shall be plainly indicated. When such equipment is carried in compartments or containers, the compartments or containers shall be so marked as to be readily identifiable.

(b) *Hand fire extinguishers for crew, passenger, and cargo compartments.* Hand fire extinguishers of an approved type shall be provided for use in crew, passenger, and cargo compartments in

accordance with the following requirements:

(1) The type and quantity of extinguishing agent shall be suitable for the type of fires likely to occur in the compartment where the extinguisher is intended to be used.

(2) At least one hand fire extinguisher shall be provided and conveniently located on the flight deck for use by the flight crew.

(3) At least one hand fire extinguisher shall be conveniently located in the passenger compartment of airplanes accommodating more than six but less than 31 passengers. On airplanes accommodating more than 30 passengers, at least two fire extinguishers shall be provided. None need be provided in passenger compartments of airplanes accommodating six or less persons.

(c) *First-aid equipment.* First-aid equipment suitable for treatment of injuries likely to occur in flight or in minor accidents shall be provided in a quantity appropriate to the number of passengers and crew accommodated in the airplane.

(d) *Crash ax.* All airplanes shall be equipped with at least one crash ax.

(e) *Means for emergency evacuation.* After May 31, 1957, on all passenger-carrying airplanes, at all emergency exits which are more than 6 feet from the ground with the airplane on the ground and with the landing gear extended, means shall be provided to assist the occupants in descending from the airplane. At floor level exits approved as emergency exits, such means shall be a chute or equivalent device suitable for the rapid evacuation of passengers. During flight time this means shall be in a position for ready use: *Provided*, That the requirements of this paragraph do not apply to emergency exits over the wing where the greatest distance from the lower sill of the exit to the wing surface does not exceed 36 inches.

(f) *Interior emergency exit marking.* (1) After May 31, 1957, all emergency exits, their means of access, and their means of opening shall be marked conspicuously. The identity and location of emergency exits shall be recognizable from a distance equal to the width of the cabin. The location of the emergency exit operating handle and the instructions for opening shall be marked on or adjacent to the emergency exit and shall be readable from a distance of 30 inches by a person with normal eyesight.

(2) After May 31, 1957, for night operations, a source or sources of light, with an energy supply independent of the main lighting system, shall be installed to illuminate all emergency exit markings. Such lights shall be designed to function automatically in a crash landing and to continue to function thereafter and shall also be operable manually, or shall be designed only for manual operation and also to continue to function following a crash landing. When such lights require manual operation to function, they shall be turned on prior to each night take-off and landing.

§ 40.174 *Seats and safety belts for all occupants.* A seat and an individual safety belt are required for each passenger and crew member, excluding infants, who are in other than a recumbent position during take-off and landing. One safety belt only is required in a berth for one or two persons in a recumbent position during take-off and landing. During flight between take-off and landing, one safety belt is sufficient for two persons occupying a multiple lounge or divan seat.

§ 40.175 *Miscellaneous equipment for all operations.* All airplanes shall have installed the following equipment:

(a) If protective fuses are used, spare fuses of a number approved for the particular airplane and appropriately described in the air carrier manual.

(b) Windshield wiper or equivalent for each pilot station.

(c) A power supply and distribution system capable of producing and distributing the load for all required instruments and equipment using an external power supply in the event of failure of any one power source or component of the power distribution system: *Provided*, That the Administrator may authorize the use of common elements in the power distribution system when he finds that such elements are so designed as to be reasonably protected against mulfunction. Engine-driven sources of energy, when used, shall be on separate engines.

(d) Means for indicating the adequacy of the power being supplied to required flight instruments.

(e) Two independent static pressure systems, so vented to the outside atmospheric pressure that they will be least affected by air flow variation, moisture, or other foreign matter, and so installed as to be airtight except for the vent. When a means is provided for transferring an instrument from its primary operating system to an alternate system, such means shall include a positive positioning control and shall be marked to indicate clearly which system is being used.

(f) Means for locking all companionway doors which separate passenger compartments from flight crew compartments. Keys for all doors which separate passenger compartments from other compartments having emergency exit provisions shall be readily available to all crew members. Any door which is the means of access to a required passenger emergency exit shall be placarded to indicate that it must be open during take-off and landing. All doors which lead to compartments normally accessible to passengers and which are capable of being locked by passengers shall be provided with means for unlocking by the crew in the event of an emergency.

(g) For seaplanes only, anchor light or lights, a warning bell for signaling when not under way during fog conditions, and an anchor adequate for the size of the seaplane.

§ 40.176 *Cockpit check procedure.* The air carrier shall provide for each type of airplane a cockpit check procedure. This procedure shall include all items necessary for flight crew members to check for safety prior to starting engines, prior to taking off, prior to landing, and in engine emergencies. It shall be so designed as to obviate the necessity for a flight crew member to rely upon his memory for items to be checked and shall be readily usable in the cockpit of each airplane.

§ 40.177 *Passenger information for all operations.* All airplanes shall be equipped with signs visible to passengers and cabin attendants to notify such persons when smoking is prohibited and when safety belts should be fastened. These signs shall be capable of on-off operation by the crew.

§ 40.178 *Exterior exit and evacuation markings for all operations.* Effective January 1, 1956, exterior surfaces of the airplane shall be marked to identify clearly all required emergency exits. When such exits are operable from the outside, markings shall consist of or include information indicating the method of opening.

INSTRUMENTS AND EQUIPMENT FOR SPECIAL OPERATIONS

§ 40.200 *Instruments and equipment for operations at night.* Each airplane operated at night shall be equipped with the following instruments and equipment in addition to those required by §§ 40.171 through 40.178:

(a) Flashing position lights;

(b) After May 31, 1956, an anti-collision light for airplanes having a maximum certificated weight of more than 12,500 pounds;

(c) Two landing lights;

(d) Two class 1 or class 1A landing flares;

(e) Instrument lights providing sufficient illumination to make all instruments, switches, etc., easily readable, so installed that their direct rays are shielded from the flight crew members' eyes and that no objectionable reflections are visible to them. A means of controlling the intensity of illumination shall be provided unless it is shown that nondimming instrument lights are satisfactory;

(f) An air-speed indicating system with heated pitot tube or equivalent means for preventing malfunctioning due to icing; and

(g) A sensitive altimeter.

§ 40.201 *Instruments and equipment for operations under IFR or over-the-top.* Each airplane operated under IFR or over-the-top shall be equipped with the following instruments and equipment in addition to those required by §§ 40.171 through 40.178:

(a) An air-speed indicating system with heated pitot tube or equivalent means for preventing malfunctioning due to icing;

(b) A sensitive altimeter; and

(c) Instrument lights providing sufficient illumination to make all instruments, switches, etc., easily readable, so installed that their direct rays are shielded from the flight crew members' eyes and that no objectionable reflections are visible to them. A means of controlling the intensity of illumination shall be provided unless it is shown that nondimming instrument lights are satisfactory.

§ 40.202 *Supplemental oxygen*—(a) *General.* Except where supplemental oxygen is provided in accordance with the requirements of § 40.203, supplemental oxygen shall be furnished and used as set forth in paragraphs (b) and (c) of this section. The amount of supplemental oxygen required for a particular operation to comply with the rules in this part shall be determined on the basis of flight altitudes and flight duration consistent with the operating procedures established for each such operation and route. As used in the oxygen requirements hereinafter set forth, "altitude" shall mean the pressure altitude corresponding with the pressure in the cabin of the airplane, and "flight altitude" shall mean the altitude above sea level at which the airplane is operated.

(b) *Crew members.* (1) At altitudes above 10,000 feet, to and including 12,000 feet oxygen shall be provided for, and used by, each member of the flight crew on flight deck duty, and provided for all other crew members during the portion of the flight in excess of 30 minutes within this range of altitudes.

(2) At altitudes above 12,000 feet, oxygen shall be provided for, and used by, each member of the flight crew on flight deck duty, and provided for all other crew members during the entire flight time at such altitudes.

(c) *Passengers.* Each air carrier shall provide a supply of oxygen for passenger safety as approved by the Administrator in accordance with the following standards:

(1) For flights of over 30-minute duration at altitudes above 8,000 feet to and including 14,000 feet, a supply of oxygen sufficient to furnish oxygen for 30 minutes to 10 percent of the number of passengers carried shall be required.

(2) For flights at altitudes above 14,000 feet to and including 15,000 feet, a supply of oxygen sufficient to provide oxygen for the duration of the flight at such altitudes for 30 percent of the number of passengers carried shall generally be considered adequate.

(3) For flights at altitudes above 15,000 feet, a supply of oxygen sufficient to provide oxygen for each passenger carried during the entire flight at such altitudes shall be required.

§ 40.203 *Supplemental oxygen requirements for pressurized cabin airplanes.* When operating pressurized cabin airplanes, the air carrier shall so equip such airplanes as to permit compliance with the following requirements in the event of cabin pressurization failure:

(a) *For crew members.* When operating such airplanes at flight altitudes above 10,000 feet, the air carrier shall provide sufficient oxygen for all crew members for the duration of the flight at such altitudes: *Provided*, That not less than a 2-hour supply of oxygen shall be provided for the flight crew members on flight deck duty. The oxygen supply required by § 40.205 may be considered in determining the supplemental breathing supply required for flight crew members on flight deck duty in the event of cabin pressurization failure.

(b) *For passengers.* When operating such airplanes at flight altitudes above 8,000 feet, the air carrier shall provide the following amounts of oxygen:

(1) When an airplane is not flown at a flight altitude of over 25,000 feet, a supply of oxygen sufficient to furnish oxygen for 30 minutes to 10 percent of the number of passengers carried shall be considered adequate, if at any point along the route to be flown the airplane can safely descend to a flight altitude of 14,000 feet or less within 4 minutes.

(2) In the event that such airplane cannot descend to a flight altitude of 14,000 feet or less within 4 minutes, the following supply of oxygen shall be provided:

(i) For the duration of the flight in excess of 4 minutes at flight altitudes above 15,000 feet, a supply sufficient to comply with § 40.202 (c) (3);

(ii) For the duration of the flight at flight altitudes above 14,000 feet to and including 15,000 feet, a supply sufficient to comply with § 40.202 (c) (2); and

(iii) For flight at flight altitudes above 8,000 feet to and including 14,000 feet, a supply sufficient to furnish oxygen for 30 minutes to 10 percent of the number of passengers carried.

(3) When an airplane is flown at a flight altitude above 25,000 feet, sufficient oxygen shall be furnished in accordance with the following requirements to permit the airplane to descend to an appropriate flight altitude at which the flight can be safely conducted. Sufficient oxygen shall be furnished to provide oxygen for 30 minutes to 10 percent of the number of passengers carried for the duration of the flight above 8,000 feet to and including 14,000 feet and to permit compliance with § 40.202 (c) (2) and (c) (3) for flight above 14,000 feet.

(c) For purposes of this section it shall be assumed that the cabin pressurization failure will occur at a time during flight which is critical from the standpoint of oxygen need and that after such failure the airplane will descend, without exceeding its normal operating limitations, to flight altitudes permitting safe flight with respect to terrain clearance.

§ 40.204 *Equipment standards.* The oxygen apparatus, the minimum rates of oxygen flow, and the supply of oxygen necessary to comply with the requirements of § 40.202 shall meet the standards established in § 4b.651 of this subchapter, effective July 20, 1950: *Provided*, That where full compliance with such standards is found by the Administrator to be impractical, he may authorize such changes in these standards as he finds will provide an equivalent level of safety.

§ 40.205 *Protective breathing equipment for the flight crew*—(a) *Pressurized cabin airplanes.* Each required flight crew member on flight deck duty shall have easily available at his station protective breathing equipment covering the eyes, nose, and mouth, or the nose and mouth where accessory equipment is provided to protect the eyes, to protect him from the effects of smoke, carbon dioxide, and other harmful gases. Not less than a 300-liter STPD supply of oxygen for each required flight crew member on flight deck duty shall be provided for this purpose.

(b) *Nonpressurized cabin airplanes.* The requirement stated in paragraph (a) of this section shall apply to nonpressurized cabin airplanes, if the Administrator finds that it is possible to obtain a dangerous concentration of smoke, carbon dioxide, or other harmful gases in the flight crew compartments in any attitude of flight which might occur when the airplane is flown in accordance with either the normal or emergency procedures approved by the Administrator.

§ 40.206 *Equipment for overwater operations.* (a) The following equipment shall be required for all extended overwater operations:

(1) Life vest or other adequate individual flotation device for each occupant of the airplane;

(2) Life rafts sufficient in number and of such rated capacity and buoyancy as to accommodate all occupants of the airplane;

(3) Suitable pyrotechnic signaling devices; and

(4) One portable emergency radio signaling device, capable of transmission on the appropriate emergency frequency or frequencies, which is not dependent upon the airplane power supply and which is self-buoyant and water-resistant.

(b) All required life rafts, life vests, and signaling devices shall be easily accessible in the event of a ditching without appreciable time for preparatory procedures. After May 31, 1957, this equipment shall be installed in conspicuously marked approved locations.

(c) After May 31, 1957, a survival kit, appropriately equipped for the route to be flown, shall be attached to each required life raft.

§ 40.207 *Equipment for operations in icing conditions.* (a) For all operations in icing conditions each airplane shall be equipped with means for the prevention or removal of ice on windshields, wings, empennage, propellers, and other parts of the airplane where ice formation will adversely affect the safety of the airplane.

(b) For operations in icing conditions at night means shall be provided for illuminating or otherwise determining the formation of ice on the portions of the wings which are critical from the standpoint of ice accumulation. When illuminating means are used, such means shall be of a type which will not cause glare or reflection which would handicap crew members in the performance of their normal functions.

RADIO EQUIPMENT

§ 40.230 *Radio equipment.* Each airplane used in scheduled air transportation shall be equipped with radio equipment specified for the type of operation in which it is engaged. Where two independent radio systems are required by §§ 40.231 and 40.232, each system shall have an independent antenna

installation: *Provided*, That where rigidly supported nonwire antennas or other antenna installations of equivalent reliability are used, only one such antenna need be provided.

§ 40.231 *Radio equipment for operations under VFR over routes navigated by pilotage.* (a) For operations conducted under VFR over routes on which navigation can be accomplished by pilotage, each airplane shall be equipped with such radio equipment as is necessary under normal operating conditions to fulfill the following functions:

(1) Communicate with at least one appropriate ground station (as specified in § 40.34) from any point on the route and other airplanes operated by the air carrier;

(2) Communicate with airport traffic control towers from any point in the control zone within which flights are intended; and

(3) Receive meteorological information from any point en route by either of two independent systems.

(b) For all operations at night conducted under VFR over routes on which navigation can be accomplished by pilotage, each airplane shall be equipped with such radio equipment as is necessary under normal operating conditions to fulfill the functions specified in paragraph (a) of this section and to receive radio navigational signals applicable to the route flown except that no marker beacon receiver or ILS receiver need be provided.

§ 40.232 *Radio equipment for operations under VFR over routes not navigated by pilotage or for operations under IFR or over-the-top.* (a) For operations conducted under VFR over routes on which navigation cannot be accomplished by pilotage or for operations conducted under IFR or over-the-top each airplane shall be equipped with such radio equipment as is necessary under normal operating conditions to fulfill the functions specified in § 40.231 (a) and to receive satisfactorily by either of two independent systems, radio navigational signals from all primary en route and approach navigational facilities intended to be used, except that only one marker beacon receiver which provides visual and aural signals and one ILS receiver need be provided. Equipment provided to receive signals en route may be used to receive signals on approach, if it is capable of receiving both signals.

(b) In the case of operation on routes using procedures based on automatic direction finding, only one automatic direction finding system need be installed: *Provided*, That ground facilities are so located and the airplane is so fueled that, in case of failure of the automatic direction finding equipment, the flight may proceed safely to a suitable airport which has ground radio navigational facilities whose signals may be received by the use of the remaining airplane radio systems.

(c) During the period of transition from low frequency to very high frequency radio navigational systems, one means of satisfactorily receiving signals over each of these systems shall be considered as complying with the requirement that two independent systems be provided to receive en route or approach navigational facility signals: *Provided*, That ground facilities are so located and the airplane is so fueled that in case of failure of either system the flight may proceed safely to a suitable airport which has ground radio navigational facilities whose signals may be received by use of the remaining airplane radio system.

MAINTENANCE AND INSPECTION REQUIREMENTS

§ 40.240 *Responsibility for maintenance.* Irrespective of whether the air carrier has made arrangements with any other person for the performance of maintenance and inspection functions, each air carrier shall have the primary responsibility for the airworthiness of its airplanes and required equipment.

§ 40.241 *Maintenance and inspection requirements.* (a) The air carrier, or the person with whom arrangements have been made for the performance of maintenance and inspection functions, shall establish an adequate inspection organization responsible for determining that workmanship, methods employed, and material used are in conformity with the requirements of the regulations of this subchapter, with accepted standards and good practices, and that any airframe, engine, propeller, or appliance released for flight is airworthy.

(b) Any individual who is directly in charge of inspection, maintenance, overhaul, or repair of any airframe, engine, propeller, or appliance shall hold an appropriate license or airman certificate.

§ 40.242 *Maintenance and inspection training program.* The air carrier, or the person with whom arrangements have been made for the performance of maintenance and inspection functions, shall establish and maintain a training program to insure that all maintenance and inspection personnel charged with determining the adequacy of work performed are fully informed with respect to all procedures and techniques and with new equipment introduced into service, and are competent to perform their duties.

§ 40.243 *Maintenance and inspection personnel duty time limitations.* All maintenance and inspection personnel shall be relieved of all duty for a period of at least 24 consecutive hours during any 7 consecutive days or equivalent thereof within any one month.

AIRMAN AND CREW MEMBER REQUIREMENTS

§ 40.260 *Utilization of airman.* No air carrier shall utilize an individual as an airman unless he holds a valid appropriate airman certificate issued by the Administrator and is otherwise qualified for the particular operation in which he is to be utilized.

§ 40.261 *Composition of flight crew.* (a) No air carrier shall operate an airplane with less than the minimum flight crew specified in the airworthiness certificate for the type of airplane and required in this part for the type of operation.

(b) Where the provisions of this part require the performance of two or more functions for which an airman certificate is necessary, such requirements shall not be satisfied by the performance of multiple functions at the same time by any airman.

(c) Where the air carrier is authorized to operate under instrument conditions or operates airplanes of more than 12,500 pounds maximum certificated weight, the minimum pilot crew shall be 2 pilots.

(d) On flights requiring a flight engineer, at least one other flight crew member shall be sufficiently qualified, so that in the event of illness or other incapacity, emergency coverage can be provided for that function for the safe completion of the flight. A pilot need not hold a flight engineer certificate to function in the capacity of a flight engineer for such emergency coverage.

§ 40.263 *Flight engineer.* An airman holding a valid flight engineer certificate shall be required on all airplanes certificated for more than 80,000 pounds maximum certificated take-off weight. Such airman shall also be required on all four-engine airplanes certificated for more than 30,000 pounds maximum certificated take-off weight where the Administrator finds that the design of the airplane used or the type of operation is such as to require engineer personnel for the safe operation of the airplane.

§ 40.265 *Flight attendant.* At least one flight attendant shall be provided by the air carrier on all flights carrying passengers in airplanes of 10-passenger capacity or more.

§ 40.266 *Aircraft dispatcher.* Each air carrier shall provide an adequate number of qualified dispatchers at each dispatch center to insure the proper operational control of each flight.

§ 40.267 *Assignment of emergency evacuation functions for each crew member.* After May 31, 1956, each air carrier shall assign all necessary emergency functions for each crew member to perform in the event of circumstances requiring emergency evacuation. The air carrier shall show that functions so assigned are practicable of accomplishment. These functions shall be described in the air carrier manual.

TRAINING PROGRAM

§ 40.280 *Training requirements.* (a) Each air carrier shall establish a training program sufficient to insure that each crew member and dispatcher used by the air carrier is adequately trained to perform the duties to which he is to be assigned. The initial training phases shall be satisfactorily completed prior to serving in scheduled operations.

(b) Each air carrier shall be responsible for providing adequate ground and flight training facilities and properly qualified instructors. There also shall be provided a sufficient number of check airmen to conduct the flight checks required by this part. Such check airmen shall hold the same airman certificates and ratings as are required for the airman being checked.

(c) The training program for each flight crew member shall consist of appropriate ground and flight training including proper flight crew coordination. Procedures for each flight crew function shall be standardized to the extent that each flight crew member will know the functions for which he is responsible and the relation of those functions to those of other flight crew members. The initial program shall include at least the appropriate requirements specified in §§ 40.281 through 40.286.

(d) The crew member emergency procedures training program shall include at least the requirements specified in § 40.286.

(e) The appropriate instructor, supervisor, or check airman responsible for the particular training or flight check shall certify to the proficiency of each crew member and dispatcher upon completion of his training, and such certification shall become a part of the individual's record.

§ 40.281 *Initial pilot ground training.* Ground training for all pilots shall include instruction in at least the following:

(a) The appropriate provisions of the air carrier operations specifications and appropriate provisions of the regulations of this subchapter with particular emphasis on the operation and dispatching rules and airplane operating limitations;

(b) Dispatch procedures and appropriate contents of the manuals;

(c) The duties and responsibilities of crew members;

(d) The type of airplane to be flown, including a study of the airplane, engines, all major components and systems, performance limitations, standard and emergency operating procedures, and appropriate contents of the approved Airplane Flight Manual;

(e) The principles and methods of determining weight and balance limitations for take-off and landing;

(f) Navigation and use of appropriate aids to navigation, including the instrument approach facilities and procedures which the air carrier is authorized to use;

(g) Airport and airways traffic control systems and procedures, and ground control letdown procedures if pertinent to the operation;

(h) Meteorology sufficient to insure a practical knowledge of the principles of icing, fog, thunderstorms, and frontal systems; and

(i) Procedures for operation in turbulent air and during periods of ice, hail, thunderstorms, and other potentially hazardous meteorological conditions.

§ 40.282 *Initial pilot flight training.* (a) Flight training for each pilot shall include at least take-offs and landings, during day and night, and normal and emergency flight maneuvers in each type of airplane to be flown by him in scheduled operations, and flight under simulated instrument flight conditions.

(b) Flight training for a pilot qualifying to serve as pilot in command shall include flight instruction and practice in at least the following maneuvers and procedures:

(1) In each type of airplane to be flown by him in scheduled operations:

(i) At the authorized maximum take-off weight, take-off using maximum take-off power with simulated failure of the critical engine. For transport category airplanes the simulated engine failure shall be accomplished as closely as possible to the critical engine failure speed (V_1), and climb-out shall be accomplished at a speed as close as possible to the take-off safety speed (V_2). Each pilot shall ascertain the proper values for speeds V_1 and V_2;

(ii) At the authorized maximum landing weight, flight in a four-engine airplane, where appropriate, with the most critical combinations of two engines inoperative, or operating at zero thrust, utilizing appropriate climb speeds as set forth in the Airplane Flight Manual;

(iii) At the authorized maximum landing weight, simulated pull-out from the landing and approach configurations accomplished at a safe altitude with the critical engine inoperative or operating at zero thrust;

(iv) Suitable combinations of airplane weight and power less than those specified in subdivisions (i), (ii), and (iii) of this subparagraph may be employed if the performance capabilities of the airplane under the above conditions are simulated.

(2) Conduct of flight under simulated instrument conditions, utilizing all types of navigational facilities and the let-down procedures used in normal operations. If a particular type of facility is not available in the training area, such training may be accomplished in a synthetic trainer.

§ 40.284 *Initial flight engineer training.* (a) The training for flight engineers shall include at least the instruction specified in § 40.281 (a) through (e).

(b) Flight engineers shall be given sufficient training in flight to become proficient in those duties assigned them by the air carrier. Except for emergency procedures, this training may be accomplished during scheduled flight under the supervision of a qualified flight engineer.

§ 40.286 *Initial crew member emergency training.* (a) The training in emergency procedures shall be designed to give each crew member appropriate individual instruction in all emergency procedures, including assignments in the event of an emergency, and proper coordination between crew members. At least the following subjects as appropriate to the individual crew member shall be taught: The procedures to be followed in the event of the failure of an engine, or engines, or other airplane components or systems, emergency decompression, fire in the air or on the ground, ditching, evacuation, the location and operation of all emergency equipment, and power setting for maximum endurance and maximum range.

(b) Synthetic trainers may be used for training of crew members in emergency procedures where the trainers sufficiently simulate flight operating emergency conditions for the equipment to be used.

§ 40.288 *Initial aircraft dispatcher training.* (a) The training program for aircraft dispatchers shall provide for training in their duties and responsibilities and shall include a study of the flight operation procedures, air traffic control procedures, the performance of the airplanes used by the air carrier, navigational aids and facilities, and meteorology. Particular emphasis shall be placed upon the procedures to be followed in the event of emergencies, including the alerting of proper Governmental, company, and private agencies to render maximum assistance to an airplane in distress.

(b) Each aircraft dispatcher shall, prior to initially performing the duty of an aircraft dispatcher, satisfactorily demonstrate to the supervisor or ground instructor authorized to certify to his proficiency, his knowledge of the following subjects:

(1) Contents of the air carrier operating certificate;

(2) Appropriate provisions of the air carrier operations specifications, manual, and regulations of this subchapter;

(3) Characteristics of the airplanes operated by the air carrier;

(4) Cruise control data and cruising speeds for such airplanes;

(5) Maximum authorized loads for the airplanes for the routes and airports to be used;

(6) Air carrier radio facilities;

(7) Characteristics and limitations of each type of radio and navigational facility to be used;

(8) Effect of weather conditions on airplane radio reception;

(9) Airports to be used and the general terrain over which the airplanes are to be flown;

(10) Prevailing weather phenomena;

(11) Sources of weather information available;

(12) Pertinent air traffic control procedures; and

(13) Emergency procedures.

§ 40.289 *Recurrent training.* (a) Each air carrier shall provide such training as is necessary to insure the continued competence of each crew member and dispatcher and to insure that each possesses adequate knowledge of and familiarity with all new equipment and procedures to be used by him.

(b) Each air carrier shall, at intervals established as part of the training program, but not to exceed 12 months, check the competence of each crew member and dispatcher with respect to procedures, techniques, and information essential to the satisfactory performance of his duties. Where the check of the pilot in command requires actual flight, such check shall be considered to have been met by the checks accomplished in accordance with § 40.302.

(c) The appropriate instructor, supervisor, or check airman shall certify as to the proficiency demonstrated, and such certification shall become a part of the individual's record. In the case of pilots other than pilots in command,

a pilot in command may make such certification.

FLIGHT CREW MEMBER AND DISPATCHER QUALIFICATION

§ 40.300 *Qualification requirements.* (a) No air carrier shall utilize any flight crew member or dispatcher, nor shall any such airman perform the duties authorized by his airman certificate, unless he satisfactorily meets the appropriate requirements of § 40.280 or § 40.289, and §§ 40.301 through 40.310. All pilots serving as pilot in command shall hold appropriate airline transport pilot certificates and ratings. All other pilots shall hold at least commercial pilot certificates and instrument ratings.

(b) Check airmen shall certify as to the proficiency of the pilot in command being examined, as required by §§ 40.302 and 40.303, and such certification shall become a part of the airman's records.

§ 40.301 *Pilot recent experience.* No air carrier shall schedule a pilot to serve as such in scheduled air transportation unless within the preceding 90 days he has made at least 3 take-offs and 3 landings in the airplane of the particular type on which he is to serve.

§ 40.302 *Pilot checks*—(a) *Line check.* Prior to serving as pilot in command, and at least once each 12 months thereafter, a pilot shall satisfactorily accomplish a line check in one of the types of airplanes normally to be flown by him. This check shall be given by a check pilot who is qualified for the route. It shall consist of at least a scheduled flight between terminals over a route to which the pilot is normally assigned during which the check pilot shall determine whether the individual being checked satisfactorily exercises the duties and responsibilities of pilot in command.

(b) *Proficiency check.* (1) An air carrier shall not utilize a pilot as pilot in command until he has satisfactorily demonstrated to a check pilot or a representative of the Administrator his ability to pilot and navigate airplanes to be flown by him. Thereafter, at least twice each 12 months at intervals of not less than 4 months or more than 8 months, a similar pilot proficiency check shall be given each such pilot. Where such pilots serve in more than one airplane type, the pilot proficiency check shall be given in the larger airplane type at least once each 12 months.

(2) The pilot proficiency check shall include at least the following:

(i) The flight maneuvers specified in § 40.282 (b) (1), except that the simulated engine failure during take-off need not be accomplished at speed V_1,

(ii) Flight maneuvers approved by the Administrator accomplished under simulated instrument conditions utilizing the navigational facilities and letdown procedures normally used by the pilot: *Provided*, That maneuvers other than those associated with approach procedures for which the lowest minimums are approved may be given in a synthetic trainer which contains the radio equipment and instruments necessary to simulate other navigational and letdown procedures approved for use by the air carrier.

(c) Prior to serving as pilot in command in a particular type of airplane, a pilot shall have accomplished during the preceding 12 months either a proficiency check or a line check in that type of airplane.

§ 40.303 *Pilot route and airport qualification requirements.* (a) An air carrier shall not utilize a pilot as pilot in command until he has been qualified for the route on which he is to serve in accordance with paragraphs (b), (c), and (d) of this section and the appropriate instructor or check pilot has so certified.

(b) Each such pilot shall demonstrate adequate knowledge concerning the subjects listed below with respect to each route to be flown. Those portions of the demonstration pertaining to holding procedures and instrument approach procedures may be acomplished in a synthetic trainer which contains the radio equipment and instruments necessary to simulate the navigational and letdown procedures approved for use by the air carrier.

(1) Weather characteristics,
(2) Navigational facilities,
(3) Communication procedures,
(4) Type of en route terrain and obstruction hazards,
(5) Minimum safe flight levels,
(6) Position reporting points,
(7) Holding procedures,
(8) Pertinent traffic control procedures, and
(9) Congested areas, obstructions, physical layout, and all instrument approach procedures for each regular, provisional, and refueling airport approved for the route.

(c) Each pilot shall make an entry as a member of the flight crew at each regular, provisional, and refueling airport into which he is scheduled to fly. Unless impracticable, such entry shall include a landing and take-off under day VFR to permit the qualifying pilot to observe the airport and surrounding terrain, including any obstructions to landing and take-off. The qualifying pilot shall occupy a seat in the pilot compartment and shall be accompanied by a pilot who is qualified at the airport.

(d) On routes on which navigation must be accomplished by pilotage and on which flight is to be conducted at or below the level of the adjacent terrain which is within a horizontal distance of 25 miles on either side of the center line of the route to be flown, the pilot shall be familiarized with such route by not less than two one-way trips as pilot or additional member of the crew over the route under VFR to permit the qualifying pilot to observe terrain along the route.

§ 40.304 *Maintenance and reestablishment of pilot route and airport qualifications for particular trips.* (a) To maintain pilot route and airport qualifications, each pilot being utilized as pilot in command, within the preceding 12-month period, shall have made at least one trip as pilot or other member of the flight crew between terminals into which he is scheduled to fly and shall have complied with the provisions of § 40.303 (d), if applicable.

(b) In order to reestablish pilot route and airport qualifications after absence from a route for a period in excess of 12 months, a pilot shall comply with the appropriate provisions of § 40.303.

§ 40.305 *Competence check; other pilots.* Prior to serving as pilot, and at least twice each 12 months thereafter at intervals of not less than 4 months nor more than 8 months, each pilot not being utilized as pilot in command shall demonstrate that he is capable of flying by instruments. This demonstration may be made to a pilot serving as pilot in command or a check pilot of the air carrier during scheduled flight.

§ 40.307 *Flight engineer qualification for duty.* A flight engineer shall not be assigned to nor perform duties for which he is required to be certificated as a flight engineer unless, within the preceding 6-month period, he has had at least 50 hours of experience as a flight engineer on the type airplane on which he is to serve, or until the air carrier or an authorized representative of the Administrator has checked such flight engineer and determined that he is familiar with all essential current information and operating procedures relating to the type of airplane to which he is to be assigned and is competent with respect to such airplane. This check shall include a check in flight: *Provided*, That in the case of a flight engineer who has been previously qualified in the type airplane, the check may be accomplished in a synthetic trainer in lieu of a check in flight.

§ 40.310 *Aircraft dispatcher qualification for duty.* (a) Prior to dispatching airplanes over any route or route segment, an aircraft dispatcher shall be familiar, and the air carrier shall determine that he is familiar, with all essential operating procedures for the entire route and with the airplanes to be used: *Provided*, That where he is qualified only on a portion of such route, he may dispatch airplanes, but only after coordinating with dispatchers who are qualified for the other portions of the route between the points to be served.

(b) An aircraft dispatcher shall not dispatch airplanes in the area over which he is authorized to exercise dispatch jurisdiction unless within the preceding 12 months he has made at least one round trip over the particular area on the flight deck of an airplane. The trip selected for qualification purposes shall be one which includes entry into as many points as practicable, but it shall not be necessary for the aircraft dispatcher to make a flight over each route in the area.

FLIGHT TIME LIMITATIONS

§ 40.320 *Flight time limitations.* (a) An air carrier shall not schedule any flight crew member for duty aloft in scheduled air transportation or in other commercial flying if his total flight time in all commercial flying will exceed the following flight time limitations:

(1) 1,000 hours in any year,
(2) 100 hours in any month,
(3) 30 hours in any seven consecutive days.

(b) An air carrier shall not schedule any flight crew member for duty aloft for more than 8 hours during any 24 consecutive hours, unless he is given an intervening rest period at or before the termination of 8 scheduled hours of duty aloft. Such rest period shall equal twice the number of hours of duty aloft since the last preceding rest period, and in no case shall the rest period be less than 8 hours.

(c) When a flight crew member has been on duty aloft in excess of 8 hours in any 24 consecutive hours he shall, upon completion of his assigned flight or series of flights, be given at least 16 hours for rest before being assigned any further duty with the air carrier.

(d) Time involved in transportation, not local in character, required of a flight crew member by an air carrier and provided by the air carrier for the purpose of transporting the flight crew member to an airport at which he is required to serve on a flight as a crew member, or from the airport at which he was relieved from duty as a crew member to return to his home station, shall not be considered as part of any required rest period.

(e) Each flight crew member engaged in scheduled air transportation shall be relieved from all duty with the air carrier for at least 24 consecutive hours during any seven consecutive days.

(f) No flight crew member shall be assigned any duty with an air carrier during any rest period prescribed by this part.

(g) A flight crew member shall not be considered to be scheduled for duty in excess of prescribed limitations, if the flights to which he is assigned are scheduled and normally terminate within such limitations, but due to exigencies beyond the air carrier's control, such as adverse weather conditions, are not at the time of departure expected to reach their destination within the scheduled time.

DUTY TIME LIMITATIONS; AIRCRAFT DISPATCHER

§ 40.340 *Aircraft dispatcher daily duty time limitations.* (a) The daily duty period for an aircraft dispatcher shall commence at such time as will permit him to become thoroughly familiar with existing and anticipated weather conditions along the route prior to the dispatch of any airplane. He shall remain on duty until all airplanes dispatched by him have completed their flights, or have proceeded beyond his jurisdiction, or until he is relieved by another qualified aircraft dispatcher.

(b) The following rules will govern the hours of duty for an aircraft dispatcher, except when circumstances or emergency conditions beyond the control of the air carrier require otherwise:

(1) *Maximum consecutive hours of duty.* No dispatcher shall be scheduled for duty as such for a period of more than 10 consecutive hours.

(2) *Maximum scheduled hours of duty in 24 consecutive hours.* If a dispatcher is scheduled for duty as such for more than 10 hours in a period of 24 hours, he shall be given a rest period of not less than 8 hours at or before the termination of 10 hours of dispatcher duty.

(3) *Dispatcher's time off.* Each aircraft dispatcher shall be relieved from all duty with the air carrier for a period of at least 24 consecutive hours during any 7 consecutive days or the equivalent thereof within any one month.

FLIGHT OPERATIONS

§ 40.351 *Operational control.* The air carrier shall be responsible for operational control.

(a) *Joint responsibility of aircraft dispatcher and pilot in command.* The aircraft dispatcher and the pilot in command shall be jointly responsible for the preflight planning, delay, and dispatch release of the flight in compliance with the applicable regulations of this subchapter and operations specifications.

(b) *Responsibility of dispatcher.* The aircraft dispatcher shall be responsible:

(1) For monitoring the progress of each flight and the issuance of instructions and information necessary for the continued safety of the flight.

(2) For the cancellation or redispatch of a flight if, in his opinion or in the opinion of the pilot in command, the flight cannot operate or continue to operate safely as planned or released.

(c) *Responsibility of pilot in command.* The pilot in command shall during flight time be in command of the airplane and crew and shall be responsible for the safety of the passengers, crew members, cargo, and airplane.

NOTE: Interpretation No. 1, 19 F. R. 1758, Mar. 31, 1954, provides as follows:

The Board interprets and construes § 40.351 (c) as conferring on the pilot in command, with respect to matters concerning the operation of the airplane, full control and authority without limitation over all other crew members and their duties during flight time, whether or not he holds a valid certificate authorizing him to perform the duties and functions of such other crew member.

§ 40.352 *Operations notices.* Each air carrier shall notify the appropriate operations personnel promptly of all changes in equipment and operating procedures, including known changes in the use of navigational aids, airports, air traffic control procedures and regulations, local airport traffic control rules, and of all known hazards to flight, including icing and other potentially hazardous meteorological conditions and irregularities of ground and navigational facilities.

§ 40.353 *Operations schedules.* In establishing flight operations schedules, each air carrier shall allow sufficient time for the proper servicing of airplanes with fuel and oil at intermediate stops, and it shall consider the prevailing winds along the particular route and the cruising speed of the type of airplane to be flown which shall not exceed the specified cruising output of the airplane engines.

§ 40.354 *Flight crew members at controls.* All required flight crew members shall remain at their respective stations when the airplane is taking off or landing, and while en route except when the absence of one such flight crew member is necessary in connection with his regular duties. All flight crew members shall keep their seat belts fastened when at their respective stations.

§ 40.355 *Manipulation of controls.* No person other than a qualified pilot of the air carrier shall manipulate the flight controls during flight, except that any one of the following persons may, with the permission of the pilot in command, manipulate such controls:

(a) Authorized pilot safety representatives of the Administrator or the Board who are qualified on the airplane and are engaged in checking flight operations, or

(b) Pilot personnel of another air carrier properly qualified on the airplane and authorized by the operating carrier.

§ 40.356 *Admission to flight deck.* For purposes of this section the Administrator shall determine what constitutes the flight deck of an airplane.

(a) In addition to the crew members assigned to a particular airplane, CAA Aviation Safety agents and authorized representatives of the Board while in the performance of official duties shall be admitted to the flight deck of an airplane.

NOTE: Nothing contained in this paragraph shall be construed as limiting the emergency authority of the pilot in command to exclude any person from the flight deck in the interest of safety.

(b) The persons listed below may be admitted to the flight deck when authorized by the pilot in command:

(1) An employee of the Federal Government or of an air carrier or other aeronautical enterprise whose duties are such that his presence on the flight deck is necessary or advantageous to the conduct of safe air carrier operations, or

NOTE: Federal employees who deal responsibly with matters relating to air carrier safety and such air carrier employees as pilots, dispatchers, meteorologists, communication operators, and mechanics whose efficiency would be increased by familiarity with flight conditions may be considered eligible under this requirement. Employees of traffic, sales, and other air carrier departments not directly related to flight operations cannot be considered eligible unless authorized under subparagraph (2) of this paragraph.

(2) Any other person specifically authorized by the air carrier management and the Administrator.

(c) All persons admitted to the flight deck shall have seats available for their use in the passenger compartment except:

(1) CAA Aviation Safety agents or other authorized representatives of the Civil Aeronautics Administration or the Civil Aeronautics Board engaged in checking flight operations;

(2) Air traffic controllers who have been authorized by the Administrator to observe ATC procedures;

(3) Certificated airmen of the air carrier; and

(4) Certificated airmen of another air carrier who have been authorized by the air carrier concerned to make specific trips over the route.

§ 40.357 *Use of cockpit check procedure.* The cockpit check procedure shall be used by the flight crew for each procedure as set forth in § 40.176.

§ 40.358 *Personal flying equipment.* The pilot in command shall insure that the following equipment is aboard the airplane for each flight:

(a) Appropriate aeronautical charts containing adequate information concerning navigational aids and instrument approach procedures, and

(b) A flashlight in good working order in the possession of each crew member.

§ 40.359 *Restriction or suspension of operation.* When conditions exist which constitute a hazard to the conduct of safe air carrier operations, including airport and runway conditions, the air carrier shall restrict or suspend operations until such hazardous conditions are corrected.

§ 40.360 *Emergency decisions; pilot in command and aircraft dispatcher.* (a) In emergency situations which require immediate decision and action, the pilot in command may follow any course of action which he considers necessary under the circumstances. In such instances the pilot in command, to the extent required in the interest of safety, may deviate from prescribed operations procedures and methods, weather minimums, and the regulations of this subchapter.

(b) If an emergency situation arises during the course of a flight which requires immediate decision and action on the part of the aircraft dispatcher, and which is known to him, he shall advise the pilot in command of such situation. The aircraft dispatcher shall ascertain the decision of the pilot in command and shall cause the same to be made a matter of record. If unable to communicate with the pilot, the dispatcher shall declare an emergency and follow any course of action which he considers necessary under the circumstances.

(c) When emergency authority is exercised by the pilot in command or by the dispatcher, the appropriate dispatch center shall be kept fully informed regarding the progress of the flight, and within 10 days after the completion of the particular flight a written report of any deviation shall be submitted by the individual declaring the emergency to the Administrator through the air carrier operations manager.

§ 40.361 *Reporting potentially hazardous meteorological conditions and irregularities of ground and navigational facilities.* When any meteorological condition or irregularity of ground or navigational facilities is encountered in flight, the knowledge of which the pilot in command considers essential to the safety of other flights, he shall notify an appropriate ground radio station as soon as practicable. Such information shall thereupon be relayed by that station to the appropriate governmental agency.

§ 40.362 *Reporting mechanical irregularities.* The pilot in command shall enter or cause to be entered in the maintenance log of the airplane all mechanical irregularities encountered during flight. He shall, prior to each flight, inspect the log to ascertain the status of any irregularities entered in the log at the end of the last preceding flight.

§ 40.363 *Engine failure or precautionary stoppage.* (a) Except as provided in paragraph (b) of this section, when one engine of an airplane fails or where the rotation of an engine of an airplane is stopped in flight as a precautionary measure to prevent possible damage, a landing shall be made at the nearest suitable airport in point of time where a safe landing can be effected.

(b) The pilot in command of an airplane having 4 or more engines may, if not more than one engine fails or the rotation thereof is stopped, proceed to an airport of his selection if, upon consideration of the following factors, he determines such action to be as safe a course of action as landing at the nearest suitable airport:

(1) The nature of the malfunctioning and the possible mechanical difficulties which may be encountered if flight is continued;

(2) The availability of the inoperative engine for use;

(3) The altitude, airplane weight, and usable fuel at the time of engine stoppage;

(4) The weather conditions en route and at possible landing points;

(5) The air traffic congestion;

(6) The type of terrain; and

(7) The familiarity of the pilot with the airport to be used.

(c) When engine rotation is stopped in flight, the pilot in command shall immediately notify the proper ground radio station and shall keep such station fully informed regarding the progress of the flight.

(d) In cases where the pilot in command selects an airport other than the nearest suitable airport in point of time, he shall, upon completion of the trip, submit a written report, in duplicate, to his operations manager setting forth his reasons for determining that the selection of an airport other than the nearest was as safe a course of action as landing at the nearest suitable airport. The operations manager shall, within 7 days after completion of the trip, furnish a copy of this report with his own comments thereon to the Administrator.

§ 40.364 *Instrument approach procedures.* When an instrument approach is necessary, the instrument approach procedures and weather minimums authorized in the operations specifications shall be adhered to.

§ 40.365 *Requirements for air carrier equipment interchange.* (a) Prior to conducting any operations pursuant to an interchange agreement authorized by the Civil Aeronautics Board, the air carrier shall show that:

(1) The procedures proposed for the conduct of such operations by the carriers involved conform with the provisions of this subchapter and with safe operating practices;

(2) All operations personnel involved are familiar with the airplanes and equipment of the air carrier with whom interchange is to be effected, and with the communications and dispatching procedures to be used;

(3) All maintenance personnel involved are familiar with the airplanes and equipment, and the maintenance procedures of the air carrier with whom interchange is to be effected;

(4) The flight crew and the dispatchers involved meet the appropriate route and airport qualifications; and

(5) All airplanes operated are essentially similar to those airplanes of the carrier with whom interchange is to be effected with respect to flight instruments and their arrangement and with respect to the arrangement and motion of controls critical to safety, unless the Administrator determines that adequate training programs have been established to insure that any dissimilarities which might be a potential hazard will be safely overcome by flight crew familiarization.

(b) The pertinent provisions and procedures affecting the carriers involved shall be included in their manuals.

§ 40.370 *Briefing of passengers.* After May 31, 1956, each air carrier engaged in extended overwater operations shall assure that all passengers are briefed orally concerning the location and method of operation of life vests and and emergency exits and the location of life rafts. The procedure to be followed in presenting this briefing shall be described in the air carrier manual. Such a briefing shall include a demonstration of the method of donning and inflating a life vest. Where the airplane proceeds directly over water after take-off, the briefing on location of the life vests and emergency exists shall be accomplished prior to take-off, and the remainder of the briefing shall be accomplished as soon thereafter as practicable. Where the airplane does not proceed directly over water after take-off, no part of the briefing need be accomplished prior to take-off but the entire briefing shall be accomplished prior to reaching the overwater portion of the flight.

DISPATCHING RULES

§ 40.381 *Necessity for dispatching authority.* No flight shall be started without specific authority from an aircraft dispatcher, except when an airplane has landed at an intermediate airport specified in the original dispatch release and has remained there for one hour or less.

§ 40.382 *Familiarity with weather conditions.* No aircraft dispatcher shall release a flight unless he is thoroughly familiar with existing and anticipated weather conditions along the route to be flown.

§ 40.383 *Facilities and services.* The dispatcher shall furnish to the pilot in command all available current reports or information pertaining to irregularities of navigational facilities and airport conditions which may affect the safety of the flight. He shall also furnish the pilot, while en route, any additional available information concerning meteorological conditions and irregularities of facilities and services which may affect the safety of the flight.

§ 40.384 *Airplane equipment required for dispatch.* All airplanes dispatched shall be airworthy and shall be equipped in accordance with the provisions of § 40.170.

§ 40.385 *Communications and navigational facilities required for dispatch.* No airplane shall be dispatched over any route or route segment unless the communications and navigational facilities required by §§ 40.34 and 40.36 are in satisfactory operating condition.

§ 40.386 *Dispatching under VFR.* Airplanes shall be dispatched for operation under VFR only if the appropriate weather reports and forecasts, or a combination thereof, indicate that the ceilings and visibilities along the route to be flown are, and will remain, at or above the minimums required for flight under VFR until the flight arrives at the airport or airports of intended landing specified in the dispatch release.

§ 40.387 *Dispatching under IFR or over-the-top.* Airplanes shall be dispatched for operation under IFR or over-the-top only if the appropriate weather reports and forecasts, or a combination thereof, pertaining to the airport or airports to which dispatched indicate that the ceilings and visibilities will be at or above the minimums approved by the Administrator at the estimated time of arrival thereat.

§ 40.388 *Alternate airport for departure.* (a) If the weather conditions at the airport of take-off are below the approved landing minimums for that airport, no airplane shall be dispatched from that airport unless an alternate airport located with respect to the airport of take-off as follows is specified in the dispatch release: *Provided,* That such alternate need not be selected if the ceiling and visibility respectively at the take-off airport are at least 300 feet and one mile, 400 feet and three-quarters mile, or 500 feet and one-half mile:

(1) *Airplanes having 2 or 3 engines.* Alternate airport located at a distance no greater than one hour of flying time in still air at normal cruising speed with one engine inoperative.

(2) *Airplanes having 4 or more engines.* Alternate airport located at a distance no greater than 2 hours of flying time in still air at normal cruising speed with one engine inoperative.

(b) The alternate airport weather requirements shall be those specified in § 40.390.

(c) All required alternate airports shall be listed in the dispatch release.

§ 40.389 *Alternate airport for destination; IFR or over-the-top.* (a) For all IFR or over-the-top operations there shall be at least one alternate airport designated for each airport of destination and, when the weather conditions forecast for the destination and first alternate are marginal, at least one additional alternate airport: *Provided,* That no alternate need be designated when, for the period two hours before to two hours after the estimated time of arrival, the ceiling at the airport to which the flight is dispatched is forecast to be at least 1,000 feet above the minimum initial approach altitude applicable to such airport and the visibility at such airport is forecast to be at least three miles.

(b) The alternate airport weather requirements shall be those specified in § 40.390.

(c) All required alternate airports shall be listed in the dispatch release.

§ 40.390 *Alternate airport weather minimums.* An airport shall not be specified in the dispatch release as an alternate airport unless the weather conditions existing there at the time of dispatch are equal to or above the ceiling and visibility minimums approved for such airport when using it as an alternate, and the appropriate weather reports and forecasts, or a combination thereof, indicate that the weather conditions will be at or above such minimums until the flight shall arrive thereat. The weather minimums at such alternate airport shall not be less than one of the following and in no event less than the corresponding minimums specified for the airport when used as a regular airport: *Provided,* That the Administrator may approve higher or lower minimums at particular airports where the safe conduct of flight requires or permits, considering the character of the terrain being traversed, the meteorological service and navigational facilities available, and other conditions affecting flight.

(a) An airport served by an approved radio navigational facility and either an instrument landing system or a ground control approach system which the carrier has been authorized to use: Ceiling 800 feet and visibility of one mile; or ceiling 700 feet and visibility of 1½ miles; or ceiling 600 feet and visibility of two miles;

(b) An airport served by an approved radio navigational facility: Ceiling 1,000 feet and visibility of one mile; or ceiling 900 feet and visibility of 1½ miles; or ceiling 800 feet and visibility of two miles;

(c) An airport not served by an approved radio navigational facility: If overcast, ceiling 1,000 feet above the minimum en route instrument altitude applicable to the route to such alternate airport and visibility of two miles; if broken clouds, ceiling 1,000 feet above the elevation of the airport and visibility of two miles.

§ 40.391 *Continuance of flight; flight hazards.* (a) No airplane shall be continued in flight toward any airport to which it has been dispatched when, in the opinion of the pilot in command or the aircraft dispatcher, the flight cannot be completed with safety, unless in the opinion of the pilot in command there is no safer procedure. In the latter event, continuation shall constitute an emergency situation as set forth in § 40.360.

(b) If any item of equipment required pursuant to the regulations of this subchapter for the particular operation being conducted becomes unserviceable en route, the pilot in command shall comply with the procedures specified in the manual for such occurrence: *Provided,* That the Administrator may authorize the incorporation in the air carrier manual of procedures for the continued operation of an airplane beyond a scheduled terminal where he finds that, in the particular circumstances of the case, literal compliance with this requirement is not necessary in the interest of safety.

§ 40.392 *Operation in icing conditions.* (a) An airplane shall not be dispatched, en route operations continued, or landing made when, in the opinion of the pilot in command or aircraft dispatcher, icing conditions are expected or encountered which might adversely affect the safety of the flight.

(b) No airplane shall take off when frost, snow, or ice is adhering to the wings, control surfaces, or propellers of the airplane.

§ 40.393 *Redispatch and continuance of flight.* (a) Any regular, provisional, or refueling airport the use of which is authorized for the type of airplane to be operated may be specified as a destination for the purpose of original dispatch.

(b) An airport specified as a destination or alternate for the purpose of original dispatch may be changed en route to another airport which is authorized for the type of airplane to be operated, provided that the appropriate requirements of §§ 40.381 through 40.409 and § 40.70 or § 40.90 are met at the time of redispatch.

(c) No flight shall be continued to any airport to which it has been dispatched unless the weather conditions at an alternate airport specified in the dispatch release remain at or above the minimums specified for such airport when used as an alternate: *Provided,* That the dispatch release may be amended en route to include any approved alternate airport lying within the fuel range of the airplane as specified in §§ 40.396 and 40.397.

(d) When the dispatch release is amended while the airplane is en route, such amendments shall be made a matter of record.

§ 40.394 *Dispatch to and from provisional airport.* (a) No aircraft dispatcher shall dispatch an airplane to a provisional airport unless such airport complies with all of the requirements of this part pertinent to regular airports.

(b) Dispatch from a provisional airport shall be accomplished in accordance with the same regulations governing dispatch from a regular airport.

§ 40.395 *Take-offs from alternate airports or from airports not listed in the operations specifications.* No airplane shall take off from an alternate airport or from an airport which is not listed in the air carrier operations specifications unless:

(a) Such airport and related facilities are adequate for the operation of the airplane;

(b) In taking off it is possible to comply with the applicable airplane operating limitations;

(c) The weather conditions at that airport are equal to or better than those prescribed for such airport; and

(d) The airplane is dispatched in accordance with all dispatching rules applicable to operation from an approved airport.

§ 40.396 *Fuel supply for all operations.* No airplane shall be dispatched unless it carries sufficient fuel:

(a) To fly to the airport to which dispatched, and thereafter;

(b) To fly to and land at the most distant alternate for the airport to which dispatched where such alternate is required, and thereafter;

(c) To fly for a period of at least 45 minutes at normal cruising consumption.

§ 40.397 *Factors involved in computing fuel required.* In computing the fuel required, consideration shall be given to the wind and other weather conditions forecast, traffic delays anticipated, and any other conditions which might delay the landing of the airplane. Required fuel shall be additional to unusable fuel.

§ 40.405 *Take-off and landing weather minimums; VFR.* Irrespective of any clearance which may be obtained from air traffic control, no airplane shall take off or land under VFR when the reported ceiling or ground visibility is less than specified below: *Provided*, That where a local surface restriction to visibility exists, such as smoke, dust, or blowing snow or sand, the visibility for both day and night operations may be reduced to one-half mile, if all turns after take-off and prior to landing and all flight beyond a mile from the airport boundary can be accomplished above or outside, the area so restricted.

(a) For day operations: 1,000-foot ceiling and one-mile visibility;

(b) For night operations: 1,000-foot ceiling and two-mile visibility.

§ 40.406 *Take-off and landing weather minimums; IFR.* (a) Except as provided in paragraphs (c) and (d) of this section, irrespective of any clearance which may be obtained from air traffic control, no airplane shall take off or land under IFR when the reported ceiling or ground visibility is less than that approved for the airport when used as a regular airport.

(b) Except as provided in paragraphs (c) and (d) of this section, no instrument approach procedure shall be executed when the latest weather report furnished by a source authorized in accordance with the provisions of § 40.35 indicates the ceiling or visibility is less than the landing minimum approved for the airport when used as a regular airport.

(c) An instrument approach procedure may be executed when the weather report indicates that the ceiling or visibility is less than approved minimum for landing, if the airport is served by ILS and PAR in operative condition and both are used by the pilot, and thereafter a landing may be made, if weather conditions equal to or better than the prescribed minimums are found to exist by the pilot in command upon reaching the authorized landing minimum altitude.

(d) If an instrument approach procedure is initiated when the current U. S. Weather Bureau report indicates that the prescribed ceiling and visibility minimums exist and a later weather report indicating below minimum conditions is received after the airplane (1) is on an ILS final approach and has passed the outer marker, or (2) is on a final approach using a radio range station or comparable facility and has passed the appropriate facility and has reached the authorized landing minimum altitude, or (3) is on GCA final approach and has been turned over to the final approach controller, such ILS, Range, or GCA approach may be continued and a landing may be made in the event weather conditions equal to or better than the prescribed minimums for the airport are found to exist by the pilot in command of the flight upon reaching the authorized landing minimum altitude.

§ 40.408 *Flight altitude rules.* Except when necessary for take-off and landing, the flight altitude rules prescribed in paragraphs (a) and (b) of this section, in addition to the applicable provisions of § 60.17 of this subchapter, shall govern air carrier operations: *Provided*, That other altitudes may be established by the Administrator for any route or portion thereof where he finds, after considering the character of the terrain being traversed, the quality and quantity of meteorological service, the navigational facilities available, and other flight conditions, that the safe conduct of flight permits or requires such other altitudes.

(a) *Day VFR passenger operations.* No airplane engaged in passenger operations shall be flown at an altitude less than 1,000 feet above the surface or less than 1,000 feet from any mountain, hill, or other obstruction to flight.

(b) *Night VFR or IFR operations including over-the-top.* No airplane shall be flown at an altitude less than 1,000 feet above the highest obstacle located within a horizontal distance of five miles from the center of the course intended to be flown or, in mountainous terrain designated by the Administrator, 2,000 feet above the highest obstacle located within a horizontal distance of five miles from the center of the course intended to be flown: *Provided*, That in VFR operations at night in such mountainous areas airplanes may be flown over a lighted civil airway at a minimum altitude of 1,000 feet above such obstacle: *And provided further*, That in the case of high-altitude operations, the minimum altitude shall be not less than 2,000 feet above the elevation of the highest ground within 25 miles of the intended track: *And provided further*, That adherence to a minimum flight altitude will not be required during the time a flight is proceeding in accordance with paragraph (c) of this section.

(c) *Daytime over-the-top operations below minimum en route altitudes.* Over-the-top operations may be conducted at flight altitudes lower than the minimum en route IFR altitudes by day only and in accordance with the following provisions:

(1) Such operations shall be conducted at least 1,000 feet above the top of lower broken or overcast cloud cover;

(2) The top of the lower cloud cover shall be generally uniform and level;

(3) Flight visibility shall be at least five miles;

(4) The base of any higher broken or overcast cloud cover shall be generally uniform and level and shall be at least 1,000 feet above the minimum en route IFR altitude for the route segment.

§ 40.409 *Altitude maintenance on initial approach.* (a) When making an initial approach to a radio navigational facility under IFR (excluding over-the-top conducted in accordance with the provisions of § 40.408 (c)), an airplane shall not descend below the pertinent minimum altitude for initial approach specified by the Administrator for such facility until arrival over the radio facility has been definitely established;

(b) When making an initial approach on a flight being conducted in accordance with the provisions of § 40.408 (c), a pilot shall not commence an instrument approach until arrival over the radio facility has definitely been established. In executing an instrument approach procedure under such circumstances, the airplane shall not be flown at an altitude lower than 1,000 feet above the top of the lower cloud or the minimum altitude specified by the Administrator for that portion of the instrument approach procedure being flown, whichever is the lower.

§ 40.411 *Preparation of dispatch release.* A dispatch release shall be prepared for each flight between specified points from information furnished by the authorized aircraft dispatcher. This release shall be signed by the pilot in command and by the authorized aircraft dispatcher only when both believe the flight can be made with safety. The aircraft dispatcher may delegate authority to sign such release for a particular flight, but he shall not delegate the authority to dispatch.

§ 40.412 *Preparation of load manifest.* The air carrier shall be responsible for the preparation and accuracy of a load manifest form prior to each take-off. This form shall be prepared by personnel of the air carrier charged with the duty of supervising the loading of airplanes and the preparation of load manifest forms or by other qualified persons authorized by the air carrier.

REQUIRED RECORDS AND REPORTS

§ 40.500 *Records.* Each scheduled air carrier shall maintain records and submit reports in accordance with the requirements of §§ 40.501 through 40.511. All records shall be retained for the period specified in Part 249 of Subchapter B of this chapter (Economic Regulations), unless otherwise specified in §§ 40.501 through 40.511.

§ 40.501 *Crew member and dispatcher records.* Each air carrier shall maintain current records of every crew member and aircraft dispatcher. These records shall contain such information concerning the qualifications of each such crew member and dispatcher as is necessary to show compliance with the appropriate requirements of the regulations of this subchapter, e. g., proficiency and route checks, airplane qualifications, training, physical examinations, and flight time records. The disposition of any flight crew member or aircraft dispatcher released from the employ of the air carrier, or who becomes physically or professionally disqualified, shall be indicated in these records which shall be retained by the air carrier for at least three months.

§ 40.502 *List of airplanes.* Each air carrier shall maintain a current list of all airplanes being operated by it in scheduled air transportation: *Provided*, That airplanes of another air carrier being operated in accordance with an interchange agreement may be incorporated by reference.

§ 40.503 *Dispatch release form.* (a) The dispatch release may be in any form but shall contain at least the following information with respect to each flight:

(1) Identification number of the airplane to be used, and the trip number;

(2) Airport of departure, intermediate stops, destination, and alternates therefor;

(3) Minimum fuel supply;

(4) Type of operation, e. g., IFR, VFR.

(b) The dispatch release shall contain, or have attached thereto, weather reports, available weather forecasts, or a combination thereof, for the destination, intermediate stops, and alternates specified therein which shall be the latest available at the time the dispatch release is signed by the pilot in command and dispatcher. It shall include such additional weather reports and forecasts, as available, considered necessary or desirable by the pilot in command and aircraft dispatcher.

§ 40.504 *Load manifest.* (a) The load manifest shall contain at least the following information with respect to the loading of an airplane at the time of take-off:

(1) The weight of:

(i) Airplane,

(ii) Fuel and oil,

(iii) Cargo, including mail and baggage, and

(iv) Passengers;

(2) The maximum allowable weight applicable for the particular flight;

(3) The total weight computed in accordance with approved procedures;

(4) Evidence that the airplane is loaded in accordance with an approved schedule which insures that the center of gravity is within approved limits.

(b) The load manifest shall be prepared and signed for each flight by qualified personnel of the air carrier charged with the duty of supervising the loading of the airplane and the preparation of load manifest forms, or by other qualified personnel authorized by the air carrier.

§ 40.505 *Disposition of load manifest, dispatch release form, and flight plans.* Copies of the completed load manifest, or information therefrom except with respect to cargo and passenger distribution, the dispatch release form, and the flight plan shall be in the possession of the pilot in command and shall be carried in the airplane to its destination. Copies also shall be kept for at least 60 days.

§ 40.506 *Maintenance records.* (a) Each air carrier shall keep at its principal maintenance base current records of the total time in service, the time since last overhaul, and the time since last inspection of all major components of the airframe, engines, propellers, and, where practicable, appliances.

(b) Records of total time in service may be discontinued when it has been shown that the service life of component parts is safely controlled by other means, such as inspection, overhaul, or parts retirement procedures. The Administrator may require the keeping of total time records for specific parts when it is found that other procedures will not safely limit the service life of such parts.

(c) An airplane component, engine, propeller, or appliance for which complete records are not available may be placed in service, provided that:

(1) It is of a type for which total time-in-service records are not required under the provisions of paragraph (b) of this section,

(2) Parts which are limited by the Administrator or manufacturer to a specific service time are retired and replaced by new parts, and

(3) It has been properly overhauled or rebuilt, and a record of such overhaul or rebuilding is included in the maintenance records.

§ 40.507 *Maintenance log.* A legible record shall be made in the airplane's maintenance log of the action taken in each case of reported or observed failures or malfunctions of airframes, engines, propellers, and appliances critical to the safety of the flight. The air carrier shall establish an approved procedure for retaining an adequate number of such records in the airplane in a place readily accessible to the flight crew and shall incorporate such procedure in the air carrier manual. The maintenance log shall contain information from which the flight crew may readily determine the time since last overhaul of the airframe and engines.

§ 40.508 *Daily mechanical reports.* (a) Whenever a failure, malfunctioning, or other defect is detected in flight or on the ground in an airplane or airplane component which may reasonably be expected by the air carrier to cause a serious hazard in the operation of any airplane, a report shall be made of such failure, malfunctioning, or other defect to the Administrator. This report shall cover a 24-hour period beginning and ending at midnight, shall be submitted by 12 o'clock midnight of the following working day, or sooner if the seriousness of the malfunction or difficulty so warrants, and shall include as much of the following information as is available on the first daily report following such incidents:

(1) Type and CAA identification number of the airplane, name of air carrier, and date;

(2) Emergency procedure effected: unscheduled landing, dumping fuel, etc.;

(3) Nature of condition: fire, structural failure, etc.;

(4) Identification of part and system involved, including the type designation of the major component;

(5) Apparent cause of trouble: wear, cracks, design deficiency, personnel error, etc.;

(6) Disposition: repaired, replaced, airplane grounded, etc.;

(7) Brief narrative summary to supply any other pertinent data required for more complete identification, determination of seriousness, corrective action, etc.

(b) These reports shall not be withheld pending accumulation of all of the information specified in paragraph (a) of this section. When additional information is obtained relative to the incident, it shall be expeditiously submitted as a supplement to the original report, reference being made to the date and place of submission of the first report.

§ 40.509 *Mechanical interruption summary report.* Each air carrier shall submit regularly and promptly to the Administrator a summary report containing information on the following occurrences:

(a) All interruptions to a scheduled flight, unscheduled changes of airplanes en route, and unscheduled stops and diversions from route which result from known or suspected mechanical difficulties or malfunctions.

(b) The number of engines removed prematurely because of mechanical trouble, listed by make and model of engine and the airplane type in which the engine was installed.

(c) The number of propeller featherings in flight, listed by type of propeller and type of engine and the airplane on which the propeller is installed. Propeller featherings accomplished for training, demonstration, or flight check purposes need not be reported.

§ 40.510 *Alteration and repair reports.* Reports of major alterations or repairs of airframes, engines, propellers, and appliances shall be made available to the Administrator promptly upon completion of such alterations or repairs.

§ 40.511 *Maintenance release.* When an airplane is released by the maintenance organization to flight operations, a maintenance release or appropriate entry into the maintenance log certifying that the airplane is in an airworthy condition shall be prepared and signed by a maintenance inspector or a person authorized by the inspection organization prior to release of such airplane. If a maintenance release form is prepared, a copy shall be given to the pilot in command. An appropriate record shall be kept for at least 60 days.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[F. R. Doc. 55-10612; Filed, Dec. 30, 1955; 10:35 a. m.]

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign Commerce, Department of Commerce

Subchapter B—Export Regulations

[7th Gen. Rev. of Export Regs.; Amdt. 48[1]]

PART 371—GENERAL LICENSES

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

PART 382—DENIAL OR SUSPENSION OF EXPORT PRIVILEGES

MISCELLANEOUS AMENDMENTS

1. Section 371.13 *General licenses Ship Stores, Plane Stores, Crew, and Registered Carrier Stores* is amended in the following particulars:

a. Subparagraph (2) *Restrictions on the exportation of petroleum and petroleum products* of paragraph (a) *General license Ship Stores* is amended to read as follows:

(2) *Restrictions on the exportation of petroleum and petroleum products.* No exportation of petroleum and other petroleum products (including those used as bunker fuel) listed in paragraph (a) (3) below may be made under this general license on a foreign vessel of 500 gross registered tons or more departing from the United States for use on board such vessel if the vessel (i) has called at Macao or a Far Eastern Communist port during the 180 days immediately preceding the date on which such commodities are to be laden aboard the vessel; (ii) will call at Macao or a Far Eastern Communist port within 120 days after the date on which such commodities are laden aboard the vessel; (iii) will carry within the next 120 days commodities, of any origin, known by the owner, master, or agent to be destined directly or indirectly to these ports, unless the commodities so carried are covered by an export license issued by the Bureau of Foreign Commerce or any other agency of the United States Government; or (iv) is registered in any Subgroup A country, or is controlled by, or under charter to, any Subgroup A country or a national of any Subgroup A country.

b. The note at the end thereof is deleted.

c. Subparagraph (2) *Restrictions on the exportation of petroleum and petroleum products for use on aircraft* of paragraph (b) *General license PLANE STORES* is amended to read as follows:

(2) *Restrictions on the exportation of petroleum and petroleum products for use on aircraft.* No exportation of petroleum or petroleum products (including those used as fuel) listed in paragraph (a) (3) above may be made under this general license on a foreign aircraft of 12,000 pounds or more gross load departing from the United States, for use on board such aircraft if the aircraft (i) has called at Macao or any point under Far Eastern Communist control during the 180 days immediately preceding the date on which such commodities are to be laden aboard the aircraft, (ii) will call at Macao or any point under Far Eastern Communist control within 30 days after the date such commodities are laden aboard the plane, (iii) will carry within this 30-day period commodities, of any origin, known by the owner, aircraft commander, or agent to be destined directly or indirectly to Macao or any point under Far Eastern Communist control, unless the commodities so carried are covered by an export license issued by the Bureau of Foreign Commerce or any other agency of the United States Government; or (iv) is registered or documented in any Subgroup A country or is controlled by, or under charter to, any Subgroup A country or a national of any Subgroup A country.

d. The note at the end thereof is deleted.

TIME SCHEDULES FOR SUBMISSION OF APPLICATIONS FOR LICENSES TO EXPORT CERTAIN POSITIVE LIST COMMODITIES

FOURTH QUARTER OF 1955 AND FIRST QUARTER OF 1956

Dept. of Commerce Schedule B No.	Commodity	Submission dates: Fourth quarter, 1955	Submission dates: First quarter, 1956
630050	Aluminum scrap (new and old)	Before Dec. 16, 1955.	
630070	Aluminum remelt ingots		
641300	Copper scrap (new and old) containing 40 percent or more copper		
644000	Copper-base alloy scrap (new and old) containing 40 percent or more copper.		
644100	Copper-base alloy ingots and other crude forms	Before Dec. 1, 1955.	
619159	Selenium powder		
622068	Ferroselenium		
664998	Selenium metal, except selenium-bearing scrap materials		
829810	Selenium-containing rubber compounding agents not of coal tar origin: accelerators.	Sept. 1-15, 1955	Dec. 1-15, 1955
839750	Selenium salts of organic compounds		
839900	Selenium salts and compounds, including selenium dioxide		
842000	Selenium-containing pigments		
619159	Nickel powder, pure		
654502	Nickel anodes, cast and rolled, and nickel and nickel alloy shot		Jan. 3-24, 1956

NOTES

1. Return of unused quotas: As soon as a licensee determines that he will not export the entire licensed amount of a commodity subject to a quantitive quota he shall promptly submit to the Bureau of Foreign Commerce a request for an amendment reducing the quantity covered by the license to the amount he actually intends to export (see § 373.6). If none of the commodities covered by the license is to be exported, the license shall be returned to the Bureau of Foreign Commerce.

2. Where no filing dates are announced: Applications for licenses to export commodities for which no specified filing dates are anounced may be submitted at any time (see § 372.5 (c)).

3. Intransit shipment: Export applications for commodities requiring a validated license when moving in transit through the United States may be submitted at any time and are not subject to specified filing dates (see Note following § 372.6 (d)).

PART 399—POSITIVE LIST OF COMMODITIES AND RELATED MATTERS

MISCELLANEOUS AMENDMENTS

Section 399.1 *Appendix A—Positive List of Commodities* is amended in the following particulars:

1. The following commodities are added to the Positive List:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	G.L.V. dollars value limits	Validated license required
	Metal powders:				
619159	Boron	Lb.	MINL	100	RO
	Nonferrous metals and alloys in crude form, scrap, and semifabricated forms, n. e. c. (specify by name):				
664998	Boron metal (elemental boron) and other metals containing 10 percent or more boron.	Lb.	MINL	100	RO
	Pumping Equipment, n. e. c. (specify type of pump by generic name according to following classifications):				
770980	Ion Vacuum Pumps[1]	No.	GIEQ 1	None	RO
820387	Weed killers consisting primarily of boron compounds (e. g., borates, borax).[1]	Lb.	SALT	100	RO

See footnotes at end of table.

3. The revised entries set forth below are substituted for entries presently on the Positive List. Where the Positive List contains more than one entry under a Schedule B number, the entry to be superseded is identified by a numerical reference in parentheses following the commodity description in the revised entry:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar-value limits	Validated license required
541140	Abrasives (report abrasive refuse in 596098): Boron carbide [9]	Lb.	MINL 1	100	RO
541400	Abrasive products (report abrasive refuse in 596098; and diamond compounds in 540910): Honing abrasive stones for use on power-driven metal working machines, and made of, or incorporating as the principal abrasive material, silicon carbide, boron carbide or fused aluminum oxide	Lb.	TOOL 2	500	R
541820	Abrasive paper, cloth, or combinations thereof, coated with silicon carbide or aluminum oxide, and the largest dimension exceeds 12 inches. (Reduce dimensions of sheets, pads, rolls, disks, or belts to reams of standard sheets, 9 x 11 inches.) [1]	Ream	TOOL	500	R
596405	Diamonds suitable only for industrial use, n. e. c. [1]	Carat	CDGS	None	RO
596410	Diamonds, rough or uncut, suitable for cutting into gem stones [3]	Carat	CDGS	None	RO
596098	Diamond bearings. (1) [10]	Carat	CDGS	None	RO
708410	Electronic detection and navigational apparatus, and specially fabricated parts, n. e. c. (report spare and component tubes in 707803-707830): Electronic detection and navigational apparatus, n. e. c., designed for use at frequencies of 600 megacycles and over. (2) [11]		RARA 62	100	RO
766603	Size measuring machines and instruments, n. e. c., and specially fabricated parts, n. e. c.: Instruments or devices capable of controlling the dimensions of metal parts during its production; and specially fabricated parts, n. e. c. (report spare and component tubes in 707803-707830): Chemical and pharmaceutical processing and manufacturing machines, n. e. c., and specially fabricated parts, n. e. c. (report spinning pumps in 775055; according to uses under appropriate Schedule B No. and refining furnaces for the production of chemicals, 707415):		TOOL	250	RO
775055	Dehydration presses, double opposed hydraulic ram type. (12) [12]		GIEQ 2	250	RO
775055	Extrusion presses, hydraulic ram and closure type. (12) [12]		GIEQ 2	250	RO
775055	Powder cutting machines, with feed rolls geared to rotating cutter blades. (12) [12]		GIEQ 2	250	RO
775055	Swedle barrels, revolving type, 5 feet or more in maximum diameter. (12) [12]		GIEQ 2	250	RO
824060	Watch cases or purifiers, chief component lim exchange units [13]	Lb.	RESN 95	100	RO
829020	Plastics and resin materials: Synthetic resins, n. e. c., in all unfinished forms, including scrap, except laminated and except film and sheeting: Polytetrafluoroethylene (e. g., Teflon). (1) [1]	Lb.	RESN	25	RO
829020	Polytrifluorochloroethylene. (2) [1]	Lb.	RESN	25	RO

See footnotes at end of table.

[1] This commodity is subject to the IC/DV procedure (see § 373.2), effective Feb. 6, 1956, is subject to DL restrictions (see § 374.2), is excepted from the Time Limit licensing procedure (see Part 377) until Jan. 21, 1956, may be exported under the provisions of General License GLV (see § 371.10 (c)), effective Jan. 21, 1956, and may not be exported under General License GLV (see § 371.10 (c)).

[2] This commodity may be exported under the Periodic Requirements licensing procedure (see Part 376) or the Foreign Distribution licensing procedure (see Part 378). effective Feb. 6, 1956, and may be exported under General License GLV to R and O destinations only within the dollar-value limit specified on the Positive List (see § 371.10 (c)).

This part of the amendment shall become effective as of 12:01 a. m., December 29, 1955.

2. The following commodities are deleted from the Positive List:

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar-value limits	Validated license required
986800	Self-contained diving and under-water swimming apparatus, and specially fabricated accessories and parts, n. e. c. (report self-contained diving and underwater swimming apparatus manufactured to military specifications, and specially fabricated parts therefor, in 986660). [1]	----------	SATE	50	RO
986660	Self-contained diving and underwater swimming apparatus manufactured to military specifications, and specially fabricated parts therefor (report other self-contained diving and underwater swimming apparatus and specially fabricated parts in 986800). [1]	----------	SATE	50	RO

[1] This commodity is subject to the IC/DV procedure (see § 373.2), effective Feb. 6, 1956, is subject to DL restrictions (see § 374.2), is excepted from the Time Limit licensing procedure (see Part 377) until Jan. 21, 1956, may be exported under the provisions of General License GLV (see § 371.10 (c)), effective Jan. 21, 1956, and may not be exported under General License GLV (see § 371.10 (c)).

This part of the amendment shall become effective as of 12:01 a. m., December 22, 1955.

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar-value limits	Validated license required
704830	Motors and controls, n. e. c., and parts (report autosyns, selsyns, and other synchronous transmission systems in 706000): Electric propulsion motors, generators and controls for turbine locomotives, general service (line) locomotive or switching and industrial, of a power greater than 4 feet 8 inches (1.42 m.) or with an individual axle load greater than 12 metric tons.				
708410	Electronic detection and navigational apparatus, and specially fabricated parts, n. e. c., (report spare and replacement tubes in 707803-707830): Doppler navigation and specially fabricated parts, n. e. c.				
43500	Power-driven metalworking machine tools (nonportable), and parts: Tank turret bearing grinding machines				
775330	Processing vessels, non-mixing, n. e. c., and specially fabricated accessories and parts, n. e. c. (specify by name): Processing vessels, suitable for the production of military explosives, and specially fabricated parts, n. e. c.				
812100	Biological products (all forms): Gamma-globulin, human (immune serum globulin, poliomyelitis immune globulin, etc.).				

This part of the amendment shall become effective as of 12:01 a. m., December 22, 1955.

Dept. of Commerce Schedule B No.	Commodity	Unit	Processing code and related commodity group	GLV dollar-value limits	Validated license required
829080	Plastic film and sheeting, including printed, embossed, pianished or otherwise treated surface: Polytetrafluoroethylene (e. g., Teflon). (1) [1]	Lb.	RESN	25	RO
829080	Polytrifluorochloroethylene. (2) [1]	Lb.	RESN	25	RO
829090	Laminated and molded laminated plastics made with synthetic resins and varnishes as a binder, including all shapes solely made therefrom: Polytetrafluoroethylene (e. g., Teflon). (1) [1]	Lb.	RESN	25	RO
829090	Polytrifluorochloroethylene. (2) [1]	Lb.	RESN	25	RO
832985	Organo-fluorine compounds (specify by name): Trifluoromonochloroethylene. (1) [1]	Lb.	SALT 1	25	RO
832990	Organic chemicals not of coal-tar origin, n. e. c. (specify by name): Tetrafluoroethylene. (6) [1]	Lb.	SALT 1	25	RO
836220	Boric acid and borates, crude, refined, and compounds, except sodium perborate (including but not limited to boron trifluoride, boron oxide, boron hydrides, and fluoroborates.) (1) and 2) [7] [14]	Lb.	SALT	100	RO
843800	Polytetrafluoroethylene (e. g., Teflon) finishes and enamels. (1) [1]	Gal.	PLAT	25	RO
843800	Polytrifluorochloroethylene dispersion. (2) [1]	Gal.	PLAT	25	RO
981590	Manufactured plastic products, n. e. c., not specially fabricated for particular machines or equipment (report plastics and resin materials in unfinished forms in 825100-829020): Manufactures of polytrifluorochloroethylene. (2) [1]	----------	COTA	25	RO
981590	Manufactures of polytetrafluoroethylene (e. g., Teflon) (1) [1]	----------	COTA	25	RO

[1] The GLV dollar-value limit is increased.

[2] The processing code is changed or related commodity group number is changed (see § 372.5 (f)).

[7] The letter "B" is deleted in the column headed "Commodity Lists," indicating that the commodity is no longer subject to DL restrictions (see § 374.2), and is no longer excepted from the Time Limit licensing procedure (see Part 377).

[10] The destination control is changed from R to RO, effective Dec. 29, 1955.

[12] The commodity description is revised without change in coverage.

[13] The unit of quantity is changed.

[11] The commodity coverage is increased, effective Dec. 29, 1955.

[12] Four entries are substituted for the twelfth entry presently on the Positive List under Schedule B No. 775055, with a decrease in coverage.

[14] Sodium perborate is deleted: boron trifluoride, formerly separately listed, may now be exported under the Periodic Requirements licensing procedure (see Part 374), and may be exported to Group O destinations under General License GLV within the $500 dollar-value limit (see § 371.10 (c)).

This part of the amendment shall become effective as of December 22, 1955, unless otherwise indicated in the footnotes.

Shipments of any commodities removed from general license to Country Group R or Country Group O destinations as a result of changes set forth in parts 1 or 3 of this amendment, which were on dock for lading, on lighter, laden aboard an exporting carrier, or in transit to a port of exit pursuant to actual orders for export prior to 12:01 a. m., December 29, 1955 may be exported under the previous general license provisions up to and including January 21, 1956. Any such shipment not laden aboard the exporting carrier on or before January 21, 1956 requires a validated license for export.

(Sec. 3, 63 Stat. 7, as amended; 50 U. S. C. App. 2023. E. O. 9630, 10 F. R. 12245, 3 CFR, 1945 Supp., E. O. 9919, 13 F. R. 59, 3 CFR 1948 Supp.)

LORING K. MACY,
Director,
Bureau of Foreign Commerce.

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.275]

PART 1—CERTIFICATES OF AUTHENTICATION

Pursuant to the authority contained in R. S. 161, 5 U. S. C. 22; R. S. 203, 5 U. S. C. 158; section 1 of the act of June 25, 1948, 62 Stat. 946, 28 U. S. C. 1733; section 4 of the act of May 26, 1949, 63 Stat. 111, 5 U. S. C. 151c; and sections 104 and 332 of the act of June 27, 1952, 66 Stat. 174 and 253, 8 U. S. C. 1104 and 1443; the following sections are authorized for publication:

Sec.
1.1 Certification of documents.
1.2 Refusal of certification for unlawful purpose.

AUTHORITY: §§ 1.1 and 1.2 issued under R. S. 161, 203, 62 Stat. 946, sec. 4, 63 Stat. 111, secs. 104, 332, 66 Stat. 174, 253; 5 U. S. C. 22, 158, 28 U. S. C. 1733, 5 U. S. C. 151c, 8 U. S. C. 1104, 1443.

§ 1.1 *Certification of documents.* The Authentication Officer or the Acting Authentication Officer may, and is hereby authorized to, sign and issue certificates of authentication under the seal of the Department of State for and in the name of the Secretary of State or the Acting Secretary of State. The form of authentication shall be as follows:

In testimony whereof, I, ----------, Secretary of State have hereunto caused the seal of the Department of State to be affixed and my name subscribed by the Authentication Officer of the said Department, at ----------, in ----------, this ---------- day of ----------, 19-----.

(Secretary of State)

By ----------
(Authentication Officer, Department of State)

§ 1.2 *Refusal of certification for unlawful purpose.* The Department will not certify to a document when it has good reason to believe that the certification is desired for an unlawful or improper purpose. It is therefore the duty of the Authentication Officer to examine not only the document which the Department is asked to authenticate, but also the fundamental document to which previous seals or other certifications may have been affixed by other authorities. The Authentication Officer shall request such additional information as may be necessary to establish that the requested authentication will serve the interests of justice and is not contrary to public policy.

For the Secretary of State.

I. W. CARPENTER, Jr.,
Assistant Secretary-Controller.

DECEMBER 28, 1955.

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter E—Alcohol, Tobacco, and Other Excise Taxes

[T. D. 6156]

PART 270—CIGARS AND CIGARETTES: MANUFACTURERS, IMPORTERS, AND DEALERS

ELIMINATION OF THE REQUIREMENT FOR REPORTING TOBACCO MATERIALS USED BY MANUFACTURERS OF CIGARS AND CIGARETTES

In order to eliminate the requirement in 26 CFR (1954) Part 270, for the monthly reporting by manufacturers of cigars and cigarettes of tobacco materials used in the manufacture of their products, such regulations are hereby amended as follows:

PARAGRAPH 1. Section 270.143, relating to monthly reports, is amended by striking from the first sentence thereof, where it appears the first time, the word "used,".

Because the amendment made by this Treasury decision relieves restrictions presently in the regulations, it is found unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, or subject to the effective date limitation of section 4 (c) of said act.

This Treasury decision shall be effective on the date of its publication in the FEDERAL REGISTER.

(68A Stat. 917; 26 U. S. C. 7805)

[SEAL] RUSSELL C. HARRINGTON,
Commissioner of Internal Revenue.

Approved: December 28, 1955.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

[F. R. Doc. 55-10544; Filed, Dec. 30, 1955; 8:47 a. m.]

[T. D. 6157]

PART 275—MANUFACTURED TOBACCO: MANUFACTURERS, IMPORTERS, AND DEALERS

ELIMINATION OF THE REQUIREMENT FOR REPORTING TOBACCO MATERIALS USED BY MANUFACTURERS OF TOBACCO

In order to eliminate the requirement in 26 CFR (1954) Part 275, for the

monthly reporting by manufacturers of tobacco, of tobacco materials used in the manufacture of their product, such regulations are hereby amended as follows:

PARAGRAPH 1. Section 275.133, relating to monthly reports, is amended by striking from the first sentence thereof, where it appears the first time, the word "used,".

Because the amendment made by this Treasury decision relieves restrictions presently in the regulations, it is found unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, or subject to the effective date limitation of section 4 (c) of said act.

This Treasury decision shall be effective on the date of its publication in the FEDERAL REGISTER.

(68A Stat. 917; 26 U. S. C. 7805)

[SEAL] RUSSELL C. HARRINGTON,
Commissioner of Internal Revenue.

Approved: December 28, 1955.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

[F. R. Doc. 55-10545; Filed, Dec. 30, 1955; 8:47 a. m.]

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following miscellaneous amendments are made to Title 39, Chapter I:

PART 108—COMBINATION PACKAGES AND ARTICLES GROUPED TOGETHER

In Part 108 Combination Packages; Articles Grouped Together, make the following changes:

a. Amend the part caption to read as set forth above.

b. In § 108.1 *Combination packages*, amend the list of countries in paragraph (c) by inserting, in proper order, the following:

Panama (Rep. of).

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 109—AIRMAIL

In § 109.7 *Air letter sheets*, amend the first sentence to read as follows: "Air letters (aerogrammes) of approved size and weight, which can be folded into the form of an envelope and sealed, may be sent by air to all countries."

(R. S. 161, 396, 398; sec. 32, 20 Stat. 362, as amended, secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372, 39 U. S. C. 358)

PART 110—RATES AND SHIPPING REQUIREMENTS

In § 110.1 *Rates and shipping requirements*, amend the country items Estonia, Latvia, and Lithuania by changing the surface parcel post rate applicable thereto from 90 cents for the first pound and 23 cents for each additional pound to 92 cents for the first pound and 25 cents for each additional pound

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 112—PREPARATION, ADDRESSING, AND MAILING

In § 112.5 *Addressing and mailing*, make the following changes: 1. Amend paragraph (c) to read as follows:

(c) *Postage rates.* Parcel post rates to the various countries of destination are shown in § 110.1 of this chapter. The rates for surface parcels are for each pound, a fraction of a pound being charged as a full pound. Air parcel rates are on the basis of each 4 ounces, a fraction of 4 ounces being charged as a full 4 ounces. The weight of the customs declaration and other postal forms will not be included with that of the parcel (surface or air) in determining the amount of postage required.

2. Add new paragraph (d) to read as follows:

(d) *Shortpaid parcels.* Shortpaid parcels, unless intercepted at the mailing office and returned for payment of the deficient postage, are dispatched to destination and the postmaster at the mailing office notified of the shortage. You will be requested to supply the deficient postage.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 113—PROHIBITIONS AND RESTRICTIONS

Part 113—*Prohibitions and Restrictions*, is amended to read as follows:

Sec.
113.1 General list of prohibited articles.
113.2 Restricted articles.
113.3 Individual country prohibitions and restrictions.

AUTHORITY: §§ 113.1 to 113.3 issued under R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372.

§ 113.1 *General list of prohibited articles.* The following are prohibited by parcel post to all countries:

(a) Articles which are excluded from the domestic mails of the United States. (See Part 14 of this chapter.) Although safety matches are admitted in the domestic mail they are prohibited in the international mail.

(b) Written communications of the nature of personal correspondence. (See § 112.4 of this subchapter for permissible inclosures.)

(c) Enclosures which bear an address different from that appearing on the parcel itself.

(d) Pistols, revolvers, and other firearms capable of being concealed on the person, with certain exceptions. (See § 15.5 and § 173.1 of this chapter.)

(e) Live or dead creatures, except live bees, leeches, and silkworms and dead insects or reptiles when thoroughly dried.

(f) Fruits and vegetables which easily decompose and any substances which exhale a bad odor.

(g) Gold coin, gold bullion, or gold dust exceeding $100 in value. (See § 174.4 of this chapter.)

(h) Explosives and inflammable articles and articles which, in any way, may damage or destroy the mails or injure the persons handling them. This includes inflammable liquids having a flash point by the Tagliabue open tester at 80° F. or lower; inflammable solids which are likely, under conditions incident to transportation, to cause fires through friction, through absorption of moisture, or through spontaneous chemical changes.

(i) Oxidizing materials such as chlorates, permanganates, peroxides or nitrates, which yield oxygen readily to stimulate the combustion of organic matter.

§ 113.2 *Restricted articles*—(a) *Combustible liquids.* Combustible liquids having a flash point of 150° F. or lower but above 80° F. (Tab. open tester) may be sent to foreign countries generally in quantities not exceeding 1 quart in any one parcel, except that paints, varnishes, turpentine and similar substances may be sent in quantities of less than 1 gallon in any one parcel. Each parcel containing a combustible liquid must be marked by the sender to indicate that the flash point is above 80° F.

(b) *Gold and gold certificates.* See § 174.1 of this chapter.

(c) *Jewelry.* Some countries prohibit the importation of jewelry or other precious articles by parcel post, and others admit them only in registered or insured parcels. (See § 113.3). The term jewelry is generally understood to denote articles of more than nominal value. Low priced jewelry, such as tie clasps, costume jewelry, and other items containing little or no precious metal, is not considered to be jewelry within the meaning of this paragraph, and is accepted under the same conditions as other mailable merchandise to any country. However, its acceptance to countries to which jewelry is prohibited is at the risk of the sender.

(d) *Diamonds.* See § 172.5 of this chapter.

(e) *Tobacco seed and plants.* See § 175.2 of this chapter.

(f) *Plant material generally.* Plants, seeds, and plant material are subject to the quarantine regulations of the country of destination. You can obtain information from the Plant Quarantine Branch, Department of Agriculture, Washington 25, D. C., or from one of the offices of that branch located at principal ports of entry.

§ 113.3 *Individual country prohibitions and restrictions.* You may inquire at your post office for information as to articles prohibited or restricted to individual countries; or you may purchase the Directory of International Mail from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., at an initial cost of $5.00, including a year's subscription to revision sheets.

PART 115—INCOMING PARCEL POST

a. In § 115.1 Retention and disposal [20 F. R. 7837], add the following sentence to the text: "Senders in Great Britain have the additional option of having their parcels returned, if undeliverable, without being held for the 30-day peroid."

b. The caption of § 115.4 (now reading *"Addressed to banks or other organizations"*), is amended to read as follows:

§ 115.4 *Addressed through banks or other organizations.*

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 121—INTERNATIONAL REGISTERED MAIL

a. Section 121.4 *Registry receipt*, is amended to read as follows:

§ 121.4 *Registry receipt.* You are issued a receipt for mail matter accepted for registration to other countries.

b. In § 121.5 *Registry return receipts*, make the following changes:

1. Amend paragraph (b) to read as follows:

(b) *Requested after mailing.* (1) Within a period of 1 year from the day following that on which you mailed a registered article or parcel, you may request a return receipt at the office of mailing. You must show the registry receipt.

(2) Fee: 13 cents.

(3) If you wish the request for return receipt sent by air you must pay, in addition to the 13-cent fee, the postage for a one-rate airmail letter to the country of destination. If you wish the request sent by surface and the receipt returned to you by air you must pay the same postage. If you wish the request sent and the return receipt returned both by air you must pay double that postage.

2. Amend paragraph (c) to read as follows:

(c) *Completion.* Return receipts for registered articles delivered in other countries are completed in accordance with requirements of the country making delivery, which vary according to the country involved. The signature of the addressee is not furnished by some countries, or may be furnished only under specified conditions.

c. In § 121.6 *Restricted delivery by senders*, make the following changes:

1. Amend that part of paragraph (a) preceding the endorsement table to read as follows:

(a) Articles mailed in United States. You may restrict the delivery of registered Postal Union articles addressed to the following countries on condition that the articles are accompanied with a return receipt and you endorse the article in the manner indicated.

• • • • •

2. Redesignate paragraph (b) as paragraph (a) (1); and amend same to read as follows:

(1) Place endorsements shown in the second column above and near the address and underline in red. The country of destination will make two attempts to effect delivery, and, if unsuccessful, the article will be returned as undeliverable.

3. Redesignate paragraphs (c) and (d) as subparagraphs (2) and (3) of paragraph (a), respectively.

4. Add new paragraph (b) to read as follows:

(b) *Articles mailed in other countries.* Registered Postal Union articles which are accompanied with a return receipt and bear the notation "Deliver to addressee only," underlined in red, are delivered only to the addressee. Two attempts are made to deliver such articles. If delivery is not effected by the second attempt, the articles are returned to the sender.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 122—INTERNATIONAL INSURED MAIL

a. In § 122.1 *Availability of service*, change the reference "Part 110 of this chapter" to "§ 122.3 (b) (1)".

b. In § 122.3 *Fees and limit of insurance*, amend paragraph (b) (1) by changing the limit of insurance applicable to the Cape Verde Islands from $50.00 to $16.33.

c. Section 122.5 *Insurance receipts*, is amended to read as follows:

§ 122.5 *Insurance receipts.* You are issued a receipt for mail accepted for insurance. Each receipt will bear the insurance number. You should enter the name and address of the addressee on the receipt and keep it. The receipt must be submitted if you file a claim or an inquiry concerning the parcel.

d. In § 122.7 *Return receipts*, change the reference from § 121.6 to § 121.5.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 132—PROHIBITED AND RESTRICTED ARTICLES

a. In § 132.1 *General list of prohibited articles*, make the following changes:

1. Delete present paragraph (f).

2. Redesignate present paragraph (g) as paragraph (f); and amend same to read as follows:

(f) Coins, bank notes, paper money or any values payable to bearer; manufactured or unmanufactured platinum, gold or silver, precious stones, jewelry stones, jewelry or other previous articles are prohibited transmission in the Postal Union mails unless sent by registered letter mail. These articles are absolutely prohibited even in registered letter mail to some countries. The term jewelry is generally understood to denote articles of more than nominal value. Low priced jewelry, such as tie clasps, costume jewelry, and other items containing little or no precious metal, is not considered to be jewelry within the meaning of this paragraph, and is accepted under the same conditions as other mailable merchandise to any country. However it is accepted only at the sender's risk to countries which prohibit jewelry.

3. Add new paragraph (g) to read as follows:

(g) Gold coin, gold bullion, or gold dust exceeding $100 in value. (See § 174.4 of this chapter.)

4. Add new paragraph (h) to read as follows:

(h) For articles prohibited from international parcel post, see Part 113 of this chapter.

b. In § 132.2 Restricted articles [20 F. R. 7837], delete paragraph (f).

c. Section 132.3 *Individual country prohibitions*, is amended to read as follows:

§ 132.3 *Individual country prohibitions and restrictions.* You may inquire at your post office for information as to articles prohibited or restricted to individual countries, or you may purchase the Directory of International Mail from the Superintendent of Documents, Government Printing Office, Washington 25, D. C., at an initial cost of $5.00, including a year's subscription to revision sheets.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

PART 152—INDEMNITY LIMITS

a. In § 152.1 *Registered Postal Union articles*, make the following changes:

1. Amend paragraph (a) to read as follows:

(a) *Canada.* You may be paid not to exceed $8.17 on the basis of actual value for damage or rifling of contents when of United States origin and when responsibility rests with the United States, and up to $25 based on actual value for loss (contents and wrapper) in either Canada or the United States.

2. Amend paragraph (b) to read as follows:

(b) *PUAS countries (see § 131.3 (d) (1)), except Canada.* You may be paid any amount claimed not exceeding $3.27 for loss (contents and wrapper) regardless of value; and, when responsibility rests with the United States only, not exceeding $3.27 on the basis of actual value for damage or rifling of contents (including instances where money in cash, bank notes, or values payable to bearer are prohibited by international agreements).

3. Amend paragraph (c) to read as follows:

(c) *Great Britain and Northern Ireland and Switzerland.* You may be paid any amount claimed not exceeding $8.17 for loss, (contents and wrapper), regardless of value; and, on the basis of actual value, irrespective of country of origin or country responsible, for damage of an article in a registered packet, but not exceeding $8.17. If United States responsibility, such payment may be made for partial damage, or for rifling of contents, but not exceeding $8.17.

4. Amend paragraph (d) to read as follows:

(d) *All other countries.* You may be paid any amount claimed not exceeding $8.17 for loss (contents and wrapper) regardless of value; and, when of United States origin and when responsibility rests with the United States only, not exceeding $8.17 on the basis of actual value for damage or rifling of contents (including instances where money in

cash, bank notes, or values payable to bearer are prohibited by international agreements).

b. In § 152.2 *Registered or ordinary parcel post to countries of the Postal Union of the Americas and Spain,* make the following changes:

1. Amend the section caption to read as follows:

§ 152.2 *Registered or ordinary parcel post to PUAS countries (see § 131.3 (d) (1)) except Canada and Cuba.*

2. Insert the following note under the table:

NOTE: See § 152.3 (c) concerning indemnity paid for registered parcel post to Ecuador.

c. *Section 152.3 Other registered parcel post,* is amended to read as follows:

§ 152.3 *Other registered parcel post*—(a) *Cape Verde Islands and Portuguese West Africa.* You may be paid up to $16.33, based on actual value, for loss, rifling, or damage.

(b) *Cuba.* You may be paid up to $10 for loss (contents and wrapper) based on actual value.

(c) *Ecuador and Portugal (including Madeira and the Azores).* You may be paid, based on actual value, for loss, rifling, or damage (in case of Portugal only for loss of both contents and wrapper) in accordance with the scale of fees and limits of indemnity in § 121.3 (b) of this chapter.

d. In § 152.4 *Insured parcel post,* make the following changes:

1. Delete the word "total" from paragraph (a) and paragraph (b).

2. Amend paragraph (c) to read as follows:

(c) Canada. You may be specially paid as provided in paragraph (a) for the loss, rifling, or damage of insured parcels addressed to Canada containing articles prohibited insurance such as jewelry, precious stones, articles of gold or other precious metals for personal use, gold scrap, jeweler's filings, and money packets.

e. In § 152.5 *Principal exceptions,* make the following changes:

1. Add the following to paragraph (e): ", such as failure to endorse the parcel conspicuously to show the nature of the contents, or, to provide adequate packing for the length of the journey and for the protection of the contents."

2. Amend paragraph (j) to read as follows:

(j) In the case of parcels which contain matter of no intrinsic value or matter which did not conform to the stipulations of the conventions applicable, or which were not posted in the manner prescribed. However, in the event of loss, rifling, or damage in this country of mail matter erroneously accepted for insurance, etc., to other countries, limited indemnity may specially be paid, under the conditions stated in §§ 152.1 to 152.3. If postage was erroneously collected at other than parcel post rates, but the parcel was otherwise properly accepted for insurance, indemnity may specially be paid under § 152.4.

3. Amend paragraph (n) to read as follows:

(n) Indemnity greater than that corresponding to the actual amount of loss, rifling, or damage referred to in §§ 152.1 to 152.4 except in the case of loss of registered Postal Union mail.

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] ABE MCGREGOR GOFF,
The Solicitor.

[F. R. Doc. 55-10603; Filed, Dec. 30, 1955; 8:53 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1264]

ALASKA

REVOKING PLO 644 OF MAY 9, 1950, WHICH WITHDREW LANDS FOR ALASKA ROAD COMMISSION; PARTIALLY REVOKING EO OF MAY 4, 1907, WHICH WITHDREW LANDS FOR EDUCATIONAL PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

[52391]

1. Public Land Order No. 644 of May 9, 1950, withdrawing the following-described public lands in Alaska for use of the Alaska Road Commission as an administrative site, is hereby revoked:

SEWARD MERIDIAN

T. 12 N., R. 3 W.,
Sec. 33, lots 181 and 202.

The tracts described contain 6.70 acres and are withdrawn for Power Site Classification No. 107 of June 12, 1925.

[67915]

2. The Executive order of May 4, 1907, reserving not to exceed 40 acres at each of several places in Alaska for educational purposes, is hereby revoked so far as it affects the following-described lands at Nulato:

ON THE YUKON RIVER

Near latitude 64°45', longitude 158°, identified as U. S. Survey No. 2247.

The tract described contains 0.29 acre.

3. Subject to any existing valid rights, and the requirements of applicable law, the lands described in paragraph 2 hereof, are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws and applications and offers under the mineral-leasing laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications, selections, and offers will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Alaska Home Site, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on February 1, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on May 2, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the non-mineral public-land laws, other than those coming under paragraphs (1) and (2) above, and applications and offers under the mineral-leasing laws, presented prior to 10:00 a. m. on May 2, 1956 will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands will be open to location under the United States mining laws, beginning 10:00 a. m. on May 2, 1956.

4. Persons claiming veteran's preference rights under paragraph 3a (2) above must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Fairbanks, Alaska.

WESLEY A. D'EWART,
Assistant Secretary of the Interior.

DECEMBER 27, 1955.

[F. R. Doc. 55-10465; Filed, Dec. 30, 1955; 8:48 a. m.]

TITLE 45—PUBLIC WELFARE

Chapter VI—National Science Foundation

NSF FELLOWSHIP PROGRAM

Parts 601 and 602 are revised as set forth below. A new Part 603 is added to Title 45 and § 620.10 (e) is amended as set forth below.

PART 601—PREDOCTORAL GRADUATE FELLOWSHIPS

Sec.
601.1 General.
601.2 Qualifications.
601.3 Fellowship activities.
601.4 Conditions of appointment.
601.5 Location of work.
601.6 Stipends and allowances.
601.7 Applications.

AUTHORITY: §§ 601.1 to 601.7 issued under sec. 11, 64 Stat. 153; 42 U. S. C. 1870. Interpret or apply sec. 10, 64 Stat. 152; 42 U. S. C. 1869.

§ 601.1 *General.* As one means of promoting the progress of science the National Science Foundation is authorized by the National Science Foundation Act of 1950 to award graduate fellowships for scientific study. Selection of persons for fellowships will be made from among citizens of the United States solely on the basis of ability. Fellowships will be awarded in the mathematical, physical, medical, biological, engineering and other sciences, including anthropology, psychology (other than clinical), geography, certain interdisciplinary fields, and fields of convergence between the natural and social sciences. Awards are not made to individuals to pursue a course of study designed to prepare them for careers in medical practice and comparable fields; however, applications will be accepted from students who intend to obtain advanced training in one of the medical sciences directed toward a career in research.

§ 601.2 *Qualifications.* National Science Foundation predoctoral graduate fellowships are available to any citizen of the United States who has demonstrated ability and special aptitude for advanced training in the sciences and who will be eligible to begin or continue graduate study. Selection of fellows will be based on scores made on tests of scientific aptitude and achievement, academic records, and recommendations regarding each candidate's abilities. Evaluation of each candidate's qualifications is to be made by panels of scientists chosen by the National Research Council; final selection of Fellows is to be made by the National Science Foundation.

§ 601.3 *Fellowship activities.* National Science Foundation fellows will be required to devote full time to advanced scientific study or scientific research for the period of the fellowship award. The tenure may be selected to include either one regular academic year of two semesters (or three quarters) or a full year consisting of a regular academic year plus a full summer session; fellows electing the longer tenure and studying at institutions where the summer session is divided into two terms will be expected to attend each of the terms during the tenure of their award. A fellow may not receive remuneration from another fellowship, scholarship, or similar award or Federal grant or contract during the tenure of the fellowship. The institution or the department in which a fellow chooses to study may assign the fellow definite responsibilities or duties other than normal course work or individual research if the National Science Foundation, the fellow's scientific adviser, and the fellow agree in advance that those responsibilities and duties promote the scientific training of the fellow. Since some teaching experience (and/or related activity) is considered desirable for many graduate students because it contributes to the graduate training process, the Foundation encourages its fellows to undertake a reasonable amount of teaching responsibility when satisfactory arrangements can be worked out between the fellow, his advisers, his graduate institution, and the Foundation. Except in special cases (where adequate justification is submitted to show that exceptional circumstances exist), fellows are not allowed to accept remuneration for teaching or other duties carried out during the fellowship tenure. Results of research carried out by a fellow may be made available to the public by ordinary means without restriction except as is required in the interest of national security.

§ 601.4 *Conditions of appointment.* (a) In order to be considered for a given academic year, applications must be received in the Fellowship Office of the National Research Council early in January. Applications must normally be accompanied by complete copies of college transcripts of credit and a plan of study for advanced training. The affidavit and loyalty oath required by section 15 (d) of the National Science Foundation Act (42 U. S. C. Sup. 1874 (d)) will constitute part of the application form and must be completed and returned with the other application materials. Applicants having graduate status must also submit an outline of any research contemplated.

(b) All applicants for graduate awards will be required to take an examination designed to test scientific aptitude and achievement; this examination is administered at a large number of centers throughout the United States and overseas each January. Applicants will be informed as to the time and place where they can take this examination. Awards are made on March 15, and fellows may enter on the tenure of their awards any time after the following June 1, but must begin their fellowship activities no later than the beginning of the ensuing academic year at the institution of the fellow's choice. After an appointment is made a major change in the course of study and any change in the tenure or institution to be attended by a fellow requires prior approval of the National Science Foundation. The granting of a fellowship implies no commitment about its renewal. Fellows applying for reappointment will be judged along with all other applicants in the same field and at the same level of study.

§ 601.5 *Location of work.* A fellow may pursue his fellowship at any accredited non-profit institution of higher education in the United States, or any similar institution abroad approved by the National Science Foundation. A fellow must present evidence that he is accepted by the institution in which he plans to pursue his fellowship before he will be permitted to enter upon the tenure of the fellowship.

§ 601.6 *Stipends and allowances.* (a) Stipends for these fellowships will vary with the academic status of the applicant:

(1) First year fellows—those who expect to enter upon graduate study for the first time or those whose graduate training is insufficient to qualify them as an intermediate year fellow—will receive a stipend of $1,400.

(2) Intermediate fellows—those who will have completed (by September of the year the award is made) an amount of graduate training considered by the institution at which they are in attendance to be a normal year of graduate training—will receive a stipend of $1,600.

(3) Terminal fellows—those who expect to complete the requirements for a doctoral degree within one calendar year from the date on which they enter on the tenure of their fellowships—will receive a stipend of $1,800.

(b) The annual stipend will be made available to fellows who elect a full year (twelve months) option. Fellows electing an academic year (nine months) award will receive nine-twelfths of the annual stipend. Married fellows normally will be provided a dependency allowance of an additional $350 plus $350 for each dependent child. As in the case of the stipend, these allowances will be reduced to nine-twelfths of the annual figures for fellows electing academic year awards. A limited allowance to aid in defraying the fellow's cost of travel will be paid. Tuition and laboratory fees assessed and collected by the university of individuals of similar academic standing will be paid by the National Science Foundation. These fellowships are awarded solely for the education, training and development of the recipients.

§ 601.7 *Applications.* Requests for application forms should be addressed to the Fellowship Office, National Research Council, 2101 Constitution Avenue NW., Washington 25, D. C.

PART 602—POSTDOCTORAL FELLOWSHIPS

Sec.
602.1 General.
602.2 Qualifications.
602.3 Fellowship Activities.
602.4 Conditions of appointment.
602.5 Location of work.
602.6 Stipends.
602.7 Applications.

AUTHORITY: §§ 602.1 to 602.7 issued under sec. 11, 64 Stat. 153; 42 U. S. C. 1870. Interpret or apply sec. 10, 64 Stat. 152; 42 U. S. C. 1869.

§ 602.1 *General.* As one means of promoting the progress of science the National Science Foundation is authorized by the National Science Foundation Act of 1950 to award graduate fellowships in the mathematical, physical, medical, biological, engineering, and other sciences, including anthropology, psychology (other than clinical), geography, certain interdisciplinary fields, and fields of convergence between the natural and social sciences. Selection of persons for

fellowships will be made from among citizens of the United States solely on the basis of ability. Awards are not made to individuals to pursue a course of study designed to prepare them for careers in medical practice and comparable fields; however, applications will be accepted from students who intend to obtain advanced training in one of the medical sciences directed toward a career in research.

§ 602.2 *Qualifications.* National Science Foundation postdoctoral fellowships are available to citizens of the United States who have demonstrated ability and special aptitude for advanced training in the sciences and who, as of the beginning of their fellowships, have earned a doctoral degree in one of the fields of science covered or who have had research training and experience equivalent to that represented by such a degree. Evaluation of each candidate's qualifications is made by a panel of scientists selected by the National Research Council. Final selection of fellows is made by the National Science Foundation.

§ 602.3 *Fellowship activities.* National Science Foundation fellows will be expected to devote full time to advanced scientific study and scientific research during the period of the fellowship award. A fellow may not receive remuneration from another fellowship, scholarship, or similar award, or Federal grant or contract during the tenure of fellowship. The institution or department which a fellow chooses to study may assign the fellow definite responsibilities or duties other than the normal course or individual research if the National Science Foundation, the fellow's scientific adviser, and the fellow agree in advance that those responsibilities and duties promote the scientific training of the fellow. Since some teaching experience (and/or related activity) is considered desirable for many graduate students because it contributes to the graduate training process, the Foundation encourages its fellows to undertake a reasonable amount of teaching responsibilities when satisfactory arrangements can be worked out between the fellow, his adviser, his graduate institution, and the Foundation. Except in special cases (where adequate justification is submitted to show that exceptional circumstances exist), fellows are not allowed to accept remuneration for teaching or other duties carried out during fellowship tenure. The results of research carried out by a fellow may be made available to the public by ordinary means without restriction except as required in the interest of national security.

§ 602.4 *Conditions of appointment.* (a) In order to be considered for a given academic year, applications must be received in the Fellowship Office of the National Research Council by late December (e. g., December 19 was the deadline for receipt of applications for the 1956–1957 academic year). An additional award period occurs in the Autumn. Applications for this award period must be received by early September (e. g., September 12 for the Autumn 1955 award period). Applications must normally be accompanied by complete copies of college transcripts and other supplementary information as required in the application materials. The affidavit and loyalty oath required by section 15 (d) of the National Science Foundation Act (42 U. S. C. Sup. 1874 (d)) will constitute part of the application form and must be completed and returned with the other application materials.

(b) A fellow may choose to pursue his fellowship at any accredited non-profit institution of higher education in the United States, or any similar institution abroad approved by the National Science Foundation. Postdoctoral fellowships normally have the same tenure options as graduate fellowships but may be awarded longer or shorter periods—from six months to two years—upon submission by the applicants of adequate justification. This justification must be included as a part of the proposed plan of research and submitted as a part of the application materials. Postdoctoral fellows may begin their fellowship activities at any time within twelve months after the announcement of the awards, but it is expected that fellowship tenure will begin within six months. After an appointment is made, a major change in the course of study and any change in tenure or institution to be attended by a fellow requires prior approval of the National Science Foundation. The granting of a fellowship implies no commitment about its renewal. Fellows applying for reappointment will be judged along with all other applicants in the same field and at the same level of study.

§ 602.5 *Location of work.* A fellow may pursue his fellowship an any accredited non-profit institution of higher education in the United States, or at any similar institution abroad approved by the National Science Foundation. A fellow must present evidence that he is accepted by the institution in which he plans to pursue his fellowship before he will be permitted to enter upon the tenure of his fellowship.

§ 602.6 *Stipends.* The basic stipend for National Science Foundation postdoctoral fellows will be $3,400 per year. Married fellows normally will be provided a dependency allowance of an additional $350 plus $350 for each dependent child. A limited allowance to aid in defraying the fellow's costs of travel will be paid. Postdoctoral fellows who receive awards of longer or shorter duration will receive stipends and allowances in proportion to the tenure of their fellowships. Tuition and certain fees assessed and collected from individuals of similar academic standing will be paid by the National Science Foundation. These fellowships are awarded solely for the education, training and development of the recipients.

§ 602.7 *Applications.* Requests for application forms should be addressed to the Fellowship Office, National Research Council, 2101 Constitution Avenue, N. W., Washington 25, D. C.

PART 603—SENIOR POSTDOCTORAL FELLOWSHIPS

Sec.
603.1 General.
603.2 Qualifications.
603.3 Fellowship activities.
603.4 Conditions of appointment.
603.5 Location of work.
603.6 Stipends.
603.7 Applications.

AUTHORITY: §§ 603.1 to 603.7 issued under sec. 11, 64 Stat. 153; 42 U. S. C. 1870. Interpret or apply sec. 10, 64 Stat. 152; 42 U. S. C. 1869.

§ 603.1 *General.* As one means of promoting the progress of science and the national welfare, the National Science Foundation is authorized by the National Science Foundation Act of 1950 to award senior postdoctoral fellowships to individuals planning additional study and/or research with a view to (a) increasing their competence in their specialized fields of science or (b) broadening their experience in related fields of science. Selection of persons for fellowships will be made from among citizens of the United States solely on the basis of ability. Fellowships will be awarded in the mathematical, physical, medical, biological, engineering, and other sciences, including anthropology, psychology (other than clinical), geography, certain interdisciplinary fields, and fields of convergence between the natural and social sciences. Awards are not made to individuals to pursue a course of study designed to prepare them for a career in medical practice and comparable fields; however, applications will be accepted from persons holding doctoral degrees who wish further training in one of the medical sciences with a view toward a career in research.

§ 603.2 *Qualifications.* National Science Foundation senior postdoctoral fellowships are available to any citizen of the United States who has demonstrated ability and special aptitude for advanced training and productive scholarship in the sciences and who, at the time of his application, has held a doctoral degree in one of the fields of basic science for a minimum of five years, or who has had the equivalent in research experience and training. An individual who has held a degree such as M. D., D. D. S., or D. V. M. for at least five years prior to the time application is made and who desires to obtain further training for a career in research will be eligible to apply for a senior postdoctoral fellowship provided he can present an acceptable plan of study and research. Evaluation of each candidate's qualifications is to be made by a panel of scientists selected by the National Research Council. Final selection of fellows is to be made by the National Science Foundation.

§ 603.3 *Fellowship activities.* A National Science Foundation senior postdoctoral fellow is required to devote full time to scientific study and/or scientific research during the tenure of his fellowship. In general, a senior postdoctoral fellow may not receive compensation for services performed during his tenure. He may, however, hold other bona fide fellowships concurrently and may receive sabbatical leave pay during his tenure. A fellow may undertake definite responsibilities or duties other than normal course work or research if the fellow and the National Science Foundation agree in advance that those responsibilities and duties will tend to further the training in science of the fellow. The results of research carried out by the fellow may be made available to the public by ordinary means without restriction except as is required in the interest of national security.

§ 603.4 *Conditions of appointment.* (a) In order to be considered for a particular academic year, applications must be received in the Division of Scientific Personnel and Education of the National Science Foundation by the second or third Monday of January. Applications must normally be accompanied by complete copies of college transcripts and other supplementary information as required in the application form. The affidavit and loyalty oath required by section 15 (d) of the National Science Foundation Act (42 U. S. C. Sup. 1874 (d)) will constitute part of the application form and must be completed and returned with the other application materials.

(b) Each applicant must specify the institution or institutions in which he proposes to continue his training. The tenure of a senior postdoctoral fellowship will normally be either an academic year of 9 months or a calendar year of 12 months. Tenures of shorter or longer duration—from three months to two years—are available upon submission of adequate justification. Justification must be part of the proposed plan of study and research. It is not mandatory that the entire tenure of the fellowship be undertaken in a single, uninterrupted period, but no one period of tenure may be shorter than three months and the total span of tenure from beginning to termination of the fellowship may not exceed thirty-six months. Requests for unusual arrangement of tenure should be justified in the application materials. After an appointment is made, a major change in the course of study and research, or any change in tenure or in the institution(s) to be attended by the fellow requires prior approval of the National Science Foundation.

§ 603.5 *Location of work.* A fellow may pursue his fellowship at any accredited non-profit institution(s) of higher education in the United States, or at any similar institution abroad approved by the National Science Foundation. A fellow must present evidence that he is accepted by the institution at which he plans to study during his fellowship before he will be permitted to enter upon the tenure of the fellowship.

§ 603.6 *Stipends.* Awards for the senior postdoctoral fellows are of the salary-matching type. The stipend will be individually determined and will be based on the fellow's normal salary as of the time he makes application for an award and on other support expected (for example, other fellowship awards or sabbatical leave pay to which he is entitled) during the tenure of his National Science Foundation fellowship. In the event that a fellow has supplemental support during all or part of his fellowship tenure, the amount of his award will be adjusted accordingly. No award, however, will be less than $4,000 per annum before adjustment and no award will exceed $10,000 per annum. Awards for periods longer or shorter than one year will be prorated. Allowances to aid in defraying the costs of travel undertaken in the fulfillment of the fellowship study will be paid. An additional allowance may be made to defray costs of tuition, fees, unusual research expenses, special equipment and special travel in an amount not to exceed $600 for each full year of tenure. These fellowships are awarded solely for the education, training and development of the recipient.

§ 603.7 *Applications.* Requests for application forms should be addressed to the Division of Scientific Personnel and Education, National Science Foundation, Washington 25, D. C.

PART 620—GRANTS FOR SCIENTIFIC RESEARCH; GUIDE FOR THE SUBMISSION OF RESEARCH PROPOSALS

The date "December, 1951" appearing in § 620.10 (e) relating to Foundation grants, should be changed to "April, 1955".

C. E. SUNDERLIN,
Deputy Director.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 55–1264]

[Rules Amdt. 1–1]

PART 1—PRACTICE AND PROCEDURE

MISCELLANEOUS AMENDMENTS

In the matter of amendment to §§ 1.387 (b) (3) and 1.724 (b) and adoption of a new § 1.370.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 21st day of December 1955;

The Commission having under consideration amendment of §§ 1.387 and 1.724 (b) of its rules and regulations, which concern the consolidation of mutually exclusive applications for hearing; and the enactment of a new rule on the processing of certain broadcast applications;

It appearing that the amendments herein ordered would promote greater efficiency in Commission operations; and

It further appearing that the amendments herein ordered are procedural in nature, and, therefore, compliance with the requirements of sections 4 (a) (b) and (c) of the Administrative Procedure Act is not required;

It is ordered, That pursuant to sections 4 (i) and 5 (e) of the Communications Act of 1934, as amended, §§ 1.387 (b) (3) and 1.724 (b) of the Commission's rules and regulations are amended, as shown below, effective January 1, 1956, and that these amendments shall apply only to applications designated for hearing on or after the effective date.

It is further ordered, That a new § 1.370, as set forth below, is enacted, effective immediately.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154)

Released: December 28, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

A new § 1.370 is enacted to immediately follow the subtitle "The Manner In Which Applications Are Processed" and which reads as follows:

§ 1.370 *Thirty-day waiting period for action on certain applications.* The Commission will not act on applications for construction permit for new broadcast stations, or for renewal thereof, or modification of broadcast construction permits requesting changes of transmitter site, antenna height or operating power, until 30 days have elapsed since the date on which public notice has been given by the Commission of the acceptance of such application or applications for filing.

Section 1.387 (b) (3) of the Commission's rules and regulations is amended to read as follows:

(3) Any person who has filed a mutually exclusive application, which, under § 1.724 (b) will be consolidated with a prior application, or applications.

Section 1.724 (b) of the Commission's rules and regulations is amended to read as follows:

(b) Any application that is mutually exclusive with another application or applications already designated for hearing will be consolidated for hearing with such other application or applications only if the application in question is filed at least 30 days before the date on which the hearing on the prior application or applications is scheduled provided, however, that in broadcast matters a mutually exclusive application will be consolidated for hearing with such other application or applications only if the later application has been filed not later than ten days after public notice has been given by the Commission of its order designating a prior application or applications for hearing. If the later application is filed after said ten days it will be dismissed without prejudice and will be eligible for refiling only after a final decision is rendered by the Commission with respect to the prior application or applications or after such application or applications are dismissed or removed from the hearing docket. If, in non-broadcast matters the scheduled date is changed, the date last set shall govern in determining the timeliness of an application.

[FCC 55-1273]

[Rules Amdt. 3-4]

PART 3—RADIO BROADCAST SERVICES

TIME OF OPERATION

In the matter of amendment of § 3.261 of Part 3 Radio Broadcast Services.

1. On March 22, 1955, the Commission released a Report and Order (FCC 55-340) in Docket No. 10832, amending its rules to permit FM broadcast stations to engage in functional music operations on a simplex and/or multiplex basis. In this Report and Order the Commission amended § 3.261 of the rules relating to time of operation of FM broadcast stations to read, in part, as follows: "A minimum of 36 hours per week during the hours of 6:00 a. m. to midnight, consisting of not less than 5 hours in any one day, must be devoted to the FM broadcast operation; time devoted to operations conducted pursuant to a Subsidiary Communications Authorization (see §§ 3.293 to 3.296) shall not be included in meeting this 36-hour broadcast requirement."

2. On October 7, 1955, Progress Broadcasting Corporation, licensee of Station WHOM-FM, New York, N. Y., filed a petition requesting the Commission to amend Section 3.261 to permit FM stations to be silent on Sundays. In support of its petition, Progress Broadcasting Corporation urges that the language of § 3.261 appears to require FM stations to operate on Sunday. Petitioner states that the authorization of functional music operations was a recognition by the Commission that FM stations were, for the most part, in very poor financial circumstances and required additional sources of revenue if they were to continue to exist, and notes that in authorizing functional music operations, the Commission characterized such operations essentially of non-broadcast nature. In order to keep the functional music operation subservient to the broadcast function, the Commission required in § 3.261 a minimum of 36 broadcast hours per week; and in order to preclude concentration of the minimum hours in any one period of time, required a minimum of 5 broadcast hours per day. Petitioner urges, however, that the Commission cannot have intended to require FM stations to operate on Sundays, noting that § 3.71 of the Commission's AM rules specifically excludes Sundays from the minimum operating schedule of standard broadcast stations. Because Sunday operation involves overtime payments to station staffs and provides little opportunity for deriving compensatory revenues, it is substantially more expensive than comparable weekday operations. Petitioner urges, therefore, that its proposed revision of § 3.261 would be consistent with the Commission's policy of improving the financial circumstances of FM stations, and further, would equalize treatment of standard broadcast and FM stations in this particular. Such a revision would not affect the obligation of FM licensees to meet the minimum weekly requirement, and would not permit fulfilling this requirement in any given short period of time.

3. The Commission believes that the public interest does not require Sunday broadcast operation by FM stations. Standard broadcast stations are expressly exempt from such a requirement. The Commission believes that the public interest would be served by removing the financial burden of obligatory Sunday broadcast operation from FM stations. Accordingly, the Commission is amending § 3.261 of its rules to permit FM stations to remain silent on Sundays.

4. Prior notice of proposed rule making is unnecessary under the provisions of section 4 of the Administrative Procedure Act, and the amendment may become effective January 3, 1956, since the amendment will relieve restrictions upon licensees of FM stations.

5. The amendment adopted herein is issued pursuant to authority contained in sections 4 (i), 303 (c) and (r) of the Communications Act of 1934, as amended.

6. In view of the foregoing: *It is ordered*, That, effective January 3, 1956 § 3.261 of the Commission's Rules is amended to read as follows:

§ 3.261 *Time of operation.* All FM broadcast stations will be licensed for unlimited time operation. A minimum of 36 hours per week during the hours of 6:00 a. m. to midnight, consisting of not less than 5 hours in any one day, except Sunday, must be devoted to the FM broadcast operation; time devoted to operations conducted pursuant to a Subsidiary Communications Authorization (see §§ 3.293–3.295) shall not be included in meeting this 36-hour broadcast requirement. In an emergency when, due to causes beyond the control of a licensee, it becomes impossible to continue operation, the station may cease operation for a period not to exceed 10 days provided that the Commission and the Engineer in Charge of the radio district in which the station is located shall be notified in writing immediately after the emergency develops.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Adopted: December 21, 1955.

Released: December 26, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Docket 3666; Order 22]

PARTS 71-78—EXPLOSIVES AND OTHER DANGEROUS ARTICLES

MISCELLANEOUS AMENDMENTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 15th day of December 1955.

It appearing that pursuant to the Transportation of Explosives Act of March 4, 1921 (41 Stat. 1444), sections 831–835 of Title 18 of the United States Code approved June 25, 1948, and Part II of the Interstate Commerce Act, as amended, the Commission has heretofore formulated and published certain regulations for the transportation of explosives and other dangerous articles.

It further appearing that due to shortage of water at some points during the summer months; impossibility of making tests of loaded cars in storage during summer months; and the existing shortage of tank cars coupled with a heavy demand for gases and other commodities, that an extension of time be allowed in which to accomplish the retesting of tank cars, safety valves, and heater systems on a schedule that will not seriously interfere in the supply of materials transported in tank cars particularly gases used for heating purposes, it is deemed necessary to amend the aforesaid regulations:

It is ordered, That the aforesaid regulations for the transportation of explosives and other dangerous articles be, and they are hereby, amended as follows:

Amend § 73.31 paragraph (g) Note 1 (20 F. R. 8098, Oct. 28, 1955) (49 CFR 1950 Rev., 1954 Supp., 73.31) to read as follows:

§ 73.31 *Qualification, maintenance, and use of tank cars.* • • •

(g) • • •

NOTE 1: Periodic retests of metal tanks, safety valves, and heater systems, except those in chlorine service and except tanks made to specifications ICC-106A500, 106A500X, 106A800, 106A800X, 106A800NCI, 107A, or 110A500-W may be made at any time during the calendar year the retest falls due, except that where such retests are due on or before December 31, 1955 the tests must be made on or before June 30, 1956.

• • • • •

It is further ordered, That the foregoing amendment to the aforesaid regulations shall have full force and effect on December 31, 1955, and that such regulations as herein amended shall thereafter be observed until further order of the Commission.

It is further ordered, That compliance with the aforesaid regulations as herein amended is hereby authorized on and after the date of service of this order.

And it is further ordered, That copies of this order be served upon all parties of record herein, and that notice shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of Federal Register.

(Sec. 204, 49 Stat. 546, as amended, sec. 835, 62 Stat. 739; 49 U. S. C. 304, 18 U. S. C. 835)

By the Commission, Division 3.

[SEAL] HAROLD D. MCCOY,
Secretary.

[F. R. Doc. 55-10469; Filed, Dec. 30, 1955; 8:49 a. m.]

[Ex Parte No. 179]

PART 91—LOCOMOTIVE INSPECTION

INSPECTION AND TESTING OF MULTIPLE UNIT EQUIPMENT

Present. Owen Clarke, Commissioner, to whom the above-entitled matter has been assigned for action thereon.

Upon consideration of the record in the above-entitled proceeding, and petition of certain carriers filed December 19, 1955, for reconsideration of the report and order on further hearing decided October 25, 1955, and for good cause appearing:

It is ordered, That the order of May 18, 1954, as amended, be, and it is hereby modified by further postponing the effective date of the rules and instructions for the inspection and testing of electrically operated units designed to carry freight and/or passengers, operated by a single set of controls from January 1, 1956, to April 1, 1956, and by substituting April 1, 1956, for January 1, 1956, wherever it appears in the said order of May 18, 1954, as amended, without change otherwise; and

It is further ordered, That notice of this order shall be given to the general public by posting a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing a copy with the Director, Division of the Federal Register.

(Sec. 5, 36 Stat. 914, as amended; 45 U. S. C. 28)

Dated at Washington, D. C., this 21st day of December A. D. 1955.

By the Commission.

[SEAL] HAROLD D. MCCOY,
Secretary.

[F. R. Doc. 55-10471; Filed, Dec. 30, 1955; 8:49 a. m.]

PROPOSED RULE MAKING

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 2]

[Docket No. 11586; FCC 55-1261]

FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

FREQUENCY ALLOCATIONS

In the matter of amendment of Part 2 of the Commission's rules to provide for the use of the band 25.6–26.1 Mc in the international broadcasting service by both Government and non-Government stations.

1. Notice is hereby given of proposed rule making in the above entitled matter.

2. At the present time the Commission's table of frequency allocations, contained in § 2.104 (a) (5) of the rules, indicates that while the band 25.6–26.1 Mc is allocated to broadcasting on a world-wide basis, the band is sub-divided within the United States to provide a Government allocation of 25.6–25.85 Mc and a non-Government allocation of 25.85–26.1 Mc.

3. On October 19, 1955, the Commission adopted a Report and Order in Docket No. 10962 wherein it amended Part 3, Subpart F of its rules governing International Broadcast Stations. For reasons set forth in that proceeding, to provide a greater frequency flexibility for Government and non-Government International Broadcast Stations, it would appear in the public interest to make the Government band 25.6–25.85 Mc and the non-Government band 25.85–26.1 Mc available to both Government and non-Government International Broadcast Stations.

4. Accordingly, it is proposed to amend Part 2 of the rules to reflect this availability. The proposed amendments are set forth below and are issued pursuant to the authority contained in section 303 (c), (f) and (r) of the Communications Act of 1934, as amended.

5. Any interested person who is of the opinion that the proposed amendment should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before February 10, 1956, written data, views of arguments setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments in reply to the original comments may be filed within 10 days from the last day for filing said original data, views or arguments. No additional comments may be filed unless (1) specifically requested by the Commission or (2) good cause for the filing of such additional comments is established. The Commission will consider all such comments prior to taking final action in this matter, and if comments are submitted warranting oral argument, notice of the time and place of such oral argument will be given.

6. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs or comments filed shall be furnished the Commission.

Adopted: December 21, 1955.

Released: December 28, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WM. P. MASSING,
Acting Secretary.

It is proposed to amend Part 2 of the Commission's rules in the following particulars:

1. Amend § 2.104 (a) (5) by inserting footnote indicator

US • in column 5 for the band 25.33–25.85 Mc and by inserting footnote indicator US •• in column 5 for the band 25.85–26.48 Mc.

Amend § 2.104 (a) (5) by inserting the text of the above footnotes in the list of footnotes following the table, as follows:

US • Frequencies in the band 25.6–25.85 Mc may be authorized for use by non-Government international broadcasting stations.

US •• Frequencies in the band 25.85–26.1 Mc may be authorized for use by Government international broadcasting stations.

•, ••—Footnote numbers to be furnished upon finalization of this proposal.

[F. R. Doc. 55-10588; Filed, Dec. 30, 1955; 8:51 a. m.]

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 270]

CIGARS AND CIGARETTES: MANUFACTURERS, IMPORTERS, AND DEALERS

NOTICE OF PROPOSED RULEMAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

In order to prescribe that packages of imported cigars and cigarettes bear a warning similar to that required on packages of domestic cigars and cigaretts; to prescribe provisions relating to cigars removed from customs bonded

manufacturing warehouses, class 6, for consumption in the United States; and to clarify the provisions relating to the amount of bonds; regulations are hereby amended as follows:

PARAGRAPH 1. Regulations in 26 CFR (1954) Part 270 are amended as follows:

(A) Section 270.122 is amended by striking out, in the first sentence thereof, the words "equal to" and inserting, in lieu thereof, the words "not less than".

(B) Section 270.190 is amended by adding after the word "stamps" at each of the three places that such word appears therein, the expression ", mark,".

(C) Sections 270.192 through 270.195 are renumbered as §§ 270.193 through 270.196, respectively.

(D) Sections 270,196 through 270.198 are renumbered as §§ 270.198 through 270.200, respectively.

(E) A new § 270.192 to read as follows is inserted:

§ 270.192 *Mark.* Every package of cigars and cigarettes subject to tax shall, before removal, have legibly imprinted thereon, or on a label securely affixed thereto, a warning reading "Law forbids the reuse of the Federal stamps hereon and requires the person who empties this package to destroy such stamps when the package is emptied."

(F) A new § 270.197 to read as follows is inserted:

§ 270.197 *Cigars manufactured in customs bonded manufacturing warehouses*—(a) *Regulations applicable.* The manufacture and removal of cigars manufactured in customs bonded manufacturing warehouses, class 6, is governed by customs regulations.

(b) *Tarpayment.* Cigars manufactured in customs bonded manufacturing warehouses, class 6, when removed for consumption in the United States, shall be treated similarly to cigars imported from a foreign country. Proprietors of such warehouses shall use Form 923 in ordering internal revenue stamps to denote payment of tax on such cigars.

[F. R. Doc. 55-10546; Filed, Dec. 30, 1955; 8:47 a. m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 68]

BEANS

UNITED STATES STANDARDS

Notice is hereby given, in accordance with section 4 of the Administrative Procedure Act (5 U. S. C. 1003), that pursuant to the authority contained in sections 203 and 205 of the Agricultural Marketing Act of 1946 (7 U. S. C. 1622 and 1624), as amended, the United States Department of Agriculture is considering the revision of § 68.103 (d) of the United States Standards for beans (7 CFR 68.103 (d)), as recommended by the Lima Bean Advisory Board of the State of California, and essentially as herein proposed.

It is proposed to revise paragraph (d) of § 68.103 to read as follows:

§ 68.103 *Grades, grade requirements, and grade designations.* • • •

(d) *Grades and grade requirements for the class Large Lima Beans and the classes of Miscellaneous Lima Beans (see also paragraph (g) of this section).*

Grade	Maximum limits of—Blistered beans, wrinkled beans, splits, damaged beans, contrasting classes, and foreign material							Classes that blend
	Total	Splits	Damaged beans		Contrasting classes	Foreign material		
			Total	Badly damaged		Total	Stones	
	Percent	*Percent*	*Percent*	*Percent*	*Percent*	*Percent*	*Percent*	*Percent*
U. S. Extra No. 1 [1] [2]	4.0	2.0	1.0	0.2	0.2	0.2	Trace	2.0
U. S. No. 1 [1] [4]	6.0	3.0	2.0	.5	.5	.5	0.2	5.0
U. S. No. 2 [1] [5]	9.0	5.0	3.0	1.0	1.0	1.0	.3	10.0
U. S. Substandard	U. S. Substandard shall include beans of any one of these classes which are not well screened or which otherwise do not come within the requirements of the specifications for the grades U. S. Extra No. 1, U. S. No. 1, U. S. No. 2, or for the grade U. S. Sample grade.							
U. S. Sample Grade	U. S. Sample grade shall include beans of any one of these classes which are musty, or sour, or heating, or materially weathered, or which are weevily, or which have any commercially objectionable odor, or which are otherwise of distinctly low quality.							

[1] The beans in the grades U. S. Extra No. 1, U. S. No. 1, and U. S. No. 2, of any one of these classes shall be well screened.

[2] The beans in the grade U. S. Extra No. 1 of any one of these classes shall be of good natural color, and may contain not more than 17 percent moisture.

[3] The beans in the grade U. S. Extra No. 1 of the class Large Lima beans may contain not more than 20 percent of beans that will pass through a 30/64 sieve, which 20 percent may include not more than 5 percent of beans that will pass through a 28/64 sieve.

[4] The beans in the grade U. S. No. 1 of the class Large Lima beans may contain not more than 25 percent of beans that will pass through a 28/64 sieve, which 25 percent may include not more than 5 percent of beans that will pass through a 24/64 sieve.

[5] The beans in the grades U. S. No. 2 of the class Large Lima beans may contain not more than 40 percent of beans that will pass through a 28/64 sieve, which 40 percent may include not more than 5 percent of beans that will pass through a 24/64 sieve.

Alternatively consideration will be given to: (a) Including in the foregoing the factor "broken beans" in total defects without special limitations on this factor in the separate grades; (b) adding the grade designated U. S. No. 3, with appropriate references to footnotes 1 and 5, and with limits on factors as listed in the respective column headings as follows: Total 15.0; Splits 8.0; Damaged beans—Total 5.0; Badly damaged 2.0; Contrasting classes 2.0; Foreign material—Total 1.5; Stones 0.6; and Classes that blend 15.0; and (c) including the class Baby Lima beans in this proposal, with the same grade specifications except for sizes. If the class Baby Lima beans is not included in the foregoing proposed revised paragraph (d) the grade requirements for this class will not be changed and will be set up in a new subsection designated (e), following which the present paragraphs (e), (f), and (g), will be redesignated (f), (g), and (h), respectively.

An informal hearing will be held in Los Angeles, California, at which interested persons may submit their views and opinions orally or in writing with respect to the proposed revision, and related matters. The time and place of such hearing will be as follows: January 30, 1956 at 10:00 a. m., in Room 229 Federal Building, Los Angeles, California.

Interested persons may also submit written data, views, or arguments to the Director, Grain Division, United States Department of Agriculture, Washington 25, D. C., to be received by him not later than March 1, 1956. Consideration will be given to all information obtained at the hearing, to written data thus presented to the Director, and to all other information available in the United States Department of Agriculture in arriving at a decision with respect to the proposed revision.

Jason E. Barr, Grain Division, Agricultural Marketing Service, is hereby designated to conduct the hearing held pursuant to this notice. In case this designee is unable to conduct this hearing any other officer of the Department designated by the Director, Grain Division, Agricultural Marketing Service, is authorized to conduct such hearing.

Done at Washington, D. C., this 28th day of December 1955.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator.*

[F. R. Doc. 55-10576; Filed, Dec. 30, 1955; 8:48 a. m.]

[7 CFR Part 927]

[Docket No. AO-71-A-30]

HANDLING OF MILK IN NEW YORK METROPOLITAN MILK MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT, AND TO PROPOSED ORDER AMENDING ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), and in accordance with the notice of hearing issued on August 24, 1955 (20 F. R. 6303), a public hearing was conducted at Albany, New York on September 13, 1955 upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area (7 CFR Part 927).

The material issues of record are concerned with:

1. The classification of milk received at plants in the marketing area directly from farms on bulk tank pickup routes; and

2. The application of location differentials to milk on bulk tank pickup routes.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Acting Deputy Administrator, Agricultural Marketing Service, on October 31, 1955 filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision and opportunity to file written exceptions thereto which was published in the FEDERAL REGISTER on November 3, 1955 (20 F. R. 8266).

Rulings. Within the period reserved therefor, interested parties filed exceptions to certain of the findings, conclusions and actions recommended by the Acting Deputy Administrator. In arriving at the findings, conclusions, and regulatory provisions of this decision, each of such exceptions was carefully and fully considered in conjunction with the record evidence pertaining thereto. Certain of the findings and conclusions and the proposed effectuating amendment as set forth in the recommended decision have been revised after consideration of such exceptions.

To the extent that findings, conclusions and actions decided upon herein are at variance with any of the exceptions filed to the recommended decision, such exceptions are overruled. Rulings contained in the recommended decision upon proposed findings and conclusions submitted by interested persons are affirmed except as modified by the findings and conclusions set forth herein.

To the extent that findings and conclusions proposed by interested persons and not ruled upon in the recommended decision are inconsistent with the findings and conclusions contained herein, the specific or implied requests to make such findings and reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions herein set forth.

Findings and conclusions. The findings and conclusions hereinafter set forth are based upon the evidence in the record of the hearing.

Functions, such as the weighing, sampling and testing of producers' milk which take place at a plant when milk is received from producers in cans, are performed by the trucker at the farm when milk is transferred in bulk directly from a farm tank to a tank truck. The proposals considered at this hearing are concerned with specific and immediate problems relative to the classification and pricing of milk received from producers on such bulk tank pickup routes pending the consideration of more comprehensive proposals for classifying and pricing such milk. The amendments set forth herein, therefore, are not expected to provide long run solutions to the problems involved.

Issue No. 1. It is concluded that the order should be amended to provide that milk received at a plant in the marketing area directly from producers by tank truck shall be assigned to Class I-A prior to the assignment to Class I-A of milk from other plants.

Under existing provisions of the order milk received at a plant in the marketing area directly from producers whether in cans or by tank truck is classified at the plant where received in the marketing area. Accordingly, all or a portion of the milk thus received directly from producers at a plant in the marketing area may be classified in classes other than I-A depending upon the quantity of milk classified in such other classes at the plants in the marketing area. On the other hand, if milk is received from producers at a plant outside the marketing area and then shipped as fluid milk to a plant in the marketing area, all of such milk received at the marketing area plant is classified in Class I-A. An advantage thus accrues to an operator of a plant in the marketing area who receives milk by tank truck directly from producers in comparison with another handler whose entire supply of fluid milk is shipped from a plant outside the marketing area. The existence of this advantage constitutes an incentive for the substitution of milk directly from producers by tank truck for milk now received from country plants and constitutes a means of reducing the quantity of milk classified in Class I-A and a consequent reduction in over-all returns to producers.

Only a relatively small volume of milk is at present being received at plants in the marketing area by tank truck directly from producers. During the month of June 1955 milk was received from only 115 producers directly by tank truck at plants in the marketing area. The volume of milk thus received was approximately 4.8 million pounds. During the same month the total quantity of pool milk was 854.6 million pounds and was received from a total of 50,175 producers. The number of producers from which milk was received directly by tank truck at plants in the marketing area increased each month during the first half of 1955, the increase being from 57 in January to 118 in July. Approximately 50 additional producers deliver by tank truck directly to plants located other than in the marketing area or in the location differential area.

Representatives of handlers and producers who testified at the hearing expressed the view that a much more rapid expansion in the volume of milk received by tank truck directly from producers would probably occur under existing provisions of the order. It was proposed at the hearing that all milk received at marketing area plants by tank truck directly from producers be classified as Class I-A on the basis that the proposal contained in the hearing notice, providing for the prior assignment of such milk in Class I-A, did not go far enough in that an opportunity would remain under certain circumstances for the classification of such milk in lower priced classes. It was not demonstrated, however, that such circumstances currently prevailed or that they are in prospect to an extent sufficient to detract materially from the effectiveness of the prior assignment amendment.

Issue No. 2. It is concluded that the order should be amended to provide for the payment of the 20- or 30-cent location differentials on milk shipped directly from the farm to a plant by tank truck only under the following circumstances:

(1) If such milk is delivered from a farm from which milk was delivered to a pool plant in any of the months of August through November 1955, the rate of the location differential should be no higher than the highest rate applicable to milk delivered from the same farm during any of such months; and

(2) If such milk is delivered by a producer from a farm from which no milk was delivered to a pool plant during any of the months of August through November 1955, the location differential payable on such milk should be at the rate of 20 cents if the farm (milk house) from which delivery is made is located in one of the counties in the location differential area and at the rate of 30 cents if delivery is made from a farm located in the marketing area.

This amendment is designed to prevent any significant increase in the number of producers qualifying for the 20- or 30-cent location differentials on milk shipped directly from the farm to a plant by tank truck. Under present order provisions a location differential of 20 cents per hundredweight is payable to producers for milk delivered to plants located at certain specified locations or within the boundaries of specified counties, and a location differential of 30 cents is payable to producers delivering milk directly to plants located within the marketing area. Such differential payments to producers are deducted out of the pool, and handlers are required to pay an additional 5 cents per hundredweight for such location differential milk.

Historically, these location differentials have applied to milk received from producers whose farms are located in or closely surrounding the marketing area or the defined nearby location differential territory. Virtually all of the producers now delivering milk by tank truck directly to plants in the marketing area either formerly delivered in cans to location differential plants or operate farms located in the location differential area. Under existing provisions of the order the bulk tank method of delivery makes it possible for producers now receiving the 20-cent location differential to become eligible for the 30-cent differential and for other producers, irrespective of their farm locations, to become eligible for location differentials at either the 20- or 30-cent rate. Such a development would not only appear to be contrary to the intent and purpose of the location differential provision but would have the effect of reducing the uniform price to all other producers.

Representatives of producers and handlers testified at the hearing that the present location differential provisions as they apply to bulk tank milk constitute an unwarranted and unjustified incentive for the expansion of bulk tank pickup routes, and that the incentive should be eliminated before significant investments are made by producers and handlers in bulk tank operations in anticipation of location

differentials out of the pool. Various proposals were made at the hearing for restricting the payment of location differentials on bulk tank milk. The proposed amendment herein set forth is designed to accomplish the primary purpose of all such proposals, and at the same time avoid the administrative problems involved in ascertaining the delivery practice of individual producers over extended periods.

The recommended decision proposed that producers who during August 1955 qualified for location differentials on milk delivered by tank truck be eligible to receive the highest location differential applicable to milk delivered from the farm of such producer during that month. It was contended that using August 1955 and that month alone as a basing period for such action would be inequitable in that some producers may have, for suitable reasons beyond their control, been off the market during August. Using the months of August through November 1955 as the period when tank truck deliveries from his farm to a pool plant would qualify such a producer for location differentials at the highest rate received during any such month will insure equitable treatment to all producers concerned.

With respect to producers whose farms are located outside the location differential areas the recommended decision provided that such producers not be eligible to qualify for location differentials on milk delivered by tank truck to location differential plants after August 1955. Exception was taken to providing for a cut-off date so far removed from the effective date of the amendment since some producers may have made commitments to changeover to a bulk tank operation prior to the hearing without having such changeover completed by August. In view of this, it is concluded that the period August through November 1955 constitutes a reasonable and practicable time after which producers located outside the location differential area may not qualify for location differentials on milk delivered directly by tank truck to location differential plants.

General findings. (a) The tentative marketing agreement and the order as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The tentative marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Determination of representative period. The month of October 1955 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, now in effect, regulating the handling of milk in the New York metropolitan milk marketing area, in the manner set forth in the attached amending order is approved or favored by producers who, during such period were engaged in the production of milk for sale in the marketing area specified in such marketing area.

Marketing agreement and order as amended. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the New York Metropolitan Milk Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the New York Metropolitan Milk Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered that all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended and proposed to be hereby further amended.

This decision filed at Washington, D. C., this 28th day of December 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the New York Metropolitan Milk Marketing Area

§ 927.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the New York metropolitan milk marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the New York metropolitan milk marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended as follows:

1. Amend § 927.35 (a) by adding the following proviso: "*Provided*, That at a plant in the marketing area milk received directly from producers by tank truck shall be assigned to Class I-A prior to the assignment of milk from other plants to Class I-A."

2. Amend § 927.60 (f) by adding the following: "*Provided*, That with respect to milk received by tank truck directly from a farm from which milk was delivered to a pool plant during any of the months of August through November 1955, such deduction shall be at a rate no higher than the highest rate applicable to milk delivered from the same farm in any of such months: *Provided further*, That with respect to milk received by tank truck directly from a farm from which no milk was delivered to a pool plant during any of the months of August through November 1955, such deduction shall be at the rate of 20 cents per hundredweight if the milk house of such farm is located in one of the counties listed in this paragraph, such deduction shall be at the rate of 30 cents per hundredweight if the milk house of such farm is located in the marketing area, and no deduction shall be made pursuant to this paragraph if the milk house of such farm is not located either in the marketing area or in one of the counties listed in this paragraph: *And provided further*, That for purposes of this paragraph the producer operating a farm shall be considered to have been the producer during any of the months of August through November 1955 if the market administrator determines that milk from such farm was delivered to a pool plant during any of such months regardless of any change in farm operator subsequent to such months."

[F. R. Doc. 55–10580; Filed, Dec. 30, 1955; 8:49 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders, have been met.

[7 CFR Ch. IX]

HANDLING OF MILK IN NEW YORK-NEW JERSEY AREA

NOTICE OF OPPORTUNITY TO SUBMIT PROPOSALS

A statement issued by the Secretary of Agriculture on December 15, 1955, contemplated the scheduling of a public hearing in connection with proposed regulation of the handling of milk in the New York-New Jersey area and invited interested parties to submit proposals for consideration at such hearing.

The full text of the Secretary's statement is as follows:

In contemplation of the scheduling of any public hearing relative to proposed new or revised Federal or joint Federal-State regulation of the handling of milk in the New York-New Jersey area, three public meetings have been held by the Department. Such meetings were in session for a total of 17 days (July 18–22, October 4–7, and November 14–23).

A determination was made on October 21, 1955, that the maximum additional territory (outside the New York marketing area) for which new or revised regulation would be considered at a public hearing is the territory within the New Jersey counties of Bergen, Essex, Hudson, Hunterdon, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Sussex, Union, and Warren; and the New York counties of Dutchess, Orange, Putnam, Rockland, Sullivan, and Ulster.

The question considered at the last public meeting (concluded on November 23) was whether, for purposes of a subsequent notice or notices of hearing, the handling of milk in the additional territory should be regulated (a) in combination with the present New York milk marketing area under a single order, or (b) by means of one or more separate new orders. The information presented at these meetings has been reviewed and analyzed.

I have given very careful consideration to this complicated problem and have concluded that recognition must be given to the following principles in establishing any new or revised regulation for the territory under consideration:

1. The proximity of Northern New Jersey to metropolitan New York and the fact that there is to a considerable degree a common source of supply, make the marketing and pricing of all milk in this region closely interdependent.

2. The apparent desire and determination of certain groups of producers and handlers for one or more separate marketing orders, and the apparent desire and determination of other groups of producers and handlers for a single marketing order for the entire marketing area constitute differences only as to means of accomplishing an objective rather than disagreement regarding the basic objective of providing orderly marketing in the entire area.

3. The legitimate interests and obligations of various producer groups must be recognized and provided for regardless of whether regulation is by one order or more than one order.

4. Among the interests of New Jersey producers is the recognition of any natural economic advantages accruing from nearness to market and any better adjustments they may have made in fitting their pattern of production to market needs. Associated with these interests is the need to assume a responsibility for carrying the surplus connected with the fluid milk supply for Northern New Jersey.

5. Among the interests of producers now under the New York order is the recognition that they should not be required to carry the surplus for Northern New Jersey without the benefits that accrue from sales of fluid milk there, and that they should not be subjected to chaotic marketing conditions which might result from ill-conceived Federal regulation. On the other hand, they have the obligation of supporting the type of additional Federal regulation which would protect the legitimate interests of the additional producers to whom such regulation would apply.

6. Either a comprehensive order or a separate order for New Jersey must be devised so as: (a) To insure that producers under either type of order carry the surplus associated with their fluid outlets, and (b) to achieve the required stability throughout the entire metropolitan milkshed without forcing disorderly and abnormal maneuvering of supplies and outlets.

After establishing the above set of principles, I have decided to invite interested parties to submit proposals containing terms and provisions which are in accordance with such principles and which are in one of the following forms:

(1) A single order covering all of the milk supply for the present Order No. 27 marketing area plus all or a portion of the additional territory under consideration, with adequate provisions (a) for protecting the interests of New Jersey producers because of their location and the degree of adjustments of their production to market outlets, and (b) for solving marketing problems not now adequately handled under Order No. 27.

(2) A separate order for New Jersey, with or without all or a portion of the six nearby New York counties, and which will include terms and provisions under which such order will (a) carry the surplus associated with its fluid outlets, (b) provide for such minimum uniform prices to producers that there will be no incentive for uneconomic and disorderly shifting of producers or plants from one market outlet to another, and (c) provide for close alignment of minimum class prices. Any such proposed order should be accompanied by proposed amendments to Order No. 27 for purposes of making the two orders complementary.

The purpose of the decision today setting forth the principles which should be followed in developing new or revised regulation for the area, rather than to outline the precise form of regulation, should shorten the time required to get the necessary new or revised regulation into effect.

Proposals should be forwarded in quadruplicate to the Dairy Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., to be received there on or before January 16, 1956.

Issued at Washington, D. C., this 27th day of December 1955.

[SEAL] ROY W. LENNARTSON,
Deputy Administrator.

[9 CFR Part 27]

IMPORTED MEAT, MEAT FOOD PRODUCTS, AND MEAT BYPRODUCTS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given in accordance with section 4 (a) of the Administrative Procedure Act (5 U. S. C. 1003 (a)) that the Department of Agriculture is considering amending Section 27.2 of the Federal Meat Inspection Regulations (9 CFR 27.2 as amended) issued under section 306 of the Tariff Act of 1930 (19 U. S. C. 1306) by adding the Republic of Costa Rica to the list of countries specified therein from which certain product (meat, meat food product, and meat byproduct) may be imported into the United States as provided in said regulations.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendment may do so by filing them with the Chief of the Meat Inspection Branch, Agricultural Research Service, U. S. Department of Agriculture, Washington 25, D. C., within thirty days after the date of publication of this notice in the FEDERAL REGISTER.

Done at Washington, D. C., this 28th day of December 1955.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

Commodity Stabilization Service

[7 CFR Part 814]

SUGAR QUOTA FOR THE MAINLAND CANE SUGAR AREA, 1956

HEARING ON PROPOSED ALLOTMENT

Pursuant to the authority contained in the Sugar Act of 1948, as amended (61 Stat. 922, as amended by 65 Stat. 318; 7 U. S. C. 1100), and in accordance with the applicable rules of practice and procedure (7 CFR 801, et. seq.), the Secretary of Agriculture has, after due notice (20 F. R. 7815) and hearing, found that allotment of the 1956 sugar quota for the Mainland Cane Sugar Area is necessary to prevent disorderly marketing and to afford all interested persons an equitable opportunity to market sugar and has established allotments of such quota equal to 80 percent of the 1955 allotments to be in effect until allotments of the 1956 sugar quota for the Mainland Cane Sugar Area are prescribed (20 F. R. 9851).

Notice is hereby given that a public hearing will be held at New Orleans, Louisiana, in the auditorium of the International House, on January 19, 1956, beginning at 10:00 a. m., c. s. t., for the purpose of receiving evidence to enable the Secretary of Agriculture to make a fair, efficient and equitable distribution of the above-mentioned quota for the calendar year 1956 among persons who market sugar processed from sugarcane produced in the Mainland Cane Sugar

Area. It will be appropriate at the hearing to present evidence on the basis of which the Secretary may affirm, modify, or change the finding which has been made with respect to necessity for allotment, and make or withhold allotment of any such quota in accordance therewith.

In addition, the subjects and issues of this hearing also include (1) the manner in which the statutory factors of "processings from proportionate shares," "past marketings," and "Ability to market," as provided in section 205 (a) of the said act, should be measured; and (2) the relative weightings which should be given to those factors.

Notice also is given hereby that it will be appropriate at the hearing to present evidence on the basis of which the Secretary may revise or amend the allotment of the quota or proration thereof for the purposes of (1) allotting any additional quota resulting from proration of area deficits, or allotting any deficit in the allotment for any allottee, and (2) substituting final actual data for estimates of such data wherever estimates are used in the formulation of an allotment of a quota.

Issued this 28th day of December 1955.

[SEAL] TRUE D. MORSE,
Acting Secretary.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

LYNN S. MADSEN

STATEMENTS AS TO APPOINTMENT AND FINANCIAL INTERESTS

On December 7, 1954, the Secretary of the Interior appointed Mr. Lynn S. Madsen, under subsection (a) of section 101 of Executive Order 10182, as amended, as a Foreign Petroleum Analyst, Oil and Gas Division, Office of the Secretary of the Interior. Mr. Madsen's private employer was and is the Arabian American Oil Company with its principal place of business in New York, N. Y.

Mr. Madsen is continuing to work in the same capacity, pending the near completion of the project for which he was employed, but the Oil and Gas Division has been redenominated the Office of Oil and Gas.

This statement is made for publication in the FEDERAL REGISTER pursuant to the requirements of section 304 of Executive Order 10647, "Providing for the Appointment of Certain Persons Under the Defense Production Act of 1950, as amended."

CLARENCE A. DAVIS,
Acting Secretary of the Interior.

DECEMBER 27, 1955.

Statement as to Financial Interests

In accordance with the requirements of section 302 (b) of Executive Order 10647, I am filing the following statement for publication in the FEDERAL REGISTER:

(1) Names of any corporation of which I am, or had been within 60 days preceding my appointment, on December 3, 1954, as Foreign Petroleum Analyst, Oil and Gas Division (now Office of Oil and Gas), an officer or director: None.

(2) Names of any corporations in which I own, or did own within 60 days preceding my appointment, any stocks, bonds, or other financial interests:

Mueller Brass.
Union Electric of Missouri.
Heyden Chemical.
Dow Chemical.
Technicolor.
Sperry Rand.
United States Government Bonds.
Bank deposits: Chase Manhattan of New York; Riggs National of Washington, D. C.

I am on leave of absence with pay from Arabian American Oil Company and, as such, entitled to continue participation in the Company's employee benefit plans including provisions for health insurance, retirement, etc.

(3) Names of any partnerships in which I am associated, or had been associated within 60 days preceding my appointment: None.

(4) Names of any other businesses which I own, or owned within 60 days preceding my appointment: None.

Dated: December 7, 1955.

LYNN S. MADSEN.

[F. R. Doc. 55-10534; Filed, Dec. 28, 1955; 1:20 p. m.]

POSITION SCHEDULE BOND

A position schedule bond, effective January 1, 1956, has been obtained by the Department of the Interior under 6 U. S. C., sec. 14, as amended covering the following positions:

1. Certifying Officers.
2. Imprest Fund Cashiers.
3. Agent Cashiers.
4. Assistant Disbursing Officers.
5. Collection Officers.
6. Property Accountability Officers.
7. Disbursing Agents (Bureau of Indian Affairs).
8. Field Administrators (Bureau of Indian Affairs).
9. Auditors (The Alaska Railroad).
10. Land Title Officers (Bonneville Power Administration).

6 U. S. C., sec. 14, as amended provides in part, "Wherever any civilian officers or employees or military personnel are covered by a bond under this section, the surety or sureties on any existing bond of any such civilian officers or employees or military personnel shall not be liable for any defaults accruing subsequent to the date of the new coverage."

D. OTIS BEASLEY,
Administrative Assistant Secretary.

In re applications of Harold M. Gade, Eatontown, New Jersey, Docket No. 11124, File No. BP–9096; Monmouth County Broadcasters, Long Branch, New Jersey, Docket No. 11125, File No. BP–9231, Herbert Scott and Ralph E. P. Mellon d/b as Long Branch Broadcasting Company, Long Branch, New Jersey, Docket No. 11587, File No. BP–9771; for Construction Permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 21st day of December 1955;

The Commission having under consideration the above-entitled application of Herbert Scott and Ralph E. P. Mellon d/b as Long Branch Broadcasting Company for a construction permit for a new standard broadcast station to operate on 1410 kilocycles with a power of 500 watts, daytime only, at Long Branch, New Jersey;

It appearing that the applicant is legally, technically, financially and otherwise qualified, except as may appear from the issues specified below, to operate the proposed station, but that the proposed operation is mutually exclusive with the above-entitled applications of Harold M. Gade and Monmouth County Broadcasters; that the proposed Long Branch Broadcasting Company operation may involve interference with Station WGTH, Hartford, Connecticut (1410 kc, 5 kw, DA–2, U); and that measurements would be required to prove the 2 mv/m contour of Station WNJR, Newark, New Jersey (1430 kc, 5 kw, DA–N, U) would not overlap with the 25 mv/m contour of the proposed Long Branch Broadcasting Company operation; and

It further appearing that, pursuant to section 309 (b) of the Communications Act of 1934, as amended, Long Branch Broadcasting Company was advised by letters dated June 3 and October 13, 1955, of the aforementioned deficiencies and that the Commission was unable to conclude that a grant of its application would be in the public interest; and

It further appearing that in a reply letter dated November 10, 1955, Long Branch Broadcasting Company requested that its application be designated for hearing with the other competing applications; and

It further appearing that in a reply letter dated June 7, 1955, Station WNJR requested that the subject application be designated for hearing and that it would appear and participate; and

It further appearing that in a reply filed October 31, 1955, WGTH opposed a grant of the proposed Long Branch Broadcasting Company operation on the basis of interference to WGTH; and

It further appearing that the applications of Harold M. Gade and Monmouth County Broadcasters were first scheduled for hearing to begin on February 8, 1955; that the Hearing Examiner has successively postponed the hearing date; and that the hearing is now continued without date; and

It further appearing that the Commission, after consideration of the above replies is of the opinion that a hearing is necessary;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the said application of Long Branch Broadcasting Company is designated for hearing in a consolidated proceeding with the applications of Harold M. Gade (Docket No. 11124, File No. BP–9096) and Monmouth County Broadcasters (Docket No. 11125, File No. BP–9231) at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the station proposed by the Long Branch Broadcasting Company, and the availability of other primary service to such areas and populations.

2. To determine whether the operation of Long Branch Broadcasting Company would involve objectionable interference with Station WGTH, Hartford, Connecticut, or any other existing standard broadcast station, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether the 2 mv/m contour of Station WNJR, Newark, New Jersey, would overlap the 25 mv/m contour of the proposed operation of Long Branch Broadcasting Company in violation of the Commission's Engineering Standards.

4. To determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which, if any, of the above-entitled applications of Harold M. Gade; Monmouth County Broadcasters; and Long Branch Broadcasting Company would provide the most fair, efficient and equitable distribution of radio service.

5. To determine, on a comparative basis, which of the stations proposed in the above-entitled applications of Harold M. Gade; Monmouth County Broadcasters; and Long Branch Broadcasting Company would best serve the public interest, convenience or necessity in the light of the evidence adduced under the foregoing issues and the record made with respect to the significant differences between the applicants as to:

(a) The background and experience of each of the above-named applicants to own and operate the proposed stations.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed stations.

(c) The programming service proposed in each of the above-mentioned applications.

It is further ordered, That the above-described issues Nos. 4 and 5 are made issues in the proceeding in Docket Nos. 11124 and 11125; and

It is further ordered, That the General-Times Television Corporation, licensee of Station WGTH, Hartford, Connecticut, and Rollins Broadcasting,

Inc., licensee of Station WNJR, Newark, New Jersey, are made parties to the proceeding;

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue:

To determine whether funds available to the applicant will give reasonable assurance that the proposal set forth in the application will be effectuated.

Released: December 23, 1955.

FEDERAL COMMUNICATIONS COMMISSION,

[FCC 55-1272]

[Dockets Nos. 11544, 11545]

REVISED TENTATIVE ALLOCATION PLAN FOR CLASS B FM BROADCAST STATIONS

ORDER AMENDING PLAN

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 21st day of December 1955;

The Commission having under consideration proposals to amend its Revised Tentative Allocation Plan for Class B FM Broadcast Stations; and

It appearing that Notices of Proposed Rule Making (FCC 55-1118 and 55-1119) setting forth the above amendments were issued by the Commission on November 10, 1955, and were duly published in the FEDERAL REGISTER (20 F. R. 8527 and 20 F. R. 8504), which notices provided that interested parties might file statements or briefs with respect to the said amendments on or before December 9, 1955; and

It further appearing that in neither case were any comments filed opposing the proposed amendments; and that only two comments were received favoring the proposed amendments, both in connection with the allocation of a channel to Greeneville, Tennessee;

It further appearing that the adoption of the proposed amendments would facilitate consideration of a pending application from Station WLOE-FM, Leaksville, North Carolina, to change its channel assignment from Channel No. 247 to 233 to eliminate television interference caused by its present operations on Channel No. 247, and would facilitate consideration of a pending application filed by Radio Greeneville, Inc., for a new FM broadcast station in Greeneville, Tennessee;

It further appearing that authority for the adoption of the proposed amendments is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r) and 307 (b) of the Communications Act of 1934, as amended,

It is ordered, That effective immediately, the Revised Tentative Allocation Plan for Class B FM Broadcast Stations is amended as follows in respect to the following cities:

General area	Channel No.	
	Delete	Add
Leaksville, N. C.	247	233
Greeneville, Tenn.		235
Greenville, S. C.	235	246
Clemson, S. C.	246	271

Released: December 28, 1955.

[Docket Nos. 11584, 11585]

VIDEO INDEPENDENT THEATRES, INC., AND KICA, INC.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Video Independent Theatres, Inc., Clovis, New Mexico, Docket No. 11584, File No. BPCT-2013; KICA, Inc., Clovis, New Mexico, Docket No. 11585, File No. BPCT-2038; for construction permits for new television broadcast stations.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 21st day of December 1955;

The Commission having under consideration the above-entitled applications, each requesting a construction permit for a new television broadcast station to operate on Channel 12 at Clovis, New Mexico; and

It appearing that the above-entitled applications are mutually exclusive in that operation by more than one applicant would result in mutually destructive interference; and

It further appearing that pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-named applicants were advised by letters of the fact that their applications are mutually exclusive, of the necessity for a hearing thereon, of all objections to their applications, and were given an opportunity to reply; and

It further appearing that upon due consideration of the above applications, the amendments filed thereto, and the replies to the above letters, the Commission finds that under section 309 (b) of the Communications Act a hearing is mandatory; that KICA, Inc., and Video Independent Theatres, Inc., are legally, technically, financially and otherwise qualified to construct, own and operate the proposed television broadcast stations;

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled applications are designated for hearing in a consolidated proceeding at a time and place to be designated in a subsequent order, to determine on a comparative basis which of the proposed operations would better serve the public interest, convenience and necessity in the light of the record made with respect to significant differences between the applicants as to:

(a) The background and experience of each of the above-named applicants having a bearing on its ability to own and operate the proposed television station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-entitled applications.

It is further ordered, That the issues in the above-entitled proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding and upon sufficient allegations of fact in support thereof, by the addition of the following issue:

To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

[Docket No. G-9812]

GULF INTERSTATE GAS CO.

ORDER INSTITUTING INVESTIGATION

Gulf Interstate Gas Company (Gulf Interstate), a Delaware corporation having its principal place of business in Houston, Texas, is engaged in the transportation of natural gas in interstate commerce and, therefore, is a natural-gas company within the meaning of the Natural Gas Act as heretofore found by the Commission by order issued May 20, 1953, in Docket No. G-2058.

Gulf Interstate is a gas transmission company which transports natural gas from Louisiana to Kentucky solely for the United Fuel Gas Company (United Fuel) under a cost of service formula rate. The cost of service and rates based thereon for natural gas sold for resale by United Fuel, subject to the Commission's jurisdiction, are involved in Dockets Nos. G-2451 and G-5475. A substantial element of cost to United Fuel is the amount paid to Gulf Interstate for transportation of gas.

During investigation of United Fuel's costs, questions have arisen regarding certain items of cost included in Gulf Interstate's rates and charges to United Fuel and the classification of such items of cost by accounts. These items of cost involve, among others, the actual legitimate cost of the property of the company, other rate base elements, the return thereon, rates of depreciation, taxes, and operating and maintenance costs.

The rates, charges and classifications for the transportation of natural gas by Gulf Interstate, subject to the jurisdiction of the Commission, and the rules, regulations, practices and contracts relating thereto may be unjust, unreasonable, unduly discriminatory or preferential as a result, among others, of improper classification of cost by accounts, use of improper amounts as the actual legitimate cost of the property of the Company, use of improper or inadequate rates of depreciation, rate of return claimed, or improper charges for taxes or operating and maintenance expenses:

The Commission finds: (1) It is necessary and proper, in the public interest, and to aid in the enforcement of the provisions of the Natural Gas Act, particularly sections 5, 6, 8, 9, 15 and 16, that an investigation be instituted by the Commission on its own motion into and concerning the actual legitimate cost of the property of the Company, the rate or rates of depreciation of such property, the fair rate of return, the classification of costs by accounts, and the integral components of the rates and charges demanded and collected by Gulf Interstate Gas Company for the transportation of natural gas, subject to the jurisdiction of the Commission, and any practices or contracts affecting or relating to such rates or charges.

The Commission orders:

(A) An investigation of Gulf Interstate Gas Company be and it hereby is instituted for the purpose of enabling the Commission (1) to determine the actual legitimate cost of the property of Gulf Interstate Gas Company; (2) to determine the proper and adequate rate or rates of depreciation for such property; (3) to determine the fair rate of return for the Company; (4) to determine the proper account classification of the costs of said Company; (5) to determine with respect to said Company whether in connection with the transportation of natural gas, subject to the jurisdiction of the Commission, any rates or charges demanded or collected or any practices or contracts affecting or relating to such rates or charges are unjust, unreasonable, unduly discriminatory or preferential; and (6) if the Commission shall determine that any or all of the foregoing items have been improperly determined or utilized by Gulf Interstate, to prescribe (a) the actual legitimate cost of the property, (b) the rate or rates of depreciation to be used, (c) the fair rate of return, (d) the account classification for Gulf Interstate's costs, and (e) the basis of the rates or charges to United Fuel Gas Company and any rules, regulations, practices or contracts affecting or relating to such rates or charges to be observed and in force.

(B) Pursuant to the authority contained in sections 5, 6, 8, 9, 15 and 16 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order of the Commission concerning the matters specified in paragraph (A) above.

(C) Interested State commissions may participate as provided by sections 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: December 7, 1955.

Issued: December 27, 1955.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-8514]

PULLMAN OIL & GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 27, 1955.

Take notice that Pullman Oil & Gas Company (Applicant), a West Virginia corporation whose address is Harrisville, West Virginia, filed on February 24, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant produces gas from certain lands in Ritchie County, West Virginia, which it proposes to sell to Carnegie Natural Gas Company for transportation in interstate commerce for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on February 1, 1956 at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before January 17, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 55-10533; Filed, Dec. 30, 1955; 8:45 a. m.]

INTERSTATE COMMERCE COMMISSION

[Sec. 5a Application 59]

JAMESTOWN AREA FURNITURE HAULERS ASSN., INC.

APPLICATION FOR APPROVAL OF AGREEMENT

DECEMBER 28, 1955.

The Commission is in receipt of the above-entitled and numbered application for approval of an agreement under the provisions of section 5a of the Interstate Commerce Act.

Filed December 20, 1955 by: Kenneth T. Johnson, Attorney, Bank of Jamestown Building, Jamestown, N. Y.

Agreement involved: An agreement between and among motor common carriers members of the Jamestown Area Furniture Haulers Association, Inc., relating to rates, exceptions to classifications, ratings, rules, regulations or practices applicable to the transportation in interstate or foreign commerce of new furniture between points in Chautauqua and Cattaraugus Counties, N. Y., and Warren County, Pa. on the one hand and, on the other, points in the United States, and procedures for the joint initiation, consideration, and establishment thereof.

The complete application may be inspected at the office of the Commission in Washington, D. C.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 20 days from the date of this notice. As provided by the general rules of practice of the Commission, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing.

By the Commission, Division 2.

[SEAL] HAROLD D. MCCOY,
Secretary.

DEPARTMENT OF DEFENSE

Office of the Secretary of the Air Force

INFORMATION AS TO APPOINTMENTS AND FINANCIAL INTERESTS OF EMPLOYEES

DECEMBER 26, 1955.

The information required by section 302 (a) and 302 (b) of Executive Order 10647 is attached for each of the four employees of the Department of the Air Force who were appointed under Executive Order 10182.

DONALD A. QUARLES,
Secretary of the Air Force.

JOHN W. MCEACHREN

INFORMATION REQUIRED BY SECTION 302 (a)

(1) John W. McEachren.
(2) Office, Secretary of the Air Force.
(3) Consultant: WOC.
(4) Partner: Touche, Niven, Bailey & Smart.

A. Y. KENT,
Chief, Staff Civilian Personnel Division, Office, Secretary of the Air Force.

The following information is supplied for the purpose of compliance under the President's Executive Order 10647:

(1) None.
(2) Thomas Industries, Inc.; Scudder, Stevens & Clark Stock Fund.
(3) Touche, Niven, Bailey & Smart.
(4) None.

Dated: December 22, 1955.

JOHN W. MCEACHREN.

HERMAN W. BEVIS

INFORMATION REQUIRED BY SECTION 302 (a)

(1) Herman W. Bevis.
(2) Office, Secretary of the Air Force.
(3) Consultant: WOC.
(4) Partner: Price Waterhouse & Co.

A. Y. KENT,
Chief, Staff Civilian Personnel Division, Office, Secretary of the Air Force.

With respect to Executive Order 10647, I wish to advise you as follows:

The only organization of the type described in the Executive Order in which I now, on September 30, 1955, or within the sixty days preceding that date held a financial interest of any kind was in the accounting firm (partnership) of Price Waterhouse & Co.

Dated: December 21, 1955.

HERMAN W. BEVIS.

ROBERT M. TRUEBLOOD

INFORMATION REQUIRED BY SECTION 302 (a)

(1) Robert M. Trueblood.
(2) Office, Secretary of the Air Force.
(3) Consultant: WOC.
(4) Partner: Touche, Niven, Bailey & Smart.

A. Y. KENT,
Chief, Staff Civilian Personnel Division, Office, Secretary of the Air Staff.

The following information is supplied for the purpose of compliance under the President's Executive Order 10647:

(1) None.
(2) Thomas Industries, Inc.
(3) Touche, Niven, Bailey & Smart.
(4) None.

Dated: December 20, 1955.

ROBERT M. TRUEBLOOD.

JOHN B. INGLIS

INFORMATION REQUIRED BY SECTION 302 (a)

(1) John B. Inglis.
(2) Office, Secretary of the Air Force.
(3) Consultant; WOC.
(4) Partner: Price Waterhouse & Co.; Stagg, Mather & Hough.

A. Y. KENT,
Chief, Staff Civilian Personnel Division, Office, Secretary of the Air Staff.

With respect to Executive Order 10647, I wish to advise you as follows:

On September 30, 1955, or within 60 days preceding that date, I owned common stocks in the following corporations: Continental Oil Company, Fibre Products Company, Hercules Motor Company, Kennecott Copper Company, Missouri Public Service, Ohio Oil Company, Philco Corporation, Phillips Petroleum Company, Southern Pacific Company, Texas Company, Weyerhauser Company.

On September 30, 1955, or within 60 days preceding that date, I was, and still am, a partner in the following partnerships: Price Waterhouse Co.; Stagg, Mather & Hough.

Dated: December 22, 1955.

JOHN B. INGLIS.

WILLIAM J. RUSHTON

STATEMENT OF FINANCIAL INTERESTS

The following statement of financial interests is submitted in accordance with the requirements of section 302 (b) of Executive Order 10647 dated 28 November 1955:

(1) The following is a list of all the corporations of which I am now or have been within sixty days an officer or director:

Protective Life Insurance Company; President.

First National Bank of Birmingham; Director.

Gulf, Mobile and Ohio Railroad Co.; Director.

Alabama Power Company; Director.

Moore-Handley Hardware Co.; Director.

Birmingham Ice & Cold Storage Co.; Secretary and Director.

I own stock in each of the foregoing corporations and, in addition thereto, I own stock in the Coca-Cola Bottling Company, The Chattanooga Coca-Cola Bottling Company, Darlington-Hartsville Coca-Cola Bottling Company, and Coca-Cola Bottling Company of Lake Charles, Louisiana.

(2) I am not now and have not been within sixty days past a member of any partnership.

(3) I do not own, in its entirety, any business nor have I owned any business within the past sixty days.

The foregoing statement is true and accurate to the best of my knowledge and belief. If there be any omission or oversights, they are too minor in character for me to recall at the moment.

Dated: December 16, 1955.

OFFICE OF DEFENSE MOBILIZATION

JERROLD R. ZACHARIAS

EMPLOYMENT WITHOUT COMPENSATION AND STATEMENT OF BUSINESS INTERESTS

Pursuant to section 710 (b) of the Defense Production Act of 1950 as amended, notice is hereby given of the appointment of Mr. Jerrold R. Zacharias, Professor of Physics, Massachusetts Institute of Technology, Cambridge, Massachusetts, as a Consultant, with the Science Advisory Committee, Office of Defense Mobilization. This appointment was made under section 101 (a) of Executive Order 10182, on October 1, 1952.

Mr. Zacharias' statement of his business interests is set forth below.

Dated: December 27, 1955.

ARTHUR S. FLEMMING,
Director,
Office of Defense Mobilization.

Appointee's Statement of Business Interests

The following statement lists the names of concerns required by subsection 710 (b) (6) of the Defense Production Act of 1950, as amended.

Member of Board of Directors and stockholder of National Company, Inc., Malden, Massachusetts, and Hycon Eastern Inc., Cambridge, Massachusetts.

Dated: December 12, 1955.

Signed: JERROLD R. ZACHARIAS.

[F. R. Doc. 55-10474; Filed, Dec. 28, 1955; 1:42 p. m.]

JAMES E. NOE

EMPLOYMENT WITHOUT COMPENSATION AND STATEMENT OF BUSINESS INTERESTS

Pursuant to section 710 (b) of the Defense Production Act of 1950 as amended, notice is hereby given of the appointment of Mr. James E. Noe, International Representative, International Brotherhood of Electrical Workers, American Federation of Labor, Washington, D. C., as a Consultant, with the Assistant Director for Production, Office of Defense Mobilization. This appointment was made under section 101 (a) of Executive Order 10182, on May 17, 1955.

Mr. Noe's statement of his business interests is set forth below.

Dated: December 27, 1955.

ARTHUR S. FLEMMING,
Director,
Office of Defense Mobilization.

Appointee's Statement of Business Interests

The following statement lists the names of concerns required by subsection 710 (b) (6) of the Defense Production Act of 1950, as amended.

As of December 1, 1955, I owned stocks in the following named corporations: Baska Uranium Mines, Canada Southern Petroleum, Cenco Corp., Mullins Mfg. Corp., Opemiska Copper, Quebec Metalurgical, Rio Palmer Oils Ltd., Stone and Webster Inc.

I own a one-half interest in a tract of real estate, located in Jefferson County, Kentucky in partnership with Edward G. Hack of Louisville, Ky.

I have a financial interest, secured by personal notes from Richard McCormick of Vienna, Va., in a cacao bean development in the Republic of Haiti.

Outside of some first and second trust real estate notes the above represents, to the best of my knowledge, all of my business interests.

Dated: December 10, 1955.

Signed: JAMES E. NOE.

SECURITIES AND EXCHANGE COMMISSION

[File No. 59-72]

COLUMBIA GAS SYSTEM, INC., AND SUBSIDIARIES

NOTICE OF MOTION AND NOTICE OF AND ORDER RECONVENING HEARING TO DETERMINE RETAINABILITY OF CERTAIN SUBSIDIARY COMPANIES

DECEMBER 27, 1955.

The above-entitled proceedings were instituted by the Commission on May 2, 1944 with respect to The Columbia Gas System, Inc. ("Columbia"), a registered holding company formerly known as Columbia Gas & Electric Corporation, and its subsidiary companies, pursuant to section 11 (b) of the Public Utility Holding Company Act of 1935 ("act"). Following the holding of a public hearing the Commission, on November 30, 1944, entered an order which, among other things, directed Columbia to sever its relationship with certain named companies and which reserved jurisdiction with respect to the retainability by Columbia of other named subsidiaries.

Notice is hereby given that Columbia has filed with the Commission a motion requesting that the Commission:

(a) Release the jurisdiction reserved in the order dated November 30, 1944, with respect to the retainability of Columbia's subsidiaries which were not held retainable in 1944; and

(b) Find and determine that the properties and operations of such subsidiary companies, as they exist today, together with the properties and operations of the subsidiary companies which the Commission determined in 1944 were retainable constitute one or more integrated systems of gas utility companies, together with businesses reasonably incidental, or economically necessary or appropriate to the operation of such system or systems, and are retainable by Columbia under section 11 (b) (1) of the act.

I. *Background.* On May 2, 1944 (Holding Company Act Release No. 5024), the Commission instituted the above-entitled proceedings, pursuant to sections 11 (b) (1) and 11 (b) (2) of the act, stating that it tentatively appeared Columbia's holding company system was not confined in its operations to those of a single integrated public-utility system together with additional systems and other businesses retainable under section 11 (b) (1) of the act, that the corporate structure of the system was unduly complicated, and that the voting power of the system was unfairly distributed. Columbia was ordered to file an answer and a hearing was called for the purpose of affording respondents and other interested persons an opportunity to present evidence with respect to the issues raised which are summarized below:

(a) Whether the electric utility assets of Columbia's subsidiaries named as having electric utility assets constituted more than a single integrated public-utility system;

(b) Whether the non-utility operations of those named companies as specified in (a) above were reasonably incidental to the operations of any single integrated public-utility system which the electric utility assets may have constituted;

(c) Whether the gas utility assets used for distribution at retail of Columbia's subsidiaries named as having such assets constituted more than a single integrated public-utility system and additional systems which might be retained by Columbia;

(d) Whether the non-utility businesses of those named subsidiaries as specified in (c) above were reasonably incidental to the operations of any single integrated public-utility system or additional systems;

(e) Whether under sections 11 (b) (1) (A), (B) and (C) of the act Columbia could retain any single integrated public-utility system, additional systems or incidental businesses referred to in (a) and (b) above together with any single integrated public-utility system, additional systems and incidental businesses referred to in (c) and (d) above;

(f) Generally what action was necessary to limit the operations of Columbia's holding company system to a single integrated public-utility system and such additional systems or other businesses as were retainable under section 11 (b) (1) of the act;

(g) What steps were necessary to insure that the corporate structure of Columbia's system would not be unnecessarily complicated or voting power unfairly distributed.

On August 3, 1944, during the course of the hearing, the President of Columbia sent a letter to the Commission outlining a proposed procedure which had as its purpose the shortening of the time which would be involved in the hearing. The letter stated that under the proposed procedure the Commission would be requested to make tentative findings in substance as follows:

A. That section 11 (b) (1) of the act required Columbia to sever its relationship with certain specified companies including the combined gas and electric companies serving the cities of Cincinnati and Dayton, Ohio;

B. That the gas production, transmission, and distribution properties and operations of, and the other businesses conducted by, certain specified companies constituted properties and operations of one or more integrated public-utility systems and businesses reasonably incidental or economically necessary or appropriate to the operation of such system or systems, control of which could be retained by Columbia.

The letter further proposed that the tentative findings would not deal with questions presented by Columbia's retention of ten other subsidiary companies ("the reserved companies") but that the Commission would expressly reserve jurisdiction to determine at a later date whether such companies could be retained by Columbia.

On August 10, 1944, the Commission issued its Memorandum Opinion and Statement of Tentative Conclusions, in substantial conformity with the request of Columbia. (See 16 S. E. C. 401.) Thereafter, the hearing was reconvened after due notice to all interested persons. No one appeared in opposition to the tentative findings of the Commission and the record was closed.

On November 30, 1944, the Commission issued its Findings and Opinion and Order in which the Commission ordered Columbia to sever its relationship with certain companies of which divestiture was required. (See 17 S. E. C. 494 and Holding Company Act Release No. 5455.) Jurisdiction was reserved with respect to the retainability by Columbia of its interest in the reserved companies. The Commission also held that 20 other companies and all their properties and operations were retainable by Columbia. Of these 20 companies, 3 were engaged in oil production, having contractual oil rights in most of the gas acreage drilled by companies in the Columbia system. One was the system service company. The remaining 16 companies, constituting the so-called Columbus, Charleston and Pittsburgh groups, were engaged in the production, transmission, storage, and wholesale and retail distribution of natural gas, some companies combining all these activities, some less than all. Their properties and operations, which were fully interconnected, covered an area extending into the States of Ohio, Pennsylvania, West Virginia, Maryland and Kentucky. The Pennsylvania properties, although chiefly in the western part of the State, included transmission lines running eastward across southern Pennsylvania to points near Philadelphia.

In its November 30, 1944 Opinion, the Commission stated, among other things:

"• • • that the distribution operations of the Charleston, Pittsburgh and Columbus groups are retainable by Columbia Gas under the standards of section 11 (b) (1) (A), (B) and (C) of the act, and that the production and transmission properties owned and operated by the companies within each group bear such a relationship to the distribution facilities as to permit their retention as businesses reasonably incidental, or economically necessary or appropriate to the conduct of the distribution operations."[9]

• • • • •

[9] In view of these findings, we have not deemed it necessary to consider whether the several distribution properties could be found to constitute a single "integrated public-utility system" within the meaning of section 2 (a) (29) (B) of the act, or whether the production and transmission properties could be found to constitute a part of such a system.

Columbia has fully complied with the Commission's 1944 order, having disposed of its interests in all of the companies of which divestiture was required. Of the ten reserved companies, three no longer exist; a fourth, Big Marsh Oil Company, a gas producing company whose wells are now connected with the properties of one of the companies heretofore found retainable, is operated as a part of such company. The remaining six are Atlantic Seaboard Corporation and Home Gas Company, both non-utility transmission companies, and Amere Gas Utilities Company, Virginia Gas Distribution Corporation, The Keystone Gas Company, Inc., and Binghamton Gas Works, all public-utility gas distribution companies.

II. *The Present Columbia System.* The files of the Commission indicate that the present Columbia system is an interconnected natural gas system composed of the parent corporation, Columbia, 14 operating subsidiaries and a subsidiary service company. The operating subsidiaries are engaged in the production, purchase, storage, transmission and distribution of natural gas. Certain subsidiaries produce and sell gasoline and other hydro-carbons and one subsidiary produces and sells oil. Retail natural gas operations are conducted in the States of Ohio, Pennsylvania, West Virginia, Kentucky, New York, Maryland and Virginia. In addition, the system has extensive wholesale operations and sells natural gas to associated and non-associated public-utility companies and municipalities for resale to their customers. The principal communities served at retail are Columbus, Lorain, Toledo and Springfield, Ohio; Pittsburgh (part only) and New Castle, Pennsylvania; Charleston, Huntington and Wheeling, West Virginia; Binghamton, New York; Cumberland, Maryland; and Lexington and Frankfort, Kentucky. Among the principal communities served at wholesale are Cincinnati, Dayton, Lima and Portsmouth, Ohio; Baltimore, Maryland; Richmond, Norfolk, Portsmouth and Roanoke, Virginia; Allentown, Bethlehem, Reading and Harrisburg, Pennsylvania; Nyack and Poughkeepsie, New York; and Washington, D. C. In the aggregate, the utility companies and municipalities which purchase gas at wholesale from the Columbia system serve approximately 1,530,000 customers. The system served at retail approximately 1,253,000 customers as at December 31, 1954.

The operating subsidiaries are segregated into four groups for administrative purposes. Their activities are described below:

1. *Columbus Group.* The Ohio Fuel Gas Company produces, purchases, stores, transports and distributes natural gas at retail in Ohio and sells natural gas at wholesale to non-associated companies.

2. *Pittsburgh Group.* The Manufacturers Light and Heat Company ("Manufacturers") produces, purchases, stores, transports and distributes natural gas at retail in Pennsylvania, West Virginia and Ohio and sells natural gas at wholesale to non-associated and associated companies.

Natural Gas Company of West Virginia produces, purchases, stores, transports and distributes natural gas at retail in Ohio.

Cumberland and Allegheny Gas Company ("Cumberland and Allegheny") produces, purchases, transports and distributes natural gas at retail in Maryland and West Virginia.

Home Gas Company ("Home") operates a transmission system extending across the southern part of New York State, through which is transported natural gas purchased from an associated company and which is sold at wholesale to associated and non-associated companies operating in New York. It also operates storage facilities in New York.

Binghamton Gas Works ("Binghamton") and The Keystone Gas Company Inc. ("Keystone"), purchase natural gas from Home which they distribute at retail in New York.

3. *Charleston Group.* United Fuel Gas Company ("United Fuel") produces, purchases, stores, transports and distributes natural gas at retail in West Virginia and Kentucky and operates minor distribution facilities in Ohio. It also sells natural gas at wholesale to associated and non-associated companies. United Fuel is the principal gas producing company of the system.

Amere Gas Utilities Company ("Amere") distributes natural gas at retail in West Virginia and sells a relatively small volume of gas at wholesale to one non-associated company.

Virginia Gas Distribution Corporation ("Virginia Distribution") distributes natural gas at retail in Virginia.

Central Kentucky Natural Gas Company purchases, stores, transports and distributes natural gas at retail in Kentucky and sells at wholesale to non-associated companies.

Big Marsh Oil Company ("Big Marsh") produces natural gas in West Virginia and sells it to United Fuel.

Atlantic Seaboard Corporation ("Seaboard") operates a transmission system through which natural gas is transported across Kentucky, West Virginia, Virginia and Maryland. Gas is sold at wholesale to non-associated companies for distribution in Washington, D. C.; Baltimore, Maryland; Richmond, Virginia, and other eastern communities. Gas is also sold to Manufacturers and to Cumberland and Allegheny in the Pittsburgh Group and to Amere and Virginia Distribution in the Charleston Group.

4. *Oil Group.* The Preston Oil Company produces oil which it sells to non-associated companies.

Except in the cases of Cumberland and Allegheny and Big Marsh, Columbia owns all of the outstanding securities of its subsidiaries. Cumberland and Allegheny has outstanding with the public certain non-interest bearing purchase money obligations in the principal amount of $833,000, and 27.5 percent of the capital stock of Big Marsh is publicly held.

Set forth as Appendix "A" [1] is a corporate chart of the Columbia system showing the parent, the service company, the four operating groups with the individual companies making up each group, and the type of business of each company in the system.

[1] Filed as part of original document.

Set forth as Appendix "B" is a map which shows the approximate retail service areas of the Columbia system companies, the major transmission lines of the system, and the lines of non-associated pipe line companies in the area. The transmission lines of Seaboard and Home are identified on the map by appropriate legend.

Seaboard, Amere, and Virginia Distribution will hereinafter be referred to collectively as the "Seaboard Companies" and Home, Keystone, and Binghamton as the "New York Companies". Jurisdiction as to retention of all these companies was reserved in 1944. In 1954 the Seaboard and New York Companies accounted for approximately 39.6 percent of the system's wholesale gas sales, 6.2 percent of its retail sales, and approximately 20 percent of its total gas sales.

Columbia asserts that the companies found retainable in 1944 are today engaged in rendering substantially the same kind of service in the same general areas in which such service was rendered in 1944. It further asserts that in 1948 Manufacturers constructed a north-south transmission line in eastern Pennsylvania between Coatesville, Pennsylvania, and Port Jervis, New York, thus connecting the easternmost point of Manufacturers' transmission line in southern Pennsylvania, found retainable in 1944, with the Home transmission line in New York State as to which jurisdiction was reserved. The north-south line renders wholesale service to, among others, nonassociated companies serving Bethlehem, Allentown and Easton, Pennsylvania.

The following table compares the extent of the Columbia system's wholesale and retail sales and revenues at two-year intervals from 1944 through 1954.

TABLE I

	1944	1946	1948	1950	1952	1954
Mcf sales:	*Percent*	*Percent*	*Percent*	*Percent*	*Percent*	*Percent*
Wholesale sales	24.4	26.6	28.9	32.4	37.5	41.5
Retail sales	75.6	73.4	71.1	67.6	62.5	58.5
Total sales	100.0	100.0	100.0	100.0	100.0	100.0
Revenues:						
Wholesale revenues	18.0	19.3	19.9	22.7	29.2	32.3
Retail revenues	82.0	80.7	80.1	77.3	70.8	67.7
Total revenues	100.0	100.0	100.0	100.0	100.0	100.0

The following table compares the 1944 and 1954 sales and revenues, showing the total increases during the ten-year period.

TABLE II

	1944	1954	Increase	
				Percent
MMcf sales:				
Wholesale sales	41,480	201,857	160,377	386.6
Retail sales	128,520	284,975	156,455	121.7
Total sales	170,000	486,832	316,832	186.4
Revenues:				
Wholesale revenues	$14,580,000	$83,200,000	$68,620,000	470.6
Retail revenues	66,420,000	170,259,000	103,839,000	156.3
Total revenues	81,000,000	253,459,000	172,459,000	212.9

The New York Companies. The retail distribution properties of Binghamton and Keystone are located along the gas transmission line of Home. Home receives its supplies of natural gas, both at its west end and near its east end, from Manufacturers, and through Manufacturers draws on the resources of Columbia's pooled gas supply. The properties of Keystone in and around Olean, New York, are approximately 10 miles from distribution properties of Manufacturers located in northern Pennsylvania. The properties of Keystone and Binghamton in Binghamton, Johnson City, Endicott and Delaware County, New York, are farther east, but are closely clustered along the east-west Home transmission line running through the "southern tier" counties of New York State.

Home owns and operates a gas transmission line located in New York State which extends approximately 250 miles eastward from Olean, New York through the "southern tier" counties to Nyack, New York, paralleling the Pennsylvania State line. The line connects at its west end, near Olean, with a transmsision line of Manufacturers and also connects at Port Jervis, New York, in the east, with the Coatesville-Port Jervis line of Manufacturers.

Home has gas storage fields at points along or closely adjacent to its line. It supplies all of the gas requirements of Binghamton and Keystone and sells gas to non-associated public utility companies. During the year 1954, Home sold to Binghamton and Keystone a total of 8,672,652 Mcf, or approximately 60 percent of its total sales. It sold 5,664,940 Mcf, or approximately 40 percent of its total sales to non-associated public utility companies. Its net plant at December 31, 1954, was stated at $12,690,000. For the calendar year 1954 Home reported earnings approximating 6½ percent of its total average invested capital during that year.

Columbia alleges that the New York companies are related to the gas utility companies found retainable in 1944 in view of the functional and operating relationships which exist between such companies; that the gas supply of the New York distribution companies is obtained from Home at a cost which reflects the benefits to be derived from coordinated operations, including Columbia's pooled gas supply and its storage facilities; that the system gas supply is adequate to supply the needs of the New York companies; that construction by the New York companies is financed by Columbia at a cost which is more reasonable than would be the case if these companies were required to finance themselves; that retention of the New York gas utility companies would not materially increase the size of Columbia's retainable utility system or systems, since the combined net utility plant of Keystone and Binghamton, aggregating approximately $7,267,000 at December 31, 1954, represented only about 1.5 percent of the system net utility plant heretofore found retainable and which aggregated $480,055,000 at the same date; that the New York distribution companies are subject to regulation by the New York Public Service Commission and that all of the Columbia subsidiaries which are engaged in the interstate transportation or sale of natural gas, including Home, are regulated by the Federal Power Commission.

The Seaboard Companies. The retail distribution properties of Amere and Virginia Distribution are located along the Seaboard 20-inch transmission line which extends east and northeast from Boldman, Kentucky to the Pennsylvania-Maryland border. The principal retail distribution operations of Amere are located in and around Beckley, West Virginia, which is approximately 30 miles from the retainable retail distribution operations of United Fuel. All of Amere's retail distribution operations are in West Virginia, and none is more than 75 miles from the retainable distribution facilities of United Fuel.

Virginia Distribution sells natural gas at retail in a number of small communities located along the Seaboard 20-inch transmission line in Virginia, the closest of which is approximately 20 miles east of the nearest properties of Amere. All of the towns served are within 20 miles of the Seaboard properties. The properties of Virginia Distribution roughly parallel the retainable retail distribution properties of Cumberland and Allegheny in Maryland and West Virginia and none of Virginia Distribution's properties is more than 80 miles from retail distribution properties of other companies held retainable in 1944.

Seaboard owns and operates two high pressure gas transmission lines. One of these is a 20-inch line constructed in 1931 extending 420 miles from Boldman, Kentucky, eastward across West Virginia, Virginia, and Maryland to the Pennsylvania boundary where it connects with the southern Pennsylvania transmission line of Manufacturers held retainable in 1944. The other Seaboard line is a 26-inch line constructed in 1949 extending 260 miles from United Fuel's Cobb compressor station near Charleston, West Virginia, eastward across West Virginia and Virginia to a connection with the 20-inch Seaboard line near Washington, D. C. Seaboard makes wholesale sales to Amere and Virginia

Distribution and to nonassociated companies serving Washington, Baltimore, the Virginia tide-water area, and other cities and communities.

The following table shows the quantities of gas sold by Seaboard in 1953 and 1954 to nonassociated companies and to associated companies for system use. The sales to associated companies are divided as between those made to companies found to be retainable in 1944 and those over which jurisdiction as to retainability was reserved.

TABLE III

Sales to—	1953		1954	
	MMcf	*Percent*	*MMcf*	*Percent*
Nonassociated companies	61,453	81.90	73,961	84.06
Associates found retainable	6,430	8.57	6,264	7.12
Associates—reserved	7,150	9.53	7,764	8.82
	75,033	100.00	87,989	100.00

Columbia contends that, apart from the actual sales of gas in the ordinary course of business by Seaboard to associated gas utility companies, Seaboard has in the past and stands ready in the future to provide additional gas to the system in the event of an emergency.

Seaboard purchases all of its gas from United Fuel, one of the companies found retainable in 1944. Net plant of Seaboard at December 31, 1954, was stated at $52,993,000. For the calendar year 1954 Seaboard reported earnings, including net contingent earnings, approximating 5.4 percent of its total average invested capital during that year, and approximating 5 percent, excluding net contingent earnings. Contingent earnings are defined as those which result from the collection of higher rates under bond pending determination of the rate to be allowed by the regulatory body having jurisdiction.

Columbia alleges that the Seaboard companies are related to the gas utility companies found retainable in 1944 in view of the functional and operating relationships which exist between such companies; that there is physical interconnection of the properties by means of which Seaboard is able to purchase all of its gas requirements from United Fuel and supply all of the gas requirements of Virginia Distribution and most of the gas requirements of Amere; that in 1954 Seaboard furnished approximately 4 percent of the gas supply of Manufacturers and about 5 percent of the requirements of Cumberland and Allegheny; that Amere and Virginia Distribution participate in the system's pooled gas supply and benefit from system storage facilities and other coordinated operations; that the Seaboard companies' construction requirements are financed by Columbia at a cost which is more reasonable than the cost would be if these companies were required to finance themselves; that retention of Amere and Virginia Distribution would not substantially increase the size of the public utility system or systems found retainable by Columbia, since the combined net utility plant of Amere and Virginia Distribution, aggregating approximately $6,963,000 at December 31, 1954, represented only 1.4 percent of the system net utility plant heretofore found retainable; that Amere is subject to regulation by the West Virginia Public Service Commission and Virginia Distribution is subject to regulation by the Virginia State Corporation Commission; and that United Fuel, Seaboard and Amere are regulated by the Federal Power Commission.

Big Marsh Oil Company. In 1944, the four natural gas wells of Big Marsh, because of their location, were shut in and not interconnected with any Columbia system properties. Columbia alleges that since 1944 other producing gas wells have been discovered in the same area; that it has become economically feasible to install gathering lines to the Big Marsh wells and the other wells in that area; and that the production properties of Big Marsh are now operated in the same manner as are all other Columbia system producing gas wells.

III. *Columbia's contentions as to retainability of the reserved companies.* In support of its motion Columbia contends that the Seaboard and New York companies have had and now have a close operating and functional relationship with the companies which the Commission in 1944 determined were retainable by Columbia and are largely dependent on them for their gas supply; that in the context of the natural gas industry as it existed in 1944, in which local production of gas close to market was predominant and long-distance transmission the exception, the Seaboard and New York companies possibly presented some unusual questions under section 11 of the act thus accounting for the suggestion by Columbia that the Commission reserve jurisdiction in its November 30, 1944, order over the retainability by Columbia of the Seaboard and New York companies; that the section 11 questions related to the Seaboard and New York companies which may have seemed unusual in the context of the natural gas industry in 1944 have been basically altered by the tremendous increase in size and scope and the basic changes in character of operations of the industry; that the necessity for the Columbia system to meet increased winter peaks coupled with the system's necessity of obtaining large volumes of gas from distant southwest areas has greatly increased the necessity for underground storage reservoirs located close to Columbia's service areas in which gas can be stored during the summer months (using the long-distance southwest pipelines at a high annual load factor) and from which reservoirs the gas can be withdrawn as required to meet winter peaks; that since 1944 the properties and operations of the Seaboard and New York companies and of the remainder of the Columbia system have been altered in such manner as to make them continually more interrelated and coordinated in operation; that the net plant, property and equipment of the system has increased during the ten-year period from approximately $192,000,000 in 1944 to approximately $561,000,000 in 1954; that the net plant, property and equipment of the Seaboard and New York companies has increased from approximately $14,768,000 in 1944 to approximately $79,913,000 in 1954; that Columbia's construction program has been planned to meet the coordinated requirements of the system as a whole in which the requirements of the Seaboard and New York companies have been an integral part; and that under existing conditions the properties of the Seaboard and New York companies are clearly retainable by Columbia under the standards of section 11 (b) (1) of the act.

IV. *Procedure.* In view of the aforesaid motion filed by Columbia and to assist the Commission in resolving the issues which remain unresolved as a result of the reservation of jurisdiction in the order of November 30, 1944, the Commission deems it appropriate that the hearing in this matter be reconvened for the purpose of adducing evidence to enable the Commission to determine whether the holding company system of Columbia as presently constituted is confined in its operations to those of a single integrated public-utility system, within the meaning of the act, or to those of a single integrated public-utility system together with such additional integrated public-utility systems as meet the requirements of section 11 (b) (1) (A) (B) (C) and such other businesses as can be retained under the standards of section 11 (b) (1).

It is ordered, That the hearing in the above-entitled matter be reconvened on the 30th day of January 1956 at 10 a. m. at the office of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. On said date the Hearing Room Clerk in Room 193 will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in the reconvened hearing should file with the Secretary of the Commission on or before January 23, 1956, a request relative thereto as provided in Rule XVII of the Commission's Rules of Practice.

It is further ordered, That James G. Ewell or any other officer of the Commission designated by it for that purpose shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a hearing officer under the Commission's rules of practice.

The Division of Corporate Regulation having advised the Commission that it has made a preliminary examination of the motion filed by Columbia and its brief in support thereof and that it has made a further examination of the relationships among the companies in the Columbia holding company system and the properties owned or controlled by Columbia and its subsidiaries and on the basis thereof the following matters and questions are presented for consideration without prejudice, however, to the presentation of additional matters and questions upon further examination:

(1) Whether the New York and Seaboard subsidiaries which distribute natural gas at retail constitute, together with the gas utility companies found retainable in 1944, a single integrated public-utility system and, specifically, what

economies, if any, are effectuated by the coordinated operation as a single system of all the subsidiaries of Columbia which distribute natural gas at retail;

(2) If all of the subsidiaries of Columbia which distribute natural gas at retail do not constitute a single integrated public-utility system, whether the New York and Seaboard subsidiaries which distribute natural gas at retail are a part of any single integrated public-utility system controlled by Columbia or constitute systems additional to any single integrated public-utility system controlled by Columbia and whether as additional systems they may be retained by Columbia under section 11 (b) (1) of the act;

(3) If the New York and Seaboard subsidiaries which distribute natural gas at retail constitute part or parts of any additional integrated public-utility system or systems held retainable by Columbia in 1944, what economies, if any, are effectuated by the coordinated operation of such additional single system or systems;

(4) If the New York and Seaboard subsidiaries which distribute natural gas at retail constitute additional integrated public-utility systems, what economies, if any, would be lost if control of such additional systems were not retained by Columbia;

(5) If all of the subsidiaries of Columbia which distribute natural gas at retail constitute a single integrated public-utility system, whether the nonutility businesses and operations of the New York and Seaboard companies and Big Marsh are reasonably incidental or economically necessary or appropriate to the operation of such system and whether their retention would not be detrimental to the proper functioning of such system;

(6) If all of the subsidiaries of Columbia which distribute natural gas at retail constitute more than a single integrated public-utility system, whether the non-utility businesses and operations of the New York and Seaboard companies and Big Marsh are reasonably incidental and economically necessary or appropriate to the operation of any single integrated public-utility system or retainable additional systems and whether their retention would not be detrimental to the proper functioning of any such system or systems;

(7) Whether it would be appropriate in the public interest and in the interest of investors and consumers to grant, in whole or in part, the aforesaid motion filed by Columbia;

(8) Generally, what properties and companies now controlled by Columbia with respect to the retainability of which the Commission reserved jurisdiction in the aforesaid order of November 30, 1944, may be retained by Columbia under the applicable standards of section 11 (b) (1) of the act.

It is further ordered, That at such reconvened hearing particular attention be directed to the foregoing matters and questions.

It is further ordered, That the Secretary of the Commission shall serve notice of the reconvened hearing by mailing a copy of this Notice and Order by registered mail to Columbia, the Federal Power Commission, the Ohio Public Utilities Commission, the West Virginia Public Service Commission, the Virginia State Corporation Commission, the Maryland Public Service Commission, the District of Columbia Public Utilities Commission, the Pennsylvania Public Utility Commission, the New York Public Service Commission, the Kentucky Public Service Commission, the Washington Gas Light Company, the Baltimore Gas and Electric Company, the Commonwealth Natural Gas Corporation, the Central Hudson Gas & Electric Corporation, the Rockland Light and Power Company, and the mayors of the following cities: Columbus, Lorain, Toledo, Springfield, Cincinnati, Lima and Dayton, Ohio; Pittsburgh and New Castle, Pennsylvania; Charleston, Huntington and Wheeling, West Virginia; Frankfort, Covington, Lexington and Ashland, Kentucky; Binghamton, Olean, Poughkeepsie and Nyack, New York; Staunton, Richmond, Portsmouth, Norfolk and Roanoke, Virginia; and Cumberland, Hagerstown and Baltimore, Maryland; that notice is hereby given of said reconvened hearing to all companies hereinabove mentioned by name and to all other persons including the security holders of Columbia, all state municipalities and political subdivisions of states within which are located any of the physical assets of the Columbia system, all State Securities Commissions and all agencies, authorities or instrumentalities of one or more states, municipalities or other political subdivisions having jurisdiction over Columbia or its subsidiaries or any of the businesses, affairs or operations of any of them; that notice of such reconvened hearing shall be given further by a general release of the Commission, distributed to the press and mailed to the mailing list of the Commission for releases issued under the Act; and that further notice be given to all persons by publication of this Notice and Order in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3429]

WHEELING ELECTRIC CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE REGARDING ISSUANCE AND SALE OF NOT IN EXCESS OF $7,000,000 OF BANK LOAN NOTES

DECEMBER 27, 1955.

Wheeling Electric Company ("Wheeling"), a public utility subsidiary of American Gas and Electric Company, a registered holding company, has filed a declaration, pursuant to sections 6 (a) and 7 of the Public Utility Holding Company Act of 1935 ("act"), regarding the following proposed transactions:

Wheeling proposes, pursuant to a bank loan agreement dated as of December 1, 1955, to borrow, from time to time prior to December 31, 1956, from the following banks, not in excess of the amounts set forth below:

Mellon National Bank & Trust Co., Pittsburgh, Pa.	$3,000,000
Bankers Trust Co., New York, N. Y.	1,000,000
The First National City Bank of New York	1,000,000
Guaranty Trust Co. of New York	1,000,000
Manufacturers Trust Co., New York, N. Y.	1,000,000
Total	7,000,000

Each borrowing will be evidenced by a promissory note maturing December 1, 1965, and bearing interest at the prime commercial loan rate of the particular bank in effect from time to time, plus ¼ of 1 percent, but the interest rate shall at no time exceed 3¾ percent or be less than 2¾ percent per annum. In addition, Wheeling will pay substitute interest at the rate of ¼ of 1 percent per annum on the daily average unused amount of the commitment of each bank from December 1, 1955, through December 31, 1956.

The notes may be prepaid at any time without penalty unless prepayment is made from the proceeds of, or in anticipation of, bank borrowings at a rate of interest equal to or less than the applicable rate on the notes to be prepaid. In such latter event, with certain exceptions, a prepayment premium shall be payable computed at the rate of ¼ of 1 percent per annum of the amount prepaid, from the date of prepayment to and including December 1, 1965.

The proceeds from the borrowings are to be used to prepay all bank loan notes outstanding at the date of the proposed initial borrowings, and to pay in part for the construction of additional facilities, the cost of which is estimated at $2,900,000 for the last half of 1955 and for the year 1956.

The bank loan agreement provides, among other things, that Wheeling will not create or permit any mortgage on its property or incur any indebtedness for borrowed money if the total principal amount of all indebtedness to be outstanding shall exceed the lesser of (a) 62½ percent of the company's capitalization, or (b) $12,000,000. The agreement also provides that the company upon specified notice may terminate, or from time to time reduce, the commitments of the banks.

The issuance and sale of the proposed bank loan notes in the aggregate amount of $7,000,000 have been authorized by the Public Utilities Commission of Ohio, in which State a portion of Wheeling's operations is conducted.

Notice of the filing of the declaration having been duly given in the manner prescribed by Rule U-23 under the act, and no hearing having been requested of, or ordered by, the Commission; and

The Commission observing no basis for adverse findings, and finding that the applicable provisions of the Act and the Rules thereunder are satisfied, and it appearing that the fees and expenses to be incurred, consisting of legal fees of not to exceed $1,200, payable $1,000 to Simpson, Thacher & Bartlett and $200 to Pomerene, Burns & Milligan, and of miscellaneous expenses of $100, are not

unreasonable, and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that the declaration be permitted to become effective forthwith;

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the Act, that the declaration be, and it hereby is, permitted to become effective forthwith, subject to the conditions prescribed in Rule U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 55-10596; Filed, Dec. 30, 1955; 8:53 a. m.]

[File No. 812-979]

DAVENPORT INVESTMENT FUND, INC.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION OF CLOSED-END INVESTMENT COMPANY

DECEMBER 27, 1955.

Notice is hereby given that Davenport Investment Fund, Inc. ("Davenport"), a corporation organized under the laws of the State of Rhode Island, has filed an application pursuant to section 6 (d) of the Investment Company Act of 1940 ("act"), and Rule N-6D-1 thereunder, for an order of the Commission exempting it from the provisions of the act. Davenport has agreed that it will accept and be subject to any specified provisions of the act if the Commission deems it necessary or appropriate in the public interest or for the protection of investors that it should be so subject.

Davenport is a closed-end non-diversified management investment company as defined in the act and was organized on November 29, 1955. Its authorized capital consists of 100,000 shares of $1 par value common stock. The company proposes to offer such shares to residents of the State of Rhode Island at an aggregate public offering price not to exceed $100,000.

Davenport proposes to invest the larger percentage of its capital in common stocks of various corporations, while a smaller percentage will be invested in preferred stocks and corporate bonds. It will not issue senior securities, nor underwrite the securities of other issuers, nor purchase and sell real estate, commodities or commodity contracts, nor make loans to other persons.

Section 6 (d) of the act provides in substance that the Commission by order upon application shall exempt a closed-end investment company from any or all provisions of the act, but subject to such terms and conditions as may be necessary or appropriate in the public interest or for the protection of investors, if the aggregate sums received from the sale of all its securities, outstanding and proposed to be offered, do not exceed $100,000 and if the sale of its securities is restricted to the residents of the state of its organization.

Section 6 (e) of the act provides that if, in connection with any provisions of section 7, the Commission deems it necessary or appropriate in the public interest or for the protection of investors that certain specified provisions of the act pertaining to registered investment companies shall be applicable in respect of such company, the provisions so specified shall apply to such company, and to other persons in their transactions and relations with such company, as though such company were a registered investment company.

The Division of Corporate Regulation has recommended that exemption be granted from the following provisions of the act and the respective Rules and Regulations promulgated under each of such provisions:

Section 7; section 8 (b), except the requirement to file the information required by Items 3, 4, and 5 of Form N-8B-1 and to report to the Commission any changes thereafter in respect thereof; section 10 (b) (1), but only for a period of 60 days following issuance of the Commission's order herein; section 14; section 20 (a); section 23 (c); section 24 (d) insofar as such section makes inapplicable the provisions of section 3 (a) (11) of the Securities Act of 1933 to any securities of a registered investment company; section 30 (a); section 30 (b), except that Davenport shall, pursuant to section 30 (b) (2), file with the Commission copies of all reports sent to stockholders pursuant to section 30 (d) which reports to stockholders shall be accompanied by a certificate of independent public accountants pursuant to section 30 (e); section 30 (f), to the extent that the subject persons shall not be required to file reports more than once each six months; and section 32 (a): *Provided*, That the applicant shall continue to comply with the provisions of sections 6 (d) (1) and 6 (d) (2) of the act and shall at all times maintain its classification as a closed-end company as defined in section 5 (a) (2) of the act.

Notice is further given that any interested person may, not later than January 10, 1956, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing hereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

CORNELIS GERHARD CAREL SCHÜTTE AND ANNA SCHÜTTE DIEPENHORST

AMENDED NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Whereas, a Notice of Intention to Return Vested Property was published in the FEDERAL REGISTER on July 8, 1955 (20 F. R. 4884) with respect to the return to D. C. Schütte the sum of $4,236.67 in the Treasury of the United States;

Whereas, information was subsequently received to the effect that D. C. Schütte died in The Netherlands on April 29, 1950, leaving as his heirs Cornelis Gerhard Carel Schütte and Anna Schütte Diepenhorst;

Whereas, the aforesaid heirs have been substituted as claimants in this matter;

Now, therefore, pursuant to section 32 of the Trading with the Enemy Act, as amended, said Notice of Intention to Return Vested Property is hereby amended by deleting under "Claimant" the name D. C. Schütte and under "Property and Location" $4,236.67 in the Treasury of the United States and substituting therefor the following:

Claimant, Property and Location

Cornelis Gerhard Carel Schütte, Zeist, The Netherlands; Anna Schütte Diepenhorst, Epe, The Netherlands, Claim No. 41848; Vesting Order No. 248; $4,236.67 in the Treasury of the United States to the claimants in equal shares.

Executed at Washington, D. C., on December 21, 1955.

For the Attorney General.

[SEAL] PAUL V. MYRON,
Deputy Director,
Office of Alien Property.
